**Re: S31 Grant Determination Letter for the Opportunity Areas Grant (2018-19  
[DfE GR1000471] MHCLG 31/3422)**

This Determination is made between:

- (1) **The Secretary of State for Education and**
- (2) **The local authorities listed at Annex A.**

I am pleased to confirm further details of the Government's offer to the Council following agreement that the Opportunity Areas (OAs) Grant would be devolved.

We are devolving this Grant under a Section 31 non-ring fenced transfer (Local Government Finance Act 2003). Our expectation is that the Council will use the funds to support the aims of the Opportunity Areas programme. The Senior Responsible Owner for this Grant, Hannah Streatfeild, will require your responsible officer to confirm at the end of each financial year that the funding has been properly expended.

The total funding available for the OA programme is £72m, over three years, 2017-18 to 2019-20. As set out previously, we expect a substantial proportion of that money to be channelled through the relevant top tier local authorities.

For this year, 2018-19, we expect to make funds available to local authorities in the form of quarterly, non-ring-fenced grants. We made a first payment of £9.4m in May 2018. This letter covers the second payment. We intend to make slightly larger

payments at this stage to the second six OAs – the group announced in January 2017 – to start to balance the smaller payments made to most of this group in 2017-18.

The payments to all 12 OAs take account of expenditure already made or committed, and proposed new activity outlined in the local delivery plans. We have discussed and agreed the specific amounts with the DfE Head of Delivery in each OA, who works closely with local partners. A total of £9.45m will be paid in August 2018 to the local authorities listed in Annex A.

### **Purpose of the Grant**

The Council can spend this grant to promote activity in the Opportunity Area that will improve the social mobility outcomes of children and young people. Whilst you may choose how to spend the money in order to best meet local need, as with the previous payments in 2017-18 and 2108-19, we anticipate that all decisions will be informed by the actions and commitments made in the local OA delivery plan.

The Department's aspiration is that local authorities should use the funding provided to:

- implement the actions in the Opportunity Areas delivery plans to improve the social mobility outcomes of children and young people across all life stages;
- offer targeted support and fund activities that address social mobility barriers locally across all life stages;
- coordinate through the OA partnership board regional activities with the intention of improving system capacity in school and early years leadership, the quality of the education and early years workforce, curriculum programmes and school clubs;
- support activities that seek to improve personal development, raise aspirations, provide opportunities for career experience and skills development, and participation in volunteering and social action projects; and
- establish pilot interventions and programmes focussing on areas which might include (but would not be limited to) the home learning environment, teacher workload, teacher recruitment, children and young people's mental health, training for SEND practitioners, pathways to employment for young people, and speech, language and communication needs in early years.

The local authority may also use the grant to pay the salary of the local project manager, who is in most cases being employed through the local authority, to fund any "new burdens" and cover reasonable expenses associated with administering this grant.

### **Payment arrangements**

We intend to make future payments quarterly in the financial year 2018-19, but the exact amounts for each OA will be dependent on previous funding and the needs identified in the OA delivery plans for the relevant period.

## Arrangements for keeping in touch with the Department for Education and the Head of Delivery

Formal reporting to the Department for Education on progress is not a condition of this grant. The Department for Education will, however, ask the Council to provide a voluntary end of year return and report confirming activity that has taken place or been funded.

The Department for Education would also be happy to receive any information about effective practice and activity that substantively addresses social mobility across all life stages of children and young people.

This letter has been copied to the Directors of Children's Services in all participating local authorities, Opportunity Area Heads of Delivery, Her Majesty's Treasury and the Ministry of Housing, Communities and Local Government.
