[Redacted]

[Redacted]

Date: 23 July 2018

Dear [Redacted],

Thank you for your requests from a range of dates between January and May 2018 on information relating to the Ministry of Defence Equipment Plan publications from 2015, 2016 and 2017. The breakdown of your requests by graph is found at the end of this letter (Annex A).

Please accept my sincere apologies for the delay in responding to these requests due to a technical oversight that meant they were collecting under an unoccupied account.

I am treating your correspondence as a request for information under the Freedom of Information Act 2000 (FOIA).

A search for the information has now been completed within the Ministry of Defence, and I can confirm that information in scope of your request is held. We have retrieved all the relevant Cat A and B projects as recorded in the data sets held on the department's specific financial system Planning, Budgeting and Forecasting (PB&F) that was used to produce the relevant graphs.

The information we have collated for you in response to the requests can be found at Annex A, but some of the information falls entirely within the scope of the qualified exemptions provided for at Sections 24 (National Security) and 26 (Defence) of the FOIA and has been withheld.

Sections 24 and 26 are qualified exemptions and subject to public interest testing which means that the information requested can only be withheld if the public interest in doing so outweighs the public interest in disclosure.

Section 24 and 26(1)(b) have been applied to some of the information because it would not be in the interest of the UK's national security (including defence interests) to provide information on sensitive project names; providing this information may enable adversaries to deduce the nature and scope of sensitive projects allowing increased understanding of defence capabilities and reducing the operational benefits of these projects. The likelihood of this occurring in any instance is markedly increased given the breadth of requests across multiple years. For these reasons, I have set the level of "would", rather than "would likely to".

In favour of release is the presumption towards disclosure under the FOIA as answering this question would increase transparency of sensitive projects.

On balance, I consider the public interest favours maintaining the exemptions and withholding the information you have requested in a few instances.

If you have any queries regarding the content of this letter, please contact this office in the first instance.

If you wish to complain about the handling of your request, or the content of this response, you can request an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail [CIO-FOI-IR@mod.gov.uk](mailto:CIO-FOI-IR@mod.gov.uk)). Please note that any request for an internal review should be made within 40 working days of the date of this response.

If you remain dissatisfied following an internal review, you may raise your complaint directly to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website at <https://ico.org.uk/>.

Yours sincerely,

Defence Resources Secretariat
