

Application for Commission Notice / Mutual Recognition - Motorcycles

Important Note: Prior to making an application to VCA, please read the Guidance Notes on page 3.

Applicant and vehicle details:

Applicants Name:

United Kingdom Address, including postcode
Please type the address or write in **BLOCK CAPITALS:**

Telephone Number:

E-mail address:

Vehicle make and model:

VIN / Chassis number (Can be located on the vehicle,
and the European Certificate of Conformity) :

Vehicle country origin:

Please tick, as appropriate, to show the documents you are submitting with this application. Please also confirm the method of payment - if paying by credit or debit card you will also need to complete the VCA payment form and submit this with your application. If paying by cheque this will need to be payable to "VCA" or "Vehicle Certification Agency".

Original European Certificate of Conformity

AND

Original, vehicle specific, garage invoice(s) / statement

(Please see page 4 for more details)

£100, payable to VCA, payment made by:

Cheque (NOTE: application held back for 10 working days)

Credit / debit card (Please complete the VCA payment form)

	VCA use only
Job Number <input style="width: 150px;" type="text"/>	<input type="checkbox"/> Cheque <input type="checkbox"/> Credit Card <input type="checkbox"/> Other

Written Statement - to be completed by the applicant:

Please read the written statements below, once all items apply to your vehicle, tick the relevant boxes and sign and date the statement at the bottom confirming that your vehicle now conforms to each of these points in full. Please note we can not accept any options other than those outlined below.

1) That the headlamp(s) are UK specification (headlight beam dips to the left).

Note: stickers, beam-benders / deflectors are not acceptable.

We can accept any one of the following options:

- a) The factory fitted (original build specification) headlight dips left as standard
- b) The factory fitted (original build specification) headlight is flat beam as standard
- c) The factory fitted (original build specification) headlight has been adjusted from dipping right to left via a standard feature of the vehicle (e.g. lever behind the headlight)
- d) The headlight has been replaced with a fully UK specification, left dipping headlight, without the use of stickers, beam deflectors or any other device

Standard feature and evidence submitted

Changed and evidence submitted

2) That a speedometer has been fitted which is capable of indicating speed in both miles per hour and kilometres per hour, either simultaneously, or by operation of a switch.

Note: We can not accept secondary devices, hand written changes or multiple stickers applied to the speedometer. We can only accept the changes detailed below.

The speedometer must be marked up to the maximum speed of the vehicle, with graduations at 1, 2, 5, or 10mph, and with values at intervals not exceeding 20mph. For this change we can only accept the following options:

- a) That the factory fitted speedometer is dual marked as standard
- b) The existing (digital) speedometer is, permanently, re-programmed, through a standard feature of the vehicle, to display the vehicle speed in mph
- c) A miles per hour speedometer is fitted in-place of the factory fitted unit
- d) A professional, single, miles per hour, overlay is applied directly to the speedometer face plate, not the glass front plate (the overlay must be durable and accurate, with markings visible in both day and night driving conditions).
- e) A dual marked dial / fascia has been added as a replacement to the factory fitted one

Standard feature and evidence submitted

Changed and evidence submitted

I declare that I have read the VCA application form, in full, and that the details I have added to this application form are true and accurate.

Signed (by the applicant):

Dated:

**Please now send your completed application to:
VCA, 1, The Eastgate Office Centre, Eastgate Road, Bristol. BS5 6XX
We advise sending the documents by recorded or special delivery.**

Guidance Notes

The Vehicle Certification Agency is an Executive Agency within the United Kingdom Department for Transport. Details of the agency are available on our web-site: www.vehicle-certification-agency.gov.uk

Guidance Notes: The following notes are intended to help the reader identify if their vehicle is subject to the provisions of the Commission Notice / Mutual Recognition scheme and should be read, in full, prior to making an application to VCA.

Commission Notice / Mutual Recognition: This procedure is intended for vehicles built to a European specification that are being imported into the United Kingdom from other European countries. In order to process an application under this scheme we require specific documentation, and payment, as outlined in this application form.

Age of vehicle:

If your vehicle is over 10 years of age, based on the date of first registration, it is exempt from this VCA procedure. Please contact DVLA to discuss vehicle registration and do not apply to VCA. If your vehicle is less than 10 years of age, based on the date of first registration, and has a European Certificate of Conformity, with 51 or 52 numbered items, that shows the vehicle was not built to the UK specification at the time of build then Mutual Recognition would be required. If however you're importing a light goods (N1) vehicle an acceptable alternative would be an original Foreign Registration document with a Commission Notice Letter provided by the vehicle manufacture. If your vehicle is a Motorhome please provide the Certificate of Conformity for the final stage of the vehicle.

Vehicle previously registered in the United Kingdom?

If this applies to your vehicle please contact the DVLA to discuss the requirements for re-registration.

First registered outside of Europe?

In this case, unless there is relevant documentation as mentioned above, you would need to contact DVSA to discuss the Individual Vehicle Approval scheme and not apply to VCA.

Obtaining documents:

In order to obtain a duplicate Certificate of Conformity or Commission Notice Letter (N1 category only), please contact the vehicle manufacturer.

PLEASE NOTE: We do not accept any of the following documents:

- Photographs of the vehicle features
- Vehicle handbook extracts
- Parts receipts

Please only send us the documents and payment as outlined in this application form, VCA are not liable for any additional documentation that we did not request. We will immediately return any documentation we did not request back to the address stated on the application form via 1st class post. If you are unable to provide the required documentation as requested then please visit the following website <https://www.gov.uk/importing-vehicles-into-the-uk/overview> for alternative options.

Privacy Information

The personal information you have provided in this form has been provided to allow VCA to process your application. Details of how this data will be handled, stored and used can be found in our "[Privacy Notice](#)" (please follow the link). If you are not completing this form electronically and would like us to send you a hard copy of the Notice, then please contact the Data Protection Manager, VCA, 1 The Eastgate Office Centre, Eastgate Road, Bristol BS5 6XX and we will be pleased to send you a copy.

Original European Certificate of Conformity (CoC):

This document is vehicle specific; issued by the vehicle manufacturer; there will be a colour logo and / or a watermark. For passenger cars we can accept CoCs with 51 or 52 numbered items. As well as giving details of the vehicle it will also include a European Type-Approval number and be signed by a specified individual.

Commission Notice letter (N1 vehicles only):

This is a document that the UK based manufacturer / homologation team may be able to issue; it compares the technical specification of your individual vehicle with the nearest United Kingdom approved equivalent and confirms any technical difference between the two.

Original, detailed, garage invoice / statement:

This must come from a garage that is, at least, one of the following: an MOT test station / a VAT registered garage / a garage registered with Companies House. To help prevent an application being delayed we would suggest that all garage evidence is written in English.

The statement must be on full garage headed paper, giving their full contact details including their MOT test station number / VAT number and registered address / Companies House number and registered address. It needs to quote the 17 digit vehicle chassis (VIN) number, be dated within 3 months from the date of receipt, and make clear the garage has worked on, or inspected the vehicle.

The garage details will be checked so please make sure that the garage evidence clearly sets out the address they are registered to. For example, in some cases a garage will have their business registered at another address for VAT, if this is the case their registered address must also be clearly stated on their headed paper.

The invoice must clearly describe the changes made to the vehicle; we need to know what has been changed and how this change meets UK compliance. A statement such as "changed headlights" is not sufficient evidence that, for example, the original vehicle headlights have been removed and new, full UK specification left-dipping headlights have been fitted to the vehicle. Where an item is fitted, as standard, suitable for the United Kingdom the garage evidence must make clear that the item is standard and how it is standard (e.g. the vehicle has rear-fog lights fitted as standard on both the rear left and right of the vehicle).

Payment:

The fee is **£100**

Payment can only be made by credit / debit card or cheque (payable to VCA).

If payment is made by cheque then, for a successful application, the approval will be held back for 10 working days following receipt of the full required documentation and payment.

If payment is made by credit or debit card then, if the application is successful, the approval should be completed in 5 to 10 working days from the day of receipt.

If additional documentation is required, the time to complete an application would be based on when we receive the final paperwork. An incomplete application is held for 1 month from receipt to allow for completion. Please note that if an application is made that we are not able to complete there will be a partial refund of £60, the refund will expire 3 months from the date stated on the VCA refund letter returned with your documents. If VCA believe your application to be fraudulent you will not be eligible for a refund and the Police maybe contacted.

Posting the documents:

If we are able to issue a certificate these will be sent to a United Kingdom postal address by Royal Mail first class delivery. **If you would like your documents returned by 'Special Delivery', please provide a pre-paid 'Special delivery' envelope when sending your application. VCA will not be liable for any loss or damage that occurs during postage.**

Additional:

We do not offer an 'over the counter' or 'as you wait' service. There is no public counter.

Applications are processed as quickly as possible but can take the maximum time as detailed in the payment section above. Please be aware that in busy periods applications may take longer to process than detailed above.

If we are able to issue a certificate, once you receive it, you then apply to DVLA for registration. If not yet done please contact DVLA to establish exactly what they require. If we issue a certificate for your vehicle and you are not then able to register the vehicle we can not refund any money paid to VCA.

The procedure outlined in this document, for successful applications, leads to a certificate that can be used as part of an application to the DVLA for registration. It can not be issued to vehicles registered in the United Kingdom that are being exported to another country.

For all enquiries, please contact: vehicleimporting@vca.gov.uk
