# Accounting Officer's Foreword

## 1. Introduction

The National Insurance Fund (NIF) holds National Insurance Contributions (NICs), paid by employees, employers and the self-employed. Receipts paid into the NIF are kept separate from all other revenue raised by national taxes and are used to pay social benefits such as contributory benefits and the State Pension.

The NIF Account presents the receipts and payments for the financial year, as well as the balance on the Fund at the end of the year.

NICs also help finance the National Health Service (NHS). NICs are paid into the NIF net of money allocated to the NHS.

## 2. Basis for the preparation of the NIF Accounts

The HM Treasury accounts direction, issued under Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992 requires HM Revenue and Customs (HMRC) to prepare a statement of the transactions of the NIF on a yearly basis. The account is prepared on a cash basis and follows all relevant accounting and disclosure requirements given in *Managing Public Money*<sup>1</sup> and other guidance issued by HM Treasury.

## 3. Statutory background

The National Insurance Act 1946 and National Assistance Act 1948 established the modern welfare state that continues today. As an important part of that, the NIF funds the State Pension as well as certain unemployment benefits, employment support benefits and other benefits in situations where the individuals meet the contributory and other qualifying conditions.

Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992, as amended by the Social Security Contributions (Transfer of Functions, etc.) (Northern Ireland) Order 1999, moved the management of the NIF from the Department of Health and Social Services for Northern Ireland to the management of the Inland Revenue (now HMRC).

Under Section 142 of the Social Security Administration (Northern Ireland) Act 1992, NICs received by HMRC are paid into the NIF after deducting the appropriate NHS allocation (see note 2). HMRC is required to consult with the Government Actuary to determine the appropriate apportionment, which is approved by HM Treasury.

The Commissioners for the Reduction of the National Debt (CRND) are responsible, in accordance with Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992, amended by paragraph 44(3) of Schedule 3 to the Social Security Contributions (Transfer of Funds, etc.) (Northern Ireland) Order 1999, for the investment of the Northern Ireland National Insurance Fund Investment Account (NINIFIA). They are authorised to invest in accordance with directions given by HM Treasury and in line with the Memorandum of Understanding between HMRC and CRND.

Under the Social Security Administration (Northern Ireland) Act 1992, benefits due under the National Insurance scheme are payable out of the NIF. The funds required for meeting the cost of these benefits are mainly provided from NICs paid by employed earners, their employers and the self-employed. The Social Security Contributions and Benefits (Northern Ireland) Act 1992 sets out the conditions governing entitlement to most benefits and the basis for assessing liability to pay NICs.

<sup>1</sup> For full text, please see: <https://www.gov.uk/government/publications/managing-public-money>

In accordance with Section 88(3) of the Northern Ireland Act 1998, arrangements are made, in consultation with Government Actuary, to make transfers between the Great Britain and Northern Ireland NIFs in order to maintain parity of balances. Based on the 2011 census data, the Northern Ireland Fund is maintained as far as possible at 2.87% of the joint balances of the two Funds. The system of parity payments acts as a safeguard against serious imbalances between the Great Britain and Northern Ireland Funds.

In addition to this, the Social Security (Northern Ireland) Order 1993 allows for money provided by Parliament to be paid into the NIF via a Treasury Grant, if the Treasury considers it expedient to do so to maintain the level of the Fund at a working balance, which is targeted to be at least 1/6th (16.7%) of projected annual benefit expenditure.

The amounts received into, and paid out of, the NIF and the resulting balance on the Fund depend on legislation, which is the responsibility of Treasury Ministers and the Minister for the Department for Communities. In setting contribution rates, Treasury Ministers are required to consider changes in the general level of earnings, the balance on the Fund and payments expected to be made from it in the future (Sections 129, 130 and 131 of the Social Security Administration (Northern Ireland) Act 1992). In addition, both demographic and economic changes can affect amounts received and paid out and therefore the overall balance on the Fund.

## 4. Operational responsibilities

HMRC is responsible for collecting NICs and recording them against individuals' contribution records which determine entitlement to social security benefits payable from the NIF. As Accounting Officer for the NIF, I am responsible for the control and management of the Fund.

The Department for Communities (DfC) has overall responsibility for the award and payment of most benefits payable from the NIF, including those relating to retirement, sickness and contribution-based Jobseeker's Allowance. Entitlement to benefit is determined by the claimant satisfying qualifying conditions. For Statutory Maternity Pay, Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Leave employers reduce the amount of NICs paid to HMRC by the amounts of these benefits that they are able to recover. Subsequently, DfC pays over to HMRC an amount to compensate the NIF for this shortfall in contributions, as estimated by the Government Actuary. Employers can no longer claim back Statutory Sick Pay.

The Department for the Economy (DfE) is responsible for making Redundancy Payment Scheme awards. The Northern Ireland Shared Services Centre handles the payment of awards and collection of receipts.

## 5. Financial performance

The National Insurance scheme is financed on a pay as you go basis with contribution rates set at a level broadly necessary to meet the expected benefits expenditure in that year, after taking into account any other payments and receipts, and to maintain a working balance. Changes in contribution levels, in response to the needs of the Fund, take time to implement, therefore a working balance is necessary as the NIF has no borrowing powers.

In February 2017, the Government Actuary estimated the minimum working balance required in 2017-18 to be £447.6 million, being 16.7% of estimated benefit expenditure. The balance on the Fund at 31 March 2018 was £615.5 million and was above the estimated minimum requirement throughout the year. Therefore, no Treasury Grant was drawn down in 2017-18.

---

The Government Actuary has projected an increase of the balance of the Fund in 2018-19 and has indicated that no Treasury Grant will be required. However, as a contingency, a provision has been made to draw down a Treasury Grant of up to 5% of estimated benefit payments, should it be required. This equates to a provisional facility of £135.6 million.

## 6. Auditors

The Comptroller and Auditor General is required under Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992 to examine and certify the NIF Account and to lay copies of it, together with his report, before Parliament.

So far as I am aware, there is no relevant audit information of which the auditors are unaware. I have taken all steps that I ought to have taken to make myself aware of any relevant audit information and to establish that the auditors are aware of that information.

The audit fee for 2017-18 was £185,000 and will be included in the 2018-19 account.

## 7. Accounting Officer's responsibilities

As Chief Executive of HMRC, I am the Accounting Officer for the NIF, appointed by HM Treasury with effect from 4 April 2016. My relevant responsibilities as Accounting Officer, including my responsibility for the propriety and regularity of the public finances for which I am answerable and for the keeping of proper records, are set out in *Managing Public Money*. Many of the activities relating to the transactions of the NIF are carried out by other departments (e.g. DfC and DfE) and agencies and I receive letters of assurance from them as detailed in the Governance Statement.

# Northern Ireland NIF Governance Statement

This statement is given in respect of the 2017-18 Northern Ireland NIF Account.

## 1. Purpose of the Northern Ireland NIF Governance Statement

This statement includes:

- the NIF governance arrangements
- any significant NIF related risks and action taken to address these, section 4 (page 8)
- assurance provided by other Government departments involved in NIF related activities.

Specific work undertaken on behalf of the NIF forms only a small part of the whole work of HMRC. HMRC has produced a full Governance Statement setting out details of its compliance with the *Corporate Governance in Central Government Departments: Code of Good Practice*; the role of the Board and committees within HMRC along with risks to HMRC's performance and how these have been managed. This includes disclosures relating to issues outside of the scope of work relating to the NIF. The Governance Statement is included in the published HMRC Annual Report and Accounts 2017-18.<sup>2</sup>

## 2. Scope of responsibility

As Accounting Officer for the NIF, I have responsibility for ensuring risks are effectively managed across HMRC and safeguarding the public funds and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me in *Managing Public Money*.

While HMRC has overall responsibility for the control and management of the Fund (which includes allocation of funds to other departments with NIF responsibilities and the collection of NICs), DfC is responsible for the control and management of benefit payments. The DfE is responsible for Redundancy Payments Scheme awards which are covered by the Fund, with the payment of these awards and collection of receipts facilitated through the use of the Northern Ireland Shared Services Centre.

The Operational Excellence Directorate (part of HMRC) controls and manages the collection of NICs, regularly reporting to the Customer Services Senior Leadership Team (SLT). A joint Pay As You Earn (PAYE), Self Assessment (SA) and Joint Management Board (JMB) chaired by the Deputy Director of Process Delivery and Resolutions for PAYE, SA and NICs, reviews all matters relating to the management of NICs under the scrutiny of the department's Executive Committee (ExCom) and the Audit and Risk Committee (A&RC).

The National Insurance Fund Accounting Board (NIFAB) chaired by Head of External Reporting and Analysis (Tax) provides a forum and network for internal and external stakeholders to work collaboratively to drive NIF policy, strategy, planning, risk management and change and to monitor effective Fund administration.

I receive letters of assurance from the Accounting Officers of DfC and DfE, approved by their audit committees, which refer to their governance arrangements and highlight any significant risks that may impact on the control and management of their NIF related activities. Governance arrangements are outlined in their Governance Statements and published within their accounts.<sup>3</sup>

<sup>2</sup> [https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/724943/HMRC\\_Annual\\_Report\\_and\\_Accounts\\_2017-18\\_print.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/724943/HMRC_Annual_Report_and_Accounts_2017-18_print.pdf)

<sup>3</sup> <https://www.economy-ni.gov.uk/publications/former-del-annual-reports-and-resource-accounts> and <https://www.communities-ni.gov.uk/dfc-corporate-reports>

### 3. Risks to the NIF and how these are managed

Control and management of the NIF risks, detailed in section 4 below, are consistent with the over-arching HMRC Governance Statement published in the HMRC Annual Report and Accounts 2017-18.

Risk management operates at all levels in HMRC, from operational decision making on individual cases, through to strategic level risks identified in our Departmental Risks and Issues Register. NIF specific risks are managed throughout the year by the NIFAB.

The Deputy Director of Process Delivery and Resolutions (PAYE, SA and NICs), a SLT member of the Operational Excellence Directorate is accountable for the overall smooth running of the NICs process and manages the JMB, which evaluates and reports on risks related to the collection and management of NICs. The Deputy Director of NICs and Student Finance Policy, a SLT member of Customer Strategy & Tax Design, Individuals Policy Directorate, is a member of the JMB.

### 4. Significant risks identified

HMRC has identified the following significant risk to the NIF:

Risk	Key mitigating actions being taken by HMRC
<b>Outstanding Class 2 debt balance</b>  There is a risk that the level of outstanding Class 2 NICs debt, although reducing year on year, will remain at a high level (£650.7 million at January 2018, down from £729.8 million at January 2017).  Historically, Class 2 debt has been difficult to collect due to poor customer compliance/engagement. Mitigating actions taken by HMRC have had a positive impact on the level of Class 2 debt and HMRC is confident that the debt will continue to reduce. Collection via SA has improved compliance and reduced the rate at which debt is accruing. However, as only 1 year of collection via SA has been fully analysed, HMRC considers it appropriate to continue the reporting of this risk.	 HMRC has changed the way it collects Class 2.  For the 2015-16 tax year onwards Class 2 is collected via SA. No debt is generated from the 2.3 million customers whose profits are below the threshold.  SA has proven to be a successful collection method with 82% of outstanding Class 2 for the 2015-16 year collected within 12 months of becoming a debt.  HMRC continues to reduce the levels of debt by: <ul style="list-style-type: none"><li>• collecting Class 2 debt through the PAYE tax code</li><li>• transferring Class 2 debt not suitable for coding to HMRC's debt management system for collection by Debt Collection Agencies</li><li>• writing off debt when an insolvency claim is made.</li></ul>

The risk applies to both the Great Britain and Northern Ireland Funds and the amount quoted is the total impact across both Funds (the way the NIF is administered makes it difficult to disaggregate the required information so that it relates solely to Great Britain or Northern Ireland).

#### Further assurances

DfC has provided a letter of assurance that has been approved by its Audit Risk and Assurance Committee containing details of its significant risks and the action it has taken to address these. No NIF specific risks are identified.

The letter highlights the qualification of the audit opinion on the 2017-18 DfC accounts due to the estimated levels of benefit fraud and error, State Pension expenditure, a Northern Ireland NIF benefit, continues to be excluded from the audit qualification. This exclusion and the general low rates of fraud and error found in contributory benefits, means this issue is not a significant risk to the NIF. Additional Northern Ireland NIF fraud and error information is provided on pages 25-26 to these accounts. Full details on DfC benefit fraud and error estimates are included in the 2017-18 DfC Annual Report and Accounts.

Work undertaken on behalf of the NIF forms part of the complete range of DfC social security benefit delivery services. For the 2017-18 financial year DfC produced a full Governance Statement setting out details of its compliance with *Corporate Governance in Central Government Departments: Code of Good Practice (Northern Ireland) 2013*, the role of the management board and committees within DfC along with risks to DfC performance and how these have been managed. This includes disclosures relating to issues outside of the scope of work relating to the NIF. The Governance Statement is included in the published DfC 2017-18 Annual Report and Accounts.

A letter of assurance has been received from the DfE, approved by its Audit Committee. The letter gives assurances that there are no significant risks that impact on the Northern Ireland NIF.

## 5. Review of effectiveness

A number of specific sources inform and contribute to my review of effectiveness including:

- individual statements from members of ExCom outlining the governance, risk and control arrangements in their business areas
- formal assurance I receive from the Senior Information Risk Owner (SIRO) that information risk has been appropriately managed in the conduct of HMRC business
- the review that underpins the production of the NIF Governance Statements including letters of assurance from DfC and DfE
- the Director of Internal Audit's annual opinion to me as Accounting Officer
- National Audit Office (NAO) reports.

Taking all of these into account, as well as observations from regular meetings of ExCom, A&RC, the Director of Internal Audit and from the NAO, I am confident that the risks related to NIF are being identified and actively managed.

## 6. Conclusion

Based on the review I have outlined above, I conclude that there is an effective system of governance, risk management and internal control that supports the Fund's aims and objectives.

**Jon Thompson**

Accounting Officer

# The Certificate and Report of the Comptroller and Auditor General to the Houses of Parliament

I certify that I have audited the financial statements of the Northern Ireland National Insurance Fund for the year ended 31 March 2018 under the Social Security Administration (Northern Ireland) Act 1992. The financial statements comprise: the Receipts and Payments Account, including the Statement of Balances, and the related notes. These financial statements have been prepared under the accounting policies set out within them.

In my opinion:

- the financial statements properly present the receipts and payments of the Northern Ireland National Insurance Fund for the year ended 31 March 2018; and
- the financial statements have been properly prepared in accordance with the Social Security Administration (Northern Ireland) Act 1992 and HM Treasury directions issued thereunder.

## Opinion on regularity

In my opinion, in all material respects the receipts and payments recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

## Basis of opinions

I conducted my audit in accordance with International Standards on Auditing (ISAs) (UK) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my certificate. Those standards require me and my staff to comply with the Financial Reporting Council's Revised Ethical Standard 2016. I am independent of the Fund and HMRC in accordance with the ethical requirements that are relevant to my audit and the financial statements in the UK. My staff and I have fulfilled our other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## Responsibilities of the Accounting Officer for the financial statements

As explained more fully in the Foreword, the Accounting Officer is responsible for the preparation of the financial statements and for being satisfied that they properly present the receipts and payments of the Northern Ireland National Insurance Fund.

## Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit, certify and report on the financial statements in accordance with the Social Security Administration (Northern Ireland) Act 1992.

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error

and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (UK), I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the HMRC's internal control as it relates to the Fund.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I am required to obtain evidence sufficient to give reasonable assurance that the receipts and payments recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

## Other information

The Accounting Officer is responsible for the other information. The other information comprises information included in the Foreword, other than the financial statements and my auditor's report thereon. My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

---

## Matters on which I report by exception

I have nothing to report in respect of the following matters which I report to you if, in my opinion:

- adequate accounting records have not been kept or returns adequate for my audit have not been received from branches not visited by my staff; or
- the financial statements are not in agreement with the accounting records and returns; or
- I have not received all of the information and explanations I require for my audit; or
- the Governance Statement does not reflect compliance with HM Treasury's guidance.

## Report

I have no observations to make on these financial statements.

# Receipts and payments account

Prepared in accordance with Section 141 of the Social Security Administration (Northern Ireland) Act 1992.

For the year ended 31 March	Notes	2018 £000	2017 £000
<b>Receipts</b>			
National Insurance Contributions	2	1,979,437	1,922,548
Transfers from Great Britain NIF	3	634,900	533,500
Compensation for statutory recoveries	4	70,200	61,100
Income from investment account	5	3,104	3,505
State Scheme Premiums	6	1,181	877
Redundancy receipts	7	977	507
Other receipts	8	0	44
		<b>2,689,799</b>	<b>2,522,081</b>
<i>Less</i>			
<b>Payments</b>			
Benefit payments	9	(2,660,882)	(2,602,535)
Administrative costs	10	(18,944)	(19,812)
Redundancy payments	7	(3,637)	(5,667)
Other payments	11	(2,450)	(2,602)
		<b>(2,685,913)</b>	<b>(2,630,616)</b>
Receipts less payments		<b>3,886</b>	<b>(108,535)</b>

## Statement of balances

As at 31 March	Notes	2018 £000	2017 £000
Opening balance		611,663	720,198
Receipts less payments		3,886	(108,535)
Closing balance	12	<b>615,549</b>	<b>611,663</b>

**Jon Thompson**  
Accounting Officer  
11 October 2018

*The notes on pages 14 to 23 form part of these accounts.*

---

# Notes to the account

Notes to the account provide additional information and accounting conventions to explain a particular feature of the financial statements. The notes which follow will also provide explanations and additional disclosure to assist readers' understanding and interpretation of the financial statements.

## 1. Statement of accounting policies

### 1.1 Basis of preparation of the Account

This account has been prepared in accordance with Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992. It has been prepared primarily on a cash basis, and in a form directed by HM Treasury on page 27 of this account and the policies outlined below.

### 1.2 Net accounting

NICs, State Scheme Premiums, personal pensions and benefit payments are all shown net of refunds or recoveries.

An allocation for the NHS is paid over by HMRC before the contributions are paid into the NIF and therefore the NICs are shown net of the NHS element (see note 2 for further details).

### 1.3 Receipts recognition

#### NICs

The account shows those contributions received by HMRC during the year. Contributions are recognised in the accounting period in which they are allocated and measured at the cash amount.

The contributions are collected and administered on a UK wide basis for Great Britain and Northern Ireland and HMRC is required to allocate the total contributions between the two Funds. A scan of the National Insurance and Pay As You Earn Service (NPS) is used to extract postcode data of taxpayers to estimate the ratio of individuals living in each territory who have made NICs. HMRC then applies this ratio, to the nearest percentage point, to the UK wide receipts figures to split the contributions between the two Funds.

The amounts received are after recoveries by employers of amounts due in respect of any statutory maternity, adoption, paternity and shared parental payments made to their employees and after deduction of contributions allocated to the NHS.

Employers are responsible for calculating their own and their employees' contributions. National Insurance records are subject to examination by HMRC. These checks and other checks on contributors may result in additional receipts or repayments in future years in respect of contribution liabilities for 2017-18.

#### Class 1 NICs

Almost all amounts received in respect of Class 1 NICs are captured via the monthly PAYE process by the Real Time Information (RTI) system. There is a degree of estimation involved in this process, approximately 10% by value, due to late or missing submissions and for receipts relating to prior periods where the split between income tax and NICs cannot be identified.

### Class 2 and Class 4 NICs

The collection of receipts for income tax, Class 2 and Class 4 NICs within the SA system involves long time lags. Receipts in any one year will relate to payments on account for that year and the settlement of liabilities for previous years. SA receipts are allocated between income tax, Class 2 and Class 4 NICs, and Capital Gains Tax using estimates based on the periodic analysis of individuals' records in the SA system.

### Transfer from Great Britain NIF

To ensure the balance of the Northern Ireland Fund is maintained at, as far as practicable, 2.87% of the joint balance of the two funds, regular transfers are made between the Great Britain and Northern Ireland Fund. The parity payments are made on the basis of estimates by the Government Actuary's Department (GAD) using the relevant proportions of population of working age in Great Britain and Northern Ireland and are recognised in the accounting period when they are received (see note 3 for further details).

### Compensation for statutory pay recoveries

Statutory Maternity Pay, Statutory Paternity Pay, Statutory Shared Parental Leave and Statutory Adoption Pay receipts are estimated by GAD and recognised in the NIF on the basis of expected recoveries by employers. Unlike most other benefits where the benefit payment is made directly to the claimant, the employer is responsible for calculating and paying statutory payments. The employer is able to recover this amount via the PAYE system.

The actual amounts of all statutory payments are not known until after the end of the financial year to which the payment related; therefore an estimated payment is made to the NIF in respect of the total recovery for the past financial year (see note 4 for further details).

## 1.4 Payments recognition

### Benefit payments

DfC administers a range of benefit payments, financed either from the NIF or from the Consolidated Fund. The payment of contribution-based benefits is recognised in the NIF account in the accounting period in which DfC pays the benefit to the claimant.

### Administrative costs

The costs related to services provided to the NIF are recognised on the date the amount leaves the NIF bank account.

## 2. NICs

For the year ended 31 March		2018	2017
Contributions - estimated breakdown by class	Notes	£000	£000
Class 1 (employed earners)	i	1,888,222	1,836,369
Class 1A & 1B	ii	26,645	25,045
Class 2 (self-employed flat rate)	iii	7,191	10,065
Class 3 (voluntary contributions)	iv	2,837	403
Class 3A (voluntary contributions)	v	355	408
Class 4 (self-employed earnings related)	vi	54,187	50,258
		<b>1,979,437</b>	<b>1,922,548</b>

Different groups of people pay different classes of contributions. These can be summarised as follows:

- i **Class 1 contributions** comprise two parts: primary contributions payable by employees which are approximately 40% of the total Class 1 figure, and secondary contributions payable by employers, which are approximately 60%.
- ii **Class 1A contributions** are paid by employers on most benefits provided to employees. Employers pay Class 1A contributions to HMRC via the PAYE scheme with their Class 1 contributions.  
**Class 1B contributions** are payable by employers where they have entered into a PAYE settlement agreement for tax enabling them to settle their National Insurance and income tax liability in a lump sum after the end of the tax year.  
The figures for Class 1A and Class 1B have been combined.
- iii **Class 2** self-employed persons pay flat rate weekly contributions. On 6 September 2018, the Government announced that they would no longer proceed with their plan to abolish Class 2 NICs in April 2019.
- iv **Class 3** voluntary flat rate contributions are paid to maintain contributors' National Insurance records for certain benefit and/or pension purposes.
- v **Class 3A** allowed pensioners who have reached state pension age before 6 April 2016 to boost their retirement incomes by making voluntary payments of NICs. The scheme was available for 18 months between October 2015 and April 2017.
- vi **Class 4** self-employed persons pay earnings related contributions.

### NHS allocation

The NHS allocation is paid over by HMRC to the NHS before any contributions are paid into the Northern Ireland NIF and so the figures shown are net of this NHS allocation. The NHS allocation was £517 million in 2017-18 (£508 million in 2016-17) and forms part of the total NHS funding.

The NHS allocation is based on the Government Actuary's estimates for the year ended 31 March 2018 made in December 2017. The allocation is estimated in accordance with the requirements set out in Section 142 of the Social Security Administration (Northern Ireland) Act 1992.

### 3. Transfers from Great Britain NIF

For the year ended 31 March	2018	2017
	£000	£000
Payments from Great Britain NIF	<b>634,900</b>	<b>533,500</b>

The amount shown in this Account is in respect of financial adjustments made between the Northern Ireland NIF and the Great Britain NIF in accordance with Section 153 of the Social Security Administration (Northern Ireland) Act 1992. Transfers between the Great Britain and Northern Ireland NIF are made so that, as far as practicable, the balance in the Northern Ireland Fund is maintained at 2.87% of the joint balance of the two Funds, a percentage split based on the population of working age individuals established by the 2011 census.

Payments are made on a provisional basis and are adjusted when end of year balances in the two Funds are available. The transfer is based on the Fund balances for Great Britain and Northern Ireland which themselves are based on the differences between the levels of receipts and payments and therefore the results are subject to considerable variability year on year. This system of parity payments acts as a final safeguard against serious imbalances between the two NIF Funds.

### 4. Compensation for statutory pay recoveries

For the year ended 31 March	Notes	2018	2017
		£000	£000
Statutory Maternity Pay	i	69,200	57,100
Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Leave	ii	1,000	4,000
		<b>70,200</b>	<b>61,100</b>

The Government compensates the NIF for loss of revenue due to contribution receipts being reduced by employers recovering statutory maternity, adoption, paternity and shared parental leave. The compensation is drawn down from the Consolidated Fund and then paid over to the NIF by DfC as the NIF has no facility to do so. The amounts paid over are based on estimates produced by the Government Actuary under Section 1(5) of the Social Security Contributions and Benefit Act 1992 using information on past recoveries taken from systems administered by HMRC.

- i Statutory Maternity Pay recoveries are paid over by DfC.
- ii Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Leave pay recoveries are paid over by DfC. For 2017-18 this figure includes adjustments from previous years as the take up for Statutory Shared Parental Leave was not as great as previously estimated.

## 5. Income from investment account

For the year ended 31 March	2018	2017
	£000	£000
Interest received	<b>3,104</b>	<b>3,505</b>

By virtue of SI 1978 No. 1839, surplus funds paid over to the NINIFIA may be invested by the CRND in any manner specified in paragraphs 1, 2, 3, 8, 9 and 9A of Part II of Schedule 1 to the Trustee Investments Act 1961. In practice this means exposure is limited to UK Government or Government-guaranteed instruments and/or cash deposits.

In 2017-18, as in the previous year, the NINIFIA was almost entirely invested in the Debt Management Account, which pays a rate equal to the Bank Rate on a daily accrual basis. Investments in the Debt Management Account allow instant access and capital guarantee, for purposes of liquidity and capital preservation - an investment approach deemed by HMRC and CRND as best suited to the needs and risk appetite of the Fund. A very small portion of the NINIFIA (typically less than £1k per day) is retained in a Ways & Means Account with the National Loans Fund.

Both the National Loans Fund and the Debt Management Account are Exchequer Funds, which are owned by HM Treasury, and carry the full guarantee of the UK Government.

On 2 November 2017, the Bank of England increased the Bank Rate from 0.25% to 0.5% resulting in a corresponding increase in the rate of interest paid by the Debt Management Account (in 2016-17 the rate decreased from 0.5% to 0.25% on 4 August 2016). The interest is received by the NIF in the month following that in which it is earned. The interest received on the Fund surplus is also placed on deposit with the NINIFIA.

The value of the monies held in the NINIFIA increased from £936 million at 31 March 2017 to £1.1 billion at 31 March 2018 (see note 12 for details).

## 6. State Scheme Premiums

For the year ended 31 March	2018	2017
	£000	£000
State Scheme Premiums	<b>1,181</b>	<b>877</b>

State Scheme Premiums are payable to the Fund in respect of employed persons who cease to be covered, in certain specified circumstances, by contracted-out pension schemes. The premiums buy back the persons' additional pension entitlement in the Additional State Pension scheme. Total receipts are net of refunds of £40,000 (2016-17, £56,000).

Although the system of contracting out ended in April 2016, Contributions Equivalent Premiums (CEPs) will continue to be payable until April 2019. In addition, a contracted-out scheme reconciliation exercise is currently being carried out and will continue until December 2018.

## 7. Redundancy payments and receipts

For the year ended 31 March		2018	2017
	Notes	£000	£000
Redundancy payments	i	3,637	5,667
Redundancy receipts	ii	(977)	(507)
		<b>2,660</b>	<b>5,160</b>

DfE administers the Redundancy Payments Scheme under the provisions of the Employment Rights (Northern Ireland) Order 1996.

The scheme ensures that employees who have been made redundant receive their statutory redundancy entitlement where their employers are unable to make such payments, usually because of insolvency. In doing so, the scheme also protects the taxpayers' interests by ensuring that it does not make payments which can and should be made by the employers themselves.

- i Redundancy payments are made from the Northern Ireland NIF to employees whose employers have failed to meet their statutory responsibilities.
- ii The receipts represent amounts recovered from employers.

## 8. Other receipts

For the year ended 31 March		2018	2017
	Notes	£000	£000
Personal pensions	i	-	44
		<b>-</b>	<b>44</b>

- i The Pension Scheme Act 1993, supplemented by the Pensions Act 1995, entitled employed earners with a personal pension to a "minimum contribution" to their plan from the NIF. On 5 April 2012 the abolition of contracting-out on a defined contribution basis resulted in these contributions no longer being an entitlement. Only late payments and recoveries are being dealt with.

In 2016-17, recoveries exceeded late payments and the net figure is shown above, but in 2017-18 late payments exceeded recoveries and therefore the net figure is shown at note 11, Other Payments.

## 9. Benefit payments

For the year ended 31 March		2018	2017
	Notes	£000	£000
State Pension	i	2,285,552	2,212,756
Employment & Support Allowance (contributory)	ii	329,693	340,131
Bereavement benefits	iii	18,619	19,852
Maternity Allowance	iv	12,022	12,766
Jobseeker's Allowance (contributory)	v	11,884	13,981
Christmas Bonus	vi	3,508	3,517
Incapacity Benefit	vii	(460)	(532)
Guardian's Allowance	viii	64	64
		<b>2,660,882</b>	<b>2,602,535</b>

i The state pension age is in the process of increasing:

- women's State Pension age will reach 65 by November 2018
- the rise from 65 for both men and women will begin in December 2018 and reach 66 by October 2020
- under the changes in the Pensions Act 2014 the State Pension age for men and women will increase incrementally from 66 to 67 between 2026 and 2028.

The Pensions Act (Northern Ireland) 2015 was introduced on 23 June 2015. The Act makes provision for Northern Ireland corresponding to the Westminster Pensions Act 2014. The Act makes significant reforms to both the State Pension system and bereavement benefits, and amends the timetable for increasing pensionable age to 67. State Pension is for people who have reached state pension age and is based on NICs paid, treated as paid or credited. The State Pension scheme of basic and Additional State Pension was replaced by the new single tier State Pension for people reaching state pension age on 6 April 2016.

ii As part of the Government's welfare reform programme, from 27 October 2008, Northern Ireland Social Security Agency (now part of DfC) introduced a new benefit, Employment and Support Allowance (ESA). The benefit was introduced to improve employment opportunities for those with a health condition or disability which limits their capacity for work. It is payable to claimants who have paid NICs and makes no payments to partners or dependents. From April 2011, Northern Ireland Social Security Agency began a reassessment of Incapacity Benefit cases in Northern Ireland. The reassessment exercise was completed in autumn 2014. As a result only a small number of Incapacity Benefit claims are still in payment and will be dealt with on a business as usual basis (see note vii on page 21). From November 2016 Contributory ESA for those in the work-related activity group has been limited to 52 weeks. This does not apply to people placed in the support group or to those receiving income-related ESA which is payable by DfC.

iii Bereavement benefits consist of Bereavement Allowance, which is a regular payment for 52 weeks; Bereavement Payment, which is a lump sum payment and Widowed Parent's Allowance which is a regular payment while the customer has dependent children for whom they receive (or could receive) Child Benefit. These benefits are based on the NICs of the deceased spouse.

Bereavement Support Payments were introduced in April 2017 for new claimants. The higher rate may be payable if they are entitled to Child Benefit for at least one dependent child or were pregnant at the date of the spouse or civil partner's death: they may be entitled to an initial payment of £3,500 and up to 18 monthly payments of £350. The standard rate may be payable if they were not pregnant or have no dependent children: they may be entitled to an initial payment of £2,500 and up to 18 monthly payments of £100.

- iv Maternity Allowance is paid for up to 39 weeks at a standard weekly rate, dependent upon earnings, to a person who cannot get Statutory Maternity Pay. It is payable from a maximum of 11 weeks before the expected week of childbirth and is subject to qualifying conditions.
- v Contributory Jobseeker's Allowance is payable to people who are capable of working, available for work and actively seeking work, who have paid or are treated as having paid a certain number of NICs. It is payable for 182 days and no additional benefit is payable for dependents.
- vi Christmas bonus is a tax free payment of £10 paid to people in receipt of a qualifying benefit during the relevant week, normally the first full week in December.
- vii Incapacity Benefit is paid at three different rates, dependent on age and term of incapacity, to a person who has paid NICs and whose Statutory Sick Pay has ended or is not applicable. It has been replaced by ESA (see note ii) for new claims from October 2008. There is a negative value recorded this year due to the small number of existing claims and the amount of recoveries exceeding the value of claim payments.
- viii Guardian's Allowance, administered by HMRC is payable to people bringing up a child because one or both of the parents has died.

For administrative convenience, as well as paying Great Britain pensioners living abroad, the Department of Work and Pensions (DWP) pays State Pension and Bereavement Benefits on behalf of Northern Ireland pensioners living abroad. The cost for these NI overseas NIF payments are charged back to DfC and the Northern Ireland NIF monthly, so the cost is borne by Northern Ireland NIF.

The total overseas NIF spend for NI for 2017-18 was £86,000. It is not possible for DWP to provide a breakdown of this figure between State Pension and the Bereavement Benefits.

For details of fraud and error in benefit payments please refer to Other Financial Information, section c.

## 10. Administrative costs

For the year ended 31 March		2018	2017
	Notes	£000	£000
Department for Communities	i	11,884	12,536
HM Revenue and Customs	ii	5,999	6,038
Department of Finance	iii	600	705
Department for the Economy	iv	362	422
Commissioners for the Reduction of the National Debt	v	55	55
National Audit Office - audit fees	vi	31	38
Government Actuary's Department	vii	13	18
		<b>18,944</b>	<b>19,812</b>

Administration costs relate to services directly provided to the Northern Ireland NIF and are reimbursed to the respective service provider from the Northern Ireland NIF. The costs were agreed at the start of the year and monitored on a regular basis. No adjustments to previous years were required.

- i For administration costs relating to the award and payment of contributory benefits on behalf of the Fund.
- ii For the collection of NICs, maintenance of individual records and associated tasks.
- iii For payroll and investment services provided to Northern Ireland departments.
- iv For the administration of the Redundancy Payments Scheme as required under the Employment Rights (Northern Ireland) Order 1996.
- v For investment services provided by the CRND in pursuance of Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992.
- vi For the audit of the 2016-17 NIF Account.
- vii For actuarial services relating to the NIF.

## 11. Other payments

For the year ended 31 March		2018	2017
	Notes	£000	£000
State Pension deferred lump sum tax payments	i	2,347	2,602
Personal pensions payments	ii	103	0
		<b>2,450</b>	<b>2,602</b>

- i State Pension deferred lump sum is assessed as taxable income. Tax is deducted from State Pension deferred lump sum every time a payment is made to a customer and paid to HMRC monthly in arrears.
- ii The Pension Scheme Act 1993, supplemented by the Pensions Act 1995, entitled employed earners with a personal pension to a "minimum contribution" to their plan from the NIF. On 5 April 2012 the abolition of contracting-out on a defined contribution basis took place resulting in these contributions no longer being an entitlement. In 2017-18 payments exceeded recoveries but in 2016-17 recoveries exceeded payments (see note 8).

## 12. Closing balance

For the year ended 31 March		2018	2017
	Notes	£000	£000
Monies held by the NINIFIA	i	1,104,589	935,883
Funds held at bank (incl. uncleared payments)	ii	3	3
Due from other Government departments	iii	1,731	6,703
Due to other Government departments	iii	(490,774)	(330,926)
		<b>615,549</b>	<b>611,663</b>

- i CRND is responsible, in accordance with Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992, amended by paragraph 44(3) of Schedule 3 to the Social Security Contributions (Transfer of Funds, etc.) (Northern Ireland) Order 1999 for the investment of the NINIFIA. They are authorised to invest in accordance with directions given by HM Treasury and in line with the Memorandum of Understanding between HMRC and CRND.
- ii These are funds held at the bank.
- iii These figures represent any amounts from HMRC, the Great Britain NIF, DfC and DfE which are due to or from the NIF. They arise as there is a difference between what is paid to and from the NIF and what is recognised in the accounts which is based on the amounts paid out or received by the other Government departments.

# Other financial information

Details of losses, payments and fraud and error are included below to provide further information on the Fund for the reader of the accounts. Additional information can be found in the published annual report and accounts for HMRC and DfC.

## a. Losses

For the year ended 31 March		2018		2017	
	Notes	Amount £000	No. of cases (where available)	Amount £000	No. of cases (where available)
Contribution losses	i	7,705	-	8,262	-
Redundancy losses	ii	4,707	245	6,011	370
Benefit losses	iii	2,465	-	2,149	-
		<b>14,877</b>	<b>245</b>	<b>16,422</b>	<b>370</b>

- i Contribution losses include remissions and write-offs and insolvency debts. Remissions in respect of unpaid contributions are granted when HMRC has decided not to pursue the liability, for example on the grounds of value for money or official error. Write-offs occur when there is no practical means of pursuing the liability.
- ii Redundancy losses are the amounts written off during the year in respect of redundancy payments to employees, deemed irrecoverable from their employers mainly due to insolvency.
- iii Benefit losses include administrative losses, write-offs and Compensation Recovery Unit losses.

## b. Special payments

For the year ended 31 March		2018		2017	
	Notes	£000	No. of cases	£000	No. of cases
Wrongly advised benefit	i	0	-	11	1
Extra statutory payments	ii	0	-	435	1,919
Total special payments		<b>0</b>	<b>-</b>	<b>446</b>	<b>1,920</b>

For 2017-18 the special payments are zero as there were no cases of wrongly advised benefit and from 6 April 2018 extra statutory payments in respect of ESA customers who moved from GB to NI are no longer applicable.

- i These are ex gratia payments made to claimants who were wrongly advised of their entitlement by DfC.
- ii From 2013 payments of ESA (contribution based) benefit to individuals who had moved from Great Britain to Northern Ireland were classified as extra statutory special payments.

The Social Security (Great Britain Reciprocal Arrangements) Regulations (Northern Ireland) 2016 (S.R. 2016 No.149) came into operation on 6 April 2016. The effect of this is that, after 6 April 2016 Extra Statutory payments in respect of ESA customers who moved from Great Britain to Northern Ireland, are no longer applicable.

### c. Fraud and error in benefit payments

#### Background

The Social Security and Benefits (Northern Ireland) Act 1992 and related legislation sets out the basis on which DfC calculates and pays benefits from the NIF.

DfC aims to pay the right money to the right person at the right time; however, the complexity of the benefit systems and the inherent risks associated with the award and payment of benefits can result in inaccurate payments being made in a proportion of benefits. Despite these challenges, the majority of DfC payments are paid correctly.

#### Overall performance analysis

The estimated monetary amount of overpayments from the NIF due to fraud and error decreased from £9.14 million in 2016-17 to £6.67 million in 2017-18. The level of overpayments as an overall percentage of NIF benefit payments decreased from 0.35% in 2016-17 to 0.25% in 2017-18.

The estimated monetary amount of underpayments decreased from £8.66 million in 2016-17 to £7.94 million in 2017-18. The level of underpayments as an overall percentage of NIF benefit payments decreased from 0.33% in 2016-17 to 0.30% in 2017-18.

This represents an overall improved performance for 2017-18 with the overall level of NIF benefit over and underpayments actually decreasing to 0.55% as a percentage of total NIF benefit payments (2016-17: 0.68%). This is with benefit payments over the same period increasing by approximately £58.4 million, an increase of 2.2%.

**Figure 1: Estimated levels of overpayment and underpayment due to fraud and error**

Fraud/Error	Overpayment				Underpayment			
	£m		% of NIF Benefit Payments		£m		% of NIF Benefit Payments	
	2017-18	2016-17	2017-18	2016-17	2017-18	2016-17	2017-18	2016-17

Source: Northern Ireland DfC fraud and error estimates produced by DfC Standards Assurance Unit

---

The tables on the previous page (figures 1 and 2) are based on the DfC estimates and are subject to a degree of statistical uncertainty. They are prepared to within a stated range of accuracy, described as confidence intervals. DfC has prepared the estimates to a 95% confidence level. DfC estimates that for 2017-18 the levels of overpayment lie in the range of £3.8 million to £10.7 million (2016-17: £6.0 million to £13.2 million); whilst the corresponding range of underpayments is from £3.2 million to £20.8 million (2016-17: £3.8 million to £21.4 million).

Customer fraud and error estimates for 2017-18 use proxy values for specific benefits. Rows, columns and percentages may not sum due to rounding.

For additional information relating to the estimated levels of over/underpayments due to fraud and error please refer to the 2017-18 DfC annual report and accounts.

### **DfC continuing action and strategy**

DfC operates in the context of administering a total of 33 benefits, including the NIF benefits. Fraud and error occurs in a context where over 99% of expenditure of NIF funded benefits are paid correctly. This represents a high level of accuracy. Overall the level of NIF over and underpayments for 2017-18 has improved at 0.55% (2016-17: 0.68%) of annual NIF benefit payments; the lowest level ever recorded.

During 2017-18, sustaining performance on fraud and error remained at the core of the DfC's key business priorities. The regular monitoring and measuring of official error, customer error and customer fraud continued throughout the year as part of DfC's Financial Accuracy and Benefit Review processes.

In 2017, the department have continued to apply proxy figures to Northern Ireland NIF benefits. This approach brings DfC methodology further in line with DWP in Great Britain.

DfC's fraud and error measurement approach is also broadly consistent with counterparts in DWP. Throughout the year DfC continued to develop its activities to reduce fraud and error. The approach taken is multi-dimensional involving case intervention, checking cases to prevent or detect error, and staff accuracy meetings. Current and proposed activities are designed to be proportionate, represent value for money with regard to the cost of control, facilitate customer accessibility, ensure timely benefit payments, and deliver impacts on fraud and error. DfC also seeks to reduce customer mistakes by influencing customer behaviour to report changes promptly where failure to do so may lead to over and underpayments.

# Accounts Direction given by HM Treasury in accordance with Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992

1. This direction applies to HM Revenue and Customs ("HMRC").
2. HMRC shall prepare a statement of the transactions on the National Insurance Fund of Northern Ireland for the year ended 31 March 2016, and subsequent financial years, in compliance with all relevant accounts and disclosure requirements in *Managing Public Money* and any other guidance issued by HM Treasury which is in force for that financial year.
3. This statement shall be prepared so as to properly present the state of affairs for the year then ended and shall comprise:
  - a. a foreword which shall state that the account has been prepared in accordance with the direction issued by HM Treasury in pursuance of Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992. The foreword will also include details of the following:
    - i statutory background;
    - ii operational responsibilities;
    - iii financial performance;
    - iv audit arrangements; and
    - v responsibilities of the Accounting Officer.
  - b. an account of receipts and payments conforming to the format shown in the Appendix.
  - c. a statement of balances conforming to the format shown in the Appendix.
  - d. such notes as may be necessary for the purpose referred to below:
    - i analysis of the payments and receipts including any explanation or background that may be necessary to understand the account;
    - ii. in the note on administrative costs, the estimated costs for the current year and the adjustments for previous years separately identified;
    - iii. a statement of the securities in which the National Insurance Fund is invested by the National Debt Commissioners in accordance with Section 141(3) of the Social Security Administration Act 1992; and
    - iv. details of any irregular, uncertain or special payments.
  - e. disclosures of any material payments or income that has not been applied to the purposes intended by Parliament or material transactions that have not conformed to the authorities which govern them.
4. The foreword and the account shall be signed by the Accounting Officer.
5. This accounts direction shall be reproduced (but with the exception of the related Appendix) as an annex to the account.
6. This direction supersedes the accounts direction dated 12 October 2010.
