Early years foundation stage profile results in England, additional tables 2017/18

Metadata guidance document

November 2018

Contents

Description

This document describes the content of the 'Early years foundation stage profile results: 2017 to 2018' underlying data for the additional tables.

Coverage

The data covers early years foundation stage profile (EYFSP) assessment results for those children who were in receipt of a government funded early education place at the end of the early years foundation stage only. All providers of state-funded early years education, including: academies; free schools; and private, voluntary and independent (PVI) providers in England are within the scope of the EYFSP data collection. Refer to the technical document for more information on coverage.

EYFSP assessment results are matched to pupil characteristics in the national pupil database (NPD) to obtain the information required to produce the data included in the additional tables. Refer to the additional tables technical document for more information.

The underlying data files are in csv format and include national, regional, local authority and local authority district level information for England.

Statistical disclosure control: data availability and suppression

The following conventions are used throughout the underlying data.

'.' Not applicable

'x' Indicates a figure has been suppressed to protect confidentiality: values of 1 or 2 and percentages based on 1 or 2 pupils in either the numerator or denominator are suppressed. Secondary suppression and rounding have also been applied to avoid potential disclosure. Refer to the additional tables technical document for more information.

Where missing and unclassified information is not included in underlying data tables, or rounding has been applied, components may not sum to totals.

Annex A: Variable listing and descriptions

Variable names and descriptions for each underlying data file are provided below.

EYFSP_National_1_key_measures_additional_tables_2018 (national-level attainment in key measures by pupil characteristics)

Variable name	Variable description
year	Academic year in which EYFSP assessment was taken
level	Geographical level: national
country_code	Country code – 9 digit code
country_name	Country name
characteristic	Characteristic group, eg ethnicity
characteristic_type	Characteristic type, eg white
gender	Gender of pupil: all (girls and boys); girls; boys
number_of_pupils	Number of pupils included in EYFSP results
elg_number	Number of pupils achieving at least expected level across all early learning goals
elg_percent	Percentage of pupils achieving at least expected level across all early learning goals
gld_number	Number of pupils achieving a good level of development
gld_percent	Percentage of pupils achieving a good level of development
point_score	Total point score based on assessment rating: 1 (point) - emerging; 2 - expected; 3 - exceeded
average_point_score	Average point score: total point score divided by number of pupils

EYFSP_National_2_ethnicity_SEN_FSM_additional_tables_2018 (national-level attainment in key measures by FSM eligibility, and ethnicity and SEN)

Variable name	Variable description
year	Academic year in which EYFSP assessment was taken
level	Geographical level: national
country_code	Country code – 9 digit code
country_name	Country name
characteristic	Characteristic group, eg ethnicity
characteristic_type	Characteristic type, eg white
fsm	FSM - pupils eligible for free school meals; All other pupils - pupils not eligible for free school meals and for whom FSM eligibility was unclassified or could not be determined; Total - FSM and all other pupils
gender	Gender of pupil: all (girls and boys); girls; boys
number_of_pupils	Number of pupils included in EYFSP results
elg_number	Number of pupils achieving at least expected level across all early learning goals
elg_percent	Percentage of pupils achieving at least expected level across all early learning goals
gld_number	Number of pupils achieving a good level of development
gld_percent	Percentage of pupils achieving a good level of development
point_score	Total point score based on assessment rating: 1 (point) - emerging; 2 - expected; 3 - exceeded

Variable name	Variable description
average_point_score	Average point score: total point score divided by number of pupils

EYFSP_National_3_SEN_ethnicity_additional_tables_2018 (national-level attainment in key measures by SEN and ethnicity)

Variable name	Variable description
year	Academic year in which EYFSP assessment was taken
level	Geographical level: national
country_code	Country code – 9 digit code
country_name	Country name
characteristic	Characteristic group: SEN (Special Educational Needs)
characteristic_type	Characteristic type, eg SEN support
ethnicity	Ethnicity (major group) of pupil, eg Chinese
gender	Gender of pupil: all (girls and boys); girls; boys
number_of_pupils	Number of pupils included in EYFSP results
elg_number	Number of pupils achieving at least expected level across all early learning goals
elg_percent	Percentage of pupils achieving at least expected level across all early learning goals
gld_number	Number of pupils achieving a good level of development
gld_percent	Percentage of pupils achieving a good level of development
point_score	Total point score based on assessment rating: 1 (point) - emerging; 2 - expected; 3 - exceeded
average_point_score	Average point score: total point score divided by number of pupils

EYFSP_National_4_ELG_additional_tables_2018 (national-level attainment in each early learning goal by pupil characteristics)

Variable name	Variable description
year	Academic year in which EYFSP assessment was taken
level	Geographical level: national
country_code	Country code – 9 digit code
country_name	Country name
characteristic	Characteristic group: SEN (special educational needs)
characteristic_type	Characteristic type, eg SEN support
gender	Gender of pupil: all (girls and boys); girls; boys
elg_category	Early learning goal (ELG) category
number_of_pupils	Number of pupils included in EYFSP results
emerging_number	Number of pupils achieving emerging level in EYFSP assessment
expected_number	Number of pupils achieving expected level in EYFSP assessment
exceeded_number	Number of pupils achieving exceeded level in EYFSP assessment
emerging_percent	Percentage of pupils achieving emerging level in EYFSP assessment
expected_percent	Percentage of pupils achieving expected level in EYFSP assessment
exceeded_percent	Percentage of pupils achieving exceeded level in EYFSP assessment

EYFSP_LA_1_key_measures_additional_tables_2018 (LA-level attainment in key measures by pupil characteristics)

Variable name	Variable description
year	Academic year in which EYFSP assessment was taken
level	Geographical level: national, regional and local authority
country_code	Country code – 9 digit code
country_name	Country name
region_code	Region code (government office region) – 9 digit code
region_name	Region name (government office region)
old_la_code	Local authority code (old) – 3 digit code
new_la_code	Local authority code (new) – 9 digit code
la_name	Local authority name
characteristic	Characteristic group, eg ethnicity
characteristic_type	Characteristic type, eg white
gender	Gender of pupil: all (girls and boys); girls; boys
number_of_pupils	Number of pupils included in EYFSP results
elg_number	Number of pupils achieving at least expected level across all early learning goals
elg_percent	Percentage of pupils achieving at least expected level across all early learning goals

Annex B: How to use the underlying data files

Underlying data files can be filtered by column to retrieve specific information. Two examples on how to do this are provided here to assist users.

Details on how to filter datasets can be found online. Please see, for example, the [Microsoft Excel Office Support page](#) for instructions on how to filter data in a range or table.

Example 1: retrieve attainment data for a specific characteristic and local authority

This example relates to the underlying data file EYFSP_LA_1_key_measures_additional_tables_2018

To search for data by FSM eligibility for Doncaster and Leeds local authorities, the following filters should be set: **characteristic** to 'FSM eligibility', **level** to 'Local Authority' and **la_name** to 'Doncaster' and 'Leeds'. The relevant data for each local authority is shown in columns M to S.

Example 2: retrieve early learning goal data for a specific early learning goal and local authority district

This example relates to the underlying data file EYFSP_LAD_2_ELG_additional_tables_2018

The **'elg_category'** column in the underlying data files allows users to choose a specific early learning goal.

To select information on the people and communities early learning goal for York local authority district, the following filters should be set: **lad_name** to 'York' and **elg_category** to 'People and communities'. The relevant data is shown in columns I to Q.
