

# Guide to filling in the 'Application for first vehicle tax and registration of a new motor vehicle' (V55/4)

---

You should use the V55/4 to register a new vehicle (for example, imported vehicles that have never been permanently registered before, kit cars and so on).

As many types of vehicle can be registered using this form, it would be difficult to provide a guide that covers every circumstance. This guide deals with the common types of vehicle.

## **Imported vehicles – have you notified HM Revenue & Customs (HMRC)?**

Before you can register your vehicle you are, by law, required to notify details of any vehicle that will be imported permanently into the UK, to HMRC. You must do this within 14 days of the vehicle being brought into the UK. The quickest way to notify HMRC is to use their online service but a paper form is available for anyone who cannot notify online. HMRC will calculate any VAT due and inform you of any payment that is required. Once you have successfully completed your notification process, you will receive written confirmation from HMRC (either online or by post) of your eligibility to register and tax your vehicle.

For more advice on importing a vehicle go to [www.gov.uk/importing-vehicles-into-the-uk](http://www.gov.uk/importing-vehicles-into-the-uk)

The details you provide on the V55/4 will be put on DVLA's records, so make sure the information you give us is accurate. Please write clearly in black ink using CAPITAL LETTERS. If your form is difficult to read, it will take us longer than normal to issue the vehicle registration certificate (V5C).

**We will not accept applications that are not signed or filled in properly.**

**For M1, M1G and M1SP type approved vehicles registered on or after 01/04/2017, you must provide the vehicle list price or notional price or your application will be rejected.**

*The tax is no longer transferable so you must tax it before you use it.*

## **Confirming your name and address**

Send a photocopy of your photocard driving licence with your application form to prove your identity.

If you can't do this, you must send in photocopies of one document that proves your name and another document that proves your address.

### **Documents we will accept to confirm your name are:**

- your current UK DVLA paper driving licence (not a paper counterpart)
- your UK/EU Passport
- your birth certificate
- your marriage certificate

- a gas, electricity, water or landline phone bill issued in the last three months
- a council tax bill for the current year
- a bank or building society statement issued in the last three months
- a medical card/letter.

## **Applications from businesses and companies (including fleet operators)**

You must provide a photocopy of two documents, one of which must show your current business address.

- your Companies House registration certificate (embossed)
- your VAT registration certificate
- a gas, electricity, water or landline phone bill sent to your business in the last three months
- a National Non-Domestic Rate bill or Northern Ireland rates bill
- a bank or building society statement for your business, issued in the last three months

- a letter from HM Revenue & Customs showing your company details and tax reference number
- your company mortgage statement

- a consumer credit licence.

**If you do not provide the documents we ask for above, we will not accept your application.**

## Vehicle first registration fee

Since 1 January 2004, you will need to pay a fee when you first register and tax a motor vehicle in the United Kingdom. The fee – currently £55, will cover the administrative costs associated with registering of the vehicle for its life. The fee will apply to all vehicles except for the following:

- those first registered and taxed in the 'Disabled Exempt' tax class
- historic vehicles previously registered with the old Local Authorities (late conversions)
- imported vehicles previously registered under the Personal Export Scheme and New Means of Transport Scheme
- Visiting Forces Vehicles
- Crown Exempt Vehicles
- vehicles registered under the Direct Export Scheme and
- off road vehicles.

Registering vehicles, and keeping the register up-to-date when keepers move and vehicles change hands, is an important weapon in the fight against vehicle related and other crime and benefits individuals directly. The fee ensures that more of the cost of this service is placed on those who call upon it.

You will have to pay the fee when you first register and tax a vehicle. You will also need to pay the Vehicle Excise Duty (VED) and HGV road user levy, where applicable. This will be one payment made for vehicles first registered and taxed either at the DVLA or under the Automated First Registration and Licensing (AFRL) system.

**N.B. HM Customs and Excise advise that the fee is outside the scope of V.A.T.**
