Provisional: these data should be interpreted with caution

1. These data are based on 93.5% of Trusts responding to the October 2012 survey.
2. The national figures are provisional and may vary slightly following further data validation checks.
3. Changes in the commissioning and provider arrangements within primary care have presented challenges to the collection of data on the vaccination of frontline healthcare workers in this setting.
PCT data therefore must be treated with particular caution.
4. In the current survey 2012/13, the total number of frontline healthcare workers has increased across England as well as the total number receiving influenza vaccine when compared to previous year 2011/12.
5. NHS Trusts highlighted in blue have either formed into a new trust type or have changed their names since 2011, NHS trusts highlighted in grey are trusts which have merged over the period 2010 till 2012.
