

Bristol Futures Academy - Impact Assessment

We have looked at 5 pupil referral units (PRUs) within a 15 mile radius of the site of Bristol Futures Academy. There are 2 units that are within 1.5 miles of the free school, Bristol Hospital Education Service and The Meriton Education and Support for Young Parents. Both PRUs provide specialist provision catering for pupils with medical needs and support for young parents; therefore we consider that Bristol Futures will have a minimal impact on these PRUs. We also consider Bristol Futures will have a minimal impact on the remaining 3 schools, which either have a broader age range, provide specialist provision that is different to Bristol Futures or the distance from the provision to the free schools is greater than 1.5 miles.
