

Operational Low Flying Training Timetable 12 - 16 Nov 2018

The table below sets out the timetable for use of the three Tactical Training Areas (TTA) used for operational low flying training by fast jets and Hercules transport aircraft. Operational low flying is an essential skill and is practised by fixed wing aircraft between 100ft and 250ft; a more representative altitude at which pilots would fly in a combat scenario. The final decision to use a TTA is taken on the day itself as this kind of training can only take place when weather conditions allow. While it is likely some of the slots will not be used, no additional times will be added to those already booked.

When a TTA is active, routine low flying by other military users can take place between 500ft and 2000ft. When the TTA is not in use standard low flying training is permitted down to 250ft and helicopters down to ground level. Late spring and summer are the busiest times for low flying as squadrons make full use of good weather to carry out their training.

The three TTA are:

LFA 7(T) - Central Wales

LFA 14(T) - Northern Scotland

LFA 20(T) - the borders area of Southern Scotland and Northern England

	LFA 7(T)	LFA 14(T)	LFA 20(T)
Mon 12 Nov	1130-1230	1100-1200 1300-1400	1030-1130 1145-1245
Tue 13 Nov	1145-1245	1200-1300	1200-1400
Wed 14 Nov	1200-1300	1200-1400	1145-1245 1330-1430
Thu 15 Nov	1100-1200	1400-1500	1045-1145 1200-1400
Fri 16 Nov	1030-1130	1030-1130 1300-1400	1030-1130
