

Pre-release access for the 2016/17 monthly seasonal influenza vaccine uptake reports for GP Patients – All Practices Survey (England)

For the 2016-17 influenza season, PHE publishes online a cumulative seasonal influenza vaccine uptake report for patients registered in primary care (All Practices – England). The report is published monthly on Thursdays at 14:00. The first monthly report will be published on 24 November 2016 at 14:00.

The following post holders were given pre-release access up to 24 hours prior to release. Those staff involved in the production and quality assurance of the document are excluded.
