### Secondary schools with a high rating

Broadgreen International School, A Technology College, has a high surplus of around 15% in 2013/14, but failed to fill 12 year 10 places. KS4 attainment has dropped below the local and national average (35%) and the school is currently rated as *'Requires Improvement'* by Ofsted in May 2014. Taking the above into account and being located 1.2 miles away from the proposed site it is our view that a significant number of parents may be attracted to an alternative provider. This may make it more difficult for the school to improve, especially if potential pupils at the higher end of the ability range choose to go to the new studio school that is promoting aspirational academic and vocational achievement for all its pupils. This could exacerbate the surplus places issue for Broadgreen International School and therefore the new studio school could affect the long-term viability of the school, however, thus far only one pupil has applied from Broadgreen.

\* Provisional (non-final) school performance data was used as part of this impact assessment. This is because the assessment was needed **before** the performance data checking exercise had been fully completed (and therefore, had to be made using the data available at that time). For this reason, the final performance measures for some schools may have been different from those shown in this report.
