**Strategic Export Controls: Country
Pivot Report**

1st July 2013 - 30th September
2013

JULY 2018

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st July 2013 and 30th September 2013. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3323	3278	39	6
- Permanent Standard	2777	2736	36	5
- Temporary Standard	172	172	0	0
- Transhipment	2	2	0	0
- Incorporation	371	367	3	1
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	1	0	0
SITCLs	27	26	1	0
OIELs	76	72	4	0
- Standard	64	60	4	0
- Dealer-to-dealer	5	5	0	0
- Cryptographic	4	4	0	0
- Media	2	2	0	0
- Continental Shelf	1	1	0	0
Global Project Licences	0	0	0	0
OITCLs	8	6	2	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st July 2013 to 30th September 2013

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3403	83	4044	98	13 days
- Permanent Standard	2898	82	3449	98	13 days
- Temporary Standard	162	81	199	100	12 days
- Transhipment	6	67	8	89	15 days
- Incorporation	336	87	387	100	13 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	100	1	100	11 days
SITCLs	26	59	42	95	18 days
OIELs	28	27	60	58	47 days
- Standard	21	24	46	52	57 days
- Dealer-to-dealer	4	67	6	100	17 days
- Cryptographic	2	33	6	100	23 days
- Media	1	50	2	100	32 days
- Continental Shelf	0	0	0	0	92 days
Global Project Licences	0	0	0	0	181 days
OITCLs	3	30	5	50	59 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	41	0	1
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	7	0	0
EU GEA 003 (EU003) - export after repair/replacement	6	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	10	0	0

UK Continental Shelf Open Individual Export Licences (OIELs)

UK Continental Shelf OIELs authorises the export of controlled items for use exclusively in offshore installations and associated vessels within the UK sector of the continental shelf.

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries EXCEPT THE FOLLOWING: United Kingdom
1	devices for initiating explosives, explosives, non-military detonators, non-military firing sets, shaped charges

Afghanistan

Processing Statistics (excluding amendments)

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	67% (4)
% and number of SIELs completed in 60 working days	83% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£80,742
Non-military	3	£204,653
Total	4	£285,395

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£80,742

military improvised explosive device detection equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£119,962
5A002	2	£84,680
5D002	1	£11

cryptographic software.
equipment employing cryptography (2 licences).
improvised explosive device activation/jamming equipment.

Country Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals designated under UN Security Council Resolution 2082. All exports for this destination were approved in accordance with the sanctions in place.

Criteria	Number of times the Criteria were used
1	1

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

military helmets.

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

components for equipment employing cryptography.
imaging cameras.

Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.
All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	37	£2,035,848
Non-military	21	£654,025
Total	58	£2,689,873

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£45,294
ML5	1	£11,540
ML7	1	£16,613
ML9	4	£481,683
ML10	23	£1,026,561
ML11	5	£450,336
ML21	2	£3,540
ML22	2	£282

components for combat aircraft (7 licences).
 components for combat helicopters (3 licences).
 components for combat naval vessels.
 components for decoying/countermeasure equipment.
 components for military communications equipment (3 licences).
 components for military helicopters.
 components for military support aircraft (6 licences).
 components for military training aircraft (6 licences).
 components for naval communications equipment.
 components for NBC protective/defensive equipment.
 components for submarines (2 licences).
 components for targeting equipment.
 general military aircraft components.
 launching/handling/control equipment for munitions (2 licences).
 military communications equipment (3 licences).
 military guidance/navigation equipment.
 naval communications equipment.
 NBC protective/defensive equipment.
 software for military communications equipment.
 software for military guidance/navigation equipment.
 technology for decoying/countermeasure equipment.
 technology for military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for academic research purposes.
3. Licence granted for civilian / commercial end use. End use country is a State Party to the CWC.
4. Licence granted for cryptographic equipment. For commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	8	£447,794
Total	8	£447,794

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	4	£343,062
5A002	1	£7,632
6A001	2	£34,840
6A003	1	£62,260

T corrosion resistant chemical manufacturing equipment (4 licences).
 equipment employing cryptography.
 imaging cameras.
 towed hydrophone arrays (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography [See footnote 1]

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities. The embargo was most recently renewed through UNSCR 2078 (2012), and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£21,535
Non-military	5	£80,462
Total	7	£101,997

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£20,000
ML10	1	£1,535

T general military aircraft components [See footnote 1].
military support vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£66,850
5A002	2	£1,084
6A003	1	£12,206
End Use	1	£322

accessories for machine tools [See footnote 4].
corrosion resistant chemical manufacturing equipment [See footnote 4].
equipment employing cryptography (2 licences) [See footnote 6].
imaging cameras [See footnote 4].

Revoked

	Count
Military	4
Total	4

The SIELs revoked were no longer granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	2
ML6	2

components for machine guns (2 licences) [See footnote 2].
ground vehicle military communications equipment (2 licences) [See footnote 2].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	inertial equipment
2	P	components for military aircraft ground equipment, components for military communications equipment, components for military electronic equipment, components for military helicopters, equipment for the use of military helicopters, military aircraft ground equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helicopters [See footnotes 3, 5]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military electronic equipment, components for military support aircraft, general military aircraft components, military electronic equipment
2	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
3	P	components for electronic warfare equipment, components for military aircraft ground equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, electronic warfare equipment, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, signalling devices, software for electronic warfare equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, technology for electronic warfare equipment, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for signalling devices

sniper rifles.
weapon sights.

Case & goods Footnotes

1. Licence granted for end use by the Air Force.
2. Licence has been revoked due to a change in circumstances in Egypt after the licence was issued. The licence is no longer consistent with the Consolidated Criteria.
3. Licence granted for parts, components, ground support equipment, tooling and technological documentation, purely to provide Aircraft On Ground (AOG) cover should a helicopter carrying passengers need to make an emergency landing en route to its final destination in Saudi Arabia.
4. Licence granted for civilian / commercial end use.
5. Licence granted for accessories / spare parts for armed forces end use.
6. Licence granted for cryptographic equipment. For commercial end use.

Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. The adoption of UNSCR 1929 on 9 June 2010 established a UN embargo on the supply of conventional weapons to Iran, in addition to restrictions introduced under the original UNSCR 1737 of 23 December 2006, which restricted any equipment that could contribute to the nuclear capability of Iran. The consolidated Regulation 267/2012 includes amendments to UNSCR 2010/413/CFSP that embargo equipment for the petrochemical industry, trade in precious and raw metals, diamonds, Iranian banknotes and coinage to the Central Bank of Iran, naval equipment and technology for ship-building, and on certain software for integrating industrial processes. There is currently one exemption to the arms embargo, for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

EU counter-proliferation sanctions currently in force are set out in Council Decision 2010/413/CFSP, as amended. This Decision embargoes the supply of arms and equipment that could contribute to the nuclear capability of Iran, nearly all Dual-Use equipment and equipment for certain sectors of the oil and natural gas industries.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Total	67	£15,921,148

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£7,400,686
ML5	4	£144,000
ML6	1	£230
ML10	49	£5,723,453
ML11	3	£2,423,509
ML16	9	£29,269
ML22	5	£0
PL5017	1	£200,000

- components for combat aircraft (15 licences).
- components for combat helicopters (5 licences) [See footnote 2].
- components for launching/handling/control equipment for missiles.
- components for military aero-engines (5 licences).
- components for military airborne equipment.
- components for military electronic equipment.
- components for military helicopters (13 licences).
- components for military radars (4 licences) [See footnote 1].
- components for military support aircraft (2 licences).
- components for military training aircraft (7 licences).
- equipment for the use of air-to-surface missiles.
- Rv general military vehicle components.
- inert air-to-surface missiles.
- military aero-engines.
- military airborne equipment.
- military guidance/navigation equipment.
- simulators for air-to-surface missiles.
- technology for combat aircraft (2 licences).
- technology for unfinished products for combat aircraft (3 licences).
- training air-to-surface missiles.
- unfinished products for combat aircraft (6 licences).
- unfinished products for launching/handling/control equipment for missiles.
- unfinished products for military helicopters.
- unfinished products for military support aircraft.

Rv - Some or all of which have subsequently been revoked.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
Australia

United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military helicopters, general military aircraft components
2	T	aerial target equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for military training aircraft, components for military training equipment, electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of aircraft military communications equipment, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic warfare equipment, equipment for the use of military training equipment, general military aircraft components, military training aircraft, military training equipment, technology for aerial target equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for electronic warfare equipment, technology for equipment for the use of aerial target equipment, technology for equipment for the use of aircraft military communications equipment, technology for equipment for the use of attack alerting/warning equipment, technology for equipment for the use of electronic warfare equipment, technology for military training aircraft, technology for military training equipment
3	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smoothbore weapons, components for sniper rifles, components for sporting guns, heavy machine guns, machine guns, pistols, rifles, small arms ammunition, smoothbore weapons, sniper rifles, sporting guns, weapon sight mounts, weapon sights
4	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military containers, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military containers, military parametric technical databases, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles

5	P	weapon sights
6	P	artillery ammunition, components for artillery, components for combat naval vessels, components for decoying/countermeasure equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for military electronic equipment, components for military guidance/navigation equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval gun installations/mountings, components for naval guns, components for NBC detection equipment, components for weapon control equipment, decoying/countermeasure equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, military communications equipment, military electronic equipment, military guidance/navigation equipment, military radars, naval communications equipment, naval electrical/electronic equipment, signalling devices, smoke canisters, smoke/pyrotechnic ammunition, technology for artillery, technology for combat naval vessels, technology for decoying/countermeasure equipment, technology for general naval vessel components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for naval communications equipment, technology for naval electrical/electronic equipment, technology for naval engines, technology for naval gun installations/mountings, technology for naval guns, technology for NBC detection equipment, technology for signalling devices, technology for smoke canisters, technology for weapon control equipment, training artillery ammunition, weapon control equipment
7	P	weapon sights
8	P	components for equipment for the production of military aero-engines, components for equipment for the use of military aero-engines, components for military aero-engines, components for test equipment for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, military containers, software for military aero-engines, technology for military aero-engines, technology for software for military aero-engines, test equipment for military aero-engines, unfinished products for military aero-engines
9	P	components for air-to-surface missiles, components for military electronic equipment, components for test equipment for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the production of training air-to-surface missiles, equipment for the use of air-to-surface missiles, military electronic equipment, technology for air-to-surface missiles, test equipment for air-to-surface missiles, unfinished products for air-to-surface missiles
10	T	towed hydrophone arrays
11	P	neutron generators
12	P	components for military aircraft ground equipment, components for military communications equipment, components for military electronic equipment, components for military helicopters, equipment for the use of military helicopters, military aircraft ground equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helicopters [See footnotes 3, 4]

Case & goods Footnotes

1. Licence granted for end use by the Air Force.
2. Licence granted for government end use.
3. Licence granted for parts, components, ground support equipment, tooling and technological documentation, purely to provide Aircraft On Ground (AOG) cover should a helicopter carrying passengers need to make an emergency landing en route to its final destination in Saudi Arabia.
4. Licence granted for accessories / spare parts for armed forces end use.

Ivory Coast

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£8,112
Both Military and Non-military	1	£39,720
Total	3	£47,832

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£8,112

equipment employing cryptography (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£28,920
PL8001	1	£10,800

bomb suits.
improvised explosive device disposal equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography [See footnote 1]
2	T	towed hydrophone arrays

Country Footnotes

1. UN Security Council resolution 1572 of 15 November 2004 established an embargo on the supply of arms and related material to the Ivory Coast. The embargo was amended by Resolutions 1946 (2010) and 2045 (2012), and was most recently renewed through UNSCR 2101 (2013).

EU Restrictions currently in force with respect to the Ivory Coast are set out in Council Decision 2010/656/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for civilian / commercial end use.

 T weapon night sights.
 T weapon sights.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	2	£1,266,500
Total	2	£1,266,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for

these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£1,266,500

small arms ammunition (2 licences).

Country Footnotes

- UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Total	10	£540,757

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML17	1	£124,000

goods treated for signature suppression for military use.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C352	2	£20
2B350	1	£107,320
5A002	4	£160,365
5D002	1	£1,800
8A001	1	£147,252

animal pathogens (2 licences).
corrosion resistant chemical manufacturing equipment.
cryptographic software.
equipment employing cryptography (4 licences).
submersible vehicles.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cryptographic software, equipment employing cryptography, software for equipment employing cryptography, technology for equipment employing cryptography [See footnote 1]
2	P	components for military electronic equipment, components for military support aircraft, general military aircraft components, military electronic equipment
3	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
4	T	towed hydrophone arrays

Case & goods Footnotes

Country Footnotes

1. On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

Case & goods Footnotes

1. Licence granted for personal end use.
2. Licence granted for civilian / commercial end use.
3. Licence granted for demonstration to potential customers. Civilian / commercial end use.
4. Licence granted for cryptographic equipment. For commercial end use.

Case & goods Footnotes

1. Licence granted for testing and evaluation by a Government / military end user.
2. Licence granted for naval end use.
3. Licence granted for end use by the Air Force.
4. Licence granted for armed forces end use.
5. Licence granted for personal end use.
6. Licence granted for government end use.
7. Licence granted for parts, components, ground support equipment, tooling and technological documentation, purely to provide Aircraft On Ground (AOG) cover should a helicopter carrying passengers need to make an emergency landing en route to its final destination in Saudi Arabia.
8. Licence granted for the treatment of animals. Civilian / commercial end use.
9. Licence granted for civilian / commercial end use.
10. Licence granted for academic research purposes.
11. Licence granted for accessories / spare parts for armed forces end use.
12. Licence granted for explosive detection / disposal purposes. For Government end use.
13. Licence granted for demonstration to potential customers. Armed Forces are the potential end users.
14. Licence granted for cryptographic equipment. For commercial end use.

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All exports for this destination were approved in accordance with the sanctions in place.

 gun mountings.
 military combat vehicles.
 military helmets (2 licences).

Country Footnotes

- UN Security Council Resolution 2093 (2013) continues the embargo on the supply of arms and related material. However, the embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

The EU first enforced UN sanctions in December 2002 via Council Decision 147/2003. The scope of the EU regulations has subsequently been amended as a result of the modifications to the UN sanctions.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£1,274,388
Non-military	5	£2,053,485
Total	13	£3,327,873

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£712,650
ML10	4	£350,066
ML11	1	£191,840
ML16	1	£19,831

components for military training aircraft (3 licences).
 components for surface-to-surface missiles (2 licences).
 general military aircraft components.
 military guidance/navigation equipment.
 unfinished products for military training aircraft [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£453
2B350	4	£2,053,032

corrosion resistant chemical manufacturing equipment (4 licences).
metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Colombia
Peru
Spain
Turkey

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, technology for information security equipment [See footnote 2]
2	P	components for military electronic equipment, components for military support aircraft, general military aircraft components, military electronic equipment
3	P	information security equipment [See footnote 2]
4	P	components for equipment for the use of military aero-engines, components for military aero-engines, components for test equipment for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, military containers, software for military aero-engines, technology for military aero-engines, technology for software for military aero-engines, test equipment for military aero-engines
5	T	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment
6	P	components for military training aircraft, equipment for the production of military training aircraft, equipment for the use of military training aircraft, unfinished products for military training aircraft
7	P	software enabling equipment to function as military communications equipment, technology for software enabling equipment to function as military communications equipment

Case & goods Footnotes

1. Licence granted for end use by the Air Force.
2. Licence granted for civilian / commercial end use.

South Sudan

ML6	1	£58,850

components for military support vehicles.
military support vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5D002	2	£75

software for equipment employing cryptography (2 licences).

Country Footnotes

1. UN Security Council Resolution 1556 (2004) embargoed the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoes the provision of arms and related material to Sudan and South Sudan. Exemption exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment for UN, AU or EU crisis management and institution building programmes, demining equipment, supply of equipment in support of the implementation of the Comprehensive Peace Agreement, and non-lethal equipment intended solely for the support of the process of Security Sector Reform in South Sudan.

All exports for this destination were approved in accordance with the sanctions in place.

all-wheel drive vehicles with ballistic protection.

Country Footnotes

- On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed, for a period of 12 months, the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

All exports for this destination were approved in accordance with the sanctions in place.

7A003	1	£5,000

8A002	1	£35,520
End Use	8	£41,083

- accessories for materials analysis equipment (2 licences) [See footnote 8].
- ceramic-ceramic composite materials.
- chemicals used for pharmaceutical/healthcare production.
- T civil explosive detection/identification equipment.
- civil NBC protection equipment (2 licences) [See footnotes 4, 6].
- civil riot control agent protection equipment [See footnote 4].
- components for equipment employing cryptography [See footnote 10].
- corrosion resistant chemical manufacturing equipment (4 licences).
- cryptographic software (3 licences) [See footnote 10].
- T cryptographic software.
- direct view imaging equipment (2 licences) [See footnotes 4, 6].
- T equipment employing cryptography (10 licences) [See footnotes 10, 6].
- equipment employing cryptography (4 licences).
- equipment for the use of temperature measurement equipment.
- gas processing equipment [See footnote 8].
- general laboratory equipment [See footnote 8].
- imaging cameras [See footnote 8].
- inertial equipment.
- T laser radar equipment (2 licences).
- T radio jamming equipment (2 licences).
- rebreathing swimming equipment [See footnote 5].
- software for cryptographic software [See footnote 10].
- software for equipment employing cryptography (5 licences) [See footnotes 10, 6, 8].
- T software for equipment employing cryptography.
- T software for radio jamming equipment (2 licences).
- technology for equipment employing cryptography (3 licences) [See footnotes 10, 6].
- temperature measurement equipment.
- test equipment for pressure monitoring equipment.
- underwater telecommunications systems.
- valves.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£6,356
ML7	1	£3,770

- civil NBC protection equipment [See footnote 1].
- NBC protective/defensive equipment [See footnote 1].

Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry

Uzbekistan

Processing Statistics (excluding amendments)

Median processing time SIELs	17 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£8,792
Total	1	£8,792

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£8,792

sporting guns (10) [See footnote 1].

Case & goods Footnotes

1. Licence granted for personal end use.

Venezuela

Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	90 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	3	£143,686
Total	3	£143,686

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£87,016
5D002	1	£56,670

cryptographic software.
equipment employing cryptography (2 licences).

5A002	1	£1,699
5D002	1	£1,362

cryptographic software.
equipment employing cryptography.

Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.
