

DFID Supply Partner Code of Conduct

Principles

DFID aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All Supply Partners should adhere to the overarching principles of the Supply Partner Code of Conduct (hereafter "the Code").

Overarching Principles for Supply Partners

- ✓ Act responsibly and with integrity
- ✓ Be transparent and accountable
- ✓ Seek to improve value for money
- ✓ Demonstrate commitment to poverty reduction and DFID priorities¹
- ✓ Demonstrate commitment to wider HMG priorities²

DFID Supply Partner responsibilities

Supply Partners and their subcontractors (delivery chain partners) should ensure they have read and understood the Code and their required compliance level and seek clarification from DFID where necessary. In particular, it is important that the Supply Partners and their subcontractors (delivery chain partners) understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply Partners with an individual contract value of £1m or above, or two or more contracts/grants with DFID with a combined value of £5m or above;

Compliance Level 2 - Supply Partners with an individual contract value below £1m, or two or more contracts /grants with DFID with a value of less than £5m;

Compliance Level 3 - Supply Partners with an individual Contract value, or component of a Contract/Grant, with a value below the EU contracting threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These Supply Partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of DFID's standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for contracted Supply Partners. Adherence to the Code at the appropriate level is also a requirement for DFID direct and delivery chain Supply

² https://www.gov.uk/government/organisations/hm-treasury/about#priorities

Partners in receipt of funding. DFID will monitor Supply Partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 1a and 1b.

1. Value for Money and Governance

Key Performance Indicators KPI 1 a - c

Value for Money and financial transparency is an essential requirement of all DFID commissioned work. All Supply Partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply Partners must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. DFID expects Supply Partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- Provision of relevant VfM and governance policies and a description of how these are put into practice to meet DFID requirements (e.g. Codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned which might be requested by DFID at any time.

2. Ethical Behaviour Key Performance Indicators KPI 2 a- f

DFID Supply Partners and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of DFID, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Supply Partner and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline DFID staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Supply Partners and their delivery chain partners must declare to DFID where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by DFID or the Crown in the preceding two years Supply Partners and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply Partners and their delivery chain partners must have the following policies and procedures in place:

- Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)
- Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the DFID Counter Fraud and Whistleblowing Unit (CFWU) at <u>reportingconcerns@dfid.gov.uk</u> or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

DFID requires full delivery chain transparency from all Supply Partners. All direct Supply Partners and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

DFID recognises the critical value that downstream delivery partners contribute. Direct Supply Partners must engage their delivery chain partners in a manner that is consistent with DFID's treatment of its direct Supply Partners. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Supply Partners must cascade the principles of the Code throughout their delivery chain to ensure DFID ethical behaviour standards are embedded and maintained.

Specific requirements for direct Supply Partners include:

- ✓ Provide assurance to DFID that the policies and practices of their delivery chain Supply Partners and affiliates comply with the Code;
- Maintaining and sharing with DFID up-to-date and accurate records of all downstream partners in receipt of DFID funds and/or DFID funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- Ensuring delivery chain partner employees are expressly notified of the DFID 'reporting concerns' mail box³ found on DFID's external website and of the circumstances in which this should be used;
- ✓ Publication of DFID funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply Partners shall adhere to HMG prompt payment policy and not use restrictive exclusivity agreements with sub-partners.

4. Environmental issues

Key Performance Indicators KPI 4 a – b

DFID Supply Partners must be committed to high environmental standards, recognising that DFID's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply Partners must demonstrate they have taken sufficient steps to protect the local environment and community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to DFID.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- Membership or signature of relevant environmental Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (e.g. the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security Key Performance Indicators KPI 5 a – d

DFID Supply Partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

DFID Supply Partners must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ DFID Supply Partners must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All DFID Supply Partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

⁵ <u>https://eiti.org/</u>

⁶ https://www.gov.uk/government/publications/cyber-essentials-scheme-overview

⁷ <u>http://digitalprinciples.org/</u>

Safeguarding, social responsibility and respect for human rights are central to DFID's expectations of its Supply Partners. Supply Partners must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by DFID. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Supply Partners must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. DFID will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and proof of application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;
- ✓ Compliance level 1 Supply Partners must be fully signed up to the UN Global Compact⁸;
- Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are to be encouraged throughout the delivery chain;
- Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- Compliance level 1 Supply Partners to submit a Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and further how they contribute to social and environmental sustainability, whilst complying with international principles on Safeguarding and Human Rights labour and ethical employment, social inclusion and environmental protection;
- Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions.

Compliance KPIs and contractual checking mechanisms - DFID Contracts

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code's principles through Supply Partner relationships is a key focus for DFID.

Supply Partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, DFID shall undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supply Partner arrangements during the contract term may be jointly developed with DFID during Contract mobilisation.

Contractual Annual Compliance Declaration

Prior to Contract Award and thereafter on an annual basis at the end of each financial year, the Supply Partner is required to submit a Compliance Declaration in connection with the management of any DFID Contract in place and on behalf of their delivery chain partners. Supply Partners should be aware that spot check compliance monitoring will take place to verify responses.

Supply Partner Compliance Declaration

Key:

Contractual Requirement:

X denotes full compliance 1 required

O denotes reduced compliance level 2, unless otherwise stipulated in contractual Terms of Reference

Compliance Level 1

Supply Partners with an individual contract value of £1m or above, or two or more contracts funded by DFID with a combined value of £5m or above.

Compliance Level 2

Supply Partners with an individual contract value below £1m, or two or more contracts funded by DFID with a value of less than £5m.

Compliance Level 3

Supply Partners with an individual contract value or component of a contract funded by DFID with a value below the EU Threshold. At this level Supply Partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks but will not be monitored against the contractual KPIs.

Global Compact Principles 1 & 2 (Annex 2)			

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace by providing safe and healthy working conditions by guaranteeing freedom of association by ensuring non-discrimination in personnel practices by ensuring that they do not use directly or indirectly forced labour or child labour by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere by having an affirmative action programme to hire victims of domestic violence by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they
 operate. They therefore have the right and responsibility to express their views on matters that affect their operations,
 employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected
