choice of
suppliers

OJEU
compliant

What is GovSwitch?

GovSwitch has been designed to allow public and third sector customers to switch gas and electricity supplier in a few simple steps.

The first of its kind in the Public Sector, the service is provided in the form of a switching website, similar to those used at home, to provide a flexible, simple and compliant route for procuring your energy requirements.

1

Register

Smart system to register and store all your details and site requirements

2

Choose

Browse energy suppliers suitable to your specific needs

3

Switch

Proceed to contract award and switch supplier

Why use GovSwitch?

Transparent & fixed pricing

- Instant and bespoke pricing options subject to customer requirement
- Review multiple supplier options side by side for a clear view and easy decision making
- Fixed pricing for a contract term decided by you

Renewable energy

- Supports public sector renewable energy initiatives
- Simple route to suppliers offering energy from renewable sources

Flexible

- Smart system offering flexibility to change your requirements throughout your quote process
- Choice of suppliers
- Ability to filter and sort requirements based on your preferences, e.g. renewable energy, pricing, contract term

Simple to use

- Intuitive platform with help options along the way and helpdesk support if needed
- Streamlined procurement process reducing administrative tasks to focus your resource elsewhere
- Document repository for storing quotes and site information

Compliant

- OJEU compliant system which provides peace of mind when procuring energy requirements
- Suppliers undergo a selection process prior to award on the portal

Why wait? Start your switch today...
