

Electoral Register – Required Annually (except in Scotland)

Requirements

- Electoral register data should relate to the latest annual registration exercise.
- Council Tax (CT) (and Electoral Register) data is required by the NFI annually for single person discount matching except in Scotland, Please refer to the specific Instructions for Participants published by Audit Scotland.. Please refer to the Council Tax Single Person Discount timetable on [GOV.UK](https://www.gov.uk) for important dates and deadlines.
- This data should be the 'full version' of the Electoral Register (not the commercially available 'edited version').
- The upload process involves automatic mapping of fields to the specification by field name recognition. However, if there are no field names within the extracted data, it will require the person uploading to manually map each field to the appropriate field within the specification on the NFI system. Therefore, it would be preferable to include field names within the data extract if possible.
- If the surname and forename fields are not fully populated, or are unpopulated, these fields will still need to be provided, as they have to be mapped for the upload to be accepted. Electoral register systems where this is the case will normally also include an aggregated field that holds all name details. Where this happens, the aggregated field should also be provided so it can be mapped to the 'Full name' field within the specification.
