

North East

Our modern Industrial Strategy sets out our long-term plan to boost productivity by backing business to create high quality, well-paid jobs throughout the United Kingdom with investment in skills, industries and infrastructure.

In the North East area a partnership of business and civic leaders – alongside other local partners – is working with the government to build on existing strengths, help business to flourish, and grow skills and opportunities for workers across the area.

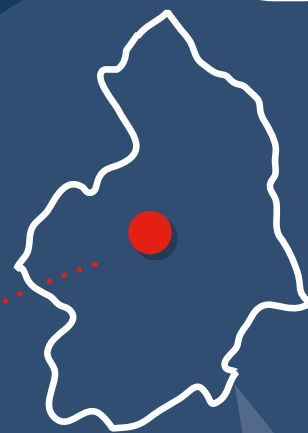

Industrial Strategy highlights include:

 **£8.1m** for the National Centre for Healthcare Photonics, to help companies of all sizes to develop technologies using advanced light technology – such as fibre optics and X rays – for healthcare purposes.

 **£82m** funding for the new Northern Spire Bridge built across the River Wear.

 **£6.8m** to accelerate housebuilding by providing the vital infrastructure needed to access new and existing sites.

 **905,200** people in employment, an increase of **60,100** since 2010. **69,100** workers directly benefiting from the National Living and Minimum Wages. **24,790** apprenticeships starts last year.

Population: 1,957,200
Businesses: 50,700

Case study: The Beacon of Light

The Beacon of Light is a strategic regeneration and skills capital project delivering significant economic benefits for Sunderland and the North East area. £1.7m in funding provided for the facility will create five storeys of sports halls, football pitches, informal learning spaces and state-of-the-art education suites designed to facilitate four interactive zones: Education, Health and Wellbeing, Sport and Play, and World of Work.

North East Local Enterprise Partnership is now working with the government to develop its Local Industrial Strategy.

We have committed more than £45bn to Industrial Strategy programmes supporting research, local infrastructure, training and business growth throughout the United Kingdom. This money is already starting to be spent on the ground.
