### About this release

This release is the latest in the series of annual publication from the Valuation Office Agency (VOA). It is an update of a previous release last published on 21 September 2017.

This release includes details of number of properties by Council Tax band at various geographic levels (national, regional and local authority district). The counts are calculated from domestic property data for England and Wales extracted from the Valuation Office Agency's (VOA) administrative database on 31 March 2018 (Table CTSOP1.0) and 10 September 2018 (Table CTSOP1.0\_SUPP).

The VOA is reviewing all aspects of its Official Statistics publications to ensure that they meet users' needs and may reduce the scope of tables in some publications while we consult. As a consequence, this release does not include the following: tables showing number of properties by Council Tax band at Westminster parliamentary constituency level; and lower and middle layer super output areas; breakdowns by property type (including bedroom count); and build period. Users are invited to provide feedback and views on these tables, including their use and relevance, to the address below.

If you have any queries regarding this release, please contact us at [statistics@voa.gsi.gov.uk](mailto:statistics@voa.gsi.gov.uk).

Counts in the table are rounded to the nearest 10 with counts of zero being reported as "0" and counts fewer than five reported as negligible and denoted by "-".

### Background notes

The VOA is an Executive Agency of HM Revenue and Customs, and has responsibility, amongst other things, for providing Council Tax bands for dwellings in England and Wales. It

does not set the level of Council Tax nor collect the money; these are tasks for local government. Council Tax is a local tax, set by local authority districts to help pay for local services. It uses the relative value of dwellings to determine each household's contribution to these local services.

The VOA has had responsibility for banding properties for Council Tax since the tax was first introduced in 1993, and before then the VOA was responsible for the earlier system of domestic rates. Council Tax is a local tax and uses the relative value of homes to determine each household's contribution.

It is the duty of the VOA to make sure that each home is correctly assessed and placed in the right band. This is so that there is a consistent and objective basis on which local authority districts can send bills to taxpayers for the right amount of Council Tax. In carrying out this duty, the VOA operates to professional standards.

The VOA's role is to place each dwelling into one of the valuation bands; there are eight bands for dwellings in England and nine bands for dwellings in Wales. The valuation band is assigned to a dwelling on the basis of its value at 1 April 1991 for England (for the 1993 Council Tax Valuation List) and 1 April 2003 for Wales (for the 2005 Council Tax Valuation List); this band then determines the amount of Council Tax to be paid. New dwellings are likewise assigned a band on the basis of what they would have been valued at on 1 April 1991 for England and 1 April 2003 for Wales. The basis of valuation is set down in regulations made under the Local Government Finance Act 1992. Minor updates were made to the initial regulations in 1994 but they have not been changed since. The following table shows the breakdown of bands for England and Wales.

<b>England</b>		<b>Wales</b>	
<b>Band</b>	<b>Value of dwelling (at 1 April 1991)</b>	<b>Band</b>	<b>Value of dwelling (at 1 April 2003)</b>
A	Up to £40,000	A	Up to £44,000
B	£40,001 up to £52,000	B	£44,001 up to £65,000
C	£52,001 up to £68,000	C	£65,001 up to £91,000
D	£68,001 up to £88,000	D	£91,001 up to £123,000
E	£88,001 up to £120,000	E	£123,001 up to £162,000
F	£120,001 up to £160,000	F	£162,001 up to £223,000
G	£160,001 up to £320,000	G	£223,001 up to £324,000
H	£320,001 and above	H	£324,001 up to £424,000
		I	£424,001 and above

## Methodology

### Assigning Geographies

The statistical geographies used in this release have been assigned using the following methodology.

#### Method 1: Linking VOA BA Codes to ONS statistical geographies

Each property with a Council Tax band held on the VOA's database is assigned a Billing Authority (and Billing Authority code known as "BA Code"). These BA codes have been merged to ONS corporate area codes and standard names. The following look-up table shows which Billing Authority codes are linked to which ONS area codes.

[Link to look-up table]

## Data quality

The information supplied in the table is based on administrative data held within the VOA operational database. While the VOA actively seeks to maintain accurate Valuation Lists for Council Tax bandings, some reliance is upon the billing authorities to notify the VOA of any changes (including new builds, demolitions or alterations). There is inherently some uncertainty and variability in this process, which is reflected in the rounding statistics (typically to the nearest 10 for counts). All administrative data are subject to processing and system errors and as such, while the VOA has made every effort to ensure accuracy of the data underpinning this publication, it is possible that some errors remain.

## Use made of the data

This publication is being released as part of a general drive towards making VOA data more accessible. The release will support the Ministry of Housing, Communities & Local Government (MHCLG) and Welsh Government (WG) in carrying out its duties and will form part of a range of data used in the calculation of the New Homes Bonus and the Family Annex Grants (England) and Revenue Support Grants (Wales). The data will also be used to inform government policy, respond to Freedom of Information requests and to parliamentary questions as well as to conduct operational analyses to support the VOA.

The data in this publication relate to England and Wales only. The rating law and practice in Scotland and Northern Ireland are different and valuations for rating in those countries are not carried out by the VOA.

We welcome feedback from users on the information provided in the summary. Please forward any comments to VOA statistics team at [statistics@voa.gsi.gov.uk](mailto:statistics@voa.gsi.gov.uk).

## Glossary

**Area Code:** a unique identifier for administrative geographies as specified by the Office for National Statistics (ONS).

**Area Name:** standard names as specified by ONS.

**Band:** Council Tax band.

**Billing Authority:** a local authority empowered to collect Council Tax on behalf of itself and other local authorities in its area.

**Billing Authority Code:** a unique identifier for billing authorities.

**Dwelling:** a dwelling is a separate unit of living accommodation, together with any garden, yard, garage or other outbuildings, attached to it, all occupied by the same person(s) and within the same area of land.
