

Canary Wharf College 3 - Impact Assessment

School name	Distance from free school	Attainment 2014	Attainment 2015	VA score 2015	Most recent Ofsted inspection rating	Impact Assessment
Type	Capacity	National Average 57%	National Average 57%		Date of inspection	
Faith	Total surplus (point of entry surplus) [at May 2015]					
George Green's School Voluntary Controlled School Non-faith	0.9 miles 1261 places 157 places (-7 places)	43% Significantly below the 60% LA average	49% Significantly below the 65% LA average	1003.6	Good March 2013	<p style="text-align: center;">Moderate</p> <p>Canary Wharf College 3 could have moderate impact on the financial viability of George Green's School, which is currently significantly below the LA's average performance. However the -7 surplus places at the entry point indicates that this is still a popular choice for local residents.</p> <p>Canary Wharf College 3 is not likely to affect the long term viability of the school given the expected shortfall of places by September 2019, the small initial PANs for the school and the high basic need in neighbouring Lewisham</p>
Bacon's College Academy Sponsor Led Non-faith	0.9 miles 1200 places 145 places (3 places)	59% Below the 60% LA average	60% Below the 65% LA average	1002.1	Good March 2013	<p style="text-align: center;">Moderate</p> <p>Canary Wharf College 3 could have moderate impact on the financial viability of Bacon's College, which currently has below average performance. However given that there are only 3 surplus places at the entry point, this school still appears to be a popular choice for local residents.</p> <p>Canary Wharf College 3 is not likely to affect the long term viability of the school given the expected shortfall of places by September 2019, the small initial PANs for the school and the high basic need in neighbouring Lewisham</p>

Type	Capacity	National Average 57%	National Average 57%		Date of inspection	
Faith	Total surplus (point of entry surplus) [at May 2015]					
Deptford Green School Community School Non-faith	1.3 miles 1243 places 423 places (22 places)	40% Significantly below the 60% LA average	46% Significantly below the 65% LA average	1001.6	Requires Improvement July 2014	<p style="text-align: center;">Moderate</p> Canary Wharf College 3 could have moderate impact on the financial viability of Deptford Green School, which is currently significantly below the LA's average performance. Given its poor performance and 'requires improvement' Ofsted inspection in 2014, parents have already started to consider alternative schools, evidenced by the 22 place surplus in the current year 7 and 423 places surplus overall.
Addey and Stanhope School Voluntary Aided School Non-faith	720 places 30 places (1 place) 1.4 miles	62% Above the 60% LA average	47% Significantly below the 65% LA average	943.3	Good March 2012	<p style="text-align: center;">Minimal</p> Canary Wharf College 3 is likely to have minimal impact on the financial viability of Addey and Stanhope School given the lack of surplus places at the entry point. This indicates that this is still likely to be a popular choice for local residents – any impact felt on this school will be due to the below average performance. However the small number of overall surplus places indicates that this is still a popular choice for local residents.
