

Solent

Our modern Industrial Strategy sets out our long-term plan to boost productivity by backing business to create high quality, well-paid jobs throughout the United Kingdom with investment in skills, industries and infrastructure.

Across the Solent area a partnership of business and civic leaders – alongside other local partners – is working with the government to build on existing strengths, help business to flourish, and grow skills and opportunities for workers across the area.

Industrial Strategy highlights include:

 **£5m** of funding toward establishing an Innovation and Collaboration Hub as part of the £23m National Maritime Systems Centre redevelopment at Portsdown Technology Park.

 **£9.3m** to accelerate housebuilding by providing the vital infrastructure to access new and existing sites.

 **£3.9m** to provide residents with the digital connectivity they need through improvements in the availability of full fibre broadband.

 **613,400** people in employment, an increase of **39,700** since 2010. **25,800** workers directly benefiting from the National Living and Minimum Wages. **11,380** apprenticeships starts last year.

Population: : 1,560,000
Businesses: 64,000

Case study: Centre for Cancer Immunology, Southampton

The UK's first dedicated Centre for Cancer Immunology, adjacent to the University Hospital Southampton NHS Foundation Trust, is being developed following a £4.5m investment. The centre will support innovation in the field of immunology research, placing Solent firmly on the map as a global centre of excellence in the development and delivery of new cancer therapies, creating a significant number of new jobs in the Southampton region in the Life Sciences sector.

Solent Local Enterprise Partnership is now working with the government to develop its Local Industrial Strategy.

We have committed more than £45bn to Industrial Strategy programmes supporting research, local infrastructure, training and business growth throughout the United Kingdom. This money is already starting to be spent on the ground.
