

Seasonal influenza vaccine uptake amongst frontline healthcare workers (HCWs) in England: November survey 2014/15

Amendment to the following table on Page 17:

Seasonal flu vaccine uptake (frontline healthcare workers – all trusts) 2014/15
November 2014 (Cumulative data for each trust from 1 Sep 2014 to 30 Nov 2014)

Due to a formatting error in the document, figures for the final 10 Trusts in the table (listed below) were assigned to incorrect Trusts. All fields (Number of HCWs involved with direct patient care, Seasonal flu doses given since 1 September and Vaccine uptake (%)) for 2013/14 and 2014/15 data were affected and have now been updated to accurately reflect uptake data for each Trust.
