International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st January 2016 - 31st December  
2016

April 2022

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2016 and 31st December 2016. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for goods covered by the torture regulation** (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

# Reporting

## Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

## Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	14089	13734	354	1
- Permanent Standard	11710	11368	341	1
- Temporary Standard	845	838	7	0
- Transshipment	13	12	1	0
- Incorporation	1501	1496	5	0
- For goods covered by the torture regulation (Permanent or Temporary)	20	20	0	0
SITCLs	280	268	12	0
OIELs	373	334	39	0
- Standard	320	282	38	0
- Dealer-to-dealer	25	25	0	0
- Cryptographic	18	17	1	0
- Media	6	6	0	0
- Continental Shelf	4	4	0	0
Global Project Licences	0	0	0	0
OITCLs	23	21	2	0

### Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

## Overall Processing Statistics

### Processing statistics covering the period 1st January 2016 to 31st December 2016

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	14608	82	17611	99	13 days
- Permanent Standard	12437	82	15049	99	13 days
- Temporary Standard	833	83	989	99	13 days
- Transhipment	21	75	27	96	11 days
- Incorporation	1298	84	1526	99	13 days
- For goods covered by the torture regulation (Permanent or Temporary)	19	95	20	100	13 days
SITCLs	245	63	377	96	16 days
OIELs	149	30	273	54	55 days
- Standard	83	20	186	46	63 days
- Dealer-to-dealer	37	100	37	100	4 days
- Cryptographic	17	43	34	85	27 days
- Media	6	100	6	100	5 days
- Continental Shelf	6	55	10	91	15 days
Global Project Licences	1	50	1	50	320 days
OITCLs	11	26	34	81	37 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Virtual EU	0	0	0

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	26	£3,320,440
Non-military	6	£678,180
Total	32	£3,998,620

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£863,537
ML3	5	£434,967
ML4	1	£438,878
ML6	1	£280,000
ML10	4	£64,952
ML11	1	£460,000
ML13	11	£738,107
ML15	1	£40,000

all-wheel drive vehicles with ballistic protection.  
assault rifles (6).

assault rifles (17).  
 assault rifles (250) [See footnote 6].  
 blank/inert ammunition [See footnote 16].  
 body armour (8 licences) [See footnotes 12, 3, 32, 4, 6, 7, 8].  
 components for assault rifles (6 licences) [See footnotes 2, 31, 5, 6].  
 components for body armour (7 licences) [See footnotes 12, 3, 32, 4, 6, 7].  
 components for machine guns (4 licences) [See footnotes 21, 31].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 23].  
 components for military support aircraft (4 licences) [See footnotes 10, 14, 24, 29].  
 components for pistols (3 licences) [See footnotes 2, 6].  
 machine guns (8).  
 military guidance/navigation equipment [See footnote 30].  
 military helmets (10 licences) [See footnotes 12, 26, 3, 32, 4, 6, 7].  
 military image intensifier equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 23].  
 pistols (5).  
 pistols (250) [See footnote 6].  
 small arms ammunition (4 licences) [See footnotes 16, 19, 20, 25, 6].  
 training small arms ammunition [See footnote 2].  
 weapon night sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£655,000
5A002	3	£23,180

civil explosive detection/identification equipment (2 licences) [See footnotes 13, 9].  
 civil NBC detection systems [See footnote 27].  
 information security equipment (3 licences) [See footnotes 18, 22].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	body armour, components for body armour, military helmets [See footnote 11]
3	P	general military vehicle components [See footnote 15]
4 (Rv)	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 28]

Rv - Some or all of which have subsequently been revoked.

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software
2	P	aircraft seals, guidance/navigation equipment, inertial equipment

## SITCLs

Source	Issued	Refused	Revoked
Bosnia and Herzegovina	1	0	0
Jordan	1	0	0

## Issued

all-wheel drive vehicles with ballistic protection [See footnote 1].  
promoting the supply of small arms ammunition [See footnote 17].

## Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.
2. The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for end use by a international organisation.
3. Licence granted for end use by a international organisation.
4. Licence granted for protective equipment for crowd control use. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. International Organisation end use.
6. Licence granted for protective equipment for crowd control use. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Humanitarian end use.
9. Licence granted for goods returned after repair in the UK. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. International Organisation end use.
12. Licence granted for accessories / spare parts. Humanitarian end use.
13. Licence granted for accessories / spare parts. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Armed forces end use.
15. Licence granted for accessories / spare parts. Armed forces end use.
16. Licence granted for accessories / spare parts. Diplomatic missions.
17. Licence granted for accessories / spare parts. Law enforcement agency end use.
18. Licence granted for accessories / spare parts. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Civilian / commercial end use.
20. Licence granted for accessories / spare parts. Civilian / commercial end use.
21. Licence granted for accessories / spare parts. International Organisation end use.

- 22. Licence granted for accessories / spare parts. Government end use.
- 23. Licence granted for accessories / spare parts. Armed forces end use.
- 24. Licence granted for accessories / spare parts. End use by the Air Force.
- 25. Licence granted for accessories / spare parts. Diplomatic missions.
- 26. Licence granted for accessories / spare parts. Diplomatic missions.
- 27. Licence granted for accessories / spare parts. Government end use.
- 28. Licence granted for accessories / spare parts. Government end use.
- 29. Licence granted for accessories / spare parts. Government end use.
- 30. Licence granted for accessories / spare parts. Armed forces end use.
- 31. Licence granted for diplomatic missions.
- 32. Licence granted for end use by a international organisation.

## Aland Islands

Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software
2	P	information security equipment, information security software

### Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### Case & goods Footnotes

1. Licence granted for end use country is a State Party to the CWC. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£28,007
Total	3	£28,007

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£18,692
ML10	2	£9,316

components for command/control equipment for unmanned air vehicles [See footnote 2].  
components for military training aircraft.  
general military vehicle components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Switzerland  
United Arab Emirates

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for weapon sights, weapon sights [See footnote 7]
3	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 3]
4	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support

		aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 4]
5	P	technology for uranium isotope separation equipment
6	P	hydrophones, towed hydrophone arrays [See footnote 5]
7	P	technology for nuclear reactors
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
9	P	technology for combined cycle engines
10	P	weapon sights
11	P	weapon sights [See footnote 8]
12	P	technology for military aero-engines
13	P	components for gun silencers, gun silencers
14	P	explosives, non-military detonators [See footnote 10]
15	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 11]
16	T	technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors
17	T	technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors
18	T	technology for enriched uranium, technology for materials containing enriched uranium, technology for materials containing plutonium-239, technology for materials containing uranium-233, technology for nuclear fuel reprocessing equipment, technology for nuclear grade graphite, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium-239, technology for uranium-233
19	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
20	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 12]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
9. Licence granted for testing and evaluation purposes.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Azerbaijan

### Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	73% (19)
% and number of SIELs completed in 60 working days	100% (26)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	58 days
% and number of OIELs completed in 20 working days	38% (3)
% and number of OIELs completed in 60 working days	50% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	13% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£547,747
Non-military	17	£8,015,078
Both Military and Non-military	2	£170,465
Total	21	£8,733,290

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£6,970
ML14	1	£540,777

- T aerial target equipment [See footnote 9].  
T components for aerial target equipment [See footnote 9].  
T sporting guns (2) [See footnote 5].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£11,400
5A002	7	£7,329,875
5D002	3	£14,512
5E002	3	£86,093
6A003	1	£65,000
6A008	2	£377,037
7A103	1	£15,340
8A002	2	£115,820

- components for radar equipment [See footnote 1].  
corrosion resistant chemical manufacturing equipment.  
guidance/navigation equipment.  
imaging cameras.  
information security equipment (7 licences) [See footnotes 11, 2, 3].  
information security software (3 licences) [See footnotes 11, 14, 8].  
radar equipment [See footnote 7].  
rebreathing swimming equipment [See footnote 4].  
submersible equipment.  
technology for information security equipment (2 licences) [See footnote 12].  
technology for information security software [See footnote 11].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£29,195
ML3	1	£860
PL5017	2	£5,140
PL9010	2	£135,270

- T components for pistols.  
T components for sporting guns.  
T components for sporting shotguns (2 licences) [See footnote 10].  
T pistols (3).  
T small arms ammunition.  
T sporting guns (3).  
T sporting shotgun ammunition.  
T sporting shotguns (2) [See footnote 10].  
T sporting shotguns (13).  
T weapon cleaning equipment (2 licences) [See footnote 10].

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software
2	P	information security equipment, information security software
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 6]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	components for marine position fixing equipment [See footnote 13]

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment

## Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Navy.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for demonstration to potential customers. End use by the Air Force.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for accessories / spare parts. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Azores

## Processing Statistics (excluding amendments)

Median processing time OIELs	11 days
% and number of OIELs completed in 20 working days	100% (1)
% and number of OIELs completed in 60 working days	100% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	towed hydrophone arrays

## Bahamas

### Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	100% (4)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	100 days
% and number of OIELs completed in 20 working days	25% (2)
% and number of OIELs completed in 60 working days	50% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£106,276
Non-military	2	£116,430
Total	3	£222,706

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£106,276

components for military patrol/assault craft.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£38,430
6A008	1	£78,000

civil explosive detection/identification equipment.  
components for radar equipment.

### SIELs for goods covered by the torture regulation

#### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£1,959
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£1,959

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£1,959

barbiturate anaesthetic agents for injection.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	components for sporting shotgun ammunition, sporting shotgun ammunition
3	T	towed hydrophone arrays
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
6	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image

		intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 2]

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£89,288
Non-military	10	£457,764
Both Military and Non-military	1	£106,924
Total	20	£653,977

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,000
ML3	1	£500
ML4	1	£19,340
ML6	1	£4,192
ML8	1	£13
ML10	1	£7,688

ML11	3	£19,545
ML14	1	£37,010

- aerial target equipment.
- components for all-wheel drive vehicles with ballistic protection.
- components for military support aircraft.
- T components for sporting guns [See footnote 6].
- T gun mountings [See footnote 6].
- military communications equipment.
- T military communications equipment (2 licences).
- precursors for energetic materials.
- T small arms ammunition [See footnote 6].
- T sporting guns (1) [See footnote 6].
- training hand grenades.
- T weapon sights [See footnote 6].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	2	£801
1A004	2	£223,516
1C227	1	£200
1C228	1	£200
1C351	1	£1,047
5A001	1	£90,000
5A002	2	£93,000
5D002	1	£39,000
6A002	1	£10,000

- calcium [See footnote 1].
- civil explosive detection/identification equipment (2 licences).
- deuterium compounds (2 licences) [See footnote 3].
- direct view imaging equipment.
- information security equipment (2 licences).
- magnesium [See footnote 1].
- software for information security equipment.
- T telecommunications interception equipment [See footnote 9].
- toxins [See footnote 5].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£91,624
ML11	1	£15,100
ML21	1	£100
ML22	1	£100

- components for military guidance/navigation equipment.
- military guidance/navigation equipment.
- radar equipment.
- software for military guidance/navigation equipment.
- technology for military guidance/navigation equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 4]
4	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment,

		military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment, weapon night sights, weapon sights [See footnote 7]
5	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 8]
6	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
7	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 10]
8	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 11]

2	P	information security equipment, technology for information security equipment [See footnote 3]

Rv - Some or all of which have subsequently been revoked.

#### Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.  
All exports for this destination were approved in accordance with the sanctions in place.
- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended. Through Council Decision 2018/280, EU Member States may export certain types of small-calibre sporting rifles, small-calibre sporting pistols and small calibre ammunition, exclusively for use in sports events or sports training, or technical assistance or brokering services, financing or financial assistance related. This will be a limited number and without prejudice to the applicable licensing provisions. Member States shall notify other Member States and the Commission of its intention to grant an authorisation, at least 10 days prior to the authorisation.

All exports for this destination were approved in accordance with the sanctions in place.

- small arms ammunition (2 licences).
- sniper rifles (1) (2 licences).
- sniper rifles (2).
- software for equipment for the production of mortar bombs.
- software for military improvised explosive device decoying/detection/disposal/jamming equipment.
- sporting guns (1).
- sporting guns (8).
- technology for decoying/countermeasure equipment (3 licences).
- technology for equipment for the production of mortar bombs.
- technology for military improvised explosive device decoying/detection/disposal/jamming equipment.
- technology for NBC protective/defensive equipment.
- technology for sniper rifles.
- weapon cleaning equipment.
- T weapon night sights (7 licences).
- weapon sight mounts.
- T weapon sight mounts (2 licences).
- weapon sights (2 licences).
- T weapon sights (5 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£39,000,000
0D001	1	£4
0E001	3	£3
1A007	1	£4,140
1C001	3	£1,292
1C233	1	£1,125

components for nuclear reactors.  
 devices containing enriched lithium manufactures.  
 electromagnetic wave absorbing materials (3 licences).  
 non-military detonators.  
 software for nuclear reactors.  
 technology for nuclear reactors (3 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£17,380
ML1	1	£1,695
ML11	1	£31,409
PL9010	1	£473

T information security equipment.  
 T military communications equipment.  
 sporting guns (5).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£18,106,423
Total	17	£18,106,423

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	8	£8,809,452
ML6	3	£9,275,902
ML10	6	£21,069

components for combat aircraft (2 licences).  
 components for military support aircraft (4 licences).  
 components for turrets (3 licences).  
 components for weapon control equipment (5 licences).  
 periscopes (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Austria
- Brazil
- France
- Germany
- Indonesia
- Italy
- Luxembourg
- Malaysia
- Portugal
- Saudi Arabia
- Spain
- Turkey
- United Kingdom

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for military aero-engines, components for military support aircraft [See footnote 2]
3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for weapon sights, weapon sights [See footnote 6]
5	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 3]
6	P	weapon sights
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	T	towed hydrophone arrays
9	P	hydrophones, towed hydrophone arrays [See footnote 4]
10	P	weapon sights
11	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
12	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare

		<p>equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
13	P	technology for combined cycle engines
14	P	components for NBC protective/defensive equipment
15	P	weapon sights [See footnote 7]
16	P	technology for military aero-engines
17	P	components for gun silencers, gun silencers

18	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 8]
19	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
20	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 9]
21	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 10]
22	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
23	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 11]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Armed forces end use.

9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. Armed forces end use.

## Belize

### Processing Statistics (excluding amendments)

Median processing time OIELs	97 days
% and number of OIELs completed in 20 working days	40% (2)
% and number of OIELs completed in 60 working days	40% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	components for small arms ammunition, small arms ammunition [See footnote 1]
4	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 2]

#### Case & goods Footnotes

1. Ammunition for sporting use for Government and licensed entities.
2. Licence granted for accessories / spare parts. Government end use.

## Benin

### Processing Statistics (excluding amendments)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	6	£222,570
Non-military	5	£74,656
Total	11	£297,226

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£122,500
ML6	2	£8,140
ML13	1	£49,592
ML14	1	£42,338

components for small arms training equipment.  
 general military vehicle components.  
 military helmets [See footnote 5].  
 military support vehicles.  
 sporting guns (1).  
 sporting guns (2).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

1C351	2	£6
5A001	1	£10,000
5D002	1	£8,500
6A003	1	£56,150

T imaging cameras [See footnote 3].  
information security software.  
telecommunications interception equipment.  
viruses (2 licences) [See footnote 2].

**OIELs (excluding Other OIELs)**

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	15	£975,469
Non-military	2	£14,751
Both Military and Non-military	2	£13,675
Total	19	£1,003,895

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£786,998
ML3	2	£33,910
ML10	2	£4,550
ML11	1	£1,400

ML21	4	£28,812
ML22	6	£118,746
PL5017	1	£1,053

command communications control and intelligence software.  
 components for machine guns.  
 components for military guidance/navigation equipment.  
 components for military helicopters (2 licences).  
 components for pistols.  
 equipment for the use of machine guns.  
 gun mountings.  
 machine guns (12).  
 small arms ammunition.  
 software enabling equipment to function as military communications equipment (2 licences).  
 software for military guidance/navigation equipment.  
 sporting guns (1) (2 licences).  
 technology for command communications control and intelligence software.  
 technology for military guidance/navigation equipment.  
 technology for military training equipment (2 licences).  
 technology for software enabling equipment to function as military communications equipment (2 licences).  
 training small arms ammunition.  
 weapon cleaning equipment.  
 weapon night sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£1
PL9010	1	£14,750

sporting shotguns (1).  
 technology for nuclear reactors [See footnote 2].

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£10,925
PL9010	2	£2,750

sporting guns (2).  
 sporting guns.  
 sporting shotguns (1).  
 sporting shotguns.  
 weapon sights.

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
2	P	components for weapon sights, weapon sights [See footnote 4]
3	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 1]
4	T	towed hydrophone arrays
5	P	hydrophones, towed hydrophone arrays [See footnote 3]
6	P	technology for military infrared/thermal imaging equipment
7	P	components for small arms ammunition, small arms ammunition [See footnote 5]
8	P	weapon sights
9	P	weapon sights [See footnote 6]
10	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 7]
11	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£209,353
Non-military	1	£30,132
Total	4	£239,485

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£140,000
ML7	1	£1,660
ML13	1	£67,693

all-wheel drive vehicles with ballistic protection [See footnote 4].  
 components for NBC protective/defensive equipment [See footnote 6].  
 military helmets [See footnote 5].  
 NBC protective/defensive equipment [See footnote 6].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£30,132

information security equipment.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,814
Non-military	5	£44,000
Total	6	£45,814

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL5001	1	£1,814

anti-riot/ballistic shields.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£5,150
6A003	1	£31,700
PL9010	3	£7,150

imaging cameras.  
information security equipment.  
sporting shotguns (1) (3 licences).

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	97% (96)
% and number of SIELs completed in 60 working days	99% (98)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time SITCLs	5 days
% and number of SITCLs completed in 20 working days	100% (1)
% and number of SITCLs completed in 60 working days	100% (1)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	89 days
% and number of OIELs completed in 20 working days	14% (3)
% and number of OIELs completed in 60 working days	29% (6)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	61	£4,563,603
Non-military	25	£2,136,681
Both Military and Non-military	5	£339,980
Total	91	£7,040,264

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£533,971
ML2	4	£958,874
ML4	5	£93,601
ML5	12	£755,524
ML9	12	£515,745
ML10	10	£71,863
ML11	11	£1,481,369
ML13	6	£43,430
ML15	3	£102,320
ML22	3	£306
PL5001	1	£6,000
PL5017	3	£600

- anti-riot/ballistic shields.
- body armour (4 licences) [See footnotes 15, 17, 7].
- components for aircraft cannons.
- components for aircraft military communications equipment.
- components for body armour (2 licences).
- components for combat naval vessels (2 licences).
- components for decoying/countermeasure equipment.
- components for launching/handling/control equipment for missiles.
- components for machine guns.
- components for military communications equipment (2 licences).
- components for military electronic equipment (4 licences).
- components for military guidance/navigation equipment (2 licences).
- components for military radars (8 licences).
- components for military support aircraft (2 licences).
- components for military training aircraft (2 licences).
- components for naval electrical/electronic equipment.
- components for naval engines.
- components for naval guns (3 licences).
- components for pistols [See footnote 16].
- decoying/countermeasure equipment.
- T equipment for the development of naval electrical/electronic equipment.
- T equipment for the use of weapon control equipment.
- general military aircraft components (5 licences).
- general naval vessel components (8 licences).
- gun silencers [See footnote 16].
- hand grenades.
- T military communications equipment.
- T military electronic equipment.
- T military guidance/navigation equipment.
- T military guidance/navigation equipment (2 licences) [See footnotes 1, 23].
- T military helmets (4 licences) [See footnote 15].
- T military image intensifier equipment (3 licences) [See footnotes 1, 23].
- T military infrared/thermal imaging equipment (3 licences) [See footnotes 1, 23].
- T pistols (2) [See footnote 16].
- T rangefinding equipment (3 licences) [See footnotes 1, 23].
- T signalling devices (2 licences).
- T targeting equipment.
- T technology for military guidance/navigation equipment (2 licences).
- T technology for surface-to-air missiles.
- T weapon night sights [See footnote 18].
- T weapon night sights (3 licences) [See footnotes 1, 23].
- T weapon sight mounts (3 licences) [See footnotes 1, 23].
- T weapon sights [See footnote 19].
- T weapon sights (3 licences) [See footnotes 1, 23].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£8,496
1C351	2	£5,743
2B350	2	£19,302
2E301	2	£0
5A002	9	£1,051,997
5D002	1	£100
6A001	2	£759,410
6A003	7	£289,437
6A006	1	£1,635
7A005	1	£560

- T acoustic seabed survey equipment.  
civil NBC protection equipment.  
components for imaging cameras.  
corrosion resistant chemical manufacturing equipment (2 licences).  
global positioning satellite receivers.  
hydrophones.  
imaging cameras (6 licences).
- T imaging cameras.  
information security equipment (8 licences).
- T information security equipment.  
magnetometers.  
software for information security equipment.  
technology for corrosion resistant chemical manufacturing equipment (2 licences).  
toxins (2 licences) [See footnotes 12, 13, 9].

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£150
6A002	4	£31,053
6A003	4	£99,359
ML5	4	£208,838
ML13	1	£580

- body armour.  
civil body armour.  
components for body armour.
- T direct view imaging equipment (4 licences).
- T imaging cameras (4 licences).
- T targeting equipment (4 licences).

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 2]
2	P	components for military aero-engines, components for military support aircraft [See footnote 3]
3	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat

		aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 4]
4	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 5]
5	P	information security equipment, information security software
6	T	towed hydrophone arrays
7	P	hydrophones, towed hydrophone arrays [See footnote 6]
8	P	components for military radars, equipment for the use of military radars, software for military radars, technology for military radars
9	P	components for small arms ammunition, small arms ammunition [See footnote 8]
10	P	weapon sights
11	P	components for combat aircraft [See footnotes 10, 11]
12	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 14]
13	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 20]
14	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile

		launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment, weapon night sights, weapon sights [See footnote 21]
15	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 22]
16	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
17	P	components for combat naval vessels, components for military combat vehicles, components for military helicopters, components for submarines, equipment for the use of military aero-engines, general military aircraft components, general military vehicle components, general naval vessel components

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Law enforcement agency end use.
3. Licence granted for accessories / spare parts. Government end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Ammunition for sporting use for Government and licensed entities.
9. Licence granted for accessories / spare parts. Academic end users.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for academic research purposes. Academic end users.

13. Licence granted for academic research purposes. Academic end users.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for accessories / spare parts. Civilian / commercial end use.
16. Licence granted for testing and evaluation purposes. End use by the Air Force.
17. Licence granted for testing and evaluation purposes. Civilian / commercial end use.
18. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
19. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
20. Licence granted for accessories / spare parts. Armed forces end use.
21. Licence granted for accessories / spare parts. End use by the Navy.
22. Licence granted for accessories / spare parts. End use by the Navy.
23. Licence granted for testing and evaluation purposes. Law enforcement agency end use.

## China

### Processing Statistics (excluding amendments)

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	68% (758)
% and number of SIELs completed in 60 working days	98% (1090)
% [as a % of all SIEL cases processed] and number of SIELs refused	7% (75)

Median processing time OIELs	67 days
% and number of OIELs completed in 20 working days	15% (4)
% and number of OIELs completed in 60 working days	35% (9)
% [as a % of all OIELs cases processed] and number of OIELs refused	19% (5)

Median processing time OITCLs	42 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	100% (1)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	100% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	60	£6,087,275
Non-military	759	£204,178,278
Both Military and Non-military	3	£4,762,496
Total	822	£215,028,049

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£43,482
ML4	4	£50,515

ML5	2	£378,736
ML6	1	£270
ML7	2	£1,443,880
ML9	6	£342,350
ML10	8	£281,748
ML11	23	£1,216,335
ML13	3	£2,700
ML21	4	£4,987
ML22	15	£802,795
PL5001	1	£300
PL5017	2	£1,519,177

accessories for bomb suits [See footnote 37].  
 anti-riot/ballistic shields [See footnote 395].  
 ballistic test equipment (4 licences) [See footnote 215].  
 body armour [See footnote 101].  
 bomb suits (2 licences) [See footnotes 37, 387].  
 components for aircraft military communications equipment [See footnote 476].  
 components for ballistic test equipment (2 licences).  
 components for body armour (2 licences) [See footnotes 101, 37].  
 components for combat naval vessels (3 licences) [See footnotes 373, 374, 450].  
 components for decoying/countermeasure equipment [See footnote 437].  
 components for military auxiliary/support vessels (2 licences) [See footnotes 453, 455].  
 components for military communications equipment (2 licences) [See footnotes 272, 428].  
 components for military electronic equipment (5 licences) [See footnotes 228, 291].  
 components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (4 licences) [See footnotes 228, 307, 457].  
 components for military helicopters (2 licences) [See footnotes 315, 415].  
 components for military radars [See footnote 231].  
 components for military support aircraft.  
 components for munitions/ordnance detection/disposal equipment [See footnote 433].  
 components for NBC detection equipment (2 licences) [See footnotes 12, 193].  
 components for periscopes.  
 components for sporting guns [See footnote 259].  
 equipment for the use of NBC detection equipment [See footnote 193].  
 general military aircraft components [See footnote 434].  
 general military vehicle components [See footnote 320].  
 general naval vessel components [See footnote 462].  
 military aircrew safety equipment (3 licences).  
 military communications equipment (4 licences) [See footnotes 37, 430].  
 military electronic equipment (4 licences) [See footnotes 239, 27].  
 military equipment for initiating explosives.  
 military guidance/navigation equipment (2 licences) [See footnotes 480, 99].  
 military helmets (2 licences) [See footnotes 37, 387].  
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 31].  
 munitions/ordnance detection/disposal equipment [See footnote 433].  
 NBC detection equipment (2 licences) [See footnotes 12, 193].  
 software for ballistic test equipment (3 licences).  
 software for military radars [See footnote 35].  
 technology for ballistic test equipment (3 licences).  
 technology for general military vehicle components [See footnote 320].  
 technology for general naval vessel components [See footnote 459].  
 technology for ground vehicle military communications equipment [See footnote 240].  
 technology for military communications equipment (3 licences) [See footnotes 428, 430, 61].  
 technology for military helicopters [See footnote 315].  
 technology for military support aircraft [See footnote 160].  
 technology for NBC detection equipment (2 licences) [See footnote 193].  
 technology for periscopes.  
 technology for weapon cleaning equipment [See footnote 243].  
 weapon cleaning equipment [See footnote 243].  
 weapon night sights [See footnote 335].  
 weapon sights.  
 T weapon sights [See footnote 436].

- accelerometers.
- acoustic seabed survey equipment (3 licences) [See footnotes 124, 94].
- T acoustic seabed survey equipment (2 licences) [See footnotes 238, 438].
- bacteria.
- biotechnology equipment (5 licences) [See footnotes 133, 301, 338, 410, 442].
- calibration equipment for guidance/navigation equipment (2 licences) [See footnote 398].
- chemicals used for chemical/materials production.
- chemicals used for general laboratory work/scientific research [See footnote 175].
- civil explosive detection/identification equipment (8 licences) [See footnote 9].
- civil NBC detection systems [See footnote 223].
- civil NBC protection clothing.
- civil NBC protection equipment [See footnote 200].
- civil unmanned air vehicles [See footnote 449].
- components for biotechnology equipment [See footnote 63].
- components for civil NBC detection systems [See footnote 223].
- components for corrosion resistant chemical manufacturing equipment (11 licences) [See footnotes 11, 177, 296, 302, 325, 332, 371, 372, 377, 378, 56, 62, 84].
- components for electronic measurement/test equipment.
- components for information security equipment.
- components for instrumentation cameras (4 licences) [See footnote 59].
- components for magnetometers [See footnote 408].
- components for marine position fixing equipment (2 licences) [See footnote 83].
- components for semiconductor manufacturing equipment (4 licences).
- components for submersible equipment.
- composite laminates [See footnote 191].
- composite structures (2 licences) [See footnotes 150, 186].
- constituents of propellants (2 licences) [See footnotes 126, 427].
- controlled atmosphere furnaces (4 licences) [See footnotes 300, 71, 97].
- corrosion resistant chemical manufacturing equipment (45 licences) [See footnotes 102, 107, 116, 139, 143, 145, 153, 157, 158, 179, 220, 221, 244, 252, 261, 279, 28, 287, 299, 316, 319, 321, 322, 326, 349, 350, 371, 372, 379, 380, 411, 413, 423, 54, 56, 62, 76, 88, 95].
- counter-improvised explosive device equipment.
- T counter-improvised explosive device equipment [See footnote 458].
- cryptanalytic software.
- deuterium solutions (4 licences) [See footnote 412].
- devices containing enriched lithium compounds [See footnotes 367, 368].
- dimensional measuring equipment (7 licences) [See footnotes 109, 330, 361, 362, 363, 364, 407, 93].
- electromagnetic wave absorbing materials (2 licences) [See footnote 419].
- electronic measurement/test equipment (2 licences).
- electronics cooling fluids.
- enriched uranium.
- equipment for the production of gas turbines (5 licences) [See footnote 151].
- explosives detection equipment (2 licences).
- T explosives detection equipment (2 licences).
- extended temperature range integrated circuits (6 licences) [See footnotes 237, 403].
- fibrous/filamentary materials (7 licences) [See footnotes 17, 388, 478].
- focal plane arrays (11 licences) [See footnotes 115, 293, 312, 365, 366, 477, 479].
- T focal plane arrays (2 licences).
- frequency changers (4 licences) [See footnotes 207, 257].
- frequency generators.
- general purpose integrated circuits (3 licences).
- guidance/navigation equipment (10 licences) [See footnotes 218, 219, 383, 394, 40, 461, 474].
- hafnium [See footnote 297].
- hafnium manufactures.
- helium-3 (7 licences) [See footnotes 271, 278, 385].

high energy capacitors [See footnote 1].  
high speed pulse generators (2 licences) [See footnotes 381, 382].  
image intensifier tubes.  
imaging cameras (141 licences) [See footnotes 104, 105, 111, 112, 113, 117, 118, 123, 125, 129, 13, 130, 134, 135, 136, 147, 149, 15, 155, 16, 162, 163, 18, 187, 188, 189, 190, 197, 20, 201, 212, 224, 226, 232, 241, 248, 249, 25, 251, 26, 260, 280, 281, 283, 290, 292, 294, 298, 30, 303, 306, 309, 311, 314, 317, 323, 327, 329, 331, 333, 337, 343, 344, 353, 354, 357, 358, 369, 370, 38, 39, 41, 429, 440, 446, 452, 46, 48, 5, 50, 52, 58, 60, 65, 66, 89, 96].

T imaging cameras (3 licences) [See footnotes 203, 351, 352].  
inertial equipment (73 licences) [See footnotes 127, 132, 164, 165, 170, 183, 184, 185, 209, 216, 242, 247, 264, 265, 267, 269, 375, 376, 384, 389, 393, 396, 402, 404, 417, 420, 424, 425, 426, 432, 441, 443, 445, 454, 464, 465, 466, 467, 470, 471, 472, 475, 55, 57, 64, 85, 91].

T inertial equipment (2 licences) [See footnotes 238, 438].  
information security equipment (93 licences) [See footnotes 128, 140, 148, 156, 169, 171, 178, 195, 198, 199, 208, 210, 211, 222, 229, 23, 256, 32, 347, 348, 36, 4, 44, 53, 69, 81, 90].

T information security equipment (3 licences).  
information security software (18 licences) [See footnotes 122, 195, 250, 70, 8, 82].  
instrumentation cameras (62 licences) [See footnotes 10, 106, 119, 152, 16, 176, 181, 19, 205, 213, 235, 255, 258, 289, 308, 359, 360, 39, 399, 400, 405, 406, 414, 421, 431, 444, 49].  
lasers (29 licences) [See footnotes 121, 182, 206, 266, 276, 284, 313, 418, 43, 447, 45, 451, 47, 51, 68, 92].

T lasers (2 licences).  
machine tools (5 licences) [See footnotes 33, 336, 73].  
magnesium.  
magnetic gradiometers [See footnote 304].  
magnetometers (12 licences) [See footnotes 22, 236, 277, 29, 408, 77].  
marine position fixing equipment (9 licences) [See footnotes 100, 110, 204, 262, 34, 392, 83, 98].  
mass spectrometers (8 licences) [See footnotes 233, 270, 273, 288, 310, 42].  
metal alloy cylindrical forms (30 licences) [See footnotes 114, 144, 166, 194, 2, 227, 268, 274, 324, 334, 435, 72, 74, 75, 79, 80, 86, 87].  
metal alloy materials.  
metal alloys in powder form (8 licences) [See footnotes 174, 24].  
microwave components [See footnote 318].  
numerical control software.  
plutonium-239 (3 licences) [See footnotes 137, 422].  
pressure transducers (14 licences) [See footnotes 131, 142, 390, 416, 439, 7].  
products containing enriched lithium (6 licences) [See footnotes 103, 146, 246, 328].  
radar equipment.  
radiation hardened TV cameras (2 licences).  
rebreathing swimming equipment.  
RF direction finding equipment (3 licences) [See footnotes 14, 295, 6].  
rotary position encoders (2 licences) [See footnote 180].  
semiconductor manufacturing equipment (5 licences) [See footnotes 161, 275].  
semiconductor wafers.  
semiconductor wafers with epitaxial layers (7 licences) [See footnotes 120, 138, 285].  
software for frequency generators (3 licences) [See footnotes 345, 346].  
software for information security equipment (18 licences) [See footnotes 140, 141, 210].  
software for machine tools (3 licences) [See footnotes 336, 73].  
space qualified focal plane arrays (3 licences) [See footnotes 172, 173].  
submersible equipment (7 licences) [See footnotes 225, 375, 376, 392, 396, 456].  
submersible vehicles (2 licences) [See footnotes 225, 392].  
syntactic foam (3 licences) [See footnotes 168, 401].  
technology for advanced telecommunications equipment (2 licences).  
technology for biotechnology equipment (2 licences) [See footnotes 301, 338].  
technology for composite laminates [See footnote 191].  
technology for composite structures (2 licences) [See footnotes 150, 186].  
technology for corrosion resistant chemical manufacturing equipment (3 licences) [See footnotes 179, 221, 473].  
technology for enriched uranium (2 licences).  
technology for equipment for the production of gas turbines [See footnote 263].  
technology for frequency changers [See footnote 282].  
technology for frequency generators (3 licences) [See footnotes 345, 346].  
technology for gas turbine engines.  
technology for general purpose integrated circuits.  
technology for information security equipment (6 licences) [See footnote 195].  
technology for information security software (7 licences).  
technology for instrumentation cameras (2 licences) [See footnote 152].  
technology for machine tools (4 licences) [See footnotes 336, 73].  
technology for materials containing enriched uranium (2 licences).  
technology for materials containing plutonium-239 (2 licences).

technology for materials containing uranium-233 (2 licences).  
 technology for microwave components.  
 technology for nuclear fuel reprocessing equipment (2 licences).  
 technology for nuclear reactor fuel element fabrication equipment (2 licences).  
 technology for nuclear reactors (2 licences).  
 technology for plutonium-239 (2 licences).  
 technology for products containing enriched uranium (2 licences).  
 technology for products containing plutonium-239 (2 licences).  
 technology for products containing uranium-233 (2 licences).  
 technology for space qualified focal plane arrays (4 licences) [See footnotes 172, 173, 340, 341, 342].  
 technology for uranium-233 (2 licences).  
 thorium [See footnote 339].  
 thyristors.  
 toxic gas detectors (3 licences) [See footnotes 254, 305, 67].  
 underwater electric field sensors [See footnote 108].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£3,821,660
1D003	1	£523,196
9E002	2	£44,000
ML11	1	£371,640
ML22	2	£2,000

civil NBC detection software [See footnote 286].  
 civil NBC detection systems [See footnote 286].  
 components for civil NBC detection software [See footnote 286].  
 components for civil NBC detection systems [See footnote 286].  
 equipment for the use of NBC protective/defensive equipment [See footnote 286].  
 technology for equipment for the production of gas turbines (2 licences) [See footnotes 192, 196].  
 technology for military aero-engines (2 licences) [See footnotes 192, 196].

### Refused

	Count
Military	4
Non-military	70
Total	74

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML6	1
ML9	3

components for military patrol/assault craft (2 licences).  
 general military vehicle components.  
 general naval vessel components (2 licences).  
 military patrol/assault craft.

## Non-military

Control Entry	No. of licences with goods rated using Control Entry
1A004	1
1C232	1
2B006	1
2B226	1

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	8	£1,256,536
Non-military	6	£1,021,504

Total	14	£2,278,040
-------	----	------------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	5	£1,220,261
ML11	2	£35,675
ML22	3	£600

components for military aircrew life support equipment.  
 components for military communications equipment [See footnote 448].  
 components for military support aircraft (2 licences) [See footnotes 230, 3].  
 components for military training aircraft (3 licences) [See footnote 386].  
 equipment for the operation of military aircraft in confined areas [See footnote 397].  
 military aircraft ground equipment.  
 military guidance/navigation equipment [See footnote 253].  
 technology for equipment for the operation of military aircraft in confined areas [See footnote 397].  
 technology for military communications equipment [See footnote 448].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	3	£30,290
1C210	1	£88,200
6A001	2	£903,014

components for marine position fixing equipment.  
 fibrous/filamentary materials.  
 marine position fixing equipment (2 licences) [See footnote 78].  
 metal alloy cylindrical forms (3 licences) [See footnotes 21, 217, 409].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Bangladesh  
 Canada  
 France  
 Pakistan  
 Russia  
 Singapore  
 United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, software for information security software
2	P	inertial equipment [See footnote 154]
3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment [See footnote 159]
4	P	inertial equipment [See footnote 167]
5	P	lasers [See footnote 202]
6	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 214]

7	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment [See footnote 234]
8	P	technology for military infrared/thermal imaging equipment [See footnote 245]
9	T	towed hydrophone arrays
10	P	components for military helmets, equipment for the production of military helmets, technology for military helmets [See footnotes 355, 356]
11	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 391]
12	P	components for marine position fixing equipment [See footnote 460]
13	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, equipment for the production of general military vehicle components, equipment for the production of military infrared/thermal imaging equipment, equipment for the production of periscopes, equipment for the production of weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 463]
14	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 468]
15	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 469]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas
2	P	fibrous/filamentary materials
3	P	components for nuclear reactors, technology for nuclear reactors
4	P	corrosion resistant chemical manufacturing equipment
5	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

### OITCLs

Malaysia	0	1	0

## Rejected

components for demolition charges/devices.  
demolition charges/devices.  
software for demolition charges/devices.  
technology for demolition charges/devices.

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for NSG components for National and State owned utility companies.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for academic research purposes. Academic end users.
6. Licence granted for accessories / spare parts. Government end use.
7. Licence granted for academic research purposes. Academic end users.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.
10. Licence granted for academic research purposes. Academic end users.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Government end use.
13. Licence granted for academic research purposes. Academic end users.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for academic research purposes. Academic end users.
16. Licence granted for accessories / spare parts. Academic end users.
17. Licence granted for accessories / spare parts. Civilian / commercial end use.
18. Licence granted for accessories / spare parts. Academic end users.
19. Licence granted for academic research purposes. Academic end users.
20. Licence granted for academic research purposes. Academic end users.
21. Licence granted for accessories / spare parts. Civilian / commercial end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for academic research purposes. Academic end users.
24. Licence granted for accessories / spare parts. Academic end users.
25. Licence granted for accessories / spare parts. Academic end users.
26. Licence granted for accessories / spare parts. Academic end users.
27. Licence granted for accessories / spare parts. Academic end users.
28. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
29. Licence granted for accessories / spare parts. Academic end users.
30. Licence granted for academic research purposes. Armed forces end use.
31. Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.
32. Licence granted for accessories / spare parts. Civilian / commercial end use.
33. Licence granted for accessories / spare parts. Civilian / commercial end use.
34. Licence granted for accessories / spare parts. Civilian / commercial end use.
35. Licence granted for accessories / spare parts. Armed forces end use.
36. Licence granted for accessories / spare parts. Civilian / commercial end use.
37. Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.
38. Licence granted for academic research purposes. Academic end users.
39. Licence granted for academic research purposes. Academic end users.
40. Licence granted for accessories / spare parts. Civilian / commercial end use.
41. Licence granted for academic research purposes. Academic end users.
42. Licence granted for academic research purposes. Academic end users.
43. Licence granted for accessories / spare parts. Civilian / commercial end use.
44. Licence granted for accessories / spare parts. Civilian / commercial end use.

% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£857,483
Non-military	18	£5,680,112
Both Military and Non-military	2	£8,360
Total	37	£6,545,955

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML3	2	£37,500
ML5	1	£90,000
ML9	1	£109,081
ML10	8	£504,923
ML11	3	£115,524
ML13	2	£355
ML21	1	£100
ML22	1	£0

- body armour (2 licences) [See footnotes 15, 16].
- components for combat aircraft (2 licences) [See footnote 8].
- components for military communications equipment (2 licences) [See footnote 23].
- components for military patrol/assault craft [See footnote 21].
- components for military support aircraft (2 licences) [See footnote 4].
- components for military training aircraft (3 licences).
- general military aircraft components [See footnote 22].
- military communications equipment (2 licences) [See footnote 23].
- small arms ammunition (2 licences) [See footnote 18].
- software for military communications equipment [See footnote 23].
- T targeting equipment.
- technology for military communications equipment [See footnote 23].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£103,800
1A006	1	£350
3A101	2	£4,640,000
3D101	2	£100,000
3E101	2	£220,000
5A001	2	£128,130
5A002	10	£469,533
5D001	1	£1,024
5D002	1	£2,000
6A002	1	£3,250
6A003	1	£2,025
PL8001	1	£10,000

- civil NBC detection systems (2 licences) [See footnotes 12, 2].
- T components for telecommunications interception equipment [See footnote 20].
- T counter-improvised explosive device equipment.
- T devices for initiating explosives.
- T direct view imaging equipment [See footnote 6].
- imaging cameras.
- T improvised explosive device disruptors.
- information security equipment (9 licences) [See footnotes 13, 14, 3, 7].
- T information security equipment [See footnote 10].
- T software for information security equipment [See footnote 10].
- T software for telecommunications interception equipment [See footnote 20].
- software for X-ray generators (2 licences).
- technology for X-ray generators (2 licences).
- T telecommunications interception equipment [See footnote 20].
- X-ray accelerators (2 licences).
- X-ray generators (2 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

1A004	1	£206
6A002	1	£1,000
6A003	1	£3,000
ML5	1	£4,000
ML7	1	£154

	civil NBC protection equipment [See footnote 9].
	components for civil NBC protection equipment [See footnote 9].
	components for civil riot control agent protection equipment [See footnote 9].
	components for NBC protective/defensive equipment [See footnote 9].
T	direct view imaging equipment [See footnote 1].
T	imaging cameras [See footnote 1].
	NBC protective/defensive equipment [See footnote 9].
T	targeting equipment [See footnote 1].

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	hydrophones
3	T	towed hydrophone arrays
4	P	hydrophones, towed hydrophone arrays [See footnote 11]
5	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 17]
6	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 19]
7	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	22	£40,750,119
Total	22	£40,750,119

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	2	£15,985,279
2B350	12	£238,537
6A001	1	£95,000
6A003	1	£38,115
6A005	1	£496,689
7A003	1	£2,000,000
8A001	1	£21,500,000
8A002	6	£390,452
PL8001	1	£6,047

T	acoustic seabed survey equipment. corrosion resistant chemical manufacturing equipment (12 licences). devices for initiating explosives. imaging cameras.
T	inertial equipment.
T	lasers.
T	marine position fixing equipment. non-military detonators. non-military firing sets (2 licences). submersible equipment (5 licences).
T	submersible equipment.
T	submersible vehicles.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
2	T	hydrophones
3	T	towed hydrophone arrays
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Costa Rica

## Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities. The embargo was most recently renewed through UNSCR 2198 (2015), and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2293 (2016) which extended the arms embargo until 1 July 2017, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	information security equipment, information security software
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]
4	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

#### Case & goods Footnotes

1. Licence granted for anti-piracy operations. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for anti-piracy operations. Civilian / commercial end use.

## Dominica

### Processing Statistics (excluding amendments)

Median processing time SIELs	4 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)

% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)
--	--------

Median processing time OIELs	79 days
% and number of OIELs completed in 20 working days	50% (2)
% and number of OIELs completed in 60 working days	50% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Dominican Republic

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	66 days
% and number of OIELs completed in 20 working days	33% (2)
% and number of OIELs completed in 60 working days	50% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£70,904
Both Military and Non-military	1	£36,300
Total	3	£107,204

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£27,940
5A002	1	£26,506
6D003	1	£16,458

civil explosive detection/identification equipment.  
high performance air traffic control software.  
information security equipment.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£6,000
6A003	1	£18,300
ML5	1	£12,000

T direct view imaging equipment.  
T imaging cameras.  
T targeting equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
2	P	information security equipment, information security software
3	T	towed hydrophone arrays
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

## East Timor

### Processing Statistics (excluding amendments)

Median processing time OIELs	206 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	2	£63,678
Non-military	4	£48,605
Total	6	£112,283

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	2	£56,591
ML11	1	£7,086

components for naval electrical/electronic equipment [See footnote 2].  
components for submarines.  
general naval vessel components [See footnote 2].  
military guidance/navigation equipment [See footnote 2].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£771
6A003	2	£32,839
9A012	1	£14,995

civil unmanned air vehicles [See footnote 1].  
corrosion resistant chemical manufacturing equipment [See footnote 4].  
imaging cameras (2 licences) [See footnote 3].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 5]
4	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components,

		equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment, weapon night sights, weapon sights [See footnote 6]
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Navy.
3. Licence granted for accessories / spare parts. Government end use.
4. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. End use by the Navy.

## El Salvador

### Processing Statistics (excluding amendments)

Median processing time SIELs	25 days
% and number of SIELs completed in 20 working days	50% (1)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	53 days
% and number of OIELs completed in 20 working days	40% (2)
% and number of OIELs completed in 60 working days	60% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£21,275
Total	1	£21,275

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£21,275

civil explosive detection/identification equipment.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Equatorial Guinea

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	97 days
% and number of OIELs completed in 20 working days	17% (1)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£43,074
Non-military	2	£11,083,500
Total	3	£11,126,574

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£43,074

military guidance/navigation equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£20,000
7A003	1	£63,500
8A001	1	£11,000,000

T inertial equipment [See footnote 1].  
T marine position fixing equipment.  
T submersible vehicles.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	information security equipment, information security software
3	T	towed hydrophone arrays
4	P	hydrophones, towed hydrophone arrays [See footnote 2]
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
6	P	components for marine position fixing equipment [See footnote 3]

#### Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Eritrea

### Processing Statistics (excluding amendments)

Median processing time OIELs	147 days
% and number of OIELs completed in 20 working days	33% (1)
% and number of OIELs completed in 60 working days	33% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]

## Country Footnotes

1. UN Security Council Resolution 1907 (2009) established an arms embargo on Eritrea. UNSCR 2111 (2013) consolidated exemptions to the arms embargo for non-lethal military equipment intended solely for humanitarian or protective use, as approved on case-by-case basis in advance by the Security Council Committee pursuant to resolutions 751 (1992) and 1907 (2009); and protective clothing, including flak jackets and military helmets, temporarily exported to Eritrea by United Nations personnel, representatives of the media and humanitarian and development workers and associated personnel for their personal use only.

Following the adoption of the UN arms embargo, the EU adopted Council Decision 2010/127/CFSP on 1 March 2010 and Council Regulation (EU) No 667/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Estonia

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	95% (21)
% and number of SIELs completed in 60 working days	100% (22)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	84 days
% and number of OIELs completed in 20 working days	20% (3)
% and number of OIELs completed in 60 working days	40% (6)
% [as a % of all OIELs cases processed] and number of OIELs refused	7% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	19	£599,121
Total	19	£599,121

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£7,905
ML3	5	£402,462
ML4	1	£126,984
ML6	1	£12,744
ML7	1	£550

sporting shotguns (1).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	10	£1,268,390
Non-military	1	£40,000
Total	11	£1,308,390

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£2,761
ML6	6	£1,133,049
ML7	1	£59,740
ML9	1	£68,039
PL5017	1	£4,800

components for launching/handling/control equipment for missiles (2 licences).  
components for military combat vehicles (3 licences).  
equipment for the use of NBC detection equipment.  
general military vehicle components (3 licences).  
general naval vessel components.  
NBC detection equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£30,000
5D002	1	£10,000

information security equipment.  
software for information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Angola  
Egypt  
Malaysia  
Oman  
United Arab Emirates

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,281,860
Total	1	£1,281,860

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,281,860

components for decoying/countermeasure equipment.

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
3	P	components for weapon sights, weapon sights [See footnote 7]
4	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
5	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 3]
6	P	weapon sights
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	P	hydrophones, towed hydrophone arrays [See footnote 4]
9	P	weapon sights
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft,

		equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
11	P	components for NBC protective/defensive equipment
12	P	weapon sights [See footnote 8]
13	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 9]
14	P	components for gun silencers, gun silencers
15	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 10]
16	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 11]
17	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for temporary / exhibition purposes. Armed forces end use.
3. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Law enforcement agency end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. Armed forces end use.

## France

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days

PL5017	9	£70,056

	accessories for sniper rifles.
	aircraft military communications equipment.
	all-wheel drive vehicles with ballistic protection.
	anti-armour ammunition.
	anti-riot/ballistic shields.
	armoured plate (5 licences).
	artillery (2 licences).
T	artillery.
	artillery ammunition.
	assault rifles (1).
T	assault rifles (6).
	assault rifles (12).
	blank/inert ammunition (2 licences).
	body armour (3 licences).
T	body armour (3 licences).
	components for air-to-air missiles (15 licences).
	components for air-to-surface missiles (7 licences).
	components for anti-armour ammunition.
T	components for artillery.
	components for artillery ammunition (5 licences).
T	components for blank/inert ammunition.
	components for body armour (5 licences).
T	components for body armour (3 licences).
	components for combat aircraft (15 licences).
	components for combat helicopters.
	components for combat naval vessels (3 licences).
	components for decoying/countermeasure equipment (5 licences).
T	components for decoying/countermeasure equipment.
	components for electronic warfare equipment (2 licences).
	components for exploding grenade ammunition.
T	components for ground vehicle military communications equipment.
	components for gun mountings (2 licences).
	components for gun silencers.
T	components for launching/handling/control equipment for man portable air defence system missiles.
	components for launching/handling/control equipment for missiles (3 licences).
	components for machine guns [See footnote 40].
	components for military aero-engines (5 licences).
	components for military combat vehicles (5 licences).
T	components for military combat vehicles (2 licences).
	components for military communications equipment (10 licences) [See footnote 30].
	components for military electronic equipment (3 licences).
	components for military guidance/navigation equipment (7 licences).
	components for military helicopters (16 licences) [See footnote 39].
	components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
	components for military infrared/thermal imaging equipment (11 licences).
T	components for military patrol/assault craft.
	components for military radars.
	components for military sonars (4 licences).
	components for military training aircraft (3 licences).
	components for multi-role missiles (2 licences).
	components for naval electrical/electronic equipment (2 licences).
	components for NBC protective/defensive equipment (8 licences).
T	components for NBC protective/defensive equipment (2 licences).
	components for periscopes.
	components for projectile launchers.
	components for rangefinding equipment.
	components for rifles (2 licences).
T	components for small arms ammunition.
	components for sniper rifles (3 licences).
	components for sporting shotgun ammunition.

components for submarines (2 licences).  
 components for surface-to-air missiles.  
 components for surface-to-surface missiles (2 licences).  
 components for targeting equipment (4 licences).  
 components for tear gas/irritant ammunition (4 licences) [See footnote 10].  
 components for training artillery ammunition (2 licences).  
 components for weapon control equipment (2 licences).  
 components for weapon control equipment.  
 components for weapon night sights.  
 decoying/countermeasure equipment.  
 developmental warheads.  
 equipment for the development of weapon control equipment.  
 equipment for the production of decoying/countermeasure equipment.  
 equipment for the production of military aero-engines (7 licences).  
 equipment for the production of small arms ammunition.  
 equipment for the use of ballistic test equipment.  
 equipment for the use of gun mountings.  
 equipment for the use of machine guns.  
 equipment for the use of military communications equipment.  
 equipment for the use of military infrared/thermal imaging equipment (4 licences).  
 equipment for the use of sniper rifles.  
 equipment for the use of submarines.  
 equipment for the use of targeting equipment (2 licences).  
 equipment for the use of weapon night sights.  
 flash suppressers.  
 fuze setting devices.  
 general military aircraft components (6 licences).  
 general military vehicle components.  
 general naval vessel components (3 licences).  
 goods treated for signature suppression for military use (2 licences).  
 grenade launchers.  
 gun mountings (3 licences) [See footnote 40].  
 gun mountings (2 licences).  
 gun silencers (8 licences).  
 high power RF weapon systems.  
 inert developmental warheads.  
 launching/handling/control equipment for missiles (2 licences).  
 launching/handling/control equipment for munitions.  
 man portable air defence systems.  
 military communications equipment.  
 military communications equipment (2 licences).  
 military electronic equipment (4 licences).  
 military electronic equipment.  
 military equipment for initiating explosives.  
 military guidance/navigation equipment (3 licences).  
 military helmets (3 licences).  
 military helmets.  
 military image recording/processing equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 military infrared/thermal imaging equipment.  
 military laser protection equipment.  
 military patrol/assault craft.  
 military support vehicles.  
 military support vehicles (3 licences).  
 naval electrical/electronic equipment (3 licences).  
 NBC protective/defensive equipment (2 licences).  
 projectile launchers (2 licences).  
 propellants.  
 rangefinding equipment.  
 rifles (1) (4 licences).  
 rifles (30).  
 small arms ammunition (17 licences) [See footnote 40].  
 small arms ammunition (2 licences).  
 sniper rifles (1) (4 licences).  
 sniper rifles (1).  
 sniper rifles (3).  
 software enabling equipment to function as military communications equipment.  
 software for air-to-surface missiles (2 licences) [See footnote 53].  
 software for determining the effects of weapons.  
 software for launching/handling/control equipment for missiles.

- software for modelling/simulating military operation scenarios (2 licences) [See footnote 53].
- software for multi-role missiles.
- software for surface-to-air missiles.
- software for surface-to-surface missiles.
- sporting guns (1) (2 licences).
- sporting guns (2).
- targeting equipment (2 licences).
- technology for air-to-surface missiles (3 licences).
- technology for bombs.
- technology for launching/handling/control equipment for missiles.
- technology for military aero-engines.
- technology for multi-role missiles.
- technology for software for weapon system software [See footnote 53].
- technology for surface-to-air missiles.
- technology for surface-to-surface missiles (4 licences) [See footnotes 47, 55].
- technology for targeting equipment.
- T technology for test models for combat aircraft.
- technology for unfinished products for military helicopters (2 licences).
- T test models for combat aircraft.
- training artillery ammunition.
- training decoying/countermeasure equipment.
- training tear gas/irritant ammunition.
- training wall/door breaching projectiles/ammunition.
- unfinished products for military combat vehicles.
- unfinished products for military helicopters (2 licences).
- unfinished products for military training aircraft (2 licences).
- wall/door breaching projectiles/ammunition (3 licences).
- weapon cleaning equipment (2 licences) [See footnote 40].
- T weapon control equipment.
- weapon mountings.
- weapon sight mounts (2 licences).
- weapon sights.
- T weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	3	£206,000
0D001	1	£1
0E001	16	£1,720,030
1A007	1	£11,524
1C001	1	£1,317

9A004	1	£62,000,000
PL9010	2	£12,370

- T components for nuclear reactors (3 licences).
- devices containing enriched lithium.
- devices containing enriched lithium compounds (2 licences) [See footnote 27].
- electromagnetic wave absorbing materials.
- enriched uranium.
- hydrophones.
- information security equipment (3 licences) [See footnote 13].
- materials containing enriched uranium.
- materials containing plutonium-239.
- materials containing uranium-233.
- non-military detonators.
- products containing enriched lithium (3 licences).
- T products containing enriched lithium.
- products containing enriched uranium.
- products containing plutonium-239.
- products containing uranium-233.
- software for nuclear reactors.

spacecraft [See footnote 25].  
 sporting shotguns (1).  
 sporting shotguns (3).  
 technology for depleted uranium.  
 technology for deuterium production equipment.  
 technology for enriched uranium (2 licences).  
 technology for heavy water production equipment.  
 technology for materials containing depleted uranium.  
 technology for materials containing enriched uranium (3 licences).  
 technology for materials containing natural uranium.  
 technology for materials containing plutonium-239 (2 licences).  
 technology for materials containing thorium.  
 technology for materials containing uranium-233 (2 licences).  
 technology for materials controlled by entry 0C of the Dual-Use Regulation (2 licences).  
 technology for natural uranium.  
 technology for nuclear fuel reprocessing equipment (5 licences).  
 technology for nuclear grade graphite.  
 technology for nuclear reactor fuel element fabrication equipment (6 licences).  
 technology for nuclear reactors (15 licences).  
 technology for plutonium-239 (3 licences).  
 technology for products containing depleted uranium.  
 technology for products containing enriched uranium (2 licences).  
 technology for products containing natural uranium.  
 technology for products containing plutonium-239 (2 licences).  
 technology for products containing thorium.  
 technology for products containing uranium-233 (2 licences).  
 technology for thorium.  
 technology for uranium conversion equipment.  
 technology for uranium isotope separation equipment.  
 technology for uranium-233 (2 licences).  
 uranium-233.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£2,350
ML3	1	£58
PL9010	1	£150

components for sporting guns.  
 small arms ammunition.  
 sporting guns (2).  
 sporting shotgun ammunition.  
 sporting shotguns (1).  
 weapon sights.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	242	£45,794,157
Non-military	2	£30,508
Total	244	£45,824,665

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£450,000
ML3	1	£2,280

Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry
ML17	1

goods treated for signature suppression for military use.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
5	1

The items being incorporated in this destination are ultimately destined for all or some of the following:

Egypt

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, technology for combat aircraft [See footnote 2]
2	P	components for combat aircraft, components for military support aircraft [See footnote 4]
3	P	non-military detonators, non-military firing sets
4	P	general military aircraft components [See footnote 6]
5	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 7]
6	P	components for military aero-engines, components for military support aircraft [See footnote 9]

7	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
8	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aircraft head-up/down displays, components for military support aircraft, components for military training aircraft, environmental test facilities for military support aircraft, environmental test facilities for military training aircraft, equipment for the production of military support aircraft, equipment for the production of military training aircraft, general military aircraft components, military aircraft head-up/down displays, military support aircraft, military training aircraft, technology for aircraft military communications equipment, technology for military aircraft head-up/down displays, technology for military support aircraft, technology for military training aircraft [See footnote 15]
9	P	components for weapon sights, weapon sights [See footnote 56]
10	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
11	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
12	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 18]
13	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 23]
14	P	information security equipment, information security software
15	P	information security equipment, information security software
16	P	information security equipment, information security software
17	P	weapon sights
18	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields [See footnote 34]
19	P	components for sporting shotgun ammunition, sporting shotgun ammunition
20	T	towed hydrophone arrays
21	P	hydrophones, towed hydrophone arrays [See footnote 36]
22	P	weapon sights
23	P	technology for nuclear reactors

24	P	software for nuclear fuel reprocessing equipment, software for nuclear reactors, technology for nuclear fuel reprocessing equipment, technology for nuclear reactors
25	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 38]
26	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image

		intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
27	P	technology for combined cycle engines
28	P	unfinished products for military aero-engines [See footnote 61]
29	P	technology for nuclear reactors
30	P	components for NBC protective/defensive equipment
31	P	weapon sights [See footnote 63]
32	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft seals, aircraft valve seats, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the development of military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, military parametric technical databases, military software, software enabling equipment to function as military aero-engines, software for military aero-engines, software for optimising equipment design, technology for military aero-engines, technology for production installations for military aero-engines, test models for military aero-engines, unfinished products for military aero-engines
33	P	technology for military aero-engines
34	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 68]
35	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, technology for airborne refuelling equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of military training aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military training aircraft [See footnote 76]
36	P	components for gun silencers, gun silencers
37	P	small arms ammunition
38	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 78]
39	P	civil aero-engines, components for civil aero-engines, components for marine engines, technology for civil aero-engines [See footnote 80]
40	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 81]
41	P	triggered spark gaps

42	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
43	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 84]
44	T	technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors
45	T	technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors
46	T	technology for enriched uranium, technology for materials containing enriched uranium, technology for materials containing plutonium-239, technology for materials containing uranium-233, technology for nuclear fuel reprocessing equipment, technology for nuclear grade graphite, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium-239, technology for uranium-233
47	T	projectile launchers
48	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
49	P	technology for air-to-surface missiles
50	T	combat aircraft, components for combat aircraft, components for explosive charges/devices, components for military electronic equipment, components for signalling devices, explosive charges/devices, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, signalling devices, technology for combat aircraft, technology for explosive charges/devices, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for signalling devices, test models for combat aircraft, test models for explosive charges/devices, test models for military aircraft ground equipment, test models for military aircrew life support equipment, test models for military aircrew safety equipment, test models for military electronic equipment, test models for signalling devices
51	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 93]
52	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, environmental test facilities for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for launching/handling/control equipment for missiles, technology for air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for production installations for air-to-surface missiles, training air-to-surface missiles, unfinished products for air-to-surface missiles [See footnote 94]
53	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
54	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

55	P	components for military helicopters, equipment for the production of military helicopters, equipment for the use of military helicopters, technology for military helicopters, unfinished products for military helicopters
----	---	---

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles
2	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

## Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## French Overseas Territory

## Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	120 days
% and number of OIELs completed in 20 working days	25% (1)
% and number of OIELs completed in 60 working days	50% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,564
Non-military	2	£17,700
Total	3	£19,264

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,564

weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£16,500
1A007	1	£1,200

civil explosive detection/identification equipment.  
non-military firing sets.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	information security equipment, information security software
3	T	towed hydrophone arrays

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Gabon

### Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	100% (5)
% and number of SIELs completed in 60 working days	100% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	116 days
% and number of OIELs completed in 20 working days	17% (1)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£3,700
Non-military	3	£163,500
Total	4	£167,200

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML17	1	£3,700

military field generators.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£150,000
6A001	1	£2,500
6A003	1	£11,000

T hydrophones.  
T imaging cameras.  
T telecommunications interception equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	information security equipment, information security software
3	T	towed hydrophone arrays
4	P	hydrophones, towed hydrophone arrays [See footnote 1]
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
6	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Gambia

### Processing Statistics (excluding amendments)

Median processing time OIELs	125 days
% and number of OIELs completed in 20 working days	13% (1)
% and number of OIELs completed in 60 working days	25% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£56,670
Non-military	4	£1,464,000

Both Military and Non-military	2	£164,272
Total	10	£1,684,942

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£2,770
ML4	1	£45,000
ML17	1	£8,900
ML22	1	£0

military field generators.  
munitions/ordnance detection/disposal equipment [See footnotes 5, 6].  
small arms ammunition [See footnote 1].  
technology for military support vehicles [See footnote 11].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£64,000
6A003	1	£1,300,000
PL9010	1	£100,000

civil NBC detection systems [See footnote 2].  
civil NBC protection equipment [See footnotes 7, 8].  
imaging cameras.  
sporting shotguns (1).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£1,654
6A002	1	£22,200
6A003	1	£60,200
ML5	1	£80,000
ML7	1	£218

civil NBC protection equipment [See footnote 10].  
components for NBC protective/defensive equipment [See footnote 10].  
T direct view imaging equipment [See footnote 4].  
T imaging cameras [See footnote 4].  
T targeting equipment [See footnote 4].

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	information security equipment, technology for information security equipment [See footnote 3]
3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 9]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Personal end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for equipment to improve broadband connectivity. Government end use.
4. Licence granted for demonstration to potential customers. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Government end use.
10. Licence granted for accessories / spare parts. Government end use.
11. Licence granted for accessories / spare parts. Government end use.

## Germany

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	94% (431)
% and number of SIELs completed in 60 working days	100% (460)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time SITCLs	15 days
% and number of SITCLs completed in 20 working days	100% (2)
% and number of SITCLs completed in 60 working days	100% (2)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	69 days
% and number of OIELs completed in 20 working days	16% (9)

% and number of OIELs completed in 60 working days	44% (24)
% [as a % of all OIELs cases processed] and number of OIELs refused	5% (3)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	200	£15,978,323
Non-military	29	£1,399,316
Both Military and Non-military	3	£430,570
Total	232	£17,808,209

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	40	£1,537,522
ML2	4	£372,731
ML3	11	£37,556
ML4	23	£2,139,967
ML5	9	£3,208,594
ML6	11	£138,125
ML7	11	£688,481
ML8	7	£756,663
ML9	31	£402,192
ML10	34	£1,442,815
ML11	16	£661,311

ML18	1	£380,000
ML19	1	£20,000
ML21	5	£19,928
ML22	8	£101,400
PL5017	6	£19,011

- T assault rifles (1).
- blank/inert ammunition.
- body armour.
- T body armour.
- command communications control and intelligence software.
- components for air-to-air missiles.
- components for air-to-surface missiles (2 licences).
- components for aircraft military communications equipment.
- components for anti-armour ammunition.
- T components for anti-armour ammunition.
- T components for artillery ammunition.
- components for assault rifles (3 licences).

T components for blank/inert ammunition.  
components for body armour.

T components for body armour.  
components for combat aircraft (16 licences).  
components for combat helicopters.  
components for decoying/countermeasure equipment (4 licences).  
components for equipment for the production of decoying/countermeasure equipment.  
components for grenade launchers.

T components for high power RF weapon systems.  
components for launching/handling/control equipment for man portable air defence system missiles.  
components for launching/handling/control equipment for missiles (4 licences).  
components for machine guns (6 licences).  
components for military aero-engines (2 licences).  
components for military aircraft head-up/down displays [See footnote 1].  
components for military cameras/photographic equipment (2 licences).  
components for military combat vehicles (2 licences).  
components for military communications equipment.  
components for military equipment for initiating explosives.

T components for military equipment for initiating explosives.  
components for military guidance/navigation equipment (3 licences).  
components for military helicopters.

T components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for military infrared/thermal imaging equipment.  
components for military radars.  
components for military support aircraft (5 licences).  
components for military support vehicles.  
components for military training aircraft.  
components for NBC detection equipment (5 licences).  
components for NBC protective/defensive equipment (2 licences).  
components for pistols.

T components for pistols.  
components for rangefinding equipment.

T components for small arms ammunition.

T components for small arms ammunition.  
components for sniper rifles.

T components for sniper rifles.  
components for sporting guns (2 licences).

T components for sporting guns.  
components for submarines (2 licences).  
components for surface-to-surface missiles.  
components for targeting equipment.  
components for torpedoes.

T components for training anti-armour ammunition.

T components for training artillery ammunition.  
components for training torpedoes.  
components for unmanned air vehicles.  
components for weapon night sights.  
decoying/countermeasure equipment (3 licences).  
energetic materials additives (3 licences) [See footnote 18].  
equipment for the use of launching/handling/control equipment for missiles.  
equipment for the use of military communications equipment.  
equipment for the use of military guidance/navigation equipment.

T equipment for the use of military guidance/navigation equipment.

T equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.

T equipment for the use of naval gun installations/mountings.  
equipment for the use of NBC detection equipment (3 licences).

T equipment for the use of NBC detection equipment.  
equipment for the use of sniper rifles.  
general military aircraft components (3 licences).  
general military vehicle components (3 licences).

T general military vehicle components.  
general naval vessel components (29 licences).  
gun mountings (2 licences).  
gun silencers (5 licences).

T gun silencers.  
launching/handling/control equipment for missiles.

T launching/handling/control equipment for munitions.  
machine guns (1).

- machine guns (2).
- machine guns (25).
- military combat vehicles (3 licences).
- military electronic equipment.
- T military electronic equipment (2 licences).
- T military equipment for initiating explosives.
- military guidance/navigation equipment (2 licences).
- T military guidance/navigation equipment (5 licences).
- military helmets.
- T military helmets.
- military image intensifier equipment.
- T military image intensifier equipment (5 licences).
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment (5 licences).
- military sonars.
- military support aircraft.
- military support vehicles (2 licences).
- munitions/ordnance detection/disposal equipment.
- NBC detection equipment (7 licences).
- T pistols (13) (2 licences).
- precursors for energetic materials.
- T projectile launchers (3 licences).
- propellants (4 licences).
- T rangefinding equipment (5 licences).
- small arms ammunition (4 licences).
- T small arms ammunition (2 licences).
- sniper rifles (1) (2 licences).
- T sniper rifles (4).
- T software for military improvised explosive device decoying/detection/disposal/jamming equipment.
- software for NBC detection equipment (2 licences).
- software for test equipment for military guidance/navigation equipment.
- sporting guns (1) (5 licences).
- T sporting guns (1).
- sporting guns (2) (2 licences).
- T sporting guns (7).
- tear gas/riot control agents (2 licences) [See footnote 18].
- technology for command communications control and intelligence software.
- technology for decoying/countermeasure equipment.
- technology for launching/handling/control equipment for rockets.
- technology for military image intensifier equipment.
- technology for military support aircraft.
- technology for naval guns [See footnote 25].
- technology for NBC detection equipment (2 licences).
- technology for submarines.
- training small arms ammunition (2 licences).
- unfinished products for military aero-engines (2 licences).
- unfinished products for military support aircraft.
- T unfinished products for sniper rifles.
- T unfinished products for sporting guns.
- unfinished products for submarines.
- T unmanned air vehicles.
- weapon night sights.
- T weapon night sights (5 licences).
- weapon sights (3 licences).
- T weapon sights (5 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	1	£1
0D001	1	£1
0E001	8	£15,211
1A007	2	£20,000
1C001	4	£5,478
1C010	1	£150
1C233	6	£19,710

3A231	1	£1,320,000
6A001	3	£11,666
PL9010	3	£7,100

conductive polymeric materials.  
 devices containing enriched lithium.  
 electromagnetic wave absorbing materials (3 licences).  
 fibrous/filamentary materials.  
 hydrophones (3 licences).  
 neutron generators.  
 non-military detonators (2 licences).  
 plutonium-239.  
 products containing enriched lithium (5 licences) [See footnote 6].  
 software for nuclear reactors.  
 sporting shotguns (1) (2 licences).  
 sporting shotguns.  
 technology for enriched uranium.  
 technology for materials controlled by entry 0C of the Dual-Use Regulation.  
 technology for nuclear fuel reprocessing equipment (2 licences).  
 technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.  
 technology for nuclear reactor fuel element fabrication equipment (2 licences).  
 technology for nuclear reactors (6 licences).  
 technology for plutonium-239.  
 technology for uranium-233.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£172
ML1	2	£167,560
ML7	1	£158,244
ML22	1	£410
PL5017	1	£11,884
PL9010	2	£92,300

components for civil NBC detection software.  
 components for NBC detection equipment.  
 equipment for the use of NBC detection equipment.  
 NBC detection equipment.  
 T pistols (8).  
 T rifles (30).  
 sporting guns (1).  
 sporting shotguns (1).  
 T sporting shotguns (8).  
 technology for NBC detection equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	173	£4,234,209
Non-military	2	£158,814
Total	175	£4,393,022

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	24	£915,076
ML5	18	£141,365
ML6	15	£485,630
ML9	35	£748,540
ML10	60	£1,157,276
ML11	8	£80,232
ML14	3	£9,115
ML15	1	£8,168
ML16	2	£120,508
ML21	8	£466,236
ML22	3	£102,063

components for air-to-air missiles.  
 components for air-to-surface missiles (4 licences).  
 components for all-wheel drive vehicles with ballistic protection [See footnote 21].  
 components for attack alerting/warning equipment.  
 components for combat aircraft (25 licences) [See footnotes 38, 5].  
 components for combat helicopters (9 licences).  
 components for decoying/countermeasure equipment (6 licences) [See footnote 15].  
 components for launching/handling/control equipment for missiles (4 licences) [See footnote 23].  
 components for launching/handling/control equipment for munitions (8 licences).  
 components for military aero-engines (11 licences).  
 components for military combat vehicles (2 licences).  
 components for military guidance/navigation equipment (5 licences) [See footnote 11].  
 components for military helicopters (5 licences).  
 components for military imaging radar sensor equipment [See footnote 7].  
 components for military radars (11 licences).  
 components for military scenario simulation equipment.  
 components for military support aircraft (3 licences).  
 components for military support vehicles (3 licences).  
 components for military training aircraft (6 licences) [See footnotes 3, 4].  
 components for military training equipment.  
 components for naval communications equipment.  
 components for naval electrical/electronic equipment (4 licences) [See footnote 9].  
 components for naval engines (2 licences).  
 components for periscopes.  
 components for submarines (22 licences) [See footnotes 16, 31, 8].  
 components for surface-to-surface missiles (2 licences).  
 components for turrets (2 licences).  
 components for weapon control equipment (5 licences).  
 equipment for the operation of military aircraft in confined areas.  
 equipment for the use of military guidance/navigation equipment.  
 equipment for the use of periscopes (2 licences).  
 general military vehicle components (6 licences).  
 general naval vessel components (4 licences) [See footnote 14].  
 ground vehicle military communications equipment.  
 military training equipment.  
 naval electrical/electronic equipment (3 licences).  
 software enabling equipment to function as military improvised explosive device  
 decoying/detection/disposal/jamming equipment (2 licences).  
 software enabling equipment to function as munitions/ordnance detection/disposal equipment (3 licences) [See footnotes 24, 28].  
 software for military radars [See footnote 35].  
 software for munitions/ordnance detection/disposal equipment (2 licences) [See footnote 17].  
 technology for military guidance/navigation equipment [See footnote 11].  
 technology for military radars [See footnote 35].  
 technology for military support aircraft.  
 unfinished products for combat aircraft.  
 unfinished products for military aero-engines.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	2	£158,814

imaging cameras (2 licences).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation
2	P	non-military detonators, non-military firing sets
3	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 2]
4	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
5	P	components for weapon sights, weapon sights [See footnote 22]
6	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
7	P	components for military infrared/thermal imaging equipment, military infrared/thermal imaging equipment [See footnote 10]
8	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 12]
9	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 13]
10	P	weapon sights
11	P	components for sporting shotgun ammunition, sporting shotgun ammunition
12	T	towed hydrophone arrays
13	P	hydrophones, towed hydrophone arrays [See footnote 19]

14	P	Software for modelling/simulating military operation scenarios
15	P	weapon sights
16	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 20]
17	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation

		equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
18	P	technology for combined cycle engines
19	P	components for military aero-engines, components for military support aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 26]
20	P	components for NBC protective/defensive equipment
21	P	weapon sights [See footnote 27]
22	P	technology for military aero-engines
23	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 29]
24	P	components for air defence systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft missile protection systems, components for anti-aircraft guns, components for anti-armour weapons, components for anti-riot guns, components for artillery, components for decoying/countermeasure equipment, components for depth charges, components for developmental missile components, components for developmental warheads, components for devices containing military pyrotechnic materials, components for explosive charges/devices, components for illuminators, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for multi-role missiles, components for naval guns, components for projectile launchers, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles, components for torpedoes [See footnote 30]
25	P	components for gun silencers, gun silencers
26	P	explosives, non-military detonators [See footnote 32]
27	P	Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating military operation scenarios
28	P	civil aero-engines, components for civil aero-engines, components for marine engines, technology for civil aero-engines [See footnote 33]
29	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 34]
30	P	triggered spark gaps
31	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets

32	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 36]
33	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 37]
34	T	projectile launchers
35	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
36	P	neutron generators, non-military detonators, non-military firing sets
37	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 39]
38	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	materials containing enriched uranium, materials containing plutonium-239
2	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles
3	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£73,550
Non-military	13	£769,146
Total	17	£842,696

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£19,500
ML10	1	£3,200
PL5001	2	£50,850

T  
 acoustic devices for riot control.  
 aircraft military communications equipment.  
 anti-riot/ballistic shields.  
 military support vehicles.  
 military trailers.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£2,399
1D003	1	£500
3A230	1	£13,900
5A002	5	£139,568
5D002	1	£2
6A001	1	£250,086
6A003	2	£19,000
7A003	2	£243,691
8A001	1	£100,000

civil explosive detection/identification software.  
 deuterium.  
 high speed pulse generators.  
 imaging cameras (2 licences).  
 inertial equipment (2 licences).  
 information security equipment (5 licences) [See footnote 1].  
 marine position fixing equipment.  
 software for information security equipment.  
 software for information security software.  
 sonar log equipment.  
 submersible vehicles.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	submersible vehicles [See footnote 2]
3	P	information security equipment, information security software
4	T	towed hydrophone arrays
5	P	hydrophones, towed hydrophone arrays [See footnote 3]
6	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 4]
7	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 5]
8	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
9	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

### Case & goods Footnotes

1. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.

% and number of OIELs completed in 60 working days	50% (7)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£11,573
Non-military	12	£420,381

Total	13	£431,954
-------	----	----------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£10,332
ML22	1	£0
PL5017	1	£1,242

assault rifles (6).  
 components for assault rifles.  
 equipment for the use of assault rifles.  
 technology for assault rifles.  
 weapon cleaning equipment.  
 weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£20,904
5A002	9	£385,511
5D002	2	£1,921
5E002	1	£7,245
PL9010	1	£4,800

civil explosive detection/identification equipment.  
 information security equipment (9 licences).  
 information security software.  
 software for information security equipment.  
 sporting shotguns (1).  
 technology for information security equipment.

### SIELs for goods covered by the torture regulation

#### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	2	£2,670
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	2	£2,670

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	2	£2,670

portable incapacitating substance riot control devices (2 licences) [See footnote 2].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	T	towed hydrophone arrays
3	P	hydrophones, towed hydrophone arrays [See footnote 3]
4	P	components for small arms ammunition, small arms ammunition [See footnote 4]
5	P	weapon sights [See footnote 5]
6	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 6]
7	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
8	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 7]

## Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Law enforcement agency end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Ammunition for sporting use for Government and licensed entities.
5. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. End use by the Navy.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	15	£1,311,554
Non-military	3	£6,729
Total	18	£1,318,283

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£10,000
ML4	1	£1,166
ML7	2	£91,116
ML9	6	£1,187,604
ML10	2	£2,550
ML11	1	£14,588
ML13	2	£595
PL5017	1	£3,935

components for body armour.  
components for combat naval vessels (3 licences).  
components for military patrol/assault craft (2 licences).

components for NBC detection equipment.  
 components for NBC protective/defensive equipment.  
 components for surface-to-air missiles.  
 equipment for the use of NBC detection equipment.  
 general military aircraft components (2 licences).  
 general naval vessel components.  
 military communications equipment.  
 military helmets.  
 NBC detection equipment.  
 small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£5,360
PL9010	2	£1,369

components for sporting shotguns.  
 sporting shotguns.  
 towed hydrophone arrays.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£10,288
Total	4	£10,288

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	4	£10,288

components for combat aircraft.  
 components for military support aircraft (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Belgium  
 Canada  
 Denmark  
 France  
 Germany  
 Hungary  
 Israel  
 Italy  
 Luxembourg

Netherlands  
 Norway

## Hungary

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	92% (11)
% and number of SIELs completed in 60 working days	100% (12)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	61 days
% and number of OIELs completed in 20 working days	21% (4)
% and number of OIELs completed in 60 working days	47% (9)
% [as a % of all OIELs cases processed] and number of OIELs refused	5% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£623,317
Non-military	4	£1,332,600
Total	12	£1,955,917

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£542,472
ML6	1	£3,970
ML7	1	£54,428
ML11	2	£2,447
ML13	1	£20,000

- T components for military combat vehicles.
- T components for military communications equipment.
- T components for pistols.
- T components for sniper rifles.
- T military communications equipment.
- T military helmets.
- T NBC detection equipment.
- T pistols (5).

weapon night sights.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
3A231	1	£1,320,000
PL9010	3	£12,600

neutron generators [See footnote 2].  
 sporting shotguns (1) (2 licences).  
 sporting shotguns (2).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for weapon sights, weapon sights [See footnote 4]
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
4	P	weapon sights
5	P	components for NBC protective/defensive equipment
6	P	weapon sights [See footnote 5]
7	P	components for gun silencers, gun silencers
8	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets

9	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 6]
10	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Armed forces end use.

## Iceland

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	85% (23)
% and number of SIELs completed in 60 working days	100% (27)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	6	£28,380
Non-military	19	£2,295,220
Total	25	£2,323,600

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£25,820
ML2	1	£200
ML7	1	£2,360

- T assault rifles (3).
- T components for NBC protective/defensive equipment.
- T components for sporting guns.
- T grenade launchers.
- T gun silencers.
- T machine guns (3).
- T NBC protective/defensive equipment.
- T pistols (9).
- T rifles (20).
- T sporting guns (21).
- T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£675
1A005	2	£7,600
2B201	1	£210,000
2B352	2	£70,200
5A002	7	£383,979
5D002	2	£594,094
7A008	1	£433,764
7A103	1	£200,000
8D001	1	£169,663
PL9010	2	£225,245

- T biotechnology equipment.
- T civil body armour (2 licences).
- T components for biotechnology equipment.
- T components for sporting shotgun ammunition.
- T deuterium solutions.
- T inertial equipment.
- T information security equipment (6 licences).
- T information security equipment.
- T information security software.
- T machine tools.
- T software for information security equipment.

T software for submersible vehicles.  
sporting shotgun ammunition.  
sporting shotguns (6).  
underwater sonar navigation systems.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£24,000
Total	1	£24,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£24,000

information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Germany

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
3	P	information security equipment, information security software
4	P	weapon sights
5	P	components for sporting shotgun ammunition, sporting shotgun ammunition
6	T	towed hydrophone arrays
7	P	weapon sights
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the

		use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 2]
9	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 3]
10	P	components for small arms ammunition, small arms ammunition [See footnote 4]
11	P	weapon sights [See footnote 5]
12	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 6]
13	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircraft safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 7]
14	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
15	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 8]
16	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 9]
17	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 10]

- airborne refuelling equipment.
- aircraft military communications equipment (3 licences).
- anti-riot/ballistic shields (2 licences) [See footnotes 242, 268].
- assault rifles (1) [See footnote 218].
- assault rifles (2).
- ballistic test equipment.
- blank/inert ammunition.
- T blank/inert ammunition.
- body armour.
- combat helicopters.
- T command communications control and intelligence software.
- components for air-to-air missiles (3 licences) [See footnotes 108, 252].
- components for airborne refuelling equipment.
- components for aircraft carriers [See footnote 170].
- components for aircraft military communications equipment.
- components for artillery (3 licences) [See footnote 87].
- T components for artillery.
- components for assault rifles.
- components for attack alerting/warning equipment (2 licences) [See footnotes 160, 188].
- T components for attack alerting/warning equipment.
- components for body armour.
- components for combat aircraft (82 licences) [See footnotes 177, 178, 179, 180, 185, 190, 191, 192, 193, 196, 199, 202, 204, 205, 4, 69].
- T components for combat aircraft (3 licences) [See footnotes 130, 131].
- components for combat helicopters (12 licences) [See footnote 156].
- T components for combat helicopters.
- components for combat naval vessels (8 licences) [See footnotes 153, 229].
- components for decoying/countermeasure equipment (2 licences).
- components for electronic countermeasure equipment.
- T components for electronic countermeasure equipment.
- components for electronic warfare equipment (18 licences) [See footnotes 157, 158, 48, 71, 80].
- T components for fire location equipment (2 licences) [See footnotes 130, 131].
- T components for ground vehicle military communications equipment.
- components for gun mountings.
- components for launching/ground support equipment for unmanned air vehicles (2 licences) [See footnotes 106, 11].
- T components for launching/handling/control equipment for air-to-air missiles.
- components for launching/handling/control equipment for missiles (2 licences) [See footnotes 227, 229].
- components for launching/handling/control equipment for munitions (5 licences) [See footnote 201].
- T components for launching/handling/control equipment for munitions.
- components for machine guns [See footnote 218].

components for military aero-engines (26 licences) [See footnotes 148, 151, 152, 213, 269, 28, 38, 44, 47].

T components for military aero-engines.  
 components for military aircraft ground equipment.  
 components for military aircraft head-up/down displays.  
 components for military auxiliary/support vessels (2 licences).  
 components for military combat vehicles (4 licences).

T components for military combat vehicles [See footnotes 130, 131].  
 components for military communications equipment (5 licences).

T components for military communications equipment (3 licences) [See footnote 18].

T components for military electronic equipment [See footnote 18].

T components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (6 licences) [See footnote 198].

T components for military guidance/navigation equipment (2 licences) [See footnote 16].  
 components for military helicopters (52 licences) [See footnotes 149, 154, 155, 164, 168, 181, 182, 184, 186, 2, 3].  
 components for military image intensifier equipment [See footnotes 122, 123].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (5 licences).

T components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 components for military infrared/thermal imaging equipment (4 licences) [See footnotes 169, 171, 172, 240].  
 components for military patrol/assault craft (7 licences) [See footnotes 145, 229].  
 components for military radars (41 licences) [See footnotes 162, 163, 165, 166, 229, 236, 244, 81].

T components for military radars [See footnotes 130, 131].  
 components for military spacecraft (2 licences).  
 components for military support aircraft (2 licences) [See footnote 197].

T components for military support aircraft.  
 components for military support vehicles (2 licences).  
 components for military training aircraft (58 licences) [See footnotes 175, 176, 183, 187, 200, 206, 207].

T components for military training aircraft (2 licences).  
 components for military training equipment.

T components for multi-role missiles [See footnote 24].  
 components for naval communications equipment.  
 components for naval electrical/electronic equipment (3 licences).  
 components for naval engines (3 licences).  
 components for NBC protective/defensive equipment.  
 components for periscopes.

T components for periscopes.  
 components for pistols (2 licences) [See footnote 218].  
 components for rangefinding equipment.  
 components for recognition/identification equipment (12 licences).

T components for recognition/identification equipment.  
 components for sensor integration equipment [See footnote 229].  
 components for submarines (3 licences) [See footnotes 159, 161].

T components for surface-to-air missiles (2 licences) [See footnotes 130, 131, 24].  
 components for surface-to-surface missiles (2 licences) [See footnote 214].

T components for surface-to-surface missiles [See footnotes 130, 131].  
 components for targeting equipment (11 licences) [See footnotes 12, 136, 137, 221].

T components for targeting equipment [See footnotes 130, 131].  
 components for test equipment for airborne refuelling equipment.  
 components for unmanned air vehicles (3 licences) [See footnotes 100, 243].  
 components for weapon control equipment (2 licences).

T components for weapon night sights [See footnotes 130, 131].  
 decoying/countermeasure equipment (2 licences).  
 energetic materials additives [See footnote 104].  
 equipment for the development of unmanned air vehicles.  
 equipment for the production of aerial target equipment [See footnote 167].  
 equipment for the production of air-to-air missiles.  
 equipment for the production of artillery [See footnote 141].  
 equipment for the use of air-to-air missiles [See footnote 252].  
 equipment for the use of attack alerting/warning equipment.  
 equipment for the use of electronic countermeasure equipment.  
 explosive charges/devices.  
 general military aircraft components (18 licences) [See footnote 189].

T general military aircraft components.

T general military vehicle components (3 licences) [See footnote 31].  
 general naval vessel components (31 licences) [See footnotes 229, 264, 74].

T ground vehicle military communications equipment.  
gun mountings (2 licences).  
military aircraft ground equipment.

T military aircraft ground equipment (2 licences).  
military aircrew life support equipment (2 licences) [See footnote 194].  
military cameras/photographic equipment (6 licences) [See footnotes 140, 203, 225].

T military cameras/photographic equipment [See footnote 31].

T military communications equipment (6 licences) [See footnotes 18, 31].

T military electronic equipment (2 licences) [See footnote 174].

T military electronic equipment [See footnote 31].

T military equipment for initiating explosives (2 licences).  
military field generators [See footnote 226].  
military guidance/navigation equipment (3 licences).

T military guidance/navigation equipment (3 licences) [See footnote 16].  
military helmets.  
military image recording/processing equipment.  
military improvised explosive device decoying/detection/disposal/jamming equipment.

T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

T military infrared/thermal imaging equipment.

T military parametric technical databases (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].

T military scenario simulation equipment [See footnote 150].  
military training equipment.

T munitions/ordnance detection/disposal equipment.  
naval communications equipment.  
naval electrical/electronic equipment (2 licences).

T periscopes.  
precursors for energetic materials.  
pyrotechnics/fuels and related substances [See footnote 65].  
small arms ammunition (15 licences) [See footnotes 233, 270, 99].

T small arms training equipment [See footnote 211].

T software enabling equipment to function as military guidance/navigation equipment (2 licences).  
software for ballistic test equipment.  
software for military aero-engines (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
software for military communications equipment.  
software for military training aircraft.

T software for military training aircraft.

T sporting guns (1) [See footnote 173].

T targeting equipment.  
technology for air-to-air missiles (4 licences) [See footnotes 101, 252].  
technology for airborne refuelling equipment.  
technology for artillery (2 licences) [See footnote 87].  
technology for decoying/countermeasure equipment.  
technology for equipment for the production of military aero-engines (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for equipment for the use of attack alerting/warning equipment.  
technology for equipment for the use of military aero-engines (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military aero-engines (10 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military aircraft ground equipment (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military communications equipment.  
technology for military containers (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military guidance/navigation equipment (6 licences) [See footnote 119].  
technology for military image intensifier equipment (2 licences).  
technology for military parametric technical databases (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military radars.  
technology for military support aircraft (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for military training aircraft (3 licences) [See footnote 206].  
technology for naval electrical/electronic equipment.  
technology for naval engines.  
technology for targeting equipment.  
technology for unfinished products for military aero-engines (9 licences) [See footnotes 29, 41, 42, 43, 45, 5, 6, 67].  
technology for unmanned air vehicles [See footnote 144].  
test equipment for airborne refuelling equipment.  
training air-to-air missiles (2 licences).

T training blank/inert ammunition.  
training small arms ammunition (2 licences) [See footnote 218].  
unfinished products for combat aircraft (3 licences).

unfinished products for combat helicopters.  
unfinished products for torpedoes.

**Non-military**

- accelerometers (4 licences) [See footnotes 102, 54, 96].  
accessories for lasers [See footnote 146].  
aircraft seals.  
bacteria (4 licences) [See footnotes 128, 129, 241, 26, 7].  
biotechnology equipment (4 licences) [See footnotes 210, 50, 82].  
calcium.  
chemicals used for chemical/materials production [See footnotes 134, 135].  
chemicals used for industrial/commercial processes (3 licences) [See footnotes 134, 135, 262].  
chemicals used for pharmaceutical/healthcare production (2 licences) [See footnotes 93, 98].  
civil explosive detection/identification equipment (9 licences).  
civil NBC detection systems (2 licences).  
civil NBC protection equipment [See footnote 92].  
T civil unmanned air vehicles [See footnote 231].  
components for anti-friction bearings.  
components for biotechnology equipment [See footnote 85].  
components for civil NBC protection equipment [See footnote 92].  
components for corrosion resistant chemical manufacturing equipment [See footnote 36].  
components for information security equipment.  
components for lasers [See footnote 146].  
composite structures.  
computer analogue-to-digital equipment (4 licences) [See footnote 22].  
constituents of propellants (2 licences) [See footnotes 46, 61].  
controlled atmosphere furnaces (3 licences) [See footnote 258].  
corrosion resistant chemical manufacturing equipment (2 licences) [See footnotes 124, 125, 217].  
deuterium compounds (7 licences) [See footnotes 126, 127, 142, 232, 33].  
deuterium solutions (3 licences) [See footnotes 116, 250].  
direct view imaging equipment.  
T direct view imaging equipment.  
electronics cooling fluids (2 licences).  
T explosives detection equipment (2 licences).  
extended temperature range integrated circuits (5 licences) [See footnote 195].  
frequency changers (6 licences) [See footnotes 21, 53, 58].  
general laboratory equipment.  
general purpose integrated circuits (2 licences).  
hafnium manufactures [See footnote 266].  
helium-3.  
helium-3 mixtures.  
high energy capacitors.  
high performance air traffic control software [See footnote 77].  
imaging cameras (24 licences) [See footnotes 107, 223, 34, 35, 90].  
T imaging cameras [See footnote 230].  
inertial equipment (8 licences) [See footnotes 14, 97].  
information security equipment (72 licences) [See footnotes 13, 37, 77, 83].  
T information security equipment (2 licences).  
information security software (7 licences).  
T information security software (2 licences) [See footnote 79].  
instrumentation cameras (4 licences) [See footnotes 20, 34].  
lasers (3 licences) [See footnotes 110, 146].  
machine tools (4 licences) [See footnote 32].

mass spectrometers (3 licences).  
 metal alloy cylindrical forms (45 licences) [See footnotes 117, 138, 139, 15, 17, 19, 219, 220, 222, 23, 25, 27, 39, 51, 52, 55, 56, 63, 9].  
 metal alloy powder production equipment [See footnote 209].  
 metal alloy tubes [See footnote 1].  
 metal alloys in powder form (3 licences).  
 microwave components.  
 nickel powders (16 licences) [See footnotes 103, 49, 64, 8, 94].  
 pathogenic genetic elements [See footnote 113].  
 T radar equipment (2 licences) [See footnote 216].  
 T real-time oscilloscopes.  
 semiconductor manufacturing equipment.  
 T signal generators.  
 software for aero gas turbine engines.  
 software for aero-engine assemblies.  
 software for FADEC systems.  
 software for information security equipment (9 licences) [See footnote 83].  
 software for non-certified aero-engines.  
 T software for radar equipment [See footnote 216].  
 software for technology for gas turbine engines.  
 software for testing aero gas turbine engines.  
 software for X-ray generators [See footnote 76].  
 sonar log equipment.  
 space qualified focal plane arrays (2 licences) [See footnote 265].  
 spacecraft (3 licences) [See footnotes 111, 247].  
 spectrometers.  
 sporting shotguns (1) (3 licences).  
 sub-systems for liquid rocket propulsion systems.  
 submersible equipment (3 licences).  
 technology for aero-engine assemblies.  
 technology for ceramic materials (3 licences).  
 technology for ceramic precursor chemicals (3 licences).  
 technology for ceramic-ceramic composite materials (3 licences).  
 technology for composite structures.  
 technology for corrosion resistant chemical manufacturing equipment (2 licences) [See footnotes 217, 95].  
 technology for electronic devices.  
 technology for engine flow path systems (3 licences).  
 technology for FADEC (4 licences).  
 technology for fibre preforms (3 licences).  
 technology for fibre prepregs (3 licences).  
 technology for fibrous/filamentary materials (4 licences).  
 technology for gas turbine engines (9 licences) [See footnotes 118, 120, 121, 132, 133].  
 technology for general purpose integrated circuits.  
 technology for helicopter/tilt rotor aircraft power transfer systems (3 licences).  
 technology for high performance diesel engines (3 licences).  
 technology for information security equipment (4 licences).  
 technology for information security software.  
 technology for mass spectrometers.  
 technology for metal alloy materials (7 licences) [See footnotes 118, 120, 121, 132, 133, 66].  
 technology for metal alloys in particulate form (4 licences) [See footnote 66].  
 technology for metal alloys in powder form (4 licences) [See footnote 66].  
 technology for metal-working manufacturing processes (7 licences) [See footnotes 118, 120, 121, 132, 133].  
 technology for non-certified aero-engines.  
 technology for propeller blades [See footnote 66].  
 technology for software for aero gas turbine engines.  
 technology for space qualified focal plane arrays (3 licences) [See footnote 265].  
 technology for surface coating equipment (4 licences) [See footnote 66].  
 technology for surface modification equipment (4 licences) [See footnote 66].  
 technology for technology for engine flow path systems [See footnote 66].  
 technology for technology for FADEC [See footnote 66].  
 technology for technology for gas turbine engines [See footnote 66].  
 technology for technology for helicopter/tilt rotor aircraft power transfer systems [See footnote 66].  
 technology for technology for wind tunnel models [See footnote 66].  
 technology for telecommunications interception equipment (2 licences) [See footnotes 234, 237].  
 technology for the application of surface coatings (4 licences) [See footnote 66].  
 technology for turbofan engines [See footnote 66].  
 technology for turbojet engines [See footnote 66].  
 technology for X-ray generators (3 licences) [See footnote 76].

telecommunications interception equipment (2 licences) [See footnotes 234, 237].  
 toxic gas detectors.  
 toxins.  
 triggered spark gaps.  
 X-ray accelerators (3 licences) [See footnote 76].  
 X-ray generators (3 licences) [See footnote 76].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£6,761
6A002	1	£26,500
6A003	2	£102,000
9D003	6	£6
9E003	6	£12
ML4	1	£37,864
ML5	2	£120,000
ML21	6	£6
ML22	6	£12

T components for launching/handling/control equipment for munitions.  
 direct view imaging equipment.  
 imaging cameras.  
 T imaging cameras.  
 radiation hardened integrated circuits.  
 software for FADEC systems (6 licences) [See footnotes 60, 75].  
 software for military aero-engines (5 licences) [See footnotes 60, 75].  
 targeting equipment.  
 T targeting equipment.  
 technology for FADEC (6 licences) [See footnotes 60, 75].  
 technology for military aero-engines (6 licences) [See footnotes 60, 75].  
 technology for software for military aero-engines [See footnote 75].

### Refused

	Count
Non-military	4
Total	4

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
2E002	1
6A203	3

components for radiation hardened TV cameras.  
 instrumentation cameras (2 licences).  
 radiation hardened TV cameras.  
 technology for controlled atmosphere furnaces.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1
7	3

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	18	£3,682,560
Non-military	4	£29,266
Total	22	£3,711,826

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£8,790
ML6	1	£25,000
ML9	1	£27,158
ML10	15	£3,621,611

components for combat aircraft (6 licences) [See footnote 30].  
 components for military aircraft ground equipment (2 licences).  
 components for military helicopters (6 licences).  
 components for turrets.  
 general military aircraft components.  
 general naval vessel components [See footnote 246].  
 weapon control equipment [See footnote 114].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£1,576
3A001	2	£27,690

extended temperature range integrated circuits (2 licences).  
 metal alloy cylindrical forms (2 licences) [See footnote 115].

The items being incorporated in this destination are ultimately destined for all or some of the following:

France  
 Israel  
 Japan  
 Philippines  
 Saudi Arabia

Singapore  
 South Korea  
 Spain  
 Sri Lanka  
 United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	software for aero gas turbine engines, software for metal casting, software for modelling engine flow, technology for aero-engine assemblies, technology for engine flow path systems, technology for gas turbine engines, technology for metal-working manufacturing processes, technology for non-certified aero-engines, technology for stretch-forming equipment, technology for the application of surface coatings
2	P	information security equipment, software for information security software
3	P	components for combat aircraft, equipment for the use of combat aircraft, general military aircraft components, military aircraft ground equipment, unfinished products for combat aircraft [See footnote 10]
4	P	information security software [See footnote 40]
5	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 57]
6	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 62]
7	P	technology for composite laminates, technology for composite structures, technology for composite tubes, technology for fibrous/filamentary materials, technology for stretch-forming equipment [See footnote 68]
8	P	submersible vehicles [See footnote 70]
9	P	information security equipment, information security software
10	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 72]

11	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 73]
12	P	components for information security equipment, information security equipment [See footnote 78]
13	P	software for military aero-engines, technology for military aero-engines, technology for software for military aero-engines [See footnote 84]
14	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 86]
15	P	components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, military guidance/navigation equipment, software for equipment for the use of military training aircraft, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for military training aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft head-up/down displays, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 88]
16	T	towed hydrophone arrays
17	P	hydrophones, towed hydrophone arrays [See footnote 89]
18	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 91]
19	P	components for military helicopters, general military aircraft components [See footnote 105]
20	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 109]
21	P	components for small arms ammunition, small arms ammunition [See footnote 112]
22	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 143]
23	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment

		<p>for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 147]</p>
24	P	<p>components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 208]</p>
25	P	<p>anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for</p>

		<p>military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment, weapon night sights, weapon sights [See footnote 212]</p>
26	P	<p>components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 215]</p>
27	T	<p>acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment</p>
28	P	<p>military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 224]</p>

29	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 228]
30	P	aircraft cannons, components for aircraft cannons, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military helicopters, components for military support aircraft, components for military training aircraft, components for submarines, components for weapon mountings, equipment for the use of aircraft cannons, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, general naval vessel components, military aircraft ground equipment, military patrol/assault craft [See footnote 235]
31	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 239]
32	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 245]
33	P	artillery, components for artillery, components for equipment for the use of artillery, components for fire location equipment, components for military guidance/navigation equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, equipment for the use of artillery, fire location equipment, military guidance/navigation equipment, military radars, targeting equipment, weapon control equipment, weapon night sights, weapon sight mounts, weapon sights [See footnote 248]
34	P	military aircraft head-up/down displays, military guidance/navigation equipment, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for targeting equipment, targeting equipment, technology for military aircraft head-up/down displays, technology for military guidance/navigation equipment, technology for targeting equipment
35	P	components for air-to-air missiles, components for equipment for the production of air-to-air missiles, components for launching/handling/control equipment for missiles, components for military aircraft head-up/down displays, components for military electronic equipment, equipment for the production of air-to-air missiles, equipment for the use of air-to-air missiles, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military electronic equipment, inert air-to-air missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military aircraft head-up/down displays, military electronic equipment, technology for air-to-air missiles, technology for launching/handling/control equipment for missiles, technology for military aircraft head-up/down displays, technology for military electronic equipment, technology for production installations for air-to-air missiles, technology for production installations for launching/handling/control equipment for missiles, unfinished products for air-to-air missiles [See footnote 249]
36	P	spacecraft [See footnote 251]
37	P	components for military training aircraft, general military aircraft components [See footnote 253]
38	P	information security equipment, information security software [See footnote 254]
39	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components

		for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 255]
40	P	components for military training aircraft, general military aircraft components [See footnote 256]
41	P	components for combat aircraft, components for equipment for the production of combat aircraft, equipment for the production of combat aircraft, military aircraft ground equipment, technology for military helicopters [See footnote 257]
42	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 259]
43	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 260]
44	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 261]

45	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 263]
46	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 267]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment

### SITCLs

Source	Issued	Refused	Revoked
Ukraine	4	0	0

### Issued

components for periscopes.  
components for tanks (3 licences).

Malaysia	1	0	0
Oman	1	0	0

### Issued

airborne refuelling equipment [See footnote 238].  
aircraft military communications equipment [See footnote 238].  
attack alerting/warning equipment [See footnote 238].  
components for airborne refuelling equipment [See footnote 238].  
components for aircraft military communications equipment [See footnote 238].  
components for attack alerting/warning equipment [See footnote 238].  
components for combat aircraft [See footnote 238].  
components for demolition charges/devices [See footnote 59].  
components for electronic countermeasure equipment [See footnote 238].  
components for electronic warfare equipment [See footnote 238].  
components for military aero-engines [See footnote 238].  
components for military aircraft head-up/down displays [See footnote 238].  
components for military cameras/photographic equipment [See footnote 238].  
components for military electronic equipment [See footnote 238].  
components for military guidance/navigation equipment [See footnote 238].  
components for military image intensifier equipment [See footnote 238].  
components for military image recording/processing equipment [See footnote 238].  
components for military infrared/thermal imaging equipment [See footnote 238].  
components for military radars [See footnote 238].  
components for military scenario simulation equipment [See footnote 238].  
components for military training equipment [See footnote 238].  
components for rangefinding equipment [See footnote 238].  
components for recognition/identification equipment [See footnote 238].  
components for sensor integration equipment [See footnote 238].

components for targeting equipment [See footnote 238].  
components for weapon control equipment [See footnote 238].  
demolition charges/devices [See footnote 59].  
electronic countermeasure equipment [See footnote 238].  
electronic warfare equipment [See footnote 238].  
equipment for the operation of military aircraft in confined areas [See footnote 238].  
general military aircraft components [See footnote 238].  
military aero-engines [See footnote 238].  
military aircraft ground equipment [See footnote 238].  
military aircraft head-up/down displays [See footnote 238].  
military aircraft pressure refuellers [See footnote 238].  
military aircrew life support equipment [See footnote 238].  
military aircrew safety equipment [See footnote 238].  
military cameras/photographic equipment [See footnote 238].  
military electronic equipment [See footnote 238].  
military guidance/navigation equipment [See footnote 238].  
military image intensifier equipment [See footnote 238].  
military image recording/processing equipment [See footnote 238].  
military infrared/thermal imaging equipment [See footnote 238].  
military radars [See footnote 238].  
military scenario simulation equipment [See footnote 238].  
military training equipment [See footnote 238].  
rangefinding equipment [See footnote 238].  
recognition/identification equipment [See footnote 238].  
sensor integration equipment [See footnote 238].  
software for airborne refuelling equipment [See footnote 238].  
software for aircraft military communications equipment [See footnote 238].  
software for attack alerting/warning equipment [See footnote 238].  
software for combat aircraft [See footnote 238].  
software for demolition charges/devices [See footnote 59].  
software for electronic countermeasure equipment [See footnote 238].  
software for electronic warfare equipment [See footnote 238].  
software for equipment for the operation of military aircraft in confined areas [See footnote 238].  
software for general military aircraft components [See footnote 238].  
software for military aero-engines [See footnote 238].  
software for military aircraft ground equipment [See footnote 238].  
software for military aircraft head-up/down displays [See footnote 238].  
software for military aircraft pressure refuellers [See footnote 238].  
software for military aircrew life support equipment [See footnote 238].  
software for military aircrew safety equipment [See footnote 238].  
software for military cameras/photographic equipment [See footnote 238].  
software for military electronic equipment [See footnote 238].  
software for military guidance/navigation equipment [See footnote 238].  
software for military image intensifier equipment [See footnote 238].  
software for military image recording/processing equipment [See footnote 238].  
software for military infrared/thermal imaging equipment [See footnote 238].  
software for military radars [See footnote 238].  
software for military scenario simulation equipment [See footnote 238].  
software for military training equipment [See footnote 238].  
software for rangefinding equipment [See footnote 238].  
software for recognition/identification equipment [See footnote 238].  
software for sensor integration equipment [See footnote 238].  
software for targeting equipment [See footnote 238].  
software for weapon control equipment [See footnote 238].  
targeting equipment [See footnote 238].  
technology for airborne refuelling equipment [See footnote 238].  
technology for aircraft military communications equipment [See footnote 238].  
technology for attack alerting/warning equipment [See footnote 238].  
technology for combat aircraft [See footnote 238].  
technology for demolition charges/devices [See footnote 59].  
technology for electronic countermeasure equipment [See footnote 238].  
technology for electronic warfare equipment [See footnote 238].  
technology for equipment for the operation of military aircraft in confined areas [See footnote 238].  
technology for general military aircraft components [See footnote 238].  
technology for military aero-engines [See footnote 238].  
technology for military aircraft ground equipment [See footnote 238].  
technology for military aircraft head-up/down displays [See footnote 238].  
technology for military aircraft pressure refuellers [See footnote 238].  
technology for military aircrew life support equipment [See footnote 238].  
technology for military aircrew safety equipment [See footnote 238].

technology for military cameras/photographic equipment [See footnote 238].  
 technology for military electronic equipment [See footnote 238].  
 technology for military guidance/navigation equipment [See footnote 238].  
 technology for military image intensifier equipment [See footnote 238].  
 technology for military image recording/processing equipment [See footnote 238].  
 technology for military infrared/thermal imaging equipment [See footnote 238].  
 technology for military radars [See footnote 238].  
 technology for military scenario simulation equipment [See footnote 238].  
 technology for military training equipment [See footnote 238].  
 technology for rangefinding equipment [See footnote 238].  
 technology for recognition/identification equipment [See footnote 238].  
 technology for sensor integration equipment [See footnote 238].  
 technology for targeting equipment [See footnote 238].  
 technology for weapon control equipment [See footnote 238].  
 weapon control equipment [See footnote 238].

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	168	£50,460,916
Non-military	64	£8,108,377
Both Military and Non-military	8	£750,589
Total	240	£59,319,882

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	19	£3,500,082
ML2	2	£265,377

ML3	5	£155,733
ML4	10	£740,458
ML5	16	£4,050,316
ML6	2	£334,874
ML7	1	£8,000
ML9	8	£812,708
ML10	82	£36,157,605
ML11	27	£2,216,650
ML13	10	£194,537
ML14	1	£398,574
ML15	10	£1,374,497
ML17	1	£43,968
ML21	9	£150,110
ML22	13	£50,369
PL5017	9	£7,058

- T aerial target equipment.  
aircraft military communications equipment (4 licences) [See footnotes 64, 8].  
all-wheel drive vehicles with ballistic protection.  
body armour (2 licences) [See footnote 36].
- T body armour [See footnote 81].  
bomb suits (3 licences) [See footnotes 103, 106].  
combat helicopters.
- T components for aerial target equipment.  
components for aircraft cannons.
- T components for aircraft military communications equipment [See footnote 8].  
components for aircraft military communications equipment [See footnote 38].  
components for assault rifles (2 licences) [See footnotes 101, 46, 47].  
components for attack alerting/warning equipment (3 licences).
- T components for attack alerting/warning equipment.  
components for body armour (6 licences) [See footnote 36].
- T components for body armour [See footnote 81].  
components for combat aircraft (7 licences) [See footnotes 69, 70].  
components for combat helicopters.  
components for combat naval vessels (3 licences).  
components for gun mountings [See footnote 86].  
components for machine guns (2 licences) [See footnotes 101, 46, 47].  
components for military aero-engines (5 licences).  
components for military aircrew life support equipment.  
components for military auxiliary/support vessels (2 licences) [See footnote 93].  
components for military communications equipment (5 licences).
- T components for military communications equipment.  
components for military electronic equipment (5 licences) [See footnote 7].  
components for military equipment for initiating explosives (2 licences) [See footnotes 105, 107].  
components for military guidance/navigation equipment (3 licences).  
components for military helicopters (14 licences) [See footnotes 16, 66, 98, 99].  
components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences) [See footnotes 103, 104, 108].  
components for military infrared/thermal imaging equipment [See footnote 3].  
components for military radars (4 licences) [See footnote 94].  
components for military support aircraft (13 licences) [See footnote 96].  
components for military training aircraft (33 licences) [See footnotes 100, 65, 67, 70, 71, 97].  
components for munitions/ordnance detection/disposal equipment (5 licences) [See footnotes 103, 104, 105, 107, 108].  
components for pistols (2 licences) [See footnotes 101, 46, 47].  
components for sniper rifles (3 licences) [See footnotes 21, 82, 86].
- T components for sniper rifles [See footnote 63].  
components for submarines.
- T components for surface-to-air missiles [See footnote 79].
- T components for surface-to-surface missiles [See footnote 79].
- T components for weapon cleaning equipment (2 licences).  
decoying/countermeasure equipment [See footnote 68].  
equipment for the operation of military aircraft in confined areas.
- T equipment for the use of attack alerting/warning equipment.
- T equipment for the use of electronic countermeasure equipment.

- equipment for the use of machine guns (2 licences) [See footnotes 101, 46, 47].  
equipment for the use of military equipment for initiating explosives (2 licences) [See footnotes 105, 107].  
equipment for the use of sniper rifles (2 licences) [See footnotes 21, 82].
- T equipment for the use of sniper rifles [See footnote 63].  
general military aircraft components (2 licences) [See footnote 95].  
general military vehicle components [See footnote 2].  
general naval vessel components (2 licences).  
goods treated for signature suppression for military use.  
gun mountings (2 licences) [See footnotes 21, 86].
- T gun mountings [See footnote 63].  
gun silencers [See footnote 86].
- T launching/handling/control equipment for man portable air defence system missiles [See footnote 79].  
military aircraft ground equipment (3 licences).  
military aircrew life support equipment.
- T military cameras/photographic equipment [See footnote 38].  
military communications equipment (3 licences) [See footnote 106].
- T military communications equipment.  
military electronic equipment (3 licences) [See footnotes 105, 107].  
military equipment for initiating explosives (2 licences) [See footnotes 105, 107].  
military guidance/navigation equipment (6 licences) [See footnotes 34, 64].
- T military guidance/navigation equipment (6 licences) [See footnotes 111, 39, 41, 42, 43, 44, 45, 59].  
military helmets (6 licences) [See footnotes 103, 106, 36].
- T military helmets [See footnote 81].  
military image intensifier equipment (2 licences) [See footnote 62].
- T military image intensifier equipment (6 licences) [See footnotes 111, 39, 41, 42, 43, 44, 45, 59].  
military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences) [See footnotes 102, 105, 107, 72].
- T military infrared/thermal imaging equipment (5 licences) [See footnotes 111, 39, 41, 42, 43, 44, 45].  
munitions/ordnance detection/disposal equipment (3 licences) [See footnotes 105, 106, 107].  
NBC detection equipment.  
periscopes [See footnote 85].
- T projectile launchers [See footnote 81].
- T rangefinding equipment (6 licences) [See footnotes 111, 39, 41, 42, 43, 44, 45, 59].  
small arms ammunition (3 licences) [See footnotes 21, 27].
- T sniper rifles (3) [See footnote 63].  
sniper rifles (56) [See footnote 86].  
sniper rifles (200) [See footnote 21].  
software enabling equipment to function as military communications equipment.  
software for attack alerting/warning equipment (3 licences).  
software for military aircraft ground equipment.  
software for military communications equipment (3 licences).  
software for military guidance/navigation equipment.  
technology for attack alerting/warning equipment (2 licences).  
technology for combat helicopters.  
technology for decoying/countermeasure equipment [See footnote 68].  
technology for equipment for the production of launching/handling/control equipment for man portable air defence system missiles [See footnotes 54, 55].  
technology for equipment for the production of military combat vehicles [See footnotes 54, 55].  
technology for equipment for the production of weapon control equipment [See footnotes 54, 55].  
technology for launching/handling/control equipment for man portable air defence system missiles [See footnotes 54, 55].  
technology for launching/handling/control equipment for missiles.  
technology for military combat vehicles [See footnotes 54, 55].  
technology for military communications equipment (4 licences).  
technology for military training aircraft.  
technology for sniper rifles [See footnote 86].
- T technology for weapon cleaning equipment.  
technology for weapon control equipment [See footnotes 54, 55].  
training small arms ammunition (2 licences) [See footnote 101].
- T unmanned air vehicles [See footnote 81].  
weapon cleaning equipment (2 licences) [See footnotes 82, 86].
- T weapon cleaning equipment (3 licences) [See footnote 63].  
weapon night sights [See footnote 33].
- T weapon night sights (7 licences) [See footnotes 111, 38, 39, 41, 42, 43, 44, 45, 59].  
weapon sight mounts [See footnote 86].
- T weapon sights (7 licences) [See footnotes 21, 86].
- T weapon sights (7 licences) [See footnotes 111, 39, 41, 42, 43, 44, 45, 59, 63].

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£1,200
1A004	12	£1,137,369

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	6	£82,055
Total	6	£82,055

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,000
ML9	1	£53,168
ML10	4	£27,887

aircraft military communications equipment.  
 components for decoying/countermeasure equipment.  
 components for military support aircraft (3 licences).  
 general naval vessel components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Philippines  
 South Korea  
 Vietnam

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military training equipment, components for military training equipment, military training equipment, software for military training equipment, technology for military training equipment [See footnote 9]
2	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 15]
3	P	technology for composite laminates, technology for composite structures, technology for composite tubes, technology for fibrous/filamentary materials, technology for stretch-forming equipment [See footnote 17]
4	P	submersible vehicles [See footnote 18]
5	P	information security equipment, information security software

6	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 20]
7	P	components for information security equipment, information security equipment [See footnote 23]
8	T	towed hydrophone arrays
9	T	towed hydrophone arrays
10	P	civil aero-engines, components for civil aero-engines, components for marine engines, technology for civil aero-engines [See footnote 40]
11	P	components for military combat vehicles, components for turrets, technology for military combat vehicles, technology for turrets [See footnotes 48, 49]
12	P	components for combat aircraft [See footnotes 56, 57]
13	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 58]
14	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 76]
15	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
16	P	accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for combat aircraft, components for decoying/countermeasure equipment, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of combat aircraft, components for equipment for the use of military training aircraft, components for launching/handling/control equipment for missiles, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military radars, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of attack alerting/warning equipment, equipment for the use of combat aircraft, equipment for the use of electronic countermeasure equipment, equipment for the use of military radars, equipment for the use of military training aircraft, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, launching/handling/control equipment for missiles, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military radars, military scenario simulation equipment, military training equipment, sensor integration equipment, software for combat aircraft, software for military communications equipment, software for military guidance/navigation equipment, software for military training aircraft, targeting equipment, technology for combat aircraft, technology for military training aircraft, technology for software for combat aircraft, technology for software for military communications equipment, technology for software for military guidance/navigation equipment, technology for software for military training aircraft, test models for combat aircraft, test models for military training aircraft, unfinished products for combat aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 87]

17	P	components for marine position fixing equipment [See footnote 89]
18	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 91]
19	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 109]
20	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 110]

## SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

### Issued

Types of goods on licence	No. of licences	Value
Non-military	64	£27,450,413
Total	64	£27,450,413

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£6,921
2B350	1	£801
5A002	5	£2,484,232
5D002	4	£938,735
End Use	26	£341,917
IRN	3	£47,550
PL8001	2	£34,000
PL9008	4	£2,251,800
PL9009	22	£21,344,457

- accessories for materials testing equipment (6 licences).
- accessories for temperature measurement equipment.
- chemicals.
- civil aero-engines [See footnote 2].
- T civil aero-engines [See footnote 8].
- civil NBC protection equipment [See footnote 4].
- components for civil aero-engines (2 licences) [See footnote 20].
- components for civil aircraft (18 licences) [See footnotes 1, 13, 14, 15, 16, 19, 25, 27, 28, 29, 30, 9].
- components for civil NBC protection equipment [See footnote 4].
- components for corrosion protection equipment.
- components for machine tools.
- components for marine engines [See footnote 10].
- components for materials testing equipment (2 licences).
- components for particle counters.
- components for pumps.
- components for temperature measurement equipment.
- components for valves.
- corrosion protection equipment.
- corrosion resistant chemical manufacturing equipment [See footnote 7].
- electric motors.
- electronic measurement/test equipment.
- T explosives detection equipment (2 licences) [See footnote 12].
- ferrous alloys.
- general laboratory equipment.
- industrial generators.
- information security equipment (4 licences) [See footnotes 11, 21, 5, 6].
- T information security equipment [See footnote 3].
- information security software [See footnote 11].
- T information security software [See footnote 3].

inspection equipment.  
 materials processing equipment.  
 materials testing equipment (5 licences).  
 nickel powders.  
 non-ferrous alloys [See footnote 18].  
 particle counters.  
 pumps.  
 seals.  
 software for information security equipment (2 licences) [See footnotes 5, 6].  
 technology for marine vessels (3 licences) [See footnotes 22, 23, 24].  
 temperature measurement equipment (3 licences).  
 valves.

## Refused

	Count
Military	2
Non-military	41
Total	43

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	2

weapon sights (2 licences).

## Issued

oil and gas industry equipment/materials.

## Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP (as amended) and EU Council Regulation 267/2012 (as amended). Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

bomb suits [See footnotes 46, 47].  
components for all-wheel drive vehicles with ballistic protection (4 licences) [See footnotes 24, 26].

- components for body armour (3 licences) [See footnotes 88, 89, 9].
- components for ground vehicle military communications equipment [See footnote 63].
- components for military aircraft head-up/down displays [See footnotes 44, 45].
- components for military communications equipment [See footnote 21].
- components for military electronic equipment (2 licences) [See footnotes 16, 21].
- components for military equipment for initiating explosives [See footnote 77].
- components for military guidance/navigation equipment (2 licences) [See footnotes 16, 21].
- components for NBC detection equipment (3 licences) [See footnote 67].
- components for pistols [See footnote 33].
- components for sniper rifles [See footnote 41].
- equipment for the use of launching/handling/control equipment for munitions.
- equipment for the use of military aircraft head-up/down displays [See footnotes 44, 45].
- equipment for the use of military communications equipment [See footnote 21].
- equipment for the use of pistols [See footnote 33].
- military aircraft ground equipment [See footnote 40].
- military aircraft head-up/down displays [See footnotes 44, 45].
- military aircrew life support equipment [See footnote 30].
- military aircrew safety equipment (2 licences) [See footnotes 30, 44, 45].
- military communications equipment [See footnote 16].
- military electronic equipment [See footnote 21].
- military equipment for initiating explosives.
- military helmets (5 licences) [See footnotes 48, 49, 61, 81, 89, 9].
- military helmets [See footnotes 46, 47].
- military image intensifier equipment [See footnotes 44, 45].
- military laser protection equipment (2 licences) [See footnote 72].
- munitions/ordnance detection/disposal equipment (2 licences) [See footnote 55].
- NBC detection equipment (3 licences) [See footnote 67].
- pistols [See footnote 33].
- technology for military aircrew life support equipment [See footnote 30].

#### Non-military

- accessories for corrosion resistant chemical manufacturing equipment.
- civil explosive detection/identification equipment (2 licences) [See footnote 28].
- civil explosive detection/identification software.
- civil NBC protection equipment [See footnote 27].
- components for devices for initiating explosives [See footnote 62].
- corrosion resistant chemical manufacturing equipment [See footnote 11].
- counter-improvised explosive device equipment (3 licences) [See footnotes 3, 74].
- information security equipment (12 licences) [See footnotes 15, 17, 20, 25, 42, 65, 7, 8].
- information security equipment [See footnote 71].
- information security software (2 licences).
- software for information security equipment (2 licences) [See footnote 25].
- software for X-ray generators [See footnote 13].
- technology for information security equipment [See footnote 69].
- technology for software for information security equipment.
- technology for X-ray generators [See footnote 13].
- telecommunications interception equipment [See footnote 39].
- X-ray accelerators [See footnote 13].
- X-ray generators [See footnote 13].

#### Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Issued

all-wheel drive vehicles with ballistic protection (4 licences) [See footnote 36].  
 anti-armour weapons [See footnote 1].  
 artillery ammunition [See footnote 66].  
 assault rifles (20).  
 body armour.  
 components for assault rifles.  
 components for body armour.  
 components for NBC protective/defensive equipment.  
 components for pistols.  
 goods treated for signature suppression for military use.  
 grenade launchers [See footnote 1].  
 hand grenades [See footnote 66].

launching/handling/control equipment for rockets (2 licences) [See footnotes 31, 34].  
 machine guns (100) [See footnote 1].  
 machine guns (400) [See footnote 57].  
 machine guns (500) [See footnote 31].  
 military aircrew life support equipment.  
 military aircrew safety equipment.  
 military combat vehicles.  
 military communications equipment.  
 military field generators.  
 military helmets.  
 military image intensifier equipment.  
 mortar bombs [See footnote 66].  
 mortars (2 licences) [See footnotes 1, 66].  
 NBC protective/defensive equipment (2 licences) [See footnotes 50, 51].  
 pistols (15).  
 pistols (250) [See footnote 1].  
 promoting the supply of accessories for military image intensifier equipment [See footnote 54].  
 promoting the supply of accessories for military training equipment [See footnote 43].  
 promoting the supply of air launched rockets [See footnote 58].  
 promoting the supply of air-to-surface missiles.  
 promoting the supply of anti-aircraft ammunition [See footnotes 52, 53].  
 promoting the supply of anti-aircraft guns (2 licences) [See footnotes 52, 53, 58].  
 promoting the supply of anti-armour ammunition (2 licences) [See footnotes 54, 68].  
 promoting the supply of anti-personnel land mines [See footnote 54].  
 promoting the supply of artillery [See footnote 82].  
 promoting the supply of artillery ammunition (3 licences) [See footnotes 68, 79].  
 promoting the supply of assault rifles (2) [See footnote 87].  
 promoting the supply of assault rifles (7) [See footnotes 50, 51].  
 promoting the supply of assault rifles (20) [See footnote 84].  
 promoting the supply of assault rifles (321) [See footnote 34].  
 promoting the supply of assault rifles (335) [See footnote 85].  
 promoting the supply of assault rifles (490) [See footnote 80].  
 promoting the supply of assault rifles (2500) [See footnote 78].  
 promoting the supply of assault rifles (4000) [See footnote 43].  
 promoting the supply of assault rifles (5296) [See footnote 54].  
 promoting the supply of assault rifles (10000) [See footnote 37].  
 promoting the supply of assault rifles (11000) [See footnote 6].  
 promoting the supply of assault rifles [See footnote 59].  
 promoting the supply of blank/inert ammunition (2 licences) [See footnotes 54, 56].  
 promoting the supply of body armour (4 licences) [See footnotes 50, 51, 54, 59, 82].  
 promoting the supply of combat helicopters [See footnote 18].  
 promoting the supply of combat shotguns (2) [See footnote 54].  
 promoting the supply of combat shotguns (4) [See footnote 85].  
 promoting the supply of combat shotguns (7) [See footnotes 50, 51].  
 promoting the supply of combat shotguns [See footnote 59].  
 promoting the supply of components for anti-aircraft ammunition [See footnote 58].  
 promoting the supply of components for artillery [See footnote 82].  
 promoting the supply of components for artillery ammunition [See footnote 79].  
 promoting the supply of components for assault rifles (3 licences) [See footnotes 50, 51, 59, 87].  
 promoting the supply of components for body armour [See footnote 54].  
 promoting the supply of components for combat helicopters [See footnote 18].  
 promoting the supply of components for launching/handling/control equipment for munitions [See footnote 58].  
 promoting the supply of components for machine guns (5 licences) [See footnotes 5, 50, 51, 54, 59, 87].  
 promoting the supply of components for military aircraft head-up/down displays (3 licences) [See footnotes 18, 23, 83].  
 promoting the supply of components for military combat vehicles (5 licences) [See footnotes 43, 56, 76, 82].  
 promoting the supply of components for military helicopters (2 licences) [See footnotes 23, 83].  
 promoting the supply of components for military support vehicles (2 licences) [See footnote 82].  
 promoting the supply of components for munitions/ordnance detection/disposal equipment [See footnote 76].  
 promoting the supply of components for pistols (4 licences) [See footnotes 50, 51, 54, 59, 87].  
 promoting the supply of components for small arms ammunition (2 licences) [See footnotes 58, 87].  
 promoting the supply of components for sniper rifles [See footnote 54].  
 promoting the supply of components for unmanned air vehicles (2 licences) [See footnotes 50, 51, 59].  
 promoting the supply of constructions for ballistic protection of military systems [See footnote 18].  
 promoting the supply of decoying/countermeasure equipment [See footnote 70].

promoting the supply of demolition charges/devices (2 licences) [See footnotes 2, 5].  
 promoting the supply of devices containing military pyrotechnic materials [See footnote 54].  
 promoting the supply of electronic warfare equipment [See footnote 54].  
 promoting the supply of exploding grenade ammunition (6 licences) [See footnotes 12, 14, 19, 35, 75, 79].  
 promoting the supply of fuze setting devices (2 licences) [See footnote 79].  
 promoting the supply of grenade launchers (5 licences) [See footnotes 34, 50, 51, 54, 59, 85].  
 promoting the supply of ground vehicle military communications equipment [See footnote 54].  
 promoting the supply of gun mountings (4 licences) [See footnotes 43, 56, 58, 85].  
 promoting the supply of gun silencers (2 licences) [See footnotes 50, 51, 59].  
 promoting the supply of hand grenades (3 licences) [See footnotes 43, 54, 68].  
 promoting the supply of illuminators [See footnote 54].  
 promoting the supply of launching/handling/control equipment for missiles [See footnote 43].  
 promoting the supply of launching/handling/control equipment for munitions (2 licences) [See footnotes 54, 58].  
 promoting the supply of launching/handling/control equipment for rockets (3 licences) [See footnotes 58, 60, 78].  
 promoting the supply of machine guns (1) [See footnote 60].  
 promoting the supply of machine guns (6) [See footnote 58].  
 promoting the supply of machine guns (14) (2 licences) [See footnotes 50, 51, 54].  
 promoting the supply of machine guns (30) [See footnote 34].  
 promoting the supply of machine guns (32) [See footnote 85].  
 promoting the supply of machine guns (47) [See footnote 5].  
 promoting the supply of machine guns [See footnote 59].  
 promoting the supply of military combat vehicles (4 licences) [See footnotes 43, 5, 82].  
 promoting the supply of military communications equipment (5 licences) [See footnotes 50, 51, 54, 59, 82, 84].  
 promoting the supply of military containers.  
 promoting the supply of military electronic equipment [See footnote 82].  
 promoting the supply of military equipment for initiating explosives (4 licences) [See footnotes 2, 5, 54, 85].  
 promoting the supply of military helicopters (2 licences) [See footnotes 23, 83].  
 promoting the supply of military helmets (3 licences) [See footnotes 50, 51, 54, 59].  
 promoting the supply of military image intensifier equipment (3 licences) [See footnotes 50, 51, 54, 59].  
 promoting the supply of military infrared/thermal imaging equipment (4 licences) [See footnotes 34, 50, 51, 54, 59].  
 promoting the supply of military support vehicles (7 licences) [See footnotes 10, 50, 51, 59, 76, 82].  
 promoting the supply of military training equipment (3 licences) [See footnotes 34, 43, 85].  
 promoting the supply of mortar bombs [See footnote 68].  
 promoting the supply of mortars (3 licences) [See footnotes 34, 68, 85].  
 promoting the supply of munitions/ordnance detection/disposal equipment (3 licences) [See footnotes 60, 64, 76].  
 promoting the supply of NBC detection equipment (2 licences) [See footnotes 5, 76].  
 promoting the supply of NBC protective/defensive equipment (5 licences) [See footnotes 5, 54, 56, 59, 82].  
 promoting the supply of pistols (2) [See footnote 87].  
 promoting the supply of pistols (7) [See footnotes 50, 51].  
 promoting the supply of pistols (14) [See footnote 84].  
 promoting the supply of pistols (48) [See footnote 54].  
 promoting the supply of pistols (190) [See footnote 34].  
 promoting the supply of pistols (200) [See footnote 85].  
 promoting the supply of pistols (2500) [See footnote 37].  
 promoting the supply of pistols [See footnote 59].  
 promoting the supply of rangefinding equipment [See footnote 54].  
 promoting the supply of rifles (7) [See footnotes 50, 51].  
 promoting the supply of signalling devices (4 licences) [See footnotes 43, 54, 56, 64].  
 promoting the supply of small arms ammunition (12 licences) [See footnotes 37, 43, 56, 64, 73, 78, 82, 84, 85, 87].  
 promoting the supply of small arms training equipment [See footnote 87].  
 promoting the supply of smoke/pyrotechnic ammunition (4 licences) [See footnotes 54, 79, 82].  
 promoting the supply of sniper rifles (5) [See footnote 85].  
 promoting the supply of sniper rifles (7) [See footnotes 50, 51].  
 promoting the supply of sniper rifles (8) [See footnote 54].  
 promoting the supply of sniper rifles (9) [See footnote 34].  
 promoting the supply of sniper rifles (200) [See footnote 68].  
 promoting the supply of sniper rifles [See footnote 59].  
 promoting the supply of surface launched rockets (3 licences) [See footnotes 54, 68].  
 promoting the supply of surface-to-surface missiles (2 licences) [See footnotes 43, 86].  
 promoting the supply of targeting equipment (2 licences) [See footnotes 50, 51, 59].

promoting the supply of technology for military helicopters [See footnote 83].  
 promoting the supply of training hand grenades [See footnote 54].  
 promoting the supply of training surface-to-surface missiles [See footnote 43].  
 promoting the supply of unmanned air vehicles (3 licences) [See footnotes 50, 51, 54, 59].  
 promoting the supply of weapon cleaning equipment (2 licences) [See footnotes 5, 87].  
 promoting the supply of weapon control equipment [See footnote 85].  
 promoting the supply of weapon mountings [See footnote 58].  
 promoting the supply of weapon night sights (3 licences) [See footnotes 34, 54, 85].  
 promoting the supply of weapon sights (3 licences) [See footnotes 34, 54, 85].  
 sniper rifles (5).  
 sniper rifles (200) [See footnote 66].  
 sniper rifles (350) [See footnote 1].  
 surface launched rockets (2 licences) [See footnote 4].  
 targeting equipment.  
 weapon cleaning equipment.  
 weapon sights.

## Issued

bomb suits.  
 demolition charges/devices.  
 explosives.  
 military equipment for initiating explosives.

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

2. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

Both Military and Non-military	2	£20,520
Total	42	£3,449,469

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	13	£149,445
ML2	1	£12,000
ML3	1	£41,400
ML4	5	£31,362
ML6	5	£759,221
ML7	5	£288,899
ML8	1	£52
ML9	4	£1,597,575
ML11	1	£525,832
PL5017	5	£18,513

- anti-aircraft guns.
- artillery.
- blank/inert ammunition.
- components for assault rifles.
- components for combat naval vessels.
- components for military combat vehicles (3 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- components for naval engines.
- components for NBC protective/defensive equipment (3 licences).
- components for sporting guns.
- energetic materials additives.
- equipment for the use of military combat vehicles [See footnote 8].
- equipment for the use of NBC protective/defensive equipment.
- general naval vessel components (2 licences).
- gun silencers (3 licences).
- T military electronic equipment.
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- military support vehicles (2 licences).
- sniper rifles (1).
- T sporting guns (1).
- tear gas/riot control agents (2 licences).
- training small arms ammunition.
- weapon cleaning equipment (2 licences).
- T weapon cleaning equipment.
- weapon night sights.
- weapon sights (5 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	1	£4,650

sporting shotguns (1).

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£4,620
PL9010	2	£15,900

gun silencers.  
sporting guns (1).  
sporting guns (4).  
sporting shotguns (1).  
sporting shotguns (4).

## **SIELs - Incorporation**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	9	£486,238
Total	9	£486,238

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	9	£486,238

components for military combat vehicles (9 licences) [See footnote 10].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Singapore  
South Africa  
United States of America

## **SIELs - Transshipment**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£45,190
Total	1	£45,190

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£45,190

blank/inert ammunition.  
crowd control ammunition.  
tear gas/irritant ammunition.  
training crowd control ammunition.  
training tear gas/irritant ammunition.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	non-military detonators, non-military firing sets
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 2]
5	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 3]
6	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields [See footnote 4]
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	T	towed hydrophone arrays
9	P	hydrophones, towed hydrophone arrays [See footnote 5]
10	P	technology for combined cycle engines
11	P	weapon sights
12	P	components for NBC protective/defensive equipment

13	P	weapon sights [See footnote 6]
14	P	technology for military aero-engines
15	P	components for gun silencers, gun silencers
16	P	explosives, non-military detonators [See footnote 7]
17	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
18	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
19	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 9]
20	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets

#### SITCLs

Source	Issued	Refused	Revoked
Israel	1	0	0

#### Issued

promoting the supply of assault rifles (100).  
promoting the supply of components for assault rifles.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.
4. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.

PL5001	1	£242,250

- T accessories for military scenario simulation equipment.  
aerial target equipment.  
aircraft military communications equipment [See footnote 70].  
all-wheel drive vehicles with ballistic protection (2 licences).  
anti-armour ammunition.  
anti-riot/ballistic shields [See footnote 117].  
blank/inert ammunition [See footnote 34].  
command/control equipment for unmanned air vehicles [See footnote 88].
- T components for aerial target equipment.  
components for aircraft military communications equipment [See footnote 12].  
components for aircraft missile protection systems.  
components for all-wheel drive vehicles with ballistic protection [See footnote 61].  
components for assault rifles [See footnote 17].  
components for ballistic test equipment.  
components for combat aircraft (2 licences).  
components for combat helicopters (2 licences).  
components for combat naval vessels (2 licences).  
components for decoying/countermeasure equipment (2 licences) [See footnote 72].  
components for electronic warfare equipment (8 licences) [See footnotes 145, 148, 72].
- T components for general military aircraft components [See footnotes 129, 130].  
components for military aero-engines.  
components for military aircraft head-up/down displays (3 licences) [See footnote 60].  
components for military communications equipment.  
components for military diving apparatus.  
components for military electronic equipment [See footnote 38].  
components for military guidance/navigation equipment [See footnote 27].
- T components for military guidance/navigation equipment [See footnotes 129, 130].  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for military infrared/thermal imaging equipment [See footnote 57].  
components for military radars (11 licences) [See footnotes 146, 147, 37, 98].  
components for military scenario simulation equipment.  
components for military spacecraft [See footnote 43].  
components for military support aircraft (2 licences).  
components for military training aircraft (11 licences) [See footnotes 107, 165, 166, 40, 83, 84].  
components for naval electrical/electronic equipment.  
components for NBC detection equipment.  
components for submarines (6 licences) [See footnotes 14, 76, 77].  
components for surface-to-air missiles (3 licences) [See footnotes 114, 25].  
components for surface-to-surface missiles.  
components for targeting equipment (9 licences) [See footnotes 31, 32, 44, 47, 6, 9, 94].  
components for unmanned air vehicles (2 licences) [See footnotes 109, 155].  
equipment for the production of military electronic equipment (2 licences).  
equipment for the production of military support aircraft (3 licences) [See footnote 63].
- T equipment for the use of electronic warfare equipment.

T equipment for the use of military aircraft head-up/down displays.

T equipment for the use of military electronic equipment.  
equipment for the use of military radars.  
general military aircraft components [See footnote 113].  
general military vehicle components (3 licences) [See footnote 73].

T general military vehicle components.  
general naval vessel components (4 licences) [See footnote 20].  
gun mountings.

T high power RF weapon systems [See footnote 159].  
launching/ground support equipment for unmanned air vehicles [See footnote 88].  
launching/handling/control equipment for missiles.

T launching/handling/control equipment for missiles [See footnote 8].  
military aircraft head-up/down displays (2 licences).  
military communications equipment (4 licences) [See footnotes 10, 45].  
military electronic equipment.  
military equipment for initiating explosives.  
military guidance/navigation equipment [See footnote 13].

T military guidance/navigation equipment.  
military helmets [See footnote 52].  
military improvised explosive device decoying/detection/disposal/jamming equipment.  
military parametric technical databases [See footnote 90].  
military scenario simulation equipment.  
naval electrical/electronic equipment [See footnote 20].  
signature suppression fittings/coatings/treatments for military use [See footnote 46].  
small arms ammunition [See footnote 163].

T software for equipment for the use of electronic warfare equipment.  
Software for modelling/simulating military operation scenarios.  
software for rangefinding equipment (2 licences) [See footnotes 115, 90].

T technology for equipment for the use of electronic warfare equipment.  
technology for military communications equipment [See footnote 45].  
technology for military electronic equipment (2 licences) [See footnote 38].  
technology for unmanned air vehicles (2 licences) [See footnote 109].  
test models for general military aircraft components.  
test models for surface-to-air missiles [See footnote 114].  
training small arms ammunition [See footnote 106].  
unmanned air vehicles [See footnote 88].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

- T acoustic seabed survey equipment (2 licences).  
acoustic seabed survey equipment.  
bacteria [See footnote 103].  
biotechnology equipment (4 licences) [See footnotes 137, 138, 142, 29, 75].  
bismuth (2 licences) [See footnote 167].  
calcium.  
civil explosive detection/identification equipment (9 licences) [See footnote 78].  
civil NBC detection systems (2 licences) [See footnote 79].  
components for biotechnology equipment [See footnote 53].  
components for global positioning satellite receivers [See footnotes 125, 126].  
components for semiconductor manufacturing equipment.  
composite structures.  
computer analogue-to-digital equipment [See footnote 36].  
constituents of propellants.  
corrosion resistant chemical manufacturing equipment (13 licences) [See footnotes 120, 122, 123, 124, 127, 128, 131, 132, 153, 156, 80, 91].  
dimensional measuring equipment (4 licences) [See footnotes 4, 5].
- T direct view imaging equipment.  
electronics cooling fluids.  
equipment for the production of gas turbines.  
extended temperature range integrated circuits.  
fibre prepreps [See footnote 121].  
fibrous/filamentary materials.  
frequency changers (3 licences) [See footnote 11].  
imaging cameras (13 licences) [See footnotes 105, 160, 162, 48, 54, 66].
- T imaging cameras (6 licences) [See footnotes 41, 49, 65].  
inertial equipment [See footnote 11].
- T information security equipment (28 licences) [See footnotes 144, 152, 2, 24, 69, 85].  
information security equipment.  
information security software (8 licences) [See footnote 33].  
instrumentation cameras.
- T laser acoustic detection equipment [See footnote 51].  
lasers [See footnote 18].  
magnesium.  
mass spectrometers.  
metal alloy cylindrical forms [See footnote 22].  
metal alloys in powder form [See footnote 62].  
neutron generators (2 licences) [See footnote 3].  
nickel powders.  
non-military detonators [See footnote 158].  
optical materials.  
pathogenic genetic elements [See footnote 104].  
pressure transducers (7 licences) [See footnote 56].
- T real-time oscilloscopes (2 licences) [See footnote 150].  
semiconductor manufacturing equipment.

semiconductor wafers with epitaxial layers (2 licences) [See footnote 39].  
T signal analysers (3 licences) [See footnotes 23, 50].  
T signal generators (4 licences) [See footnotes 143, 149].  
software for information security equipment (5 licences) [See footnotes 144, 19].  
sonar log equipment [See footnote 11].  
spacecraft.  
spacecraft attitude and orbit control systems [See footnote 161].  
submersible equipment [See footnote 11].  
submersible vehicles [See footnote 11].  
syntactic foam [See footnote 55].  
technology for composite structures.  
technology for information security equipment.  
technology for magnetometers [See footnote 16].  
technology for spacecraft [See footnote 59].  
technology for telecommunications interception equipment [See footnote 102].  
telecommunications interception equipment [See footnote 102].  
T telecommunications interception equipment.  
toxins [See footnote 119].  
triggered spark gaps (2 licences).  
viruses (3 licences) [See footnotes 104, 21].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£1,000
6A002	1	£3,750
6A003	1	£4,500
ML5	1	£20,000
ML7	1	£1,000

T civil NBC protection equipment.  
T direct view imaging equipment.  
T imaging cameras.  
T NBC protective/defensive equipment.  
T targeting equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	66	£1,819,601
Non-military	5	£466,670
Total	71	£2,286,271

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£729
ML5	35	£678,857
ML10	11	£192,649

ML11	19	£940,325
PL5017	1	£7,040

aircraft military communications equipment [See footnote 30].  
 components for air-to-air missiles [See footnote 164].  
 components for aircraft military communications equipment [See footnote 74].  
 components for electronic warfare equipment (13 licences) [See footnotes 26, 28, 42, 99].  
 components for military aero-engines.  
 components for military aircraft head-up/down displays (2 licences).  
 components for military communications equipment.  
 components for military electronic equipment.  
 components for military guidance/navigation equipment.  
 components for military radars (26 licences) [See footnotes 1, 100, 112, 116, 15, 35, 89, 93].  
 components for military spacecraft [See footnote 87].  
 components for military support aircraft (2 licences).  
 components for targeting equipment (8 licences) [See footnotes 111, 118, 58, 7, 71].  
 components for unmanned air vehicles (4 licences) [See footnotes 110, 157, 64, 86].  
 electronic warfare equipment [See footnote 108].  
 equipment for the use of targeting equipment.  
 military guidance/navigation equipment (2 licences) [See footnote 139].  
 rangefinding equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£4,280
4A003	1	£11,240
5A001	1	£450,000
5A002	1	£1,000
5D001	1	£50
5E001	1	£100

components for telecommunications interception equipment [See footnote 101].  
 computer analogue-to-digital equipment.  
 corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 81].  
 information security equipment.  
 software for telecommunications interception equipment [See footnote 101].  
 technology for telecommunications interception equipment [See footnote 101].  
 telecommunications interception equipment [See footnote 101].

components for assault rifles.  
 components for body armour.  
 components for grenade launchers.  
 components for machine guns.  
 components for periscopes.  
 components for pistols.  
 components for turrets.  
 components for weapon control equipment.  
 equipment for the use of machine guns.  
 equipment for the use of turrets.  
 equipment for the use of weapon control equipment.  
 periscopes.  
 technology for turrets.  
 weapon control equipment.

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for

		the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the production of military support aircraft, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 67]
2	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 68]
3	P	components for information security equipment, information security equipment [See footnote 82]
4	P	information security equipment, information security software
5	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment [See footnote 92]
6	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 96]
7	T	towed hydrophone arrays
8	P	hydrophones, towed hydrophone arrays [See footnote 97]
9	P	components for military training aircraft
10	P	components for combat aircraft [See footnotes 133, 134]
11	P	components for combat aircraft [See footnotes 135, 136]

12	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 140]
13 (Rv)	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 141]
14	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, technology for airborne refuelling equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of military training aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military training aircraft [See footnote 154]
15	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
16	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Rv - Some or all of which have subsequently been revoked.

military image recording/processing equipment [See footnote 95].  
military support vehicles [See footnote 95].  
military trailers [See footnote 95].  
unmanned air vehicles [See footnote 95].

### Case & goods Footnotes

1. Licence granted for Israel for commercial end use. Ultimate end user is the South Korean Air Force.
2. Licence granted for accessories / spare parts. Law enforcement agency end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. Academic end users.
12. Licence granted for accessories / spare parts. End use by the Air Force.
13. Licence granted for accessories / spare parts. Government end use.
14. Licence granted for accessories / spare parts. End use by the Navy.
15. Licence granted for accessories / spare parts. End use by the Navy.
16. Licence granted for accessories / spare parts. Civilian / commercial end use.
17. Licence granted for accessories / spare parts. Civilian / commercial end use.
18. Licence granted for accessories / spare parts. Academic end users.
19. Licence granted for accessories / spare parts. Civilian / commercial end use.
20. Licence granted for accessories / spare parts. End use by the Navy.
21. Licence granted for accessories / spare parts. Civilian / commercial end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for accessories / spare parts. Civilian / commercial end use.
25. Licence granted for accessories / spare parts. Government end use.
26. Licence granted for accessories / spare parts. Civilian / commercial end use.
27. Licence granted for accessories / spare parts. End use by the Navy.
28. Licence granted for accessories / spare parts. Civilian / commercial end use.
29. Licence granted for accessories / spare parts. Civilian / commercial end use.
30. Licence granted for accessories / spare parts. End use by the Air Force.
31. Licence granted for accessories / spare parts. Civilian / commercial end use.
32. Licence granted for accessories / spare parts. Armed forces end use.
33. Licence granted for academic end users.
34. Licence granted for marketing and promotional use. Civilian / commercial end use.
35. Licence granted for accessories / spare parts. Civilian / commercial end use.
36. Licence granted for civilian / commercial end use.
37. Licence granted for accessories / spare parts. End use by the Navy.
38. Licence granted for accessories / spare parts. Civilian / commercial end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	87% (408)
% and number of SIELs completed in 60 working days	98% (459)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	74 days
% and number of OIELs completed in 20 working days	17% (8)
% and number of OIELs completed in 60 working days	43% (20)
% [as a % of all OIELs cases processed] and number of OIELs refused	4% (2)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	170	£155,881,034
Non-military	9	£3,070,504
Both Military and Non-military	1	£482
Total	180	£158,952,019

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	19	£1,629,833
ML2	1	£4,640
ML3	11	£837,468
ML4	22	£2,252,175
ML5	3	£24,616
ML6	1	£80,000
ML7	2	£427,670
ML9	4	£760,226
ML10	89	£149,399,852
ML11	13	£120,758
ML13	3	£64,950
ML15	1	£54,840
ML16	4	£59,765
ML17	1	£150
ML18	1	£19,150
ML21	1	£50,000
ML22	17	£80,561
PL5001	1	£2,832
PL5017	4	£11,547

- T all-wheel drive vehicles with ballistic protection.
- anti-riot/ballistic shields.
- T assault rifles (1).
- assault rifles (3).
- blank/inert ammunition.
- T blank/inert ammunition (2 licences).
- body armour (2 licences).
- bomb suits.
- combat aircraft (2 licences).

aircraft military communications equipment [See footnote 20].  
 components for air-to-surface missiles (3 licences).  
 components for aircraft military communications equipment (2 licences) [See footnote 20].  
 components for attack alerting/warning equipment.  
 components for combat aircraft (22 licences) [See footnotes 11, 13, 64].  
 components for combat helicopters (26 licences) [See footnotes 38, 44, 45, 48, 51].  
 components for combat naval vessels (3 licences).  
 components for command/control equipment for unmanned air vehicles [See footnote 22].  
 components for decoying/countermeasure equipment.  
 components for electronic warfare equipment (10 licences) [See footnotes 35, 53, 56, 59].  
 components for launching/handling/control equipment for missiles (2 licences).  
 components for launching/handling/control equipment for munitions [See footnote 26].  
 components for military aero-engines (8 licences) [See footnotes 60, 63].  
 components for military aircraft head-up/down displays [See footnote 5].  
 components for military communications equipment (2 licences).  
 components for military electronic equipment (3 licences).  
 components for military equipment for initiating explosives (2 licences).  
 components for military helicopters (34 licences) [See footnotes 43, 9].  
 components for military imaging radar sensor equipment (2 licences).  
 components for military radars (23 licences) [See footnotes 19, 25, 42].  
 components for military support aircraft (8 licences) [See footnote 28].  
 components for military support vehicles.  
 components for military training aircraft (17 licences) [See footnotes 17, 37, 65, 67].  
 components for military training equipment.  
 components for naval electrical/electronic equipment.  
 components for surface-to-air missiles (2 licences).  
 components for training torpedoes (5 licences).  
 components for unmanned air vehicles (5 licences) [See footnotes 18, 24, 27, 52].  
 components for weapon control equipment (4 licences).  
 components for weapon mountings.  
 electronic warfare equipment (3 licences) [See footnote 30].  
 equipment for the use of military training equipment.  
 general military aircraft components (7 licences).  
 general military vehicle components (2 licences).  
 launching/handling/control equipment for munitions.  
 military aero-engines [See footnote 54].  
 military aircraft ground equipment.  
 military communications equipment.  
 military electronic equipment (6 licences) [See footnote 2].  
 military infrared/thermal imaging equipment.  
 military training equipment.  
 naval electrical/electronic equipment.  
 software for military radars [See footnote 19].  
 technology for combat aircraft (9 licences) [See footnotes 58, 61].  
 technology for command/control equipment for unmanned air vehicles [See footnote 22].  
 technology for military aero-engines.  
 technology for military support aircraft (3 licences).  
 technology for military training aircraft.

technology for military training equipment.  
 technology for unfinished products for combat aircraft (3 licences) [See footnote 62].  
 technology for unfinished products for military helicopters.  
 technology for unfinished products for military support aircraft.  
 technology for unmanned air vehicles (2 licences) [See footnote 52].  
 unfinished products for combat aircraft (12 licences) [See footnotes 58, 61, 62].  
 unfinished products for combat helicopters.  
 unfinished products for general military aircraft components (3 licences) [See footnote 23].  
 unfinished products for launching/handling/control equipment for munitions.  
 unfinished products for military aero-engines (6 licences).  
 unfinished products for military aircraft head-up/down displays.  
 unfinished products for military helicopters.  
 unfinished products for military radars (2 licences).  
 unfinished products for military support aircraft (5 licences).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for air-to-air missiles, components for air-to-surface missiles, components for aircraft military communications equipment, components for aircraft missile protection systems, components for combat aircraft, components for combat helicopters, components for decoying/countermeasure equipment, components for fire location equipment, components for launching/ground support equipment for

		unmanned air vehicles, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for military aircraft head-up/down displays, components for military helicopters, components for military infrared/thermal imaging equipment, components for military radars, components for military sonars, components for military support aircraft, components for military training aircraft, components for munitions/ordnance detection/disposal equipment, components for periscopes, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for surface-to-air missiles, components for surface-to-surface missiles, components for targeting equipment, components for training air-to-air missiles, components for training air-to-surface missiles, components for training surface-to-air missiles, components for training surface-to-surface missiles, general military aircraft components, military electronic equipment, military guidance/navigation equipment, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for combat aircraft, technology for combat helicopters, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, technology for fire location equipment, technology for launching/ground support equipment for unmanned air vehicles, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for military aircraft head-up/down displays, technology for military communications equipment, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military sonars, technology for military support aircraft, technology for military training aircraft, technology for munitions/ordnance detection/disposal equipment, technology for periscopes, technology for rangefinding equipment, technology for recognition/identification equipment, technology for sensor integration equipment, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for targeting equipment, technology for training air-to-air missiles, technology for training air-to-surface missiles, technology for training surface-to-air missiles, technology for training surface-to-surface missiles [See footnote 1]
2	P	non-military detonators, non-military firing sets
3	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 6]
4	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
5	P	components for weapon sights, weapon sights [See footnote 39]
6	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
7	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 14]
8	P	software for fire location equipment, software for military infrared/thermal imaging equipment, software for military radars, software for optimising equipment design, software for rangefinding equipment, software for recognition/identification equipment, software for sensor integration equipment, software for targeting equipment, software for unmanned air vehicles, software for weapon system software, technology for fire location equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for sensor integration equipment, technology for targeting equipment, technology for unmanned air vehicles
9	P	components for combat helicopters, components for military helicopters
10	P	weapon sights
11	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 29]
12	P	components for sporting shotgun ammunition, sporting shotgun ammunition

13	T	towed hydrophone arrays
14	P	weapon sights
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 31]
16	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation

		equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
17	P	general military vehicle components [See footnote 40]
18	P	technology for combined cycle engines
19	P	components for NBC protective/defensive equipment
20	P	weapon sights [See footnote 41]
21	P	technology for military aero-engines
22	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 46]
23	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 49]
24	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, technology for airborne refuelling equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of military training aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military training aircraft [See footnote 50]
25	P	components for gun silencers, gun silencers
26	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 55]
27	P	triggered spark gaps
28	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
29	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 57]

30	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
31	P	neutron generators, non-military detonators, non-military firing sets
32	P	technology for air-to-surface missiles
33	P	body armour, components for body armour, military helmets
34	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, environmental test facilities for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for launching/handling/control equipment for missiles, technology for air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for production installations for air-to-surface missiles, training air-to-surface missiles, unfinished products for air-to-surface missiles [See footnote 66]

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles
2	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£8,447
Non-military	8	£1,002,594
Total	11	£1,011,041

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£6,317
ML11	1	£2,130

- T components for military communications equipment.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnotes 6, 8].
- T military communications equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 6].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£24,000
3A231	1	£876,366
5A002	3	£34,728
5E002	1	£0
6A003	1	£65,000
7A103	1	£2,500

- T imaging cameras.  
 inertial equipment.  
 information security equipment (3 licences) [See footnotes 1, 9].  
 neutron generators [See footnote 4].  
 non-military firing sets.  
 technology for information security software.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	underwater telecommunications systems [See footnote 3]
3	P	submersible vehicles [See footnote 5]
4	P	information security equipment, information security software
5	T	towed hydrophone arrays
6	P	hydrophones, towed hydrophone arrays [See footnote 7]
7	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

#### SITCLs

Source	Issued	Refused	Revoked
Central African Republic	1	0	0

#### Issued

- promoting the supply of exploding grenade ammunition [See footnote 2].
- promoting the supply of hand grenades [See footnote 2].
- promoting the supply of mortar bombs [See footnote 2].
- promoting the supply of surface launched rockets [See footnote 2].

#### Country Footnotes

1. UN Security Council resolution 1572 of 15 November 2004 established an embargo on the supply of arms and related material to the Ivory Coast. The embargo was amended by Resolutions 1946 (2010) and 2045 (2012), and was most recently renewed through UNSCR 2219 (2015) for a period until 30 April 2016.

EU Restrictions currently in force with respect to the Ivory Coast are set out in Council Decision 2010/656/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. International Organisation end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for explosive detection / disposal purposes. Government end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for explosive detection / disposal purposes. Government end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.

1A004	1	£10,284
5A002	1	£39,756
6D003	1	£1,252,841

civil explosive detection/identification equipment.  
 deuterium compounds [See footnote 1].

high performance air traffic control software.  
information security equipment.

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	2	£28,573
Total	2	£28,573

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£28,573

combat shotguns (15) [See footnote 5].  
components for sporting shotguns [See footnote 3].  
sporting shotguns (40) (2 licences) [See footnotes 3, 5].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 6]
5	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 7]

## Case & goods Footnotes

1. Licence granted for academic research purposes. Academic end users.
2. Licence granted for training purposes. Armed forces end use.
3. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
4. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Government end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	46	£4,672,096
Non-military	61	£40,871,596
Both Military and Non-military	6	£474,103
Total	113	£46,017,794

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	11	£2,191,630
ML2	1	£164,000
ML3	2	£4,839
ML4	10	£1,058,295
ML5	2	£24,000
ML7	2	£2,692
ML8	3	£555,799
ML10	2	£128,250
ML11	12	£271,688
ML13	3	£6,677
ML15	3	£237,270
ML16	2	£4,560
ML18	1	£5,429
ML22	2	£0
PL5017	5	£16,968

- accessories for military infrared/thermal imaging equipment.
- assault rifles (109).
- binders/plasticizers/monomers/polymers for energetic materials (2 licences) [See footnote 16].
- body armour (2 licences).
- T body armour.
- components for air defence systems.
- components for ballistic test equipment.
- T components for body armour.
- components for body armour.
- components for decoying/countermeasure equipment (5 licences).
- T components for gun mountings.
- components for launching/handling/control equipment for missiles.
- components for military communications equipment (3 licences).
- components for military electronic equipment (2 licences).
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military support aircraft.
- components for munitions/ordnance detection/disposal equipment.
- components for NBC protective/defensive equipment [See footnote 1].
- components for sniper rifles (2 licences).
- components for sporting guns.
- components for weapon sights.
- energetic materials additives.
- equipment for the use of sniper rifles.
- T equipment for the use of weapon night sights (2 licences).
- gun mountings (2 licences).
- gun silencers.
- machine guns (171).
- military communications equipment (5 licences).
- T military communications equipment (2 licences).
- military electronic equipment.
- T military electronic equipment.
- military equipment for initiating explosives.
- T military equipment for initiating explosives.
- T military guidance/navigation equipment (2 licences).
- T military helmets.
- T military image intensifier equipment (2 licences).
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment (2 licences).
- NBC protective/defensive equipment [See footnote 1].
- T NBC protective/defensive equipment.
- T projectile launchers.
- T rangefinding equipment (2 licences).
- rifles (6).

small arms ammunition.  
 sniper rifles (2).  
 sniper rifles (6).  
 sniper rifles (84).  
 sporting guns (3).  
 sporting guns (181).  
 sporting shotguns (1).  
 technology for sniper rifles (2 licences).  
 technology for weapon sights.  
 unfinished products for naval engines.  
 unfinished products for sporting guns.  
 T unmanned air vehicles.  
 wall/door breaching projectiles/ammunition.  
 weapon cleaning equipment (2 licences).  
 weapon night sights (3 licences).  
 T weapon night sights (2 licences).  
 T weapon sight mounts (2 licences).  
 weapon sights (4 licences).  
 T weapon sights (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	2	£39,200,000
0E001	22	£899,176
1A004	2	£2,117
1C001	2	£1,410
1C233	17	£51,772
1C351	3	£330
2B351	3	£1,210
3A228	1	£12,000
5A002	1	£9,506
6A001	3	£29,730
8A002	2	£19,425
8C001	2	£643,375
PL9010	1	£1,545

civil NBC protection clothing.  
 civil NBC protection equipment.  
 civil riot control agent protection equipment.  
 devices containing enriched lithium (2 licences).  
 devices containing enriched lithium compounds (2 licences).  
 devices containing enriched lithium manufactures.  
 electromagnetic wave absorbing materials (2 licences).  
 hydrophones.  
 information security equipment.  
 materials containing enriched uranium (2 licences) [See footnotes 20, 27].  
 products containing enriched lithium (12 licences) [See footnotes 3, 5, 6, 7, 8].  
 sporting shotguns (1).  
 submersible equipment (2 licences).  
 syntactic foam (2 licences).  
 technology for enriched uranium [See footnote 10].  
 technology for nuclear fuel reprocessing equipment.  
 technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation (3 licences) [See footnote 22].  
 technology for nuclear reactor fuel element fabrication equipment [See footnote 9].  
 technology for nuclear reactors (17 licences) [See footnotes 10, 11].  
 technology for plutonium-239 [See footnote 10].  
 technology for uranium conversion equipment [See footnote 9].  
 towed hydrophone arrays (2 licences).  
 toxic gas detectors (2 licences) [See footnote 14].  
 toxic gas monitoring equipment [See footnote 12].  
 triggered spark gaps.  
 viruses (3 licences) [See footnote 4].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£12,610
6A002	1	£26,500
6A003	4	£104,250
8A002	3	£15,000
ML1	2	£159,488
ML5	1	£100,000
ML7	3	£35,100
ML11	3	£18,000
ML17	3	£300
PL9010	2	£2,855

- assault rifles (98).
- T civil NBC protection equipment (3 licences).
- T civil riot control agent protection equipment (3 licences).
- T components for military communications equipment (2 licences).
- T components for NBC protective/defensive equipment (3 licences).
- T direct view imaging equipment [See footnote 25].
- T imaging cameras (4 licences) [See footnote 25].
- machine guns (160).
- T military communications equipment.
- T military laser protection equipment (3 licences).
- T NBC protective/defensive equipment (3 licences).
- T rebreathing swimming equipment (3 licences).
- rifles (62).
- sporting guns (40).
- sporting shotguns (3).
- sporting shotguns (5).
- T targeting equipment [See footnote 25].

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 2]
2	P	technology for composite laminates, technology for composite structures, technology for composite tubes, technology for fibrous/filamentary materials, technology for stretch-forming equipment [See footnote 13]
3	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 15]
4	P	components for sporting shotgun ammunition, sporting shotgun ammunition
5	T	towed hydrophone arrays
6	P	materials containing enriched uranium, materials containing natural uranium [See footnote 17]
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft,

		technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 18]
8	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 19]
9	P	components for small arms ammunition, small arms ammunition [See footnote 21]
10	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 23]
11	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat

		helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 24]
12	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 26]
13	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 28]
14	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 29]

#### SITCLs

Source	Issued	Refused	Revoked
France	1	0	0
South Africa	1	0	0

#### Issued

body armour.  
sporting guns (50).

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

No.	Type	Goods Summary

1	P	components for military communications equipment, components for military guidance/navigation equipment, components for military training aircraft, military communications equipment, military guidance/navigation equipment [See footnote 9]
2	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 11]
3	P	information security equipment, information security software
4	P	components for airborne refuelling equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 12]
5	P	body armour, components for body armour, military helmets [See footnote 13]
6	P	aircraft military communications equipment, command/control equipment for unmanned air vehicles, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for military aero-engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image recording/processing equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, components for military training aircraft, components for rangefinding equipment, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, general military aircraft components, launching/ground support equipment for unmanned air vehicles, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military radars, rangefinding equipment, unmanned air vehicles [See footnote 14]
7	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image recording/processing equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, components for military training

		aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military radars [See footnotes 19, 20]
8 (Rv)	P	components for combat aircraft [See footnotes 21, 22]
9	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, imaging cameras, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 25]
10	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 26]
11	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 62]
12	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
13	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 63]
14	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 73]
15	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 76]
16	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Rv - Some or all of which have subsequently been revoked.

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	P	armoured plate, components for all-wheel drive vehicles with ballistic protection, components for armoured plate, components for constructions for ballistic protection of military systems, components for gun mountings, components for military combat vehicles, components for military support vehicles, constructions for ballistic protection of military systems, general military vehicle components, gun mountings, technology for general military vehicle components, technology for military combat vehicles, technology for military support vehicles

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	12	£978,115
Non-military	32	£4,518,783
Both Military and Non-military	2	£730,896
Total	46	£6,227,794

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£507,042
ML3	1	£58,968
ML5	2	£24,000
ML7	2	£9,425
ML11	2	£48,000
ML15	2	£109,680
ML18	1	£213,000
ML21	1	£0
ML22	1	£0
PL5017	2	£8,000

	assault rifles (1) [See footnote 23].
	components for NBC detection equipment.
	components for NBC protective/defensive equipment.
	components for sporting guns (2 licences) [See footnotes 25, 27].
	equipment for the production of small arms ammunition.
T	equipment for the use of weapon night sights (2 licences) [See footnotes 1, 10].
	gun mountings [See footnote 25].
T	military electronic equipment (2 licences) [See footnotes 1, 10].
T	military guidance/navigation equipment [See footnote 10].
T	military image intensifier equipment (2 licences) [See footnotes 1, 10].
T	military infrared/thermal imaging equipment [See footnote 1].
	NBC detection equipment.
T	rangefinding equipment (2 licences) [See footnotes 1, 10].
	small arms ammunition [See footnote 11].
	software for equipment for the production of small arms ammunition.
	sporting guns (1) (3 licences) [See footnotes 25, 26, 27].
	technology for equipment for the production of small arms ammunition.
T	weapon night sights (2 licences) [See footnotes 1, 10].
T	weapon sight mounts (2 licences) [See footnotes 1, 10].
	weapon sights (2 licences) [See footnote 19].
T	weapon sights (2 licences) [See footnotes 1, 10].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£925,039
1E002	1	£32,000
2B350	13	£826,388
3C001	1	£9,000
5A002	4	£211,257
6A003	3	£115,682
7A003	1	£85,500
7A103	1	£760,000
7B001	1	£55,976
9A004	1	£1,200,000
9A012	1	£21,940
9A115	1	£0
9D004	1	£0
9E001	1	£250,000
9E002	1	£0
9E102	1	£0
PL8001	1	£26,000

- civil explosive detection/identification equipment (3 licences) [See footnote 32].
- civil unmanned air vehicles [See footnote 7].
- components for civil unmanned air vehicles [See footnote 7].
- corrosion resistant chemical manufacturing equipment (13 licences) [See footnotes 13, 14, 15, 16, 17, 18, 4, 5, 9].
- explosives detection equipment.
- imaging cameras [See footnote 3].
- T imaging cameras [See footnote 6].
- inertial equipment (2 licences) [See footnotes 21, 22].
- information security equipment (4 licences) [See footnotes 2, 20, 29].
- instrumentation cameras.
- launch support equipment for civil unmanned air vehicles [See footnote 7].
- semiconductor wafers with epitaxial layers.
- software for civil unmanned air vehicles [See footnote 7].
- spacecraft [See footnote 12].
- technology for civil NBC detection systems.
- technology for civil unmanned air vehicles [See footnote 7].
- technology for spacecraft.
- T test equipment for inertial equipment.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£22,200
6A003	2	£276,580
ML1	1	£352,116
ML5	1	£80,000

- T direct view imaging equipment.
- imaging cameras.
- T imaging cameras.
- T targeting equipment.
- weapon night sights.

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	hydrophones, towed hydrophone arrays [See footnote 8]
3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 24]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 28]
6	P	spacecraft [See footnote 30]
7	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 31]

### Case & goods Footnotes

1. Licence granted for temporary / exhibition purposes. Armed forces end use.
2. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
3. Licence granted for personal end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for demonstration to potential customers. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	8	£617,038
Non-military	24	£2,167,042
Both Military and Non-military	2	£47,130
Total	34	£2,831,210

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£6,465
ML3	1	£146,000
ML4	1	£188,821
ML6	1	£133,000
ML10	1	£115,132
ML13	3	£27,620

blank/inert ammunition [See footnote 6].  
body armour.  
bomb suits (2 licences) [See footnote 18].  
components for artillery.  
components for bomb suits [See footnote 18].  
military aero-engines.  
military combat vehicles [See footnote 11].  
military equipment for initiating explosives.  
military helmets [See footnote 18].  
military improvised explosive device decoying/detection/disposal/jamming equipment.  
munitions/ordnance detection/disposal equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£326
1A004	1	£24,126
1C351	2	£199
5A001	3	£187,332
5A002	13	£1,796,942
5D001	1	£5,021
5D002	6	£139,796
5E002	1	£3,000
PL9010	1	£10,300

T civil explosive detection/identification equipment.  
components for telecommunications interception equipment.  
components for telecommunications interception equipment [See footnote 4].  
counter-improvised explosive device equipment [See footnote 3].  
deuterium compounds [See footnote 10].  
information security equipment (13 licences) [See footnote 1].  
information security software (2 licences) [See footnote 9].  
software for information security equipment (4 licences) [See footnote 1].  
T software for telecommunications interception equipment [See footnote 4].  
sporting shotguns (8) [See footnote 5].  
technology for information security equipment [See footnote 1].  
telecommunications interception equipment.  
T telecommunications interception equipment [See footnote 4].  
toxins [See footnotes 7, 8].  
viruses.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£140
ML1	1	£7,800
ML3	1	£11,500
ML13	1	£390
PL9010	1	£27,300

body armour.  
civil body armour.  
small arms ammunition [See footnote 12].  
sporting guns (26) [See footnote 12].

##### Issued

all-wheel drive vehicles with ballistic protection [See footnote 13].  
 anti-armour ammunition [See footnote 16].  
 mortar bombs [See footnote 15].  
 smoke/pyrotechnic ammunition [See footnote 15].

## OITCLs

Source	Issued	Refused	Revoked
Comoros, Kenya, Madagascar, Mauritius, Seychelles, South Africa, Sri Lanka, Vessel and/or Platform in International Waters	1	0	0

## Issued

anti-armour ammunition [See footnote 2].  
 assault rifles [See footnote 2].  
 blank/inert ammunition [See footnote 2].  
 body armour [See footnote 2].  
 combat shotguns [See footnote 2].  
 components for assault rifles [See footnote 2].  
 components for body armour [See footnote 2].  
 components for combat shotguns [See footnote 2].  
 components for flash suppressers [See footnote 2].  
 components for gun mountings [See footnote 2].  
 components for gun silencers [See footnote 2].  
 components for military helmets [See footnote 2].  
 components for military image intensifier equipment [See footnote 2].  
 components for military infrared/thermal imaging equipment [See footnote 2].  
 components for pistols [See footnote 2].  
 components for sniper rifles [See footnote 2].  
 components for sporting guns [See footnote 2].  
 components for sporting shotguns [See footnote 2].  
 components for weapon night sights [See footnote 2].  
 components for weapon sights [See footnote 2].  
 flash suppressers [See footnote 2].  
 gun mountings [See footnote 2].  
 gun silencers [See footnote 2].  
 military helmets [See footnote 2].  
 military image intensifier equipment [See footnote 2].  
 military infrared/thermal imaging equipment [See footnote 2].  
 pistols [See footnote 2].  
 small arms ammunition [See footnote 2].  
 sniper rifles [See footnote 2].  
 sporting guns [See footnote 2].  
 sporting shotgun ammunition [See footnote 2].  
 sporting shotguns [See footnote 2].  
 training anti-armour ammunition [See footnote 2].  
 training small arms ammunition [See footnote 2].  
 weapon cleaning equipment [See footnote 2].  
 weapon night sights [See footnote 2].  
 weapon sight mounts [See footnote 2].  
 weapon sights [See footnote 2].

## Case & goods Footnotes

1. Licence granted for cryptographic equipment for commercial use.
2. Licence granted for anti-piracy operations. Civilian / commercial end use.
3. Licence granted for explosive detection / disposal purposes. Government end use.
4. Licence granted for demonstration to potential customers. Armed forces end use.
5. Licence granted for accessories / spare parts. Personal end use.

6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for academic research purposes. Academic end users.
8. Licence granted for academic research purposes. Academic end users.
9. Licence granted for accessories / spare parts. International Organisation end use.
10. Licence granted for academic research purposes. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. Armed forces end use.
13. Licence granted for accessories / spare parts. International Organisation end use.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for accessories / spare parts. Government end use.
16. Licence granted for accessories / spare parts. Government end use.
17. Licence granted for accessories / spare parts. Government end use.
18. Licence granted for accessories / spare parts. Armed forces end use.

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	10	£220,680
Non-military	5	£12,764

Both Military and Non-military	2	£46,122
Total	17	£279,565

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£62,305
ML7	2	£80,110
ML13	3	£15,000
PL5001	4	£63,265

anti-riot/ballistic shields (4 licences) [See footnotes 2, 3, 9].

body armour (3 licences) [See footnote 1].

general military vehicle components [See footnote 11].

NBC detection equipment (2 licences) [See footnote 7].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£61
5A002	3	£11,586
5E002	1	£1,117

deuterium compounds [See footnote 8].

information security equipment (3 licences).

technology for information security equipment [See footnote 6].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£29,091
ML7	2	£17,031

civil NBC protection equipment (2 licences) [See footnote 10].

components for NBC protective/defensive equipment (2 licences) [See footnote 10].

NBC protective/defensive equipment (2 licences) [See footnote 10].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

PL5017	9	£32,165

anti-riot/ballistic shields [See footnote 35].  
body armour.  
combat shotguns (10) [See footnote 38].  
components for body armour.  
components for combat helicopters.  
components for ground vehicle military communications equipment.  
T components for gun mountings.  
components for military aircraft ground equipment.  
components for military electronic equipment.  
components for military guidance/navigation equipment (2 licences).  
components for military helicopters (21 licences) [See footnote 52].  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for military training aircraft (5 licences).  
components for NBC detection equipment.  
components for NBC protective/defensive equipment [See footnote 13].  
components for targeting equipment.  
crowd control ammunition (2 licences) [See footnotes 38, 39].  
CS hand grenades [See footnote 38].

- T equipment for the use of weapon night sights (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].  
equipment for the use of weapon sights.
- T fire location equipment.  
general military aircraft components.  
general military vehicle components.  
ground vehicle military communications equipment.  
gun mountings.
- T gun mountings.  
hand grenades [See footnote 38].  
military aircrew safety equipment.
- T military guidance/navigation equipment (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].  
military helmets [See footnote 20].
- T military image intensifier equipment (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].
- T military infrared/thermal imaging equipment (7 licences) [See footnotes 1, 12, 2, 4, 5, 7, 9].  
military patrol/assault craft (2 licences).  
military training equipment.  
NBC protective/defensive equipment [See footnote 13].  
pistols (6) [See footnote 26].
- T rangefinding equipment (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].  
rifles (1) [See footnote 26].  
small arms ammunition [See footnote 39].  
software for military scenario simulation equipment.  
software for military training equipment.
- T Software for modelling/simulating military operation scenarios.  
sporting guns (1) [See footnote 41].  
technology for ground vehicle military communications equipment.  
technology for military training equipment.  
training sporting shotgun ammunition [See footnote 39].  
training tear gas/irritant ammunition [See footnote 39].
- T weapon night sights (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].
- T weapon sight mounts (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].  
weapon sights (4 licences).
- T weapon sights (8 licences) [See footnotes 1, 12, 2, 3, 4, 5, 7, 9].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£16,980
1C227	1	£331
1C228	1	£76
1C350	3	£1,486

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£805,360
Non-military	1	£495,000
Total	6	£1,300,360

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£493,680
ML5	2	£24,000
ML11	4	£65,000
ML13	3	£105,000
ML15	2	£109,680
PL5017	2	£8,000

- accessories for bomb suits (2 licences) [See footnotes 7, 8].
- bomb suits (2 licences) [See footnotes 7, 8].
- components for body armour (2 licences) [See footnotes 7, 8].
- T equipment for the use of weapon night sights (2 licences) [See footnotes 1, 2].
- military communications equipment (2 licences) [See footnotes 7, 8].
- T military electronic equipment (2 licences) [See footnotes 1, 2].
- T military guidance/navigation equipment [See footnote 2].
- military helmets (3 licences) [See footnotes 3, 7, 8].
- T military image intensifier equipment (2 licences) [See footnotes 1, 2].
- T military infrared/thermal imaging equipment [See footnote 1].
- T rangefinding equipment (2 licences) [See footnotes 1, 2].
- T weapon night sights (2 licences) [See footnotes 1, 2].
- T weapon sight mounts (2 licences) [See footnotes 1, 2].
- T weapon sights (2 licences) [See footnotes 1, 2].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	1	£495,000

inertial equipment [See footnote 5].

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 4]

3	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 6]
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment [See footnote 9]

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£87,000
Total	1	£87,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry') As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
End Use	1	£87,000

civil NBC detection systems.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 8]
2	P	information security equipment, information security software
3	P	components for military communications equipment, components for military electronic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, military communications equipment, military electronic equipment, software for military communications equipment, technology for military communications equipment, technology for military electronic equipment [See footnote 13]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	counter-improvised explosive device equipment [See footnote 19]
6	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets

 components for demolition charges/devices.  
 demolition charges/devices.  
 military helmets.  
 software for demolition charges/devices.  
 technology for demolition charges/devices.

## Country Footnotes

1. UN Security Council Resolution 1701 (2006) established an embargo on the supply of arms and related material to Lebanon, with the exemption of arms and related materiel authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

- UNSCR 2128 (2013) currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in Liberia. There are exemptions to the embargo for supply of non-lethal equipment intended solely for humanitarian or protective end uses, as well as for equipment for support of or use by the UN peacekeeping mission in Liberia (UNMIL). The EU implement the UN resolutions through Council Decision 2010/129/CFSP and Council Regulation (EU) No 234/2004, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

- Licence granted for accessories / spare parts. Civilian / commercial end use.

### Country Footnotes

- UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development

workers.

All exports for this destination must be in accordance with the sanctions in place.

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£345,450
Total	4	£345,450

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£140
1C232	1	£38,000
5A002	1	£275,000
6A003	1	£32,310

civil NBC protection equipment [See footnote 1].  
helium-3 [See footnote 2].  
imaging cameras [See footnote 3].  
information security equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 4]
4	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 5]

#### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for temporary / exhibition purposes. Law enforcement agency end use.
2. Licence granted for academic research purposes. Academic end users.
3. Licence granted for accessories / spare parts. Academic end users.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Madagascar

### Processing Statistics (excluding amendments)

Median processing time OIELs	169 days
% and number of OIELs completed in 20 working days	20% (1)

aircraft military communications equipment.  
anti-riot/ballistic shields [See footnote 3].  
blank/inert ammunition.  
body armour (5 licences) [See footnote 2].

bomb suits.  
 components for aircraft cannons.  
 components for aircraft military communications equipment (2 licences).  
 components for body armour (2 licences) [See footnote 2].  
 components for combat aircraft.  
 components for combat naval vessels (5 licences).  
 components for decoying/countermeasure equipment (3 licences).  
 components for gun mountings [See footnote 42].  
 components for launching/handling/control equipment for man portable air defence system missiles [See footnote 58].  
 components for launching/handling/control equipment for munitions.  
 components for military auxiliary/support vessels (2 licences).  
 components for military combat vehicles (3 licences).  
 components for military communications equipment (6 licences).  
 components for military electronic equipment (9 licences).  
 components for military equipment for initiating explosives.  
 components for military guidance/navigation equipment (4 licences).  
 components for military helicopters.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).  
 T components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 48].  
 components for military radars (7 licences).  
 components for military support aircraft (2 licences).  
 components for military training aircraft (5 licences) [See footnote 22].  
 components for military training equipment [See footnote 59].  
 components for munitions/ordnance detection/disposal equipment (2 licences).  
 components for naval engines (2 licences).  
 components for naval gun installations/mountings (2 licences).  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment (5 licences).  
 T components for periscopes.  
 components for recognition/identification equipment [See footnote 15].  
 components for small arms ammunition [See footnote 50].  
 components for sniper rifles [See footnote 42].  
 components for sporting guns [See footnote 50].  
 components for submarines (7 licences).  
 T components for surface-to-air missiles (2 licences) [See footnote 13].  
 T components for targeting equipment (2 licences) [See footnote 13].  
 components for weapon control equipment.  
 components for weapon sights.  
 decoying/countermeasure equipment.  
 energetic materials additives [See footnote 45].  
 equipment for the development of weapon control equipment.  
 T equipment for the use of launching/handling/control equipment for munitions.  
 equipment for the use of machine guns.  
 equipment for the use of military communications equipment.  
 equipment for the use of military radars.  
 equipment for the use of recognition/identification equipment [See footnote 15].  
 equipment for the use of sniper rifles [See footnote 42].  
 equipment for the use of submarines.  
 T equipment for the use of surface-to-air missiles.  
 exploding grenade ammunition.  
 general military aircraft components (2 licences).  
 T general military aircraft components.  
 general military vehicle components.  
 T general military vehicle components.  
 general naval vessel components (6 licences).  
 goods treated for signature suppression for military use.  
 gun mountings [See footnote 42].  
 gun silencers (2 licences) [See footnotes 42, 50].  
 inert CS hand grenades.  
 inert demolition charges/devices.  
 inert hand grenades.  
 inert illuminators.  
 inert signalling devices.  
 inert smoke canisters.  
 inert training hand grenades.  
 launching/handling/control equipment for man portable air defence system missiles [See footnote 15].

- launching/handling/control equipment for munitions.  
military communications equipment (5 licences).  
military electronic equipment (3 licences).
- T military electronic equipment.  
military equipment for initiating explosives.
- T military equipment for initiating explosives [See footnote 48].
- T military guidance/navigation equipment (5 licences) [See footnotes 34, 35, 38, 39, 40, 41, 49].  
military helmets (3 licences) [See footnote 2].
- T military image intensifier equipment (5 licences) [See footnotes 34, 35, 38, 39, 40, 41, 49].  
military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 48].
- T military infrared/thermal imaging equipment (4 licences) [See footnotes 34, 35, 38, 39, 40, 41].  
military training equipment [See footnote 59].  
munitions/ordnance detection/disposal equipment.  
naval communications equipment (3 licences).  
NBC protective/defensive equipment (4 licences).
- T periscopes.
- T rangefinding equipment (5 licences) [See footnotes 34, 35, 38, 39, 40, 41, 49].  
recognition/identification equipment [See footnote 15].  
small arms ammunition (3 licences) [See footnotes 50, 61].  
sniper rifles (13) [See footnote 42].
- T software for equipment for the use of surface-to-air missiles.  
software for launching/handling/control equipment for munitions.  
Software for modelling/simulating/evaluating weapon systems.  
sporting guns (1) [See footnote 50].  
surface-to-air missiles [See footnotes 36, 37].  
targeting equipment.
- T targeting equipment.  
technology for launching/handling/control equipment for man portable air defence system missiles [See footnote 15].  
technology for launching/handling/control equipment for munitions.  
technology for military training equipment [See footnote 59].  
technology for recognition/identification equipment [See footnote 15].  
technology for sniper rifles [See footnote 42].
- T technology for surface-to-air missiles [See footnote 13].  
technology for targeting equipment.  
technology for weapon control equipment [See footnote 33].  
training exploding grenade ammunition.  
training torpedoes.  
wall/door breaching projectiles/ammunition.  
weapon cleaning equipment (2 licences) [See footnote 42].  
weapon night sights [See footnote 42].
- T weapon night sights (5 licences) [See footnotes 34, 35, 38, 39, 40, 41, 49].  
weapon sight mounts [See footnote 42].  
weapon sights (5 licences) [See footnotes 42, 50].
- T weapon sights (5 licences) [See footnotes 34, 35, 38, 39, 40, 41, 49].

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Non-military	6	£16,893
Total	6	£16,893

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£1,110

3A001	5	£15,783
-------	---	---------

extended temperature range integrated circuits (5 licences).  
metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada  
France

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, components for military support aircraft [See footnote 5]
2	P	underwater telecommunications systems [See footnote 10]
3	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 16]
4	P	submersible vehicles [See footnote 17]
5	P	information security equipment, information security software
6	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 18]

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	3	£407,000
Total	3	£407,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£32,000
7A103	2	£375,000

civil NBC detection systems.  
inertial equipment (2 licences) [See footnote 1].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]
3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 3]

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£2,191,578
Non-military	5	£1,175,727
Total	22	£3,367,305

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£37,532
ML10	5	£2,029,253
ML11	1	£24,000
ML13	8	£100,794

body armour (7 licences) [See footnotes 2, 6].  
 components for body armour (7 licences) [See footnotes 2, 6].  
 components for combat aircraft.  
 components for military training aircraft (3 licences) [See footnote 4].  
 military aircraft ground equipment [See footnote 5].  
 military equipment for initiating explosives (3 licences).  
 military guidance/navigation equipment [See footnote 9].  
 military helicopters [See footnote 11].  
 military helmets (8 licences) [See footnotes 2, 6].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£883,776
5A002	4	£291,951

counter-improvised explosive device equipment.  
information security equipment (4 licences).

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£26,702
Total	1	£26,702

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£26,702

small arms ammunition [See footnote 10].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 3]
3	P	information security equipment, information security software
4	P	body armour, components for body armour, military helmets [See footnote 8]

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	11	£80,867
Non-military	2	£6,451
Both Military and Non-military	1	£42,350
Total	14	£129,668

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£11,749
ML3	2	£1,550
ML4	1	£759
ML9	1	£9,200
ML10	2	£55,670
ML13	2	£1,940

body armour (2 licences).  
 components for body armour.  
 components for military aero-engines (2 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 general naval vessel components.  
 gun mountings.  
 military helmets.  
 small arms ammunition (2 licences).  
 sniper rifles (1).  
 sporting guns (1).  
 sporting guns.  
 weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

PL9010	2	£6,451
--------	---	--------

sporting shotguns (1).  
sporting shotguns (4).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£3,871
ML3	1	£74
PL9010	1	£38,405

pistols (1).  
small arms ammunition.  
sporting guns (45).

### Refused

	Count
Military	3
Total	3

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	1
ML13	2

components for body armour.  
military helmets (2 licences).  
weapon night sights.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£32,970
Total	2	£32,970

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	2	£32,970

inertial equipment (2 licences) [See footnotes 1, 2].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for civilian / commercial end use.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£6,132
Non-military	1	£16,400
Total	3	£22,532

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	2	£6,132

components for body armour (2 licences).

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	1	£16,400

sporting shotguns (2).

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	weapon sights [See footnote 1]
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]

### Case & goods Footnotes

1. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that

more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	1
ML3	1
ML11	1
PL5017	1

- T components for military communications equipment.  
 components for sniper rifles.  
 equipment for the use of sniper rifles.  
 gun mountings.
- T military communications equipment.  
 small arms ammunition.  
 sniper rifles (3).  
 weapon cleaning equipment.  
 weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
6A003	2
6A008	1

imaging cameras (2 licences).  
 radar equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

#### Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. All exports for this destination were approved in accordance with the sanctions in place.
2. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.
3. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, on the export of dual-use goods for military and Border Guard Police end users, as well as of equipment that might be used for internal repression, including the export of equipment for monitoring communications as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited, and there are restrictions on military training and cooperation.

All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for explosive detection / disposal purposes. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	87	£4,132,593
Non-military	10	£336,712
Both Military and Non-military	4	£26,650
Total	101	£4,495,955

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	56	£3,502,542
ML2	22	£60,202
ML3	3	£4,085
ML4	4	£6,137
ML5	4	£13,285
ML6	2	£24,450
ML7	2	£6,970
ML8	1	£20
ML11	1	£2,485
ML13	2	£799
ML18	1	£10
ML21	1	£500,000
ML22	1	£50
PL5001	2	£7,355
PL5017	5	£4,203

T

anti-riot/ballistic shields (2 licences).  
 assault rifles (1) (2 licences).

##### **Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for weapon sights, weapon sights [See footnote 9]
3	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 2]
4	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 4]
5	P	weapon sights
6	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 5]
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	T	towed hydrophone arrays
9	P	hydrophones, towed hydrophone arrays [See footnote 6]
10	P	weapon sights
11	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
12	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 8]
13	P	components for small arms ammunition, small arms ammunition [See footnote 10]

14	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, military support vehicles, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for military support vehicles
15	P	technology for military aero-engines [See footnote 11]
16	P	technology for combined cycle engines [See footnote 12]
17	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 14]
18	P	anti-aircraft guns, attack alerting/warning equipment, components for anti-aircraft guns, components for attack alerting/warning equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military image recording/processing equipment, components for counter-countermeasure equipment for military imaging radar sensor equipment, components for counter-countermeasure equipment for military cameras/photographic equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military image recording/processing equipment, components for countermeasure equipment for military imaging radar sensor equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for fire location equipment, components for general naval vessel components, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for naval guns, components for naval hull penetrators/connectors, components for periscopes, components for projectile launchers, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of fire location equipment, equipment for the use of general naval vessel components, equipment for the use of military cameras/photographic equipment, equipment for the use of military communications equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military image intensifier equipment, equipment for the use of military image recording/processing equipment, equipment for the use of military imaging radar sensor equipment, equipment for the use of military radars, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval gun installations/mountings, equipment for the use of naval hull penetrators/connectors, equipment for the use of periscopes, equipment for the use of rangefinding

		equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, fire location equipment, general naval vessel components, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft pressure refuellers, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, naval guns, naval hull penetrators/connectors, periscopes, projectile launchers, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment, weapon night sights, weapon sights [See footnote 15]
19	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 16]
20	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
21	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 17]
22	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 18]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Ammunition for sporting use for Government and licensed entities.
11. Licence granted for accessories / spare parts. Government end use.
12. Licence granted for accessories / spare parts. Government end use.
13. Licence granted for academic research purposes. Academic end users.
14. Licence granted for accessories / spare parts. Armed forces end use.
15. Licence granted for accessories / spare parts. End use by the Navy.
16. Licence granted for accessories / spare parts. Armed forces end use.
17. Licence granted for accessories / spare parts. Armed forces end use.
18. Licence granted for accessories / spare parts. Armed forces end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	12	£1,090,944
Non-military	47	£6,712,626
Both Military and Non-military	1	£600
Total	60	£7,804,170

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£38,040
ML6	2	£20,000
ML9	1	£184
ML11	1	£19,100
ML13	4	£13,320
ML17	1	£300
ML19	2	£1,000,000
ML22	1	£0

- body armour (4 licences) [See footnotes 34, 36, 39].
- components for all-wheel drive vehicles with ballistic protection.
- components for body armour (2 licences) [See footnotes 34, 39].
- T components for military communications equipment [See footnotes 21, 22].
- components for military support vehicles.
- components for naval engines [See footnote 31].
- T goods treated for signature suppression for military use [See footnotes 21, 22].
- T high power RF weapon systems (2 licences) [See footnote 42].
- T military communications equipment [See footnotes 21, 22].
- military helmets (2 licences) [See footnotes 34, 39].
- military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 32].
- technology for military guidance/navigation equipment [See footnotes 25, 26].

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£200
1A004	3	£171,064
1C350	10	£836,928
2B350	2	£2,476

5E002	1	£1
7A003	1	£68,000
7A103	2	£28,385

	chemicals used for general laboratory work/scientific research [See footnote 33].
	chemicals used for industrial/commercial processes.
	chemicals used for pharmaceutical/healthcare production (8 licences) [See footnotes 10, 11, 12, 13, 14, 15, 35, 9].
	civil explosive detection/identification equipment (3 licences).
T	components for telecommunications interception equipment (2 licences) [See footnotes 23, 24].
	corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 7].
	deuterium solutions [See footnote 37].
	inertial equipment (3 licences) [See footnotes 19, 20, 5].
	information security equipment (21 licences) [See footnotes 3, 6].
	information security software (3 licences).
	software for information security equipment.
T	software for telecommunications interception equipment (2 licences) [See footnotes 23, 24].
T	software for telecommunications jamming equipment [See footnotes 23, 24].
	technology for information security equipment [See footnote 6].
	telecommunications interception equipment [See footnote 17].
T	telecommunications interception equipment (4 licences) [See footnotes 23, 24, 27, 28, 29, 30].

## Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£200
ML21	1	£400

radar equipment [See footnote 16].  
software for military radars [See footnote 16].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	acoustic seabed survey equipment, imaging cameras, inertial equipment, marine acoustic projectors, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles [See footnote 1]
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software
3	P	submersible vehicles [See footnote 4]

4	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment
5	P	information security equipment, information security software
6	T	towed hydrophone arrays
7	P	hydrophones, towed hydrophone arrays [See footnote 8]
8	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 18]
9	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 38]
10	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
11	P	components for marine position fixing equipment [See footnote 40]
12	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 41]
13	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

#### SITCLs

Source	Issued	Refused	Revoked
Jordan	2	0	0
Spain	0	1	0

#### Issued

all-wheel drive vehicles with ballistic protection (2 licences) [See footnote 2].

#### Refused

promoting the supply of mortar bombs.  
promoting the supply of mortars.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
7	1

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for end use by a international organisation.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for civilian / commercial end use.
6. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for medical research purposes. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for accessories / spare parts. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for accessories / spare parts. Civilian / commercial end use.
16. Licence granted for accessories / spare parts. Armed forces end use.
17. Licence granted for accessories / spare parts. Armed forces end use.
18. Licence granted for accessories / spare parts. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Armed forces end use.
20. Licence granted for accessories / spare parts. Armed forces end use.
21. Licence granted for accessories / spare parts. Armed forces end use.
22. Licence granted for accessories / spare parts. Armed forces end use.
23. Licence granted for demonstration to potential customers. Law enforcement agency end use.
24. Licence granted for demonstration to potential customers. Law enforcement agency end use.
25. Licence granted for accessories / spare parts. End use by the Navy.
26. Licence granted for accessories / spare parts. End use by the Navy.
27. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
28. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
29. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
30. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
31. Licence granted for accessories / spare parts. Civilian / commercial end use.
32. Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.
33. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
34. Licence granted for demonstration to potential customers. Law enforcement agency end use.
35. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
36. Licence granted for accessories / spare parts. Civilian / commercial end use.
37. Licence granted for accessories / spare parts. Civilian / commercial end use.
38. Licence granted for accessories / spare parts. Civilian / commercial end use.
39. Licence granted for accessories / spare parts. International Organisation end use.
40. Licence granted for accessories / spare parts. Civilian / commercial end use.
41. Licence granted for accessories / spare parts. Government end use.
42. Licence granted for demonstration to potential customers. Government end use.

## Non Specific Country

### Processing Statistics (excluding amendments)

Median processing time SITCLs	8 days
% and number of SITCLs completed in 20 working days	67% (6)
% and number of SITCLs completed in 60 working days	100% (9)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OITCLs	16 days
% and number of OITCLs completed in 20 working days	50% (1)
% and number of OITCLs completed in 60 working days	100% (2)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

## North Macedonia

## Processing Statistics (excluding amendments)

Median processing time SIELs	19 days
% and number of SIELs completed in 20 working days	50% (2)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

% and number of OIELs completed in 20 working days	14% (1)
% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	3	£53,475
Total	3	£53,475

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C228	1	£1,700
1E001	1	£1
1E201	1	£1
1E202	1	£1
5A002	1	£47,300
5D002	1	£4,472

information security equipment.  
magnesium.  
software for information security equipment.  
technology for composite laminates [See footnote 2].  
technology for composite structures [See footnote 2].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	information security equipment, technology for information security equipment [See footnote 1]

3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 3]
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 4]
5	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 5]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for equipment to improve broadband connectivity. Government end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Government end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.

## Northern Marianas Islands

### Processing Statistics (excluding amendments)

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£69,240
Total	1	£69,240

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A006	1	£25,000
7A103	1	£44,240

T inertial equipment.

T magnetometers.

PL5017	3	£10,308

- aircraft military communications equipment.
- anti-riot/ballistic shields (2 licences).
- blank/inert ammunition.
- body armour.
- components for assault rifles.
- components for decoying/countermeasure equipment.
- components for launching/ground support equipment for unmanned air vehicles [See footnote 14].
- components for launching/handling/control equipment for missiles.
- components for military equipment for initiating explosives.
- components for military helicopters.
- components for mortars (3 licences).
- components for multi-role missiles.
- components for NBC protective/defensive equipment.
- components for sniper rifles (2 licences).
- components for sporting guns (2 licences).
- components for unmanned air vehicles (2 licences) [See footnote 14].
- decoying/countermeasure equipment.
- equipment for the use of military communications equipment.
- T equipment for the use of weapon night sights.
- explosive charges/devices.
- general naval vessel components (2 licences).
- gun mountings.
- military guidance/navigation equipment.
- T military guidance/navigation equipment (2 licences).
- military helicopters.
- T military image intensifier equipment (3 licences).
- military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- T military infrared/thermal imaging equipment (3 licences).
- T rangefinding equipment (2 licences).
- small arms ammunition.
- sniper rifles (1).
- sporting guns (1) (4 licences).
- technology for military electronic equipment.
- training small arms ammunition.
- unfinished products for air-to-air missiles.
- weapon night sights (2 licences).
- T weapon night sights (2 licences).
- T weapon sight mounts (2 licences).
- weapon sights.
- T weapon sights (2 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£32,450

1C351	3	£172
2B350	12	£882,242

6A001	2	£1,529,856
7A103	1	£82,950
PL9010	3	£2,364

- T acoustic seabed survey equipment.  
civil explosive detection/identification equipment (2 licences).  
corrosion resistant chemical manufacturing equipment (12 licences) [See footnotes 13, 3].  
inertial equipment [See footnote 2].  
information security equipment (3 licences).
- T information security equipment.  
marine position fixing equipment.  
sporting guns (1).  
sporting shotguns (1).  
sporting shotguns (3).  
toxins.  
viruses (2 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£443,640
ML1	1	£400
ML7	2	£15,106
PL5017	1	£52
PL9010	1	£400

- T accessories for civil NBC detection systems.  
T civil explosive detection/identification equipment (2 licences).  
T civil NBC detection systems (2 licences).  
T components for civil explosive detection/identification equipment.  
T components for NBC detection equipment (2 licences).  
T equipment for the use of NBC detection equipment.  
T NBC detection equipment (2 licences).  
sporting guns (2).  
sporting shotguns (1).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£339,031
Total	17	£339,031

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	12	£305,118

ML9	1	£7,946
ML10	1	£412
ML11	1	£16,413
PL5017	2	£9,142

components for combat aircraft.  
 components for combat naval vessels.  
 components for launching/handling/control equipment for missiles (10 licences).  
 components for surface-to-surface missiles (2 licences).  
 equipment for the use of military communications equipment (2 licences).  
 equipment for the use of military electronic equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
 Canada  
 Finland  
 Germany  
 Hungary  
 Malaysia  
 Oman  
 Poland  
 Spain  
 Sweden  
 United States of America

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	non-military detonators, non-military firing sets
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for weapon sights, weapon sights [See footnote 10]
5	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 4]
6	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training

		aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 5]
7	P	weapon sights
8	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 6]
9	P	components for sporting shotgun ammunition, sporting shotgun ammunition
10	T	towed hydrophone arrays
11	P	hydrophones, towed hydrophone arrays [See footnote 7]
12	P	weapon sights
13	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 8]
14	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 9]
15	P	components for small arms ammunition, small arms ammunition [See footnote 11]
16	P	technology for combined cycle engines
17	P	technology for military aero-engines [See footnote 12]
18	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 15]
19	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic

20	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, shaped charges [See footnote 17]
21	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 18]
22	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 19]
23	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets

24	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 20]
25	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 21]
26	P	neutron generators, non-military detonators, non-military firing sets
27	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 22]
28	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 23]

#### Issued

components for military helmets.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
4. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. End use by the Air Force.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Ammunition for sporting use for Government and licensed entities.
12. Licence granted for accessories / spare parts. Government end use.
13. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for accessories / spare parts. Law enforcement agency end use.
16. Licence granted for accessories / spare parts. Government end use.
17. Licence granted for accessories / spare parts. Civilian / commercial end use.
18. Licence granted for accessories / spare parts. Armed forces end use.
19. Licence granted for accessories / spare parts. Armed forces end use.
20. Licence granted for accessories / spare parts. Armed forces end use.
21. Licence granted for accessories / spare parts. Armed forces end use.

22. Licence granted for accessories / spare parts. Armed forces end use.  
 23. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	186	£25,925,915
Non-military	33	£3,556,820
Both Military and Non-military	3	£1,793,313
Total	222	£31,276,049

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	27	£15,695,325
ML2	5	£44,804
ML3	5	£435,150

ML4	4	£237,130
ML5	19	£224,687
ML6	62	£474,147
ML9	5	£141,872
ML10	45	£717,941
ML11	16	£217,950
ML13	8	£196,501
ML14	4	£5,872,903
ML15	11	£469,853
ML17	1	£25
ML21	6	£641,754
ML22	8	£337
PL5001	1	£30,000
PL5017	21	£525,537

- T acoustic devices for riot control [See footnote 63].
- T aerial target equipment.  
assault rifles (4) [See footnote 11].  
body armour (3 licences).  
bomb suits (2 licences).  
combat shotguns [See footnote 11].
- T components for aerial target equipment.  
components for aircraft cannons (3 licences).  
components for all-wheel drive vehicles with ballistic protection.  
components for artillery (2 licences).  
components for assault rifles [See footnote 11].  
components for body armour (3 licences) [See footnote 11].  
components for combat aircraft (3 licences).  
components for combat naval vessels [See footnote 25].
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.  
components for ground vehicle military communications equipment (2 licences).  
components for gun mountings (3 licences).  
components for launching/handling/control equipment for missiles.  
components for machine guns (7 licences) [See footnote 75].  
components for military aero-engines.  
components for military combat vehicles (32 licences) [See footnotes 44, 49, 50, 53].  
components for military communications equipment (6 licences) [See footnotes 23, 45].  
components for military helicopters (15 licences).  
components for military image intensifier equipment.  
components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
components for military infrared/thermal imaging equipment.  
components for military patrol/assault craft.  
components for military radars (4 licences).
- T components for military scenario simulation equipment.  
components for military support aircraft (10 licences) [See footnote 57].  
components for military support vehicles [See footnote 51].  
components for military training aircraft (6 licences) [See footnote 56].
- T components for military training aircraft.  
components for pistols (3 licences) [See footnote 11].  
components for recognition/identification equipment.  
components for small arms training equipment (2 licences).  
components for sniper rifles (3 licences) [See footnote 11].  
components for sporting guns [See footnote 11].  
components for tanks (18 licences) [See footnotes 46, 52].  
components for turrets [See footnote 54].  
components for weapon night sights (2 licences).  
components for weapon sight mounts [See footnote 48].  
components for weapon sights (2 licences) [See footnote 47].
- T electronic countermeasure equipment.
- T electronic warfare equipment.  
equipment for the operation of military aircraft in confined areas (3 licences) [See footnote 58].
- T equipment for the use of aerial target equipment.  
equipment for the use of air-to-air missiles [See footnote 59].

- equipment for the use of gun mountings.
- equipment for the use of machine guns (2 licences).
- equipment for the use of mortars.
- equipment for the use of sniper rifles.
- equipment for the use of weapon night sights.
- T equipment for the use of weapon night sights (8 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- general military aircraft components (3 licences) [See footnote 60].
- general military vehicle components (8 licences).
- general naval vessel components (2 licences).
- gun mountings (4 licences).
- gun silencers.
- T gun silencers.
- machine guns (660).
- machine guns (740) [See footnote 75].
- military aircraft ground equipment (2 licences).
- military aircrew life support equipment.
- T military cameras/photographic equipment.
- T military guidance/navigation equipment (8 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- military helmets (6 licences) [See footnote 11].
- T military image intensifier equipment (8 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- T military infrared/thermal imaging equipment (7 licences) [See footnotes 1, 2, 4, 5, 7, 8, 9].
- military laser protection equipment.
- T military scenario simulation equipment.
- T military training aircraft.
- military training equipment.
- naval communications equipment.
- periscopes.
- pistols (1) [See footnote 11].
- rangefinding equipment (2 licences).
- T rangefinding equipment (9 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- small arms ammunition (4 licences) [See footnotes 11, 21].
- T small arms ammunition.
- sniper rifles (1) [See footnote 11].
- sniper rifles (2).
- T sniper rifles (4).
- software enabling equipment to function as military guidance/navigation equipment.
- software enabling equipment to function as military training equipment (2 licences).
- software for military scenario simulation equipment [See footnote 14].
- software for military training equipment (2 licences) [See footnote 14].
- Software for modelling/simulating military operation scenarios.
- sporting guns (2) [See footnote 11].
- T technology for aerial target equipment.
- technology for combat naval vessels (2 licences).
- T technology for electronic countermeasure equipment.
- T technology for equipment for the use of aerial target equipment.
- technology for military auxiliary/support vessels (2 licences).
- technology for military patrol/assault craft (2 licences).
- technology for military scenario simulation equipment [See footnote 14].
- T technology for military scenario simulation equipment.
- T technology for military training aircraft.
- technology for military training equipment [See footnote 14].
- technology for sniper rifles (2 licences).
- technology for software enabling equipment to function as military guidance/navigation equipment.
- technology for weapon night sights.
- training tear gas/irritant ammunition [See footnote 21].
- weapon cleaning equipment (7 licences) [See footnote 75].
- weapon night sights.
- T weapon night sights (10 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- weapon sight mounts (2 licences).
- T weapon sight mounts (8 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].
- weapon sights (3 licences) [See footnote 11].
- T weapon sights (9 licences) [See footnotes 1, 2, 3, 4, 5, 7, 8, 9].

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£601,955
1C228	1	£32
1C229	1	£32
1C350	1	£29
1C351	1	£189
2B350	7	£253,964
2B351	1	£403
5A001	2	£120,247
5A002	8	£2,390,414
5D001	1	£5,021
5D002	4	£82,132
6A002	2	£9,851
6A003	4	£69,296
6B004	1	£6,000
End Use	1	£254
PL8001	1	£17,000

- accessories for civil explosive detection/identification equipment.
- accessories for gas detection equipment.
- bismuth [See footnote 65].
- chemicals used for general laboratory work/scientific research [See footnote 32].
- civil explosive detection/identification equipment (2 licences).
- components for civil explosive detection/identification equipment.
- components for gas detection equipment.
- T components for telecommunications interception equipment.
- T components for telecommunications jamming equipment.
- corrosion resistant chemical manufacturing equipment (7 licences) [See footnotes 10, 62, 66, 68, 69].
- counter-improvised explosive device equipment.
- direct view imaging equipment [See footnote 67].
- T direct view imaging equipment [See footnote 64].
- T explosives detection equipment.
- gas detection equipment.
- imaging cameras (3 licences) [See footnotes 24, 67].
- T imaging cameras.
- information security equipment (7 licences) [See footnote 6].
- T(P) information security equipment.
- information security software (3 licences) [See footnote 81].
- magnesium [See footnote 65].
- optical measurement equipment.
- software for information security equipment.
- T software for telecommunications interception equipment.
- T software for telecommunications jamming equipment.
- T telecommunications interception equipment.
- T telecommunications jamming equipment.
- toxic gas monitoring equipment [See footnote 72].
- toxins [See footnote 18].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	3	£747,180
6A003	3	£174,040
ML1	1	£599,333
ML5	2	£255,000
PL5017	1	£17,760

- T direct view imaging equipment (3 licences) [See footnotes 55, 82].
- T equipment for the use of weapon sights [See footnote 82].
- T imaging cameras (3 licences) [See footnotes 55, 82].
- T targeting equipment (2 licences) [See footnote 55].

T weapon night sights [See footnote 82].  
T weapon sight mounts [See footnote 82].  
T weapon sights [See footnote 82].

### Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
1A004	1

civil NBC protection equipment.  
components for civil NBC protection equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
7	1

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£15,829
Total	1	£15,829

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£15,829

components for assault rifles.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security software [See footnote 15]
2	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 17]
3	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 19]
4	P	information security equipment, information security software
5	P	components for combat naval vessels, components for electronic warfare equipment, components for heavy machine guns, components for military communications equipment, components for military guidance/navigation

		equipment, components for military patrol/assault craft, components for military radars, components for military sonars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval gun installations/mountings, components for naval guns, components for NBC protective/defensive equipment, components for surface-to-surface missiles, components for targeting equipment, components for weapon mountings, decoying/countermeasure equipment, electronic warfare equipment, general naval vessel components, heavy machine guns, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, military communications equipment, military guidance/navigation equipment, military patrol/assault craft, military radars, military sonars, naval communications equipment, naval electrical/electronic equipment, naval engines, naval gun installations/mountings, naval guns, NBC protective/defensive equipment, surface-to-surface missiles, targeting equipment, test equipment for surface-to-air missiles, weapon mountings [See footnote 22]
6	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 27]
7	T	towed hydrophone arrays
8	P	hydrophones, towed hydrophone arrays [See footnote 28]
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 29]
10	P	components for airborne refuelling equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 30]
11	P	components for attack alerting/warning equipment, components for electronic countermeasure equipment, components for ground vehicle military communications equipment, components for military combat vehicles, components for military radars, components for periscopes, components for tanks, components for targeting equipment, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of military radars, equipment for the use of periscopes, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military vehicle components [See footnote 31]
12	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 34]
13	P	components for small arms ammunition, small arms ammunition [See footnote 36]
14	P	airborne refuelling equipment, aircraft military communications equipment, components for airborne refuelling equipment, components for aircraft cannons, components for aircraft carriers, components for aircraft military communications equipment, components for all-wheel drive vehicles with ballistic protection, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment,

		<p>components for electronic warfare equipment, components for equipment for the operation of military aircraft in confined areas, components for ground vehicle military communications equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for rockets, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military parachutes, components for military parachutist equipment, components for military paragliders, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval gun installations/mountings, components for submarines, components for tanks, components for targeting equipment, components for turrets, components for weapon mountings, decoying/countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of aircraft carriers, equipment for the use of combat naval vessels, equipment for the use of military auxiliary/support vessels, equipment for the use of military patrol/assault craft, equipment for the use of military underwater remotely operated vehicles, equipment for the use of naval communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of naval engines, equipment for the use of naval gun installations/mountings, equipment for the use of submarines, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, launching/handling/control equipment for missiles, launching/handling/control equipment for rockets, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military parachutes, military parachutist equipment, military paragliders, military radars, naval communications equipment, naval electrical/electronic equipment, naval engines, naval gun installations/mountings, targeting equipment, turrets, weapon mountings [See footnotes 37, 38]</p>
15	P	components for combat aircraft [See footnotes 39, 40]
16	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, imaging cameras, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 41]
17	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 42]
18	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military

		aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 43]
19	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 61]
20	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 70]
21	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 71]
22	P	attack alerting/warning equipment, components for attack alerting/warning equipment, components for combat naval vessels, components for electronic countermeasure equipment, components for military patrol/assault craft, components for military radars, components for military sonars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of combat naval vessels, equipment for the use of military patrol/assault craft, military communications equipment, military electronic equipment, military guidance/navigation equipment, military radars, military sonars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment [See footnote 73]

23	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
24	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 74]
25	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image recording/processing equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, unfinished products for military training aircraft, weapon control equipment [See footnote 76]
26	P	aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military communications equipment, components for military training aircraft, components for military support aircraft, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military communications equipment, signalling devices [See footnote 77]
27	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment

28	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 78]
29	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 79]
30	P	components for aircraft cannons, components for anti-armour weapons, components for artillery, components for combat aircraft, components for generators/projectors, components for grenade launchers, components for gun mountings, components for heavy machine guns, components for machine guns, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military training aircraft, components for mortars, components for projectile launchers, components for tanks, components for turrets, components for weapon mountings, components for weapon night sights, components for weapon sight mounts, components for weapon sights, equipment for the use of combat aircraft, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military training aircraft, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, weapon night sights, weapon sights
31	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 80]
32	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets

### SITCLs

Source	Issued	Refused	Revoked
Mauritius	1	0	0
Oman	1	0	0
South Africa	1	0	0
United States of America	2	0	0

### Issued

assault rifles (4) [See footnote 83].  
assault rifles (8) [See footnote 12].  
body armour (3 licences) [See footnotes 12, 13, 83].

components for assault rifles (3 licences) [See footnotes 12, 83].  
 components for body armour (3 licences) [See footnotes 12, 13, 83].  
 components for pistols [See footnote 35].  
 components for rifles [See footnote 13].  
 equipment for the use of assault rifles.  
 military helmets (3 licences) [See footnotes 12, 13, 83].  
 pistols (1) [See footnote 35].  
 rifles (16) [See footnote 13].  
 small arms ammunition (3 licences) [See footnotes 12, 13, 83].  
 technology for assault rifles.  
 weapon cleaning equipment.  
 weapon night sights (2 licences) [See footnotes 12, 13].

## Issued

assault rifles (2 licences) [See footnotes 20, 26].  
 body armour (2 licences) [See footnotes 20, 26].  
 bomb suits.  
 components for assault rifles (2 licences) [See footnotes 20, 26].  
 components for body armour (3 licences) [See footnotes 20, 26, 33].  
 components for demolition charges/devices [See footnote 16].  
 components for rifles (2 licences) [See footnotes 20, 26].  
 components for sniper rifles [See footnote 20].  
 components for sporting guns (2 licences) [See footnotes 20, 33].  
 demolition charges/devices (2 licences) [See footnote 16].  
 explosives.  
 military equipment for initiating explosives.  
 military helmets (2 licences) [See footnotes 20, 26].  
 military image intensifier equipment [See footnote 33].  
 pistols [See footnote 20].  
 rifles (2 licences) [See footnotes 20, 26].  
 small arms ammunition (3 licences) [See footnotes 20, 26, 33].  
 sniper rifles [See footnote 20].  
 software for demolition charges/devices [See footnote 16].  
 sporting guns (2 licences) [See footnotes 20, 33].  
 sporting shotguns [See footnote 33].  
 technology for demolition charges/devices [See footnote 16].  
 weapon night sights [See footnote 26].  
 weapon sights [See footnote 20].

## Case & goods Footnotes

1. Licence granted for temporary / exhibition purposes. Armed forces end use.
2. Licence granted for temporary / exhibition purposes. Government end use.
3. Licence granted for temporary / exhibition purposes. Government end use.
4. Licence granted for demonstration to potential customers. Armed forces end use.
5. Licence granted for temporary / exhibition purposes. Government end use.
6. Licence granted for armed forces end use.
7. Licence granted for temporary / exhibition purposes. Armed forces end use.
8. Licence granted for temporary / exhibition purposes. Armed forces end use.
9. Licence granted for accessories / spare parts. Armed forces end use.

10. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
11. Licence granted for anti-piracy operations. Civilian / commercial end use.
12. Licence granted for anti-piracy operations. Civilian / commercial end use.
13. Licence granted for anti-piracy operations. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Government end use.
15. Licence granted for cryptographic equipment for commercial use. Armed forces end use.
16. Licence granted for explosive detection / disposal purposes. Government end use.
17. Licence granted for accessories / spare parts. End use by the Air Force.
18. Licence granted for accessories / spare parts. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Armed forces end use.
20. Licence granted for anti-piracy operations. Civilian / commercial end use.
21. Licence granted for accessories / spare parts. Law enforcement agency end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for accessories / spare parts. Armed forces end use.
24. Licence granted for accessories / spare parts. Armed forces end use.
25. Licence granted for accessories / spare parts. End use by the Navy.
26. Licence granted for anti-piracy operations. Civilian / commercial end use.
27. Licence granted for accessories / spare parts. Armed forces end use.
28. Licence granted for accessories / spare parts. Civilian / commercial end use.
29. Licence granted for accessories / spare parts. Armed forces end use.
30. Licence granted for accessories / spare parts. Armed forces end use.
31. Licence granted for accessories / spare parts. Armed forces end use.
32. Licence granted for testing and evaluation purposes. Academic end users.
33. Licence granted for anti-piracy operations. Civilian / commercial end use.
34. Licence granted for accessories / spare parts. End use by the Air Force.
35. Licence granted for accessories / spare parts. Law enforcement agency end use.
36. Ammunition for sporting use for Government and licensed entities.
37. Licence granted for accessories / spare parts. Civilian / commercial end use.
38. Licence granted for accessories / spare parts. Civilian / commercial end use.
39. Licence granted for accessories / spare parts. Armed forces end use.
40. Licence granted for accessories / spare parts. Armed forces end use.
41. Licence granted for demonstration to potential customers. Armed forces end use.
42. Licence granted for accessories / spare parts. Armed forces end use.
43. Licence granted for accessories / spare parts. Government end use.
44. Licence granted for accessories / spare parts. Armed forces end use.
45. Licence granted for accessories / spare parts. Armed forces end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	68% (357)
% and number of SIELs completed in 60 working days	97% (509)
% [as a % of all SIEL cases processed] and number of SIELs refused	12% (63)

Median processing time SITCLs	28 days
% and number of SITCLs completed in 20 working days	40% (4)
% and number of SITCLs completed in 60 working days	70% (7)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	75 days
% and number of OIELs completed in 20 working days	25% (5)
% and number of OIELs completed in 60 working days	40% (8)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	38 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	100% (2)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	165	£17,581,396
Non-military	59	£2,382,565
Both Military and Non-military	5	£1,147,278
Total	229	£21,111,240

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	34	£3,812,909

ML2	1	£4,548
ML3	7	£129,855
ML4	9	£399,121
ML5	1	£58,500
ML6	1	£64,800
ML7	2	£85,415
ML8	2	£85,020
ML9	24	£272,526
ML10	58	£6,478,177
ML11	11	£4,509,149
ML13	16	£567,377
ML14	1	£67,705
ML15	2	£968,475
ML21	2	£8,300
ML22	4	£4,670
PL5001	2	£63,770
PL5017	5	£1,080

- accessories for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 4].
- anti-riot/ballistic shields [See footnote 47].
- T anti-riot/ballistic shields.
- body armour (10 licences) [See footnotes 113, 30, 33, 34, 45, 46, 60, 70].
- T command communications control and intelligence software [See footnote 105].
- components for aerial target equipment.
- components for artillery ammunition [See footnote 19].
- components for attack alerting/warning equipment [See footnote 16].
- components for body armour (8 licences) [See footnotes 113, 30, 33, 34, 60, 70].
- components for combat aircraft (8 licences) [See footnotes 115, 35].
- components for combat helicopters [See footnote 76].
- components for combat naval vessels (3 licences).
- components for electronic warfare equipment [See footnote 16].
- components for military aero-engines (7 licences).
- components for military aircraft head-up/down displays [See footnote 87].
- components for military auxiliary/support vessels (2 licences) [See footnotes 41, 77].
- components for military communications equipment [See footnote 49].
- components for military electronic equipment (4 licences) [See footnotes 102, 49, 99].
- components for military guidance/navigation equipment [See footnote 39].
- components for military helicopters (15 licences) [See footnotes 117, 40, 72, 89].
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (5 licences) [See footnotes 129, 130, 4].
- components for military support aircraft (20 licences) [See footnotes 106, 107, 11, 116, 117, 127, 128, 13, 14, 17, 24, 36, 53, 86, 90].
- components for munitions/ordnance detection/disposal equipment.
- components for naval electrical/electronic equipment (2 licences) [See footnote 51].
- components for naval engines (3 licences) [See footnote 42].
- components for NBC detection equipment.
- components for small arms ammunition (2 licences) [See footnotes 132, 133].
- components for sniper rifles (2 licences) [See footnotes 140, 9].
- T components for sniper rifles [See footnote 27].
- components for sporting guns (10 licences) [See footnotes 119, 120, 121, 122, 131, 132, 134, 136, 137, 138].
- components for weapon mountings [See footnote 50].
- decoying/countermeasure equipment.
- equipment for the use of military equipment for initiating explosives.
- equipment for the use of military guidance/navigation equipment [See footnote 54].
- equipment for the use of sniper rifles [See footnote 9].
- equipment for the use of sporting guns [See footnote 131].
- general military aircraft components (3 licences) [See footnote 12].
- general military vehicle components.
- general naval vessel components (14 licences) [See footnotes 114, 37, 38, 73, 74, 75].
- gun mountings (18 licences) [See footnotes 119, 120, 121, 122, 123, 131, 134, 135, 136, 137, 138, 139, 140, 80, 84, 85, 9].
- T gun mountings [See footnote 27].

- gun silencers [See footnote 135].  
 launching/handling/control equipment for missiles (3 licences) [See footnote 31].  
 military aero-engines.  
 military aircraft head-up/down displays (2 licences) [See footnote 61].  
 military communications equipment [See footnote 49].  
 military equipment for initiating explosives.  
 military guidance/navigation equipment (3 licences) [See footnotes 88, 91].  
 military helicopters (2 licences) [See footnotes 117, 48].  
 military helmets (7 licences) [See footnotes 113, 30, 52, 55, 56, 58, 59].  
 military image recording/processing equipment (2 licences) [See footnotes 102, 99].  
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnote 129].  
 military support aircraft (3 licences) [See footnotes 117, 48].  
 munitions/ordnance detection/disposal equipment.  
 NBC detection equipment (2 licences) [See footnote 6].  
 precursors for energetic materials.  
 pyrotechnics/fuels and related substances.  
 small arms ammunition (4 licences) [See footnotes 104, 136, 137, 44].  
 sniper rifles (1) (2 licences) [See footnotes 140, 80].
- T  
 sniper rifles (1) [See footnote 27].  
 sniper rifles (632) [See footnote 9].  
 software for military guidance/navigation equipment.  
 sporting guns (1) (25 licences) [See footnotes 119, 120, 121, 122, 123, 124, 131, 132, 133, 134, 135, 136, 137, 138, 139, 22, 32, 71, 78, 79, 81, 82, 83, 84, 85].  
 sporting guns (8) [See footnote 104].  
 sporting guns [See footnote 23].  
 technology for decoying/countermeasure equipment.  
 technology for equipment for the use of military guidance/navigation equipment [See footnote 54].  
 technology for military guidance/navigation equipment (2 licences).  
 training small arms ammunition [See footnote 44].  
 wall/door breaching projectiles/ammunition [See footnote 44].
- T  
 weapon cleaning equipment [See footnote 27].  
 weapon sight mounts (2 licences) [See footnotes 109, 140].  
 weapon sights (12 licences) [See footnotes 109, 124, 133, 22, 23, 43, 78, 79, 81, 82, 83, 9].
- T  
 weapon sights [See footnote 27].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£2,999
1A004	5	£444,652
1C350	1	£159
2B001	1	£918,861
2B122	1	£58,000
2B350	4	£2,787
2D351	1	£31
3A001	1	£109,900
5A001	4	£222,457
5A002	4	£5,100
5D001	1	£28
5D002	1	£428
5E002	3	£3,080
6A003	1	£28,500
7A103	1	£50,347
End Use	29	£500,786
PL8001	3	£34,450

- accessories for machine tools.  
 accessories for materials testing equipment.  
 adhesive tape.  
 chemicals.  
 chemicals used for general laboratory work/scientific research [See footnote 25].  
 civil explosive detection/identification equipment (4 licences).  
 civil NBC protection equipment.  
 components for civil vehicles.

- components for corrosion resistant chemical manufacturing equipment [See footnote 29].
- components for gas detection equipment.
- components for gas processing equipment.
- components for petrochemical plant.
- components for radio equipment.
- T components for telecommunications interception equipment [See footnotes 66, 67].
- components for transducers.
- components for vacuum pumps.
- components for workshop tools.
- corrosion resistant chemical manufacturing equipment (3 licences) [See footnotes 100, 101, 28].
- deuterium compounds [See footnote 21].
- devices for initiating explosives.
- dimensional measuring equipment.
- drying equipment.
- electrical installation items (2 licences).
- electronic components.
- T explosives detection equipment (2 licences).
- gas mixtures.
- general laboratory equipment (4 licences).
- high acceleration centrifuges [See footnote 10].
- imaging cameras.
- industrial generators.
- inertial equipment.
- information security equipment (4 licences) [See footnote 96].
- information security software.
- labelling equipment.
- machine tools (2 licences) [See footnote 15].
- materials analysis equipment (2 licences).
- materials testing equipment (2 licences).
- power supplies.
- pressure monitoring equipment.
- radio equipment.
- T software for telecommunications interception equipment [See footnotes 66, 67].
- software for toxic gas monitoring equipment [See footnote 7].
- space qualified solar devices [See footnote 5].
- spectrophotometers (5 licences).
- technology for information security equipment (3 licences) [See footnote 118].
- T telecommunications interception equipment (4 licences) [See footnotes 3, 62, 63, 66, 67, 68, 69].
- transducers.
- valves.
- welding equipment.
- workshop tools.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£25,750

submersible equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	submersible vehicles [See footnote 1]
2	P	information security equipment, information security software
3	T	towed hydrophone arrays
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment

### Country Footnotes

- All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

- Licence granted for accessories / spare parts. Civilian / commercial end use.

## Paraguay

### Processing Statistics (excluding amendments)

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	88% (7)
% and number of SIELs completed in 60 working days	100% (8)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	147 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	33% (1)

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)
---	--------

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£37,290
Non-military	3	£186,462
Both Military and Non-military	2	£326,400
Total	8	£550,153

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£25,190
ML7	1	£9,850
ML22	1	£0
PL5017	1	£2,251

components for NBC detection equipment.  
 components for sniper rifles [See footnote 1].  
 equipment for the use of sniper rifles [See footnote 1].  
 gun mountings [See footnote 1].  
 gun silencers [See footnote 1].  
 sniper rifles (3) [See footnote 1].  
 technology for sniper rifles [See footnote 1].  
 weapon cleaning equipment [See footnote 1].  
 weapon sight mounts [See footnote 1].  
 weapon sights (2 licences) [See footnote 1].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	2	£114,814
5A002	1	£61,610
5D001	2	£10,038

T components for telecommunications interception equipment (2 licences) [See footnote 2].  
 information security equipment.  
 T software for telecommunications interception equipment (2 licences) [See footnote 2].  
 T telecommunications interception equipment (2 licences) [See footnote 2].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£44,400
6A003	2	£122,000
ML5	2	£160,000

T direct view imaging equipment (2 licences).  
T imaging cameras (2 licences).  
T targeting equipment (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 3]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for demonstration to potential customers. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Government end use.

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	23	£4,242,032
Non-military	38	£1,581,789
Both Military and Non-military	4	£613,104
Total	65	£6,436,925

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£663,943
ML3	1	£450,000
ML4	1	£1,500
ML5	7	£300,000
ML6	1	£0
ML7	1	£1,568
ML10	6	£334,418
ML11	6	£119,830
ML13	3	£86,450
ML14	1	£401,692
ML15	5	£195,600
ML22	1	£1,687,031

- aircraft military communications equipment.
- body armour (3 licences).
- components for body armour.
- components for combat aircraft.
- T components for launching/handling/control equipment for man portable air defence system missiles [See footnotes 22, 23].
- components for military combat vehicles.
- T components for military communications equipment.
- components for military support aircraft.
- components for small arms training equipment.
- T components for surface-to-air missiles [See footnotes 22, 23].
- components for weapon control equipment.
- military aircraft ground equipment.
- military aircrew safety equipment.
- T military communications equipment.
- T military guidance/navigation equipment (5 licences) [See footnotes 14, 15, 18, 19, 20, 21, 26].
- T military image intensifier equipment (5 licences) [See footnotes 14, 15, 18, 19, 20, 21, 26].
- T military infrared/thermal imaging equipment (4 licences) [See footnotes 14, 15, 18, 19, 20, 21].

- T military support aircraft.
- T NBC protective/defensive equipment [See footnote 2].
- T rangefinding equipment (5 licences) [See footnotes 14, 15, 18, 19, 20, 21, 26].
- small arms ammunition [See footnote 25].
- small arms training equipment.
- targeting equipment.
- technology for military combat vehicles.
- technology for weapon control equipment.
- T weapon night sights (5 licences) [See footnotes 14, 15, 18, 19, 20, 21, 26].
- weapon sights (2 licences) [See footnote 28].
- T weapon sights (5 licences) [See footnotes 14, 15, 18, 19, 20, 21, 26].

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	2	£5,860
1A004	2	£52,000

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	65	£4,552,796
Non-military	8	£360,670
Both Military and Non-military	1	£1,755
Total	74	£4,915,220

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	13	£2,074,252
ML2	4	£17,841
ML3	4	£128,188
ML4	5	£1,182,880
ML5	11	£236,626
ML6	10	£430,269
ML7	3	£14,477
ML9	1	£3,522
ML10	16	£59,445
ML11	11	£72,184
ML13	1	£800
ML15	4	£225,514
ML17	3	£85,925
PL5017	7	£20,873

T aircraft military communications equipment.  
aircraft military communications equipment (2 licences).  
components for aircraft cannons.  
components for aircraft military communications equipment.  
components for artillery (2 licences).

- components for assault rifles.
- components for attack alerting/warning equipment.
- T components for blank/inert ammunition.
- components for combat aircraft (5 licences).
- components for combat naval vessels.
- components for decoying/countermeasure equipment.
- components for electronic countermeasure equipment.
- components for gun mountings.
- components for launching/handling/control equipment for missiles.
- components for machine guns.
- components for military aero-engines (3 licences).
- components for military aircraft ground equipment.
- components for military combat vehicles (2 licences).
- components for military communications equipment (3 licences).
- components for military electronic equipment (3 licences).
- components for military guidance/navigation equipment (3 licences).
- components for military helicopters (5 licences).
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military infrared/thermal imaging equipment.
- components for military radars (6 licences).
- components for military support aircraft (4 licences).
- components for munitions/ordnance detection/disposal equipment.
- components for naval guns.
- T components for periscopes.
- components for pistols.
- components for sniper rifles (2 licences).
- components for sporting guns.
- equipment for the use of aircraft military communications equipment.
- equipment for the use of general military vehicle components.
- equipment for the use of military combat vehicles.
- equipment for the use of sporting guns.
- T equipment for the use of weapon night sights (3 licences) [See footnote 17].
- general military aircraft components (3 licences).
- general military vehicle components (7 licences).
- gun mountings (2 licences).
- gun silencers.
- military aircraft ground equipment (2 licences).
- military combat vehicles.
- military electronic equipment.
- military equipment for initiating explosives.
- T military equipment for initiating explosives.
- military guidance/navigation equipment.
- T military guidance/navigation equipment (3 licences) [See footnote 17].
- military helmets.
- T military image intensifier equipment (3 licences) [See footnote 17].
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment (3 licences) [See footnote 17].
- munitions/ordnance detection/disposal equipment.
- NBC protective/defensive equipment (3 licences).
- T periscopes.
- T rangefinding equipment (3 licences) [See footnote 17].
- rifles (1) (2 licences).
- rifles (2).
- signature suppression fittings/coatings/treatments for military use (3 licences).
- small arms ammunition (2 licences).
- sniper rifles (3).
- sporting guns (16).
- training small arms ammunition.
- weapon night sights (2 licences).
- T weapon night sights (3 licences) [See footnote 17].
- weapon sight mounts.
- T weapon sight mounts (3 licences) [See footnote 17].
- weapon sights (2 licences).
- T weapon sights (3 licences) [See footnote 17].

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£123,000
1A007	1	£4,733
1C202	2	£120,782
PL9010	3	£112,155

T civil NBC protection equipment.  
metal alloy cylindrical forms (2 licences).  
NBC protective/defensive equipment.  
non-military detonators.  
sporting shotguns (1).  
sporting shotguns (2) (2 licences).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£715
PL9010	1	£1,040

pistols (1).  
sporting guns (1).  
sporting shotguns (1).

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,291,949
Total	5	£1,291,949

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	4	£1,282,562
ML16	1	£9,387

components for aircraft military communications equipment.  
components for combat helicopters.  
components for military aero-engines.  
general military aircraft components.  
unfinished products for military aero-engines.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada  
France

Greece  
 Senegal  
 United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	non-military detonators, non-military firing sets
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for weapon sights, weapon sights [See footnote 4]
5	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
6	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 2]
7	T	towed hydrophone arrays
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support

		aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
9	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
10	P	technology for combined cycle engines
11	P	weapon sights
12	P	components for NBC protective/defensive equipment

13	P	weapon sights [See footnote 5]
14	P	components for combat aircraft [See footnotes 6, 7]
15	P	technology for military aero-engines
16	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 8]
17	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 9]
18	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, technology for airborne refuelling equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of military training aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military training aircraft [See footnote 10]
19	P	components for gun silencers, gun silencers
20	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 11]
21	P	Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating military operation scenarios
22	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 12]
23	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 13]
24	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
25	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 14]
26	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 15]

27	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
28	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 16]

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Law enforcement agency end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. End use by the Navy.
12. Licence granted for accessories / spare parts. Armed forces end use.
13. Licence granted for accessories / spare parts. Government end use.
14. Licence granted for accessories / spare parts. Armed forces end use.
15. Licence granted for accessories / spare parts. Armed forces end use.
16. Licence granted for accessories / spare parts. Armed forces end use.
17. Licence granted for accessories / spare parts. Civilian / commercial end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	100% (44)
% and number of SIELs completed in 60 working days	100% (44)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	84 days
% and number of OIELs completed in 20 working days	14% (4)
% and number of OIELs completed in 60 working days	31% (9)
% [as a % of all OIELs cases processed] and number of OIELs refused	3% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	26	£2,021,051
Non-military	6	£84,095
Both Military and Non-military	1	£1,675
Total	33	£2,106,821

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£1,880,028
ML2	1	£2,651
ML4	6	£78,746
ML7	1	£418
ML8	1	£14
ML9	1	£8,756
ML10	3	£2,206
ML11	2	£26,940
ML22	1	£598
PL5001	1	£140
PL5017	3	£20,554

anti-riot/ballistic shields.  
 components for artillery.  
 components for decoying/countermeasure equipment.  
 components for gun mountings.  
 components for military aero-engines.  
 components for military communications equipment.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).  
 components for military support aircraft.  
 components for military training aircraft.  
 components for NBC protective/defensive equipment.  
 components for sniper rifles.  
 components for submarines.  
 demolition charges/devices.  
 gun mountings.  
 gun silencers.  
 military communications equipment.  
 military equipment for initiating explosives.  
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 NBC protective/defensive equipment.  
 precursors for energetic materials.  
 rifles (1).  
 sniper rifles (1).  
 sniper rifles (4).  
 sporting guns (1) (2 licences).  
 technology for sniper rifles.  
 weapon cleaning equipment (2 licences).  
 weapon night sights (5 licences).  
 weapon sight mounts (2 licences).  
 weapon sights (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	6	£84,095

components for sporting shotguns.  
sporting shotguns (1) (5 licences).  
sporting shotguns (2).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£1,310
ML7	1	£365

civil NBC protection clothing.  
NBC protective/defensive equipment.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	6	£1,193,678
Total	6	£1,193,678

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	6	£1,193,678

components for military helicopters (2 licences).  
components for military support aircraft (2 licences).  
general military aircraft components (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil  
France  
Italy  
Norway  
United Kingdom  
United States of America

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military support aircraft [See footnote 1]
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 2]
3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for weapon sights, weapon sights [See footnote 8]
5	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 3]

16	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 12]
17	P	components for gun silencers, gun silencers
18	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 13]
19	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
20	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 14]
21	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 15]
22	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Law enforcement agency end use.
3. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. Law enforcement agency end use.
13. Licence granted for accessories / spare parts. Armed forces end use.

14. Licence granted for accessories / spare parts. Armed forces end use.  
 15. Licence granted for accessories / spare parts. Armed forces end use.

## Puerto Rico

### Processing Statistics (excluding amendments)

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	75% (3)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	57 days
% and number of OIELs completed in 20 working days	25% (1)
% and number of OIELs completed in 60 working days	50% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£159,850
Non-military	3	£291,390
Total	4	£451,240

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£159,850

components for combat aircraft.  
 general military aircraft components.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£585
1A004	1	£15,805
5A002	1	£275,000

civil explosive detection/identification equipment.  
 information security equipment [See footnote 1].  
 products containing depleted uranium [See footnote 2].

products containing thorium [See footnote 2].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for academic research purposes. Academic end users.

## Qatar

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£105,000
Non-military	9	£821,750
Total	10	£926,750

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£105,000

components for military helicopters.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£7,494
5A001	2	£280,000
5A002	3	£11,902
5E002	1	£1,875
6A001	2	£288,007
7A003	1	£228,472
7A103	1	£4,000

- T corrosion resistant chemical manufacturing equipment [See footnote 6].
- T inertial equipment [See footnote 1].
- T inertial equipment.
- T information security equipment (3 licences) [See footnote 5].
- T marine position fixing equipment.
- T marine position fixing equipment.
- T sonar log equipment.
- T technology for information security equipment [See footnote 5].
- T telecommunications interception equipment.
- T underwater telecommunications systems.

**Refused**

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry
ML13	1

military helmets.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
2	1

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£328,252
Total	1	£328,252

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£328,252

weapon night sights [See footnote 8].

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	underwater telecommunications systems [See footnote 2]
3	P	submersible vehicles [See footnote 3]

2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
3	P	information security equipment, information security software
4	T	towed hydrophone arrays
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment

### Country Footnotes

1. Restrictions currently in force with respect to Guinea (Conakry) are set out in Council Decision 2010/638/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 1284/2009, with exemptions for certain humanitarian, protective and UN or EU end uses. Amendments to Council Decision 2010/638/CFSP in 2011 and 2012 introduces further exemptions for the supply of non-lethal equipment to be used for maintaining public order by the police and gendarmerie in Guinea, for the return of non-combat helicopters to Guinea, and for the provision of explosives and related equipment intended solely for civilian use in mining and infrastructure investments. In April 2014, Council Decision 2014/213/CFSP lifted the arms embargo though measures against individuals remain in place.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.

## Republic of Moldova

### Processing Statistics (excluding amendments)

Median processing time SIELs	13 days

## **SIELs - Incorporation**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£182,600
Non-military	3	£16,586,934
Total	4	£16,769,534

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£178,200
PL5017	1	£4,400

components for military guidance/navigation equipment [See footnote 83].  
equipment for the use of military guidance/navigation equipment [See footnote 83].

### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
3A225	1	£810
3B001	1	£309,124
9A004	1	£16,277,000

frequency changers [See footnote 32].  
semiconductor manufacturing equipment.  
spacecraft payloads [See footnote 101].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Angola  
Germany  
India  
Netherlands

## **OIELs (excluding Other OIELs)**

### **Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	bismuth, calcium, magnesium [See footnote 53]
2	P	spacecraft [See footnote 97]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment
2	P	aircraft seals, guidance/navigation equipment, inertial equipment
3	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

promoting the supply of oil and gas industry equipment/materials.

### OITCLs

Source	Issued	Refused	Revoked
Norway, Russia	1	0	0

### Issued

promoting the supply of oil and gas industry equipment/materials.

### Country Footnotes

1. Decision 2014/512/CFSP, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for sporting / hunting purposes. Personal end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

- anti-friction bearings [See footnote 42].  
 biotechnology equipment (3 licences) [See footnotes 179, 33, 90].  
 bismuth (2 licences) [See footnotes 38, 83].  
 chemicals used for industrial/commercial processes (2 licences) [See footnote 85].  
 chemicals used for pharmaceutical/healthcare production [See footnote 6].
- T civil explosive detection/identification equipment (6 licences) [See footnotes 174, 73].  
 civil explosive detection/identification equipment (2 licences) [See footnote 136].  
 civil NBC protection clothing.  
 civil NBC protection equipment.  
 components for civil NBC detection systems [See footnote 73].  
 components for corrosion resistant chemical manufacturing equipment (15 licences) [See footnotes 106, 107, 116, 117, 118, 119, 28, 3, 30, 32, 34, 50, 66, 97].  
 components for information security equipment [See footnote 68].  
 components for instrumentation cameras [See footnote 147].

- components for radar equipment.
- compound semiconductor precursor chemicals (2 licences).
- corrosion resistant chemical manufacturing equipment (62 licences) [See footnotes 10, 100, 101, 102, 103, 104, 105, 108, 109, 110, 111, 114, 115, 12, 120, 121, 123, 126, 127, 128, 129, 137, 140, 141, 146, 149, 15, 150, 153, 154, 155, 158, 17, 21, 24, 26, 29, 31, 40, 44, 45, 46, 49, 52, 54, 57, 60, 61, 62, 64, 65, 8, 86, 89, 93, 95, 99].
- deuterium compounds (14 licences) [See footnotes 18, 19, 23, 41, 43, 48, 58, 63, 84, 98].
- deuterium solutions [See footnote 11].
- direct view imaging equipment.
- electronics cooling fluids.
- explosives detection equipment.
- T explosives detection equipment.
- extended temperature range integrated circuits [See footnote 162].
- imaging cameras (9 licences) [See footnotes 39, 53, 67].
- T imaging cameras (3 licences) [See footnote 135].
- T improvised explosive device disposal remotely operated vehicles.
- inertial equipment (3 licences) [See footnote 87].
- information security equipment (35 licences) [See footnotes 132, 134, 144, 35, 68].
- T information security equipment.
- information security software (20 licences) [See footnotes 132, 134, 157, 178].
- instrumentation cameras (2 licences) [See footnotes 147, 20].
- magnesium (3 licences) [See footnotes 38, 83, 94].
- marine position fixing equipment (2 licences) [See footnote 87].
- neutron generators [See footnote 96].
- radar equipment [See footnote 67].
- RF direction finding equipment.
- software for information security equipment (7 licences) [See footnote 144].
- technology for corrosion resistant chemical manufacturing equipment [See footnote 65].
- technology for information security equipment (2 licences).
- technology for information security software.
- telecommunications interception equipment [See footnote 88].
- T telecommunications interception equipment.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£724,980
6A003	2	£113,840
ML1	1	£599,333
ML5	1	£175,000

- T direct view imaging equipment (2 licences) [See footnote 170].
- T equipment for the use of weapon sights [See footnote 170].
- T imaging cameras (2 licences) [See footnote 170].
- T targeting equipment.
- T weapon night sights [See footnote 170].
- T weapon sight mounts [See footnote 170].
- T weapon sights [See footnote 170].

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	2	£17,240
Total	2	£17,240

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£17,240

components for combat helicopters (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security software [See footnote 27]
2	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 36]
3	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of

		software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 37]
4	P	information security equipment, information security software
5	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 47]
6	T	towed hydrophone arrays
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 56]
8	P	components for information security equipment, information security equipment, software for information security equipment, technology for information security equipment [See footnote 91]
9	P	components for combat aircraft [See footnotes 112, 113]
10 (Rv)	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 124]
11	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 125]
12	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 142]
13	P	aircraft military communications equipment, components for airborne refuelling equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military radars, components for military support aircraft, general military aircraft components, military aircraft head-up/down displays [See footnote 145]
14	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
15	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 152]

16	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 156]
17	P	corrosion resistant chemical manufacturing equipment [See footnote 167]
18	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 168]
19	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 169]
20	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment
21	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, equipment for the use of military helicopters, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military guidance/navigation equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, technology for software for aircraft military communications equipment, technology for software for equipment for the use of military helicopters, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military aircraft head-up/down displays, technology for software for military guidance/navigation equipment, technology for software for military helicopters [See footnote 180]

Rv - Some or all of which have subsequently been revoked.

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets

2	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	87% (61)
% and number of SIELs completed in 60 working days	99% (69)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	117 days
% and number of OIELs completed in 20 working days	14% (1)
% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	42	£12,330,796
Non-military	17	£4,672,157
Both Military and Non-military	3	£355,000
Total	62	£17,357,953

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£23,449
ML3	2	£87,665
ML4	1	£1,500,000
ML5	2	£120,752
ML6	5	£625,954
ML9	4	£8,021,965
ML10	9	£474,000

ML11	5	£173,901
ML18	9	£264,385
ML21	1	£150
ML22	24	£532,601
PL5017	2	£505,974

ballistic test equipment.  
 components for gun mountings [See footnote 5].  
 components for military aero-engines.  
 components for military aircraft ground equipment.  
 components for military combat vehicles (3 licences).  
 components for military communications equipment (3 licences).  
 components for military radars.  
 components for naval communications equipment (3 licences).  
 components for sniper rifles [See footnote 5].  
 components for targeting equipment.  
 developmental missile components.  
 equipment for the production of combat aircraft.  
 equipment for the production of military aircraft ground equipment (4 licences).  
 equipment for the production of military aircrew safety equipment.  
 equipment for the production of military communications equipment.  
 equipment for the production of military helicopters.  
 equipment for the use of military aircrew safety equipment.  
 equipment for the use of military communications equipment.  
 general military vehicle components (2 licences).  
 gun mountings [See footnote 5].  
 gun silencers [See footnote 5].  
 military aero-engines (2 licences) [See footnote 2].  
 military aircraft ground equipment (4 licences).  
 military aircrew life support equipment (2 licences).  
 military communications equipment (2 licences).  
 naval communications equipment (2 licences).  
 small arms ammunition (2 licences).  
 sniper rifles (3) [See footnote 5].  
 software for military communications equipment.  
 targeting equipment.  
 technology for combat aircraft.  
 technology for developmental missile components.  
 technology for equipment for the production of military aircraft ground equipment.  
 technology for equipment for the production of military helicopters.  
 technology for military aircraft ground equipment (9 licences).  
 technology for military aircrew life support equipment (2 licences).  
 technology for military aircrew safety equipment (2 licences).  
 technology for military communications equipment (2 licences).  
 technology for naval communications equipment (3 licences).  
 technology for sniper rifles [See footnote 5].  
 technology for targeting equipment.  
 weapon cleaning equipment [See footnote 5].  
 weapon sight mounts [See footnote 5].  
 weapon sights [See footnote 5].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£9,284
1C351	1	£10
5A001	3	£399,175
5A002	6	£1,122,163
5D001	1	£22,425
6A003	4	£119,000
6E201	1	£100
7A103	1	£3,000,000

T	civil explosive detection/identification equipment. components for telecommunications jamming equipment. imaging cameras (2 licences) [See footnotes 6, 7]. imaging cameras (2 licences).
T	inertial equipment [See footnote 1]. information security equipment (6 licences).
T	software for telecommunications interception equipment. technology for imaging cameras.
T	telecommunications interception equipment (2 licences). viruses [See footnote 4].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£22,200
6A003	2	£145,857
ML1	2	£103,251
ML5	1	£80,000
PL9010	1	£3,692

T	components for sporting shotguns. direct view imaging equipment. imaging cameras.
T	imaging cameras. pistols (4). rifles (1). sporting guns (33). sporting shotguns (78). weapon night sights. weapon sights.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	information security equipment, technology for information security equipment [See footnote 3]
3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 8]
4	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 9]

5	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 10]
---	---	---

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for civilian / commercial end use.
3. Licence granted for equipment to improve broadband connectivity. Government end use.
4. Licence granted for civilian / commercial end use.
5. Licence granted for temporary / exhibition purposes. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Government end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Armed forces end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£15,340
Non-military	7	£47,531
Total	10	£62,871

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£15,340

military support vehicles (3 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£37,310
5A002	4	£9,989
5D002	3	£233

civil explosive detection/identification equipment [See footnote 1].  
information security equipment (4 licences).  
information security software (3 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 2]
2	P	information security equipment, information security software
3	T	towed hydrophone arrays
4	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

#### Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.

 components for corrosion resistant chemical manufacturing equipment (3 licences) [See footnotes 15, 38].  
 components for submersible equipment (3 licences) [See footnote 48].  
 components for telecommunications interception equipment (3 licences) [See footnotes 116, 59].  
 components for toxic gas detectors [See footnotes 64, 65].  
 constituents of propellants.  
 corrosion resistant chemical manufacturing equipment (31 licences) [See footnotes 1, 100, 103, 104, 105, 106, 108, 12, 14, 15, 23, 27, 40, 42, 46, 52, 54, 55, 56, 57, 58, 61, 68, 69, 7, 86, 96].  
 cryptanalytic software.  
 diffusion bonding equipment.  
 diffusion bonding tools.  
 dimensional measuring equipment.  
 explosives detection equipment.  
 T explosives detection equipment (3 licences) [See footnote 89].  
 extended temperature range integrated circuits (3 licences).  
 focal plane arrays.  
 hafnium compounds [See footnote 87].  
 T imaging cameras (17 licences) [See footnotes 109, 18, 62, 9].  
 imaging cameras (5 licences).  
 inertial equipment (7 licences) [See footnotes 4, 83].  
 T information security equipment (43 licences) [See footnotes 121, 22].  
 information security equipment (4 licences).  
 information security software (8 licences) [See footnote 22].  
 T information security software (2 licences).  
 internet protocol network communications surveillance equipment [See footnote 22].  
 machine tools [See footnote 44].  
 magnetometers.  
 marine position fixing equipment (4 licences).  
 metal alloy cylindrical forms (4 licences) [See footnote 26].  
 metal alloy materials.  
 metal alloys in powder form.  
 pressure transducers.  
 rebreathing swimming equipment.  
 semiconductor wafers with epitaxial layers.  
 software for diffusion bonding equipment.  
 software for diffusion bonding tools.  
 software for information security equipment (3 licences) [See footnotes 121, 22].  
 software for information security software.  
 software for internet protocol network communications surveillance equipment [See footnote 22].  
 software for telecommunications interception equipment (4 licences) [See footnotes 116, 59].  
 T software for telecommunications interception equipment (2 licences).  
 sonar log equipment (3 licences).  
 submersible equipment (4 licences) [See footnote 99].  
 submersible vehicle control systems [See footnote 99].  
 submersible vehicles [See footnote 99].  
 technology for biotechnology equipment (2 licences) [See footnotes 49, 51].  
 technology for ceramic base materials.  
 technology for composite structures.  
 technology for diffusion bonding equipment.  
 technology for diffusion bonding tools.  
 technology for fluoroelastomer compounds.  
 technology for focal plane arrays.  
 technology for gas turbine engines.  
 technology for general purpose integrated circuits.  
 technology for imaging cameras [See footnote 6].  
 technology for information security equipment.  
 technology for machine tool instruction generators.

- technology for metal alloy materials.
- technology for metal-working manufacturing processes.
- technology for non-composite ceramic materials.
- technology for numerical control unit interactive graphics.
- technology for polybenzoxazoles.
- technology for software for shop floor advanced decision support.
- technology for stretch-forming equipment.
- technology for the application of surface coatings.
- telecommunications interception equipment (5 licences) [See footnotes 116, 59].
- T telecommunications interception equipment (5 licences).
- telecommunications software [See footnote 22].
- toxic gas monitoring equipment (2 licences) [See footnotes 64, 65, 85].
- toxins (2 licences).
- underwater electric field sensors.
- viruses (2 licences) [See footnotes 20, 37].

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	7	£863,916
6A003	6	£243,701
6E201	1	£100
ML1	4	£425,135
ML5	2	£300,000
ML15	1	£35,000
ML17	1	£7,200
ML22	2	£250
PL5017	4	£23,098

- T direct view imaging equipment (6 licences) [See footnotes 112, 21, 81].
- T equipment for the use of weapon sights (4 licences) [See footnotes 21, 81].
- focal plane arrays.
- T goods treated for signature suppression for military use [See footnote 21].
- T imaging cameras (6 licences) [See footnotes 112, 21, 81].
- military infrared/thermal imaging equipment.
- T targeting equipment (2 licences) [See footnote 112].
- T technology for equipment for the use of weapon sights [See footnote 21].
- technology for imaging cameras [See footnote 50].
- technology for NBC protective/defensive equipment [See footnote 50].
- T weapon night sights (4 licences) [See footnotes 21, 81].
- T weapon sight mounts (4 licences) [See footnotes 21, 81].

**Refused**

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry
2B351	1

components for toxic gas detectors.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
7	1

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	6	£336,856
Non-military	8	£3,073,008
Total	14	£3,409,864

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£261,000
ML10	2	£3,856
ML15	1	£72,000

aircraft military communications equipment (2 licences).  
 components for military combat vehicles (3 licences).  
 military infrared/thermal imaging equipment [See footnote 3].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£5,968
5A002	1	£414
6A001	2	£126,426
6A002	2	£2,867,700
7A003	1	£72,500

corrosion resistant chemical manufacturing equipment (2 licences) [See footnotes 110, 24].  
 focal plane arrays (2 licences) [See footnotes 115, 2].  
 inertial equipment [See footnote 120].  
 information security equipment.  
 marine position fixing equipment (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Angola  
 Australia

China  
 Hong Kong Special Administrative Region  
 India  
 Indonesia  
 Japan  
 Mexico  
 Myanmar  
 New Zealand  
 Norway  
 Philippines  
 South Korea  
 Taiwan  
 Thailand  
 United States of America  
 Vietnam

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, software for information security software
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 8]
3	P	information security software [See footnote 10]
4	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
5	P	underwater telecommunications systems [See footnote 25]
6	P	submersible vehicles [See footnote 28]
7	P	information security equipment, information security software
8	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 31]
9	P	components for information security equipment, information security equipment [See footnote 33]
10	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment [See footnote 36]
11	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields [See footnote 39]
12	T	hydrophones
13	T	towed hydrophone arrays
14	P	hydrophones, towed hydrophone arrays [See footnote 41]
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support

		equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 43]
16	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military helmets, military helmets [See footnote 45]
17	P	corrosion resistant chemical manufacturing equipment [See footnote 47]
18	P	components for small arms ammunition, small arms ammunition [See footnote 53]
19	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, military support vehicles, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for military support vehicles
20	P	components for combat aircraft [See footnotes 74, 75]
21	P	components for combat aircraft [See footnotes 78, 79]
22	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 82]
23	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 97]
24	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 98]
25	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, technology for airborne refuelling equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of military training aircraft, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military training aircraft [See footnote 102]
26	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 107]
27	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 111]
28	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 113]
29	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
30	P	aero-engine assemblies, components for aero-engine assemblies, components for non-certified aero-engines, metal alloy materials, non-certified aero-engines, software for aero-engine assemblies, software for FADEC systems, software for non-certified aero-engines, technology for engine flow path systems, technology for FADEC, technology for gas turbine engines, technology for metal alloy materials, technology for metal-working manufacturing processes, technology for propeller blades, technology for software for aero-engine assemblies, technology for software for FADEC systems, technology for software for non-certified aero-engines, technology for the application of surface coatings, technology for wind tunnel models

31	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 114]
32	P	components for gyroscopes, components for inertial equipment, gyroscopes, inertial equipment
33	P	components for combat helicopters, components for military aero-engines, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military helicopters, components for military radars, components for military support vehicles, components for military training aircraft, components for munitions/ordnance detection/disposal equipment, components for submarines, components for tanks, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military training aircraft, general military aircraft components, general military vehicle components, general naval vessel components, military aero-engines, military aircraft ground equipment
34	P	components for marine position fixing equipment [See footnote 117]
35	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 118]
36	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 119]
37	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 122]
38	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 123]
39	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable

		systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 124]
40	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 125]
41	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 126]

### Case & goods Footnotes

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Law enforcement agency end use.
9. Licence granted for demonstration to potential customers. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for temporary / exhibition purposes. Civilian / commercial end use.
14. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
15. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
16. Licence granted for testing and evaluation purposes. Civilian / commercial end use.
17. Licence granted for chemical manufacturing equipment. Government end use.
18. Licence granted for medical research purposes. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Government end use.
20. Licence granted for academic research purposes. Academic end users.
21. Licence granted for temporary / exhibition purposes.
22. Licence granted for accessories / spare parts. Government end use.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
25. Licence granted for accessories / spare parts. Civilian / commercial end use.
26. Licence granted for accessories / spare parts. Civilian / commercial end use.
27. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
28. Licence granted for accessories / spare parts. Civilian / commercial end use.
29. Licence granted for demonstration to potential customers.
30. Licence granted for civilian / commercial end use.
31. Licence granted for armed forces end use.
32. Licence granted for accessories / spare parts. End use by the Navy.
33. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
34. Licence granted for civilian / commercial end use.
35. Licence granted for accessories / spare parts. Government end use.
36. Licence granted for accessories / spare parts. Civilian / commercial end use.
37. Licence granted for academic research purposes. Government end use.
38. Licence granted for accessories / spare parts. Civilian / commercial end use.
39. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
40. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
41. Licence granted for accessories / spare parts. Civilian / commercial end use.
42. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
43. Licence granted for accessories / spare parts. Armed forces end use.
44. Licence granted for accessories / spare parts. Civilian / commercial end use.

45. Licence granted for protective equipment for crowd control use. Government end use.
46. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
47. Licence granted for accessories / spare parts. Civilian / commercial end use.
48. Licence granted for accessories / spare parts. Civilian / commercial end use.
49. Licence granted for accessories / spare parts. Civilian / commercial end use.
50. Licence granted for accessories / spare parts. Civilian / commercial end use.
51. Licence granted for accessories / spare parts. Civilian / commercial end use.
52. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
53. Ammunition for sporting use for Government and licensed entities.
54. Licence granted for accessories / spare parts. Civilian / commercial end use.
55. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
56. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
57. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
58. Licence granted for accessories / spare parts. Civilian / commercial end use.
59. Licence granted for end use by a law enforcement agency.
60. Licence granted for demonstration to potential customers. Civilian / commercial end use.
61. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
62. Licence granted for accessories / spare parts. Law enforcement agency end use.
63. Licence granted for demonstration to potential customers. Civilian / commercial end use.
64. Licence granted for accessories / spare parts. Civilian / commercial end use.
65. Licence granted for accessories / spare parts. Civilian / commercial end use.
66. Licence granted for demonstration to potential customers. Law enforcement agency end use.
67. Licence granted for demonstration to potential customers. Law enforcement agency end use.
68. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
69. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
70. Licence granted for demonstration to potential customers. Government end use.
71. Licence granted for demonstration to potential customers. Government end use.
72. Licence granted for accessories / spare parts. Civilian / commercial end use.
73. Licence granted for accessories / spare parts. Civilian / commercial end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	100% (11)
% and number of SIELs completed in 60 working days	100% (11)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	75 days
% and number of OIELs completed in 20 working days	21% (3)
% and number of OIELs completed in 60 working days	43% (6)
% [as a % of all OIELs cases processed] and number of OIELs refused	7% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	7	£37,525
Both Military and Non-military	1	£2,561
Total	8	£40,086

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£12,805
ML3	1	£1,173
ML6	1	£1,700
ML7	1	£3,160
ML11	2	£18,687

components for military communications equipment.  
 components for military guidance/navigation equipment.

components for NBC detection equipment.  
 components for pistols.  
 components for turrets.  
 equipment for the use of military communications equipment.  
 military communications equipment.  
 sporting guns (1).  
 sporting guns (2).  
 training small arms ammunition.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,131
PL9010	1	£1,430

components for sporting shotguns.  
 sporting guns (2).  
 sporting shotguns (1).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for weapon sights, weapon sights [See footnote 2]
3	P	weapon sights
4	P	weapon sights [See footnote 3]
5	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 4]
6	T	technology for enriched uranium, technology for materials containing enriched uranium, technology for materials containing plutonium-239, technology for materials containing uranium-233, technology for nuclear fuel reprocessing equipment, technology for nuclear grade graphite, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for plutonium-239, technology for uranium-233
7	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	7	£18,845
Non-military	1	£45,000
Total	8	£63,845

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£8,160
PL5001	1	£225
PL5017	2	£10,460

T anti-riot/ballistic shields.  
equipment for the use of weapon sights.  
equipment for the use of weapon sights.  
sniper rifles (1).  
sporting guns (1) (2 licences).  
weapon night sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£45,000
6D002	1	£0

T radar equipment [See footnote 6].  
T software for radar equipment [See footnote 6].

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	1	£22,700
Total	1	£22,700

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£22,700

components for targeting equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Spain

#### OIELs (excluding Other OIELs)

all-wheel drive vehicles with ballistic protection [See footnote 2].  
body armour [See footnote 7].  
components for body armour [See footnote 7].  
military helmets [See footnote 7].  
weapon cleaning equipment [See footnote 7].

#### Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for accessories / spare parts. International Organisation end use.
3. Licence granted for protective equipment for crowd control use. International Organisation end use.
4. Licence granted for end use by a international organisation.
5. Licence granted for explosive detection / disposal purposes. International Organisation end use.
6. Licence granted for accessories / spare parts. International Organisation end use.
7. Licence granted for accessories / spare parts. International Organisation end use.
8. Licence granted for academic research purposes. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. International Organisation end use.
10. Licence granted for accessories / spare parts. International Organisation end use.
11. Licence granted for accessories / spare parts. International Organisation end use.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	40	£7,742,125
Total	40	£7,742,125

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	8	£423,114
ML5	2	£2,107
ML6	11	£7,104,151
ML9	1	£2,922
ML10	9	£29,221
ML11	9	£179,611
ML22	1	£998

- aircraft military communications equipment.
- components for aircraft military communications equipment (2 licences).
- components for attack alerting/warning equipment.
- components for bombs (5 licences) [See footnotes 27, 29, 30].
- components for combat aircraft (3 licences).
- components for combat naval vessels.
- components for decoying/countermeasure equipment.
- components for electronic warfare equipment (3 licences) [See footnote 6].
- components for military combat vehicles (9 licences).
- components for military communications equipment.
- components for military support aircraft.
- components for military support vehicles (2 licences).
- components for military training aircraft (2 licences).
- components for periscopes.
- components for surface-to-air missiles.
- decoying/countermeasure equipment.
- electronic warfare equipment (4 licences) [See footnote 99].
- military communications equipment.
- technology for military communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Ecuador  
 France  
 Gabon  
 Germany  
 India  
 Italy  
 Jordan  
 Malaysia  
 Qatar  
 Sweden  
 United Arab Emirates

**Refused**

The items being incorporated in this destination are ultimately destined for all or some of the following:

China

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 3]
2	P	components for military aero-engines, components for military support aircraft [See footnote 5]
3	P	components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft military communications equipment, components for aircraft missile protection systems, components for bombs, components for combat aircraft, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for launching/ground support equipment for unmanned air vehicles, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military communications equipment, components for military equipment for initiating explosives, components for military helicopters, components for military infrared/thermal imaging equipment, components for military radars, components for military sonars, components for military support aircraft, components for military training aircraft, components for multi-role missiles, components for munitions/ordnance detection/disposal equipment, components for periscopes, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles, components for targeting equipment, components for training air launched rockets, components for training air-to-air missiles, components for training air-to-surface missiles, components for training bombs, components for training multi-role missiles, components for training surface launched rockets, components for training surface-to-air missiles, components for training surface-to-surface missiles, developmental missile components, general military aircraft components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for combat aircraft, technology for combat helicopters, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, technology for fire location equipment, technology for launching/ground support equipment for unmanned air vehicles, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military communications equipment, technology for military equipment for initiating explosives, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military sonars, technology for military support aircraft, technology for military training aircraft, technology for multi-role missiles, technology for munitions/ordnance detection/disposal equipment, technology for periscopes, technology for rangefinding equipment, technology for recognition/identification equipment, technology for sensor integration equipment, technology for surface launched rockets, technology for surface-to-air missiles, technology for surface-to-surface missiles, technology for targeting equipment, technology for training air launched rockets, technology for training air-to-air missiles, technology for training air-to-surface missiles, technology for training bombs, technology for training multi-role missiles, technology for training surface launched rockets, technology for training surface-to-air missiles, technology for training surface-to-surface missiles [See footnote 9]
4	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
5	P	components for military combat vehicles, components for military support vehicles, components for tanks [See footnote 10]
6	P	components for weapon sights, weapon sights [See footnote 36]
7	P	components for aircraft military communications equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft
8	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for

		the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 12]
9	P	submersible vehicles [See footnote 13]
10	P	information security equipment, information security software
11	P	components for information security equipment, information security equipment [See footnote 14]
12	T	hydrophones
13	T	towed hydrophone arrays
14	P	hydrophones, towed hydrophone arrays [See footnote 20]
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 22]
16	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 26]
17	P	components for small arms ammunition, small arms ammunition [See footnote 41]
18	P	weapon sights
19	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment,

		equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 60]
20	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 65]
21	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 78]
22	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 81]
23	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 87]
24	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 91]
25	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment

26	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 97]
27	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 98]
28	P	components for marine position fixing equipment [See footnote 101]
29	P	information security equipment, information security software [See footnote 107]
30	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 108]
31	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 110]
32	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 115]
33	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 3]

ML18	2	£23,423
ML21	24	£873,711
ML22	36	£201,743
PL5017	11	£2,179,504

aircraft military communications equipment (2 licences).  
 anti-armour ammunition.  
 armoured plate.  
 ballistic test equipment.  
 body armour.  
 bomb suits.  
 components for air-to-surface missiles (2 licences).  
 components for aircraft military communications equipment (3 licences).  
 components for attack alerting/warning equipment (3 licences).  
 components for combat aircraft (10 licences) [See footnotes 24, 9].  
 components for combat helicopters (4 licences).  
 components for combat naval vessels (5 licences) [See footnote 6].  
 components for decoying/countermeasure equipment.  
 components for gun mountings.  
 components for launching/ground support equipment for unmanned air vehicles.  
 components for launching/handling/control equipment for missiles (2 licences).  
 components for launching/handling/control equipment for munitions (4 licences).  
 components for machine guns (2 licences).  
 components for military aero-engines (4 licences).  
 components for military aircraft head-up/down displays (3 licences).  
 components for military auxiliary/support vessels.  
 components for military bridges/pontoons/ferries.  
 components for military cameras/photographic equipment.  
 components for military combat vehicles (5 licences).  
 components for military communications equipment (12 licences).  
 components for military diving apparatus (5 licences).  
 components for military electronic equipment (4 licences).  
 components for military guidance/navigation equipment (23 licences) [See footnote 56].  
 components for military helicopters (25 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for military infrared/thermal imaging equipment.  
 components for military patrol/assault craft.  
 components for military radars (19 licences) [See footnote 26].

components for military support aircraft (2 licences).  
 components for military support vehicles (3 licences).  
 components for military training aircraft (7 licences).  
 components for military training equipment.  
 components for munitions/ordnance detection/disposal equipment (5 licences).  
 components for naval communications equipment (2 licences).  
 components for naval engines (2 licences).  
 components for NBC detection equipment (7 licences).  
 components for NBC protective/defensive equipment [See footnote 2].  
 components for pistols (2 licences).  
 components for sniper rifles.  
 components for submarines (19 licences).  
 components for surface-to-air missiles.  
 components for surface-to-surface missiles (8 licences).  
 components for tanks (4 licences).  
 components for targeting equipment.  
 components for unmanned air vehicles (6 licences) [See footnotes 34, 53].  
 T components for weapon cleaning equipment (2 licences).  
 components for weapon control equipment (2 licences).  
 equipment for the development of weapon control equipment.  
 equipment for the production of combat naval vessels.  
 equipment for the use of launching/handling/control equipment for munitions.  
 equipment for the use of machine guns (2 licences).  
 equipment for the use of military aircraft head-up/down displays.  
 equipment for the use of military bridges/pontoons/ferries.  
 equipment for the use of military combat vehicles.  
 equipment for the use of military communications equipment (2 licences).  
 general military vehicle components (2 licences).  
 general naval vessel components (21 licences) [See footnote 15].  
 gun mountings.  
 gun silencers.  
 launching/handling/control equipment for missiles (2 licences).  
 launching/handling/control equipment for munitions (2 licences).  
 military aero-engines.  
 military auxiliary/support vessels.  
 military cameras/photographic equipment.  
 military communications equipment (17 licences).  
 military diving apparatus (3 licences).  
 military electronic equipment (5 licences).  
 military guidance/navigation equipment (12 licences) [See footnotes 41, 73].  
 T military guidance/navigation equipment (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].  
 military helmets.  
 T military image intensifier equipment (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].  
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 military infrared/thermal imaging equipment (2 licences) [See footnote 5].  
 T military infrared/thermal imaging equipment (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].  
 military scenario simulation equipment.  
 munitions/ordnance detection/disposal equipment (5 licences).  
 naval communications equipment.  
 naval electrical/electronic equipment (3 licences).  
 NBC detection equipment (6 licences).  
 NBC protective/defensive equipment (2 licences).  
 T NBC protective/defensive equipment.  
 periscopes.  
 T rangefinding equipment (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].  
 small arms ammunition.  
 sniper rifles (3).  
 software enabling equipment to function as equipment for the use of military communications  
 equipment.  
 software enabling equipment to function as military communications equipment (3 licences).  
 T software enabling equipment to function as military communications equipment (3 licences).  
 software for military communications equipment (8 licences).  
 software for military guidance/navigation equipment.  
 software for military patrol/assault craft.  
 software for military scenario simulation equipment.  
 Software for modelling/simulating military operation scenarios.  
 Software for modelling/simulating/evaluating weapon systems (3 licences).  
 software for naval engines.  
 software for targeting equipment [See footnote 10].  
 technology for combat aircraft (4 licences).

- technology for combat helicopters.  
 technology for launching/handling/control equipment for munitions (2 licences) [See footnote 70].  
 technology for military aero-engines.  
 technology for military combat vehicles.  
 technology for military communications equipment (7 licences).  
 technology for military diving apparatus (3 licences).  
 technology for military electronic equipment.  
 technology for military guidance/navigation equipment.  
 technology for military helicopters.  
 technology for military patrol/assault craft (2 licences).  
 technology for naval communications equipment.  
 technology for NBC protective/defensive equipment.  
 technology for sniper rifles.  
 technology for software enabling equipment to function as military communications equipment (2 licences).  
 technology for Software for modelling/simulating/evaluating weapon systems (2 licences).  
 technology for submarines.  
 technology for targeting equipment [See footnote 10].  
 technology for unmanned air vehicles [See footnote 50].
- T technology for weapon cleaning equipment.  
 technology for weapon control equipment.  
 test models for combat aircraft (2 licences).  
 training small arms ammunition.  
 unfinished products for launching/handling/control equipment for munitions.  
 unfinished products for military aero-engines (3 licences).  
 unfinished products for military communications equipment.  
 unfinished products for submarines (2 licences).  
 weapon cleaning equipment.
- T weapon cleaning equipment (2 licences).  
 T weapon night sights (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].  
 weapon sight mounts.  
 weapon sights.
- T weapon sights (4 licences) [See footnotes 55, 57, 58, 59, 60, 61].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	2	£1,256
0C002	3	£400,000,455
1A002	2	£873

PL8001	4	£158,800

- acoustic seabed survey equipment (3 licences).
- bacteria (2 licences) [See footnote 4].
- bellows sealed valves.
- biotechnology equipment (2 licences).
- civil explosive detection/identification equipment (2 licences).
- T civil explosive detection/identification equipment.
- civil unmanned air vehicles (4 licences).
- components for civil explosive detection/identification equipment.
- components for corrosion resistant chemical manufacturing equipment.
- components for global positioning satellite receivers.
- components for submersible equipment (2 licences).
- components for submersible vehicles.
- composite structures (2 licences).
- constituents of propellants (4 licences) [See footnotes 51, 62, 63, 80].
- corrosion resistant chemical manufacturing equipment (7 licences) [See footnotes 36, 47].
- T counter-improvised explosive device equipment.
- dimensional measuring equipment (5 licences) [See footnote 11].
- diver location sonars.
- electromagnetic wave absorbing materials.
- enriched uranium.
- equipment for the production of gas turbines (2 licences).
- explosives detection equipment (3 licences).
- T explosives detection equipment.
- fibre prepregs.
- fibrous/filamentary materials [See footnote 39].
- frequency changers (3 licences).
- global positioning satellite receivers.
- guidance/navigation equipment.
- helium-3 (2 licences) [See footnote 17].
- hydrophones (6 licences).
- imaging cameras (41 licences).
- T imaging cameras (2 licences).
- inertial equipment (25 licences) [See footnotes 32, 35, 37, 45, 74].
- information security equipment (24 licences) [See footnotes 12, 18].
- T information security equipment (2 licences).
- information security software (4 licences) [See footnote 12].
- T information security software.
- instrumentation cameras (5 licences).
- lasers (7 licences) [See footnote 72].
- T lasers (2 licences).
- launch support equipment for civil unmanned air vehicles (2 licences).
- machine tools.
- magnetic gradiometers.
- magnetometers (3 licences).

marine position fixing equipment.  
 mass spectrometers.  
 materials containing enriched uranium [See footnote 3].  
 materials containing plutonium-239 [See footnote 3].  
 metal alloy cylindrical forms (8 licences) [See footnotes 46, 8].  
 metal alloy powder production equipment.  
 metal alloys in powder form (2 licences).  
 nickel powders.  
 optical sensor materials.  
 products containing depleted uranium [See footnote 76].  
 products containing enriched lithium (2 licences) [See footnote 1].  
 products containing plutonium-239 [See footnote 76].  
 products containing thorium.  
 radar equipment.  
 radiation hardened TV camera lenses (2 licences) [See footnote 49].  
 RF direction finding equipment (2 licences).  
 semiconductor manufacturing equipment.  
 software for diver location sonars.  
 software for information security equipment (7 licences).  
 sonar log equipment (2 licences).  
 submersible equipment (3 licences).  
 submersible vehicle control systems.  
 technology for composite structures (2 licences).  
 technology for corrosion resistant chemical manufacturing equipment.  
 technology for equipment for the production of gas turbines (2 licences).  
 technology for fibre prepregs.  
 technology for fibrous/filamentary materials.  
 technology for global positioning satellite receivers.  
 technology for information security equipment.  
 technology for information security software (2 licences).  
 technology for radar equipment (2 licences).  
 technology for space qualified focal plane arrays.  
 toxic gas monitoring equipment (2 licences) [See footnote 7].  
 toxins (3 licences) [See footnote 40].  
 viruses (2 licences).  
 zirconium.  
 zirconium compounds (2 licences) [See footnote 51].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£27,355
6A002	2	£130,982
6A003	3	£141,949
ML1	2	£400,849
ML5	1	£100,000
ML7	2	£16,165
PL5017	1	£7,552

civil NBC protection clothing.  
 components for NBC protective/defensive equipment.  
 T direct view imaging equipment (2 licences) [See footnote 79].  
 T equipment for the use of weapon sights.  
 imaging cameras.  
 T imaging cameras (2 licences) [See footnote 79].  
 NBC protective/defensive equipment (2 licences).  
 T targeting equipment [See footnote 79].  
 weapon night sights.  
 T weapon night sights.  
 T weapon sight mounts.  
 weapon sights.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	30	£13,437,067
Non-military	12	£58,786,223
Total	42	£72,223,290

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£467,700
ML4	1	£1,967,600
ML6	2	£520,031
ML7	4	£1,217,644
ML9	3	£1,517,769
ML10	11	£5,181,080
ML11	7	£2,311,259
ML16	1	£77,001
ML21	2	£110,008
ML22	8	£46,026
PL5017	3	£20,950

aircraft military communications equipment (3 licences).  
 components for aircraft military communications equipment (3 licences).  
 components for artillery [See footnote 14].  
 components for combat aircraft (4 licences) [See footnote 16].  
 components for launching/handling/control equipment for munitions.  
 components for military auxiliary/support vessels.  
 components for military combat vehicles (2 licences).  
 components for military communications equipment [See footnote 19].  
 components for military guidance/navigation equipment (2 licences).  
 components for military helicopters.  
 components for military training aircraft (2 licences).  
 components for naval gun installations/mountings [See footnote 14].  
 components for naval guns [See footnote 14].  
 components for NBC protective/defensive equipment (4 licences) [See footnote 13].  
 components for submarines.  
 equipment for the use of naval gun installations/mountings [See footnote 14].  
 equipment for the use of naval guns [See footnote 14].  
 equipment for the use of NBC protective/defensive equipment [See footnote 13].  
 equipment for the use of weapon mountings (2 licences) [See footnotes 14, 48].  
 launching/handling/control equipment for munitions.  
 military guidance/navigation equipment (4 licences) [See footnotes 43, 84, 85].  
 naval gun installations/mountings [See footnote 14].  
 naval guns [See footnote 14].  
 software for combat aircraft.  
 software for combat naval vessels.  
 technology for combat aircraft (3 licences) [See footnote 16].  
 technology for launching/handling/control equipment for munitions.  
 technology for military communications equipment [See footnote 19].  
 technology for military guidance/navigation equipment.  
 technology for naval gun installations/mountings (2 licences) [See footnotes 14, 48].  
 technology for naval guns (2 licences) [See footnotes 14, 48].  
 unfinished products for submarines.

weapon cleaning equipment [See footnote 14].

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	7	£643,542
6A005	4	£58,132,550
6A203	1	£10,131

corrosion resistant chemical manufacturing equipment (7 licences) [See footnote 21].  
 lasers (4 licences) [See footnote 87].  
 radiation hardened TV cameras.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- China
- Hungary
- India
- Indonesia
- Iraq
- Norway
- Philippines
- Poland
- Rwanda
- Saudi Arabia
- Thailand
- United Arab Emirates
- United Kingdom
- United States of America
- Vietnam

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for air-to-surface missiles, components for aircraft missile protection systems, components for constructions for ballistic protection of military systems, components for cryogenic equipment, components for gun mountings, components for launching/handling/control equipment for missiles, components for machine guns, components for military aero-engines, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military sonars, components for small arms ammunition, components for superconductive electrical equipment, components for targeting equipment, components for training air-to-surface missiles, components for weapon control equipment, constructions for ballistic protection of military systems, cryogenic equipment, devices containing military pyrotechnic materials, electronic countermeasure equipment, equipment for the operation of military aircraft in confined areas, equipment for the production of military helicopters, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of military sonars, equipment for the use of weapon control equipment, general military aircraft components, gun mountings, launching/handling/control equipment for missiles, machine guns, military aircraft ground equipment, military aircrew life support

		equipment, military aircrew safety equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, military sonars, military training equipment, signalling devices, signature suppression fittings/coatings/treatments for military use, software for military helicopters, Software for modelling/simulating/evaluating weapon systems, superconductive electrical equipment, targeting equipment, technology for military helicopters, technology for production installations for military helicopters, training air-to-surface missiles, training launching/handling/control equipment for missiles, weapon control equipment [See footnote 52]
2	P	information security equipment, software for information security software
3	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 22]
4	P	information security equipment, information security software
5	P	submersible vehicles [See footnote 23]
6	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 25]
7	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 27]
8	P	components for information security equipment, information security equipment [See footnote 28]
9	P	components for weapon control equipment, electronic warfare equipment, equipment for the use of recognition/identification equipment, equipment for the use of weapon control equipment, recognition/identification equipment, software for recognition/identification equipment, software for weapon control equipment, technology for recognition/identification equipment, technology for weapon control equipment, test equipment for weapon control equipment [See footnote 29]
10	P	components for military communications equipment, components for naval electrical/electronic equipment, components for targeting equipment, equipment for the use of military communications equipment, equipment for the use of naval electrical/electronic equipment, equipment for the use of targeting equipment, military communications equipment, naval electrical/electronic equipment, software for equipment for the use of military communications equipment, software for equipment for the use of naval electrical/electronic equipment, software for military communications equipment, software for targeting equipment, software for naval electrical/electronic equipment, software for targeting equipment, targeting equipment, technology for equipment for the use of military communications equipment, technology for equipment for the use of naval electrical/electronic equipment, technology for equipment for the use of targeting equipment, technology for military communications equipment, technology for naval electrical/electronic equipment, technology for targeting equipment [See footnote 30]

11	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment [See footnote 31]
12	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 33]
13	P	hydrophones, towed hydrophone arrays [See footnote 38]
14	P	materials containing enriched uranium, materials containing natural uranium [See footnote 42]
15	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 44]
16	P	components for small arms ammunition, small arms ammunition [See footnote 54]
17	P	components for combat aircraft [See footnotes 64, 65]
18	P	components for combat aircraft [See footnotes 66, 67]
19	P	components for submarines, equipment for the use of submarines, technology for submarines [See footnotes 68, 69]
20	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military

		image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 71]
21	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 75]
22	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 77]
23	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
24	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 78]
25	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 81]
26	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 82]
27	P	triggered spark gaps
28	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 83]
29	P	artillery ammunition, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for

		military helicopters, components for military radars, components for military support aircraft, components for military training aircraft, components for munitions/ordnance detection/disposal equipment, components for naval gun installations/mountings, components for naval guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, components for submarines, components for unmanned air vehicles, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of command/control equipment for unmanned air vehicles, equipment for the use of launching/ground support equipment for unmanned air vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment
30	P	components for marine position fixing equipment [See footnote 86]
31	P	components for military radars, software for military radars, technology for military radars
32	P	information security equipment, information security software [See footnote 88]
33	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 89]
34	P	bismuth, calcium, constituents of propellants, hafnium, hafnium alloys, hafnium compounds, magnesium, nickel powders, zirconium, zirconium alloys, zirconium compounds
35	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 90]
36	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 91]
37	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 92]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

## **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	9	£822,802
Non-military	4	£267,553
Total	13	£1,090,356

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£117,750
ML11	1	£2,760
ML13	5	£702,292

all-wheel drive vehicles with ballistic protection [See footnote 14].  
body armour (5 licences) [See footnotes 17, 18, 6, 7, 8, 9].  
components for all-wheel drive vehicles with ballistic protection [See footnote 1].  
components for body armour (5 licences) [See footnotes 17, 18, 6, 7, 8, 9].  
components for military communications equipment [See footnote 4].  
military helmets (5 licences) [See footnotes 17, 18, 6, 7, 8, 9].  
military support vehicles.

### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	4	£260,512
5D002	4	£7,041

information security equipment (4 licences) [See footnotes 10, 11, 12, 13, 2].  
information security software (3 licences) [See footnotes 10, 11, 12, 13].  
software for information security equipment [See footnote 2].

### **Refused**

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry

## Issued

body armour [See footnote 15].  
 components for body armour [See footnote 15].  
 military helmets [See footnote 15].

## Country Footnotes

1. EU Council Decision 2014/449/CFSP separated existing joint measures concerning Sudan and South Sudan into distinct legal acts.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

The EU previously embargoed the provision of arms and related materiel to Sudan and South Sudan jointly in Council Decision 2011/423/CFSP.

All exports for this destination were approved in accordance with the sanctions in place.

2. EU Council Decision 2015/740/CFSP replaced Council Decision 2014/449/CFSP.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

ML16	6	£367,714
ML17	1	£18,000
ML22	8	£250,706
PL5017	6	£28,459

airborne refuelling equipment.  
aircraft military communications equipment (2 licences) [See footnote 32].  
body armour.  
combat aircraft.  
components for air-to-air missiles (3 licences) [See footnote 5].  
components for airborne refuelling equipment (7 licences).  
components for aircraft military communications equipment.

components for artillery (5 licences).  
 components for attack alerting/warning equipment.  
 components for body armour (2 licences).  
 components for combat aircraft (11 licences) [See footnotes 10, 33, 34, 37, 38, 45].  
 components for electronic countermeasure equipment.  
 components for electronic warfare equipment.  
 components for launching/handling/control equipment for missiles (2 licences).  
 components for military aero-engines.  
 components for military aircrew life support equipment.  
 components for military combat vehicles (7 licences).  
 components for military communications equipment.  
 components for military guidance/navigation equipment (3 licences) [See footnote 32].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for military support aircraft (25 licences) [See footnotes 11, 17, 18, 19, 20, 24, 25, 3, 35, 36, 42, 6].  
 components for military training aircraft (6 licences).  
 components for naval communications equipment.  
 components for naval guns.  
 components for sporting guns (4 licences).  
 components for sporting shotgun ammunition.  
 components for training hand grenades.  
 components for unmanned air vehicles (2 licences).  
 crowd control ammunition.  
 decoying/countermeasure equipment (3 licences).  
 equipment for the use of artillery.  
 equipment for the use of attack alerting/warning equipment (2 licences).  
 equipment for the use of electronic countermeasure equipment.  
 equipment for the use of military radars.  
 T equipment for the use of rifles.  
 T equipment for the use of weapon night sights (2 licences).  
 general military aircraft components (3 licences) [See footnote 15].  
 general military vehicle components.  
 general naval vessel components (3 licences).  
 hand grenades.  
 military bridges/pontoons/ferries.  
 military communications equipment.  
 T military electronic equipment.  
 T military guidance/navigation equipment.  
 military helmets.  
 T military image intensifier equipment (2 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T military infrared/thermal imaging equipment (2 licences).  
 military training equipment.  
 rangefinding equipment.  
 T rangefinding equipment (2 licences).  
 small arms ammunition (4 licences).  
 sporting guns (1) (12 licences).  
 sporting guns (2).  
 technology for air-to-surface missiles [See footnote 29].  
 technology for attack alerting/warning equipment.  
 technology for decoying/countermeasure equipment (2 licences).  
 technology for military aircrew life support equipment.  
 technology for military guidance/navigation equipment.  
 technology for unmanned air vehicles (2 licences).  
 training tear gas/irritant ammunition.  
 training wall/door breaching projectiles/ammunition.  
 unfinished products for military combat vehicles (4 licences).  
 unfinished products for military training aircraft.  
 unfinished products for sporting guns.  
 wall/door breaching projectiles/ammunition.  
 weapon cleaning equipment (2 licences).  
 weapon night sights (3 licences).  
 T weapon night sights (2 licences).  
 T weapon sight mounts (2 licences).  
 weapon sights (7 licences).  
 T weapon sights (2 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	2	£160,003
1A007	5	£157,269
1C233	2	£858
PL9010	5	£38,240

T components for sporting shotguns.  
non-military detonators (3 licences).  
non-military firing sets.  
non-military firing sets.  
products containing enriched lithium (2 licences).  
sporting shotguns (1) (3 licences).  
sporting shotguns (2).  
sporting shotguns (5).  
technology for enriched uranium.  
technology for nuclear fuel reprocessing equipment.  
technology for nuclear reactor fuel element fabrication equipment.  
technology for nuclear reactors.  
technology for uranium conversion equipment.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£13,880
ML1	2	£110,550
ML11	1	£31,409
PL9010	2	£102,100

T information security equipment.  
T military communications equipment.  
sporting guns (1).  
sporting shotguns (2).  
sporting shotguns (3).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	65	£5,803,376
Non-military	5	£2,720,061
Total	70	£8,523,436

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£15,771
ML5	3	£2,062,147

ML9	2	£17,675
ML10	46	£1,403,241
ML11	11	£1,657,846
ML15	1	£555,500
ML16	2	£69,670
ML21	2	£2,439
ML22	3	£2,243
PL5017	1	£16,843

aircraft military communications equipment.  
 components for airborne refuelling equipment (5 licences).  
 components for aircraft military communications equipment (2 licences).  
 components for combat aircraft (2 licences).  
 components for electronic warfare equipment (4 licences).  
 components for military communications equipment (3 licences).  
 components for military electronic equipment.  
 components for military guidance/navigation equipment (2 licences).  
 components for military radars.  
 components for military support aircraft (38 licences) [See footnotes 14, 21, 22, 23, 28, 41, 43, 7, 9].  
 components for military training aircraft.  
 components for naval communications equipment.  
 components for submarines.  
 components for surface-to-air missiles.  
 components for targeting equipment.  
 components for weapon control equipment.  
 equipment for the use of aircraft military communications equipment.  
 equipment for the use of military communications equipment.  
 equipment for the use of military guidance/navigation equipment.  
 military communications equipment (2 licences).  
 military electronic equipment.  
 military guidance/navigation equipment (2 licences).  
 military infrared/thermal imaging equipment.  
 software for military communications equipment.  
 software for military guidance/navigation equipment.  
 technology for military communications equipment (2 licences).  
 technology for military guidance/navigation equipment.  
 unfinished products for military combat vehicles.  
 unfinished products for submarines.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£2,792
3A225	1	£351
6A002	1	£132,500
6A006	1	£28,659
6A008	1	£2,426,234
6D002	1	£129,225
6E101	1	£300

components for radar equipment [See footnote 50].  
 focal plane arrays.  
 frequency changers.  
 magnetometers.  
 non-military detonators [See footnote 8].  
 software for radar equipment [See footnote 50].  
 technology for radar equipment [See footnote 50].

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	16	£435,629
Non-military	10	£489,004
Total	26	£924,633

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£10,357
ML3	4	£248,280
ML6	2	£98,398
ML9	3	£63,456
ML10	3	£7,063
ML11	1	£2,130
ML13	1	£600
ML15	1	£300
ML22	2	£5,000
PL5017	1	£45

- body armour [See footnote 7].  
 components for all-wheel drive vehicles with ballistic protection.  
 components for assault rifles [See footnote 19].  
 components for body armour [See footnote 7].  
 components for combat naval vessels [See footnote 25].  
 components for machine guns [See footnote 19].  
 components for military communications equipment.  
 components for military parachutes and equipment [See footnote 2].  
 components for military patrol/assault craft (2 licences) [See footnotes 23, 24].  
 components for military training aircraft [See footnote 5].  
 components for pistols [See footnote 12].  
 components for rifles [See footnote 7].  
 equipment for the use of machine guns [See footnote 19].  
 gun silencers [See footnote 12].  
 military communications equipment.  
 military helmets [See footnote 7].  
 military image intensifier equipment [See footnote 7].  
 military parachutes and equipment [See footnote 14].  
 military support vehicles [See footnote 30].  
 pistols (1) [See footnote 12].  
 small arms ammunition (3 licences) [See footnotes 26, 29, 4].  
 technology for military helicopters [See footnote 21].  
 technology for military parachutes and equipment [See footnote 14].  
 training small arms ammunition [See footnote 19].  
 weapon sights (2 licences) [See footnotes 12, 7].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£900
1A004	1	£63,930
1C350	3	£385
5A002	2	£143,000
5D002	1	£60,000
6A001	1	£52,014
7A003	1	£61,300
9A115	1	£107,475

- chemicals used for general laboratory work/scientific research (3 licences) [See footnotes 1, 10, 11].  
 civil explosive detection/identification equipment.  
 deuterium compounds [See footnote 15].  
 inertial equipment.  
 information security equipment (2 licences) [See footnote 6].  
 information security software.  
 launch support equipment for civil unmanned air vehicles [See footnote 13].  
 marine position fixing equipment.

No.	Type	Goods Summary
1	P	body armour, components for body armour, military helmets [See footnote 2]
2	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

### SITCLs

Source	Issued	Refused	Revoked
Jordan	1	0	0

## Issued

all-wheel drive vehicles with ballistic protection [See footnote 1].

## Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for accessories / spare parts. International Organisation end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	114	£12,105,992
Non-military	14	£231,631
Total	128	£12,337,623

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	17	£2,955,245
ML2	5	£354,716
ML4	16	£1,466,477
ML5	18	£1,037,185
ML6	4	£532,226
ML7	3	£44,220
ML9	4	£103,197
ML10	34	£1,492,496
ML11	3	£436,717
ML15	1	£4,000

ML16	2	£801,255
ML17	2	£2,227,687
ML18	1	£1,024
ML21	6	£337,030
ML22	9	£180,149
PL5017	4	£132,368

- aircraft missile protection systems.
- anti-armour weapons.
- components for aircraft military communications equipment.
- components for aircraft military communications equipment.
- components for anti-armour weapons.
- components for artillery.
- components for assault rifles.
- components for combat aircraft (19 licences).
- components for combat naval vessels.
- components for decoying/countermeasure equipment (5 licences).
- components for electronic warfare equipment.
- components for launching/handling/control equipment for missiles (2 licences) [See footnote 3].
- components for launching/handling/control equipment for munitions.
- components for man portable air defence system missiles (2 licences) [See footnote 13].
- components for military aero-engines.
- components for military radars (17 licences).
- components for military support aircraft.
- components for military support vehicles.
- components for military training aircraft.
- components for naval gun installations/mountings.
- components for naval guns (3 licences).
- components for NBC protective/defensive equipment.
- components for NBC protective/defensive equipment.
- components for sporting guns (2 licences).
- components for surface-to-air missiles.
- components for surface-to-surface missiles.
- components for weapon mountings.
- decoying/countermeasure equipment (5 licences).
- electronic warfare equipment.
- equipment for the production of combat aircraft.
- equipment for the use of artillery.
- general military aircraft components (11 licences).
- general military vehicle components (2 licences).
- general naval vessel components.
- gun silencers (3 licences).
- military cameras/photographic equipment.
- military combat vehicles.
- military communications equipment.
- military containers.
- military laser protection equipment.
- naval hull penetrators/connectors.
- NBC detection equipment.
- NBC protective/defensive equipment.
- software enabling equipment to function as military communications equipment (2 licences).
- software for air-to-air missiles (2 licences).
- software for determining the effects of weapons.
- software for electronic warfare equipment.
- software for equipment for the development of air-to-air missiles.
- software for military scenario simulation equipment.
- Software for modelling/simulating military operation scenarios.
- Software for modelling/simulating military operation scenarios.
- sporting guns (1) (4 licences).
- technology for air-to-air missiles (2 licences).
- technology for decoying/countermeasure equipment (2 licences).
- technology for electronic warfare equipment.
- technology for equipment for the development of air-to-air missiles.
- technology for military scenario simulation equipment.
- technology for NBC detection equipment.
- technology for rangefinding equipment.
- technology for unfinished products for anti-armour weapons.
- unfinished products for anti-armour weapons.

T unfinished products for rangefinding equipment.  
 weapon cleaning equipment (4 licences).  
 weapon control equipment.  
 weapon night sights (2 licences).  
 weapon night sights.  
 weapon sights (7 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£1
0C002	1	£2
0D001	1	£1
0E001	6	£200,009
1A007	3	£25,928
1C233	1	£1,085
PL9010	3	£4,605

components for nuclear reactors.  
 devices containing enriched lithium manufactures.  
 enriched uranium.  
 non-military detonators (2 licences).  
 non-military firing sets.  
 software for nuclear reactors.  
 sporting shotguns (1) (3 licences).  
 technology for materials controlled by entry 0C of the Dual-Use Regulation.  
 technology for nuclear fuel reprocessing equipment.  
 technology for nuclear reactor fuel element fabrication equipment (2 licences) [See footnote 5].  
 technology for nuclear reactors (5 licences) [See footnote 4].  
 technology for uranium conversion equipment [See footnote 5].

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	55	£9,121,377
Total	55	£9,121,377

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	2	£334,099
ML4	6	£231,955
ML5	28	£495,115
ML9	3	£26,425
ML10	10	£6,473,204
ML11	5	£1,480,362
ML16	1	£80,216

components for air-to-surface missiles.  
components for aircraft military communications equipment (2 licences).  
components for combat aircraft (5 licences).  
components for combat naval vessels.  
components for electronic warfare equipment (2 licences) [See footnote 20].  
components for launching/handling/control equipment for man portable air defence system missiles [See footnote 16].  
components for man portable air defence system missiles.  
components for military radars (25 licences) [See footnote 18].  
components for military support aircraft (2 licences).  
components for military training aircraft.  
components for multi-role missiles.  
components for naval gun installations/mountings (2 licences).  
components for naval guns (2 licences).  
components for rangefinding equipment.  
components for surface-to-surface missiles (2 licences).  
components for targeting equipment.  
electronic warfare equipment (2 licences).  
military electronic equipment.  
rangefinding equipment.  
unfinished products for weapon control equipment [See footnote 10].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
Australia  
Bahrain  
Brazil  
Canada  
Chile  
Croatia  
Czech Republic  
Denmark  
Ecuador  
Estonia  
Finland  
France  
Germany  
Greece  
India  
Indonesia  
Kuwait  
Latvia  
Lithuania  
Malaysia  
Mexico  
Netherlands  
New Zealand  
Norway  
Oman  
Pakistan  
Peru  
Poland  
Portugal  
Qatar  
Saudi Arabia  
Singapore

South Africa

South Korea  
 Spain  
 Thailand  
 Turkey  
 United Arab Emirates  
 United Kingdom  
 United States of America  
 Uruguay  
 Vietnam

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£55,700
Non-military	1	£207,402
Total	2	£263,102

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£55,700

demolition charges/devices.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9002	1	£207,402

non-military energetic materials.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	technology for launching/handling/control equipment for missiles [See footnote 1]
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 2]

3	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment, submersible vehicles
4	P	components for weapon sights, weapon sights [See footnote 14]
5	P	components for combat aircraft, equipment for the use of combat aircraft [See footnote 6]
6	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
7	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 7]
8	P	components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military radars, components for military sonars, components for naval communications equipment, components for naval electrical/electronic equipment, components for targeting equipment, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
9	P	weapon sights
10	P	anti-riot/ballistic shields, components for anti-riot/ballistic shields [See footnote 9]
11	P	components for sporting shotgun ammunition, sporting shotgun ammunition
12	T	towed hydrophone arrays
13	P	hydrophones, towed hydrophone arrays [See footnote 11]
14	P	weapon sights
15	P	technology for nuclear reactors
16	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 12]
17	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support

		equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
18	P	technology for combined cycle engines
19	P	components for NBC protective/defensive equipment
20	P	weapon sights [See footnote 15]
21	P	technology for military aero-engines
22	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 17]
23	P	components for gun silencers, gun silencers
24	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 19]
25	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets

26	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
----	---	---

ML11	10	£119,994
ML13	5	£62,039
ML14	1	£0
ML15	4	£322,700
ML21	4	£876,959
ML22	5	£30
PL5017	3	£900

- T      aerial target equipment [See footnote 3].  
aircraft military communications equipment.  
assault rifles (100).  
body armour (3 licences).  
components for anti-armour ammunition.  
components for ballistic test equipment.  
components for body armour (3 licences).  
components for combat aircraft.  
components for decoying/countermeasure equipment (3 licences).  
components for military aero-engines (3 licences).  
components for military aircrew life support equipment.  
components for military combat vehicles (4 licences).  
components for military communications equipment (2 licences).
- T      components for military communications equipment.  
components for military helmets.
- T      components for military training aircraft (27 licences).  
components for military training aircraft (2 licences).  
components for NBC detection equipment (2 licences).  
components for sniper rifles (7 licences).  
components for sporting guns (2 licences).

- components for tanks.
- decoying/countermeasure equipment (4 licences).
- electronic warfare equipment.
- T equipment for the use of military training equipment [See footnote 3].
- equipment for the use of sniper rifles (2 licences).
- general military aircraft components (8 licences).
- general military vehicle components (7 licences).
- gun mountings (4 licences).
- gun silencers (5 licences).
- T machine guns (3).
- military aircraft ground equipment (4 licences).
- T military aircraft ground equipment [See footnote 3].
- military aircrew life support equipment (8 licences).
- military aircrew safety equipment.
- military communications equipment.
- T military communications equipment.
- military guidance/navigation equipment.
- T military guidance/navigation equipment (4 licences).
- military helmets (4 licences).
- T military image intensifier equipment (4 licences).
- T military infrared/thermal imaging equipment (4 licences).
- T military scenario simulation equipment [See footnote 3].
- T military training aircraft [See footnote 3].
- T military training equipment [See footnote 3].
- NBC detection equipment (2 licences).
- T rangefinding equipment (4 licences).
- signalling devices (2 licences).
- sniper rifles (1) (3 licences).
- sniper rifles (2).
- sniper rifles (3).
- sniper rifles (6).
- T software enabling equipment to function as military communications equipment.
- software for military training aircraft.
- Software for modelling/simulating military operation scenarios (2 licences).
- sporting shotgun ammunition.
- sporting shotguns (1).
- T technology for aerial target equipment [See footnote 3].
- technology for decoying/countermeasure equipment (2 licences).
- T technology for equipment for the use of military training equipment [See footnote 3].
- T technology for military aircraft ground equipment [See footnote 3].
- T technology for military scenario simulation equipment [See footnote 3].
- technology for military training aircraft.
- T technology for military training aircraft [See footnote 3].
- T technology for military training equipment [See footnote 3].
- technology for sniper rifles.
- weapon night sights (2 licences).
- T weapon night sights (4 licences).
- weapon sight mounts.
- weapon sights.
- T weapon sights (3 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£608
0C003	5	£265
1A004	1	£12,785
1A007	1	£28,005
1C233	3	£24,045
1C235	4	£1,905
1C351	10	£2,473
5A001	1	£150,000
5A002	2	£546,174
PL9010	5	£111,800

	civil explosive detection/identification equipment.
	deuterium compounds (5 licences) [See footnote 19].
	information security equipment.
T	information security equipment.
	non-military detonators.
	products containing depleted uranium.
	products containing enriched lithium (3 licences).
	sporting shotguns (1) (3 licences).
	sporting shotguns (2).
	sporting shotguns (3).
T	telecommunications interception equipment.
	toxins (8 licences).
	tritium (4 licences) [See footnote 6].
	viruses (2 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£10
PL9010	1	£380

components for small arms ammunition.  
sporting shotguns.

Military	51	£7,442,914
Total	51	£7,442,914

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£37,789
ML5	4	£71,858
ML6	2	£500
ML9	1	£1,425
ML10	33	£5,872,893
ML11	2	£528,668
ML14	3	£40,569
ML15	1	£450,000
ML16	2	£157,981
ML21	2	£250,000
ML22	2	£0
PL5017	1	£31,230

components for combat aircraft (10 licences) [See footnotes 21, 7, 8, 9].  
components for military aero-engines.  
components for military image recording/processing equipment.  
components for military training aircraft (20 licences) [See footnote 12].  
components for military training equipment (3 licences) [See footnote 26].  
components for weapon control equipment (4 licences) [See footnotes 10, 22, 23].  
equipment for the use of military image recording/processing equipment.  
general military vehicle components (2 licences).  
general naval vessel components.  
launching/handling/control equipment for munitions.  
military aircraft ground equipment [See footnote 28].  
military aircrew life support equipment (2 licences).  
military electronic equipment.  
military guidance/navigation equipment.  
software for military training aircraft (2 licences).  
technology for software for military training aircraft (2 licences).  
unfinished products for military aero-engines (2 licences) [See footnote 5].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Austria  
Bahrain  
Botswana  
Brazil  
Brunei  
Bulgaria  
Canada  
Chile  
China  
Croatia  
Czech Republic  
Egypt  
Finland  
France  
Germany  
India  
Indonesia

**SIELs for goods covered by the torture regulation**

**Issued**

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	6	£213
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	6	£213

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Goods covered by the torture regulation**

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	6	£213

barbiturate anaesthetic agents for injection (6 licences) [See footnotes 18, 2].

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 1]
2	P	components for weapon sights, weapon sights [See footnote 14]
3	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military

		support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 4]
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 11]
5	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 13]
6	P	components for small arms ammunition, small arms ammunition [See footnote 15]
7	P	technology for combined cycle engines
8	P	weapon sights
9	P	technology for military aero-engines [See footnote 16]
10	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 17]
11	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military

		aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 20]
12	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 24]
13	P	triggered spark gaps
14	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 25]
15	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
16	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 27]
17	P	components for NBC detection equipment, equipment for the production of NBC detection equipment, equipment for the use of NBC detection equipment, software for equipment for the production of NBC detection equipment, software for equipment for the use of NBC detection equipment, technology for NBC detection equipment

18	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 29]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for accessories / spare parts. End use by the Air Force.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. End use by the Air Force.
13. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
14. Licence granted for accessories / spare parts. Armed forces end use.
15. Ammunition for sporting use for Government and licensed entities.
16. Licence granted for accessories / spare parts. Government end use.
17. Licence granted for accessories / spare parts. Law enforcement agency end use.
18. Licence granted for accessories / spare parts. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Civilian / commercial end use.
20. Licence granted for accessories / spare parts. Government end use.
21. Licence granted for accessories / spare parts. Civilian / commercial end use.
22. Licence granted for accessories / spare parts. Armed forces end use.
23. Licence granted for accessories / spare parts. Armed forces end use.
24. Licence granted for accessories / spare parts. Armed forces end use.
25. Licence granted for accessories / spare parts. Government end use.
26. Licence granted for accessories / spare parts. Government end use.
27. Licence granted for accessories / spare parts. Armed forces end use.
28. Licence granted for accessories / spare parts. End use by the Air Force.
29. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Syria

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	69% (11)
% and number of SIELs completed in 60 working days	94% (15)
% [as a % of all SIEL cases processed] and number of SIELs refused	6% (1)

Median processing time SITCLs	14 days
% and number of SITCLs completed in 20 working days	75% (3)
% and number of SITCLs completed in 60 working days	100% (4)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	56 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	100% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	3	£140,558
Total	3	£140,558

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£138,408
ML6	1	£2,150

components for all-wheel drive vehicles with ballistic protection.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1].  
 munitions/ordnance detection/disposal equipment [See footnote 8].

#### **Refused**

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry
End Use	1

general laboratory equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	body armour, components for body armour, military helmets [See footnote 5]

### SITCLs

Source	Issued	Refused	Revoked
Jordan	3	0	0
South Sudan	1	0	0

### Issued

all-wheel drive vehicles with ballistic protection (3 licences) [See footnotes 2, 4, 6, 7].  
promoting the supply of military support aircraft [See footnote 3].

## Country Footnotes

- On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

- Licence granted for explosive detection / disposal purposes. Humanitarian end use.
- Licence granted for accessories / spare parts. Humanitarian end use.
- Licence granted for humanitarian end use.
- Licence granted for end use by a international organisation.
- Licence granted for accessories / spare parts. International Organisation end use.
- Licence granted for accessories / spare parts. International Organisation end use.
- Licence granted for accessories / spare parts. International Organisation end use.
- Licence granted for explosive detection / disposal purposes. Humanitarian end use.

ML21	2	£4,500
ML22	12	£51,052

aircraft military communications equipment.  
ballistic test equipment (2 licences).  
components for combat aircraft (2 licences) [See footnotes 27, 86].  
components for combat naval vessels (3 licences) [See footnotes 13, 130, 8].  
components for military aero-engines (3 licences) [See footnotes 11, 125, 79].  
components for military communications equipment [See footnote 62].

- components for military electronic equipment (4 licences).  
 components for military helicopters [See footnote 18].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnotes 109, 110].  
 components for military patrol/assault craft (4 licences) [See footnotes 126, 56, 65].  
 components for military radars [See footnote 121].  
 components for military support aircraft (4 licences) [See footnotes 132, 35, 86].  
 components for military training aircraft.  
 components for military training equipment [See footnote 22].  
 components for munitions/ordnance detection/disposal equipment [See footnote 46].  
 components for periscopes [See footnote 127].  
 components for rangefinding equipment (2 licences) [See footnote 66].  
 T components for targeting equipment (2 licences) [See footnotes 29, 36].  
 equipment for the operation of military aircraft in confined areas [See footnote 139].  
 T equipment for the use of attack alerting/warning equipment [See footnote 84].  
 general military aircraft components [See footnote 4].  
 general naval vessel components (3 licences) [See footnotes 131, 20, 54].  
 military aero-engines [See footnote 11].  
 military communications equipment (2 licences) [See footnote 62].  
 military electronic equipment (3 licences).  
 T military guidance/navigation equipment [See footnote 124].  
 military helmets.  
 T military image intensifier equipment [See footnote 124].  
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 109].  
 T military infrared/thermal imaging equipment [See footnote 124].  
 munitions/ordnance detection/disposal equipment [See footnote 46].  
 T rangefinding equipment [See footnote 124].  
 signature suppression fittings/coatings/treatments for military use [See footnote 127].  
 T software for targeting equipment (2 licences) [See footnote 36].  
 T targeting equipment (2 licences) [See footnotes 29, 36].  
 technology for ballistic test equipment.  
 technology for combat aircraft [See footnote 86].  
 technology for equipment for the operation of military aircraft in confined areas [See footnote 139].  
 technology for general naval vessel components.  
 technology for military aero-engines.  
 technology for military electronic equipment (4 licences) [See footnotes 15, 63, 67].  
 technology for military radars (2 licences) [See footnote 120].  
 technology for military support aircraft [See footnote 86].  
 technology for periscopes [See footnote 127].  
 training equipment for surface-to-surface missiles [See footnote 22].  
 unfinished products for military aero-engines (7 licences) [See footnotes 100, 101, 32].  
 unfinished products for torpedoes [See footnote 129].  
 T weapon night sights [See footnote 124].  
 weapon sights (7 licences) [See footnotes 106, 107, 114, 80].  
 T weapon sights [See footnote 124].

biotechnology equipment [See footnote 19].  
 calcium [See footnote 3].  
 civil explosive detection/identification equipment.  
 civil NBC protection clothing [See footnote 123].  
 civil NBC protection equipment [See footnote 72].  
 components for corrosion resistant chemical manufacturing equipment (6 licences) [See footnotes 122, 23, 48, 75].  
 constituents of propellants [See footnote 24].  
 corrosion resistant chemical manufacturing equipment (7 licences) [See footnotes 108, 76, 81, 90, 91, 92, 93, 94, 95].  
 cryptanalytic software [See footnote 16].  
 dimensional measuring equipment (3 licences) [See footnotes 59, 88].  
 electromagnetic wave absorbing materials [See footnote 113].  
 T explosives detection equipment.  
 extended temperature range integrated circuits [See footnote 85].  
 fibrous/filamentary materials.  
 frequency changers (12 licences) [See footnotes 26, 42, 96, 97].  
 frequency generators (3 licences) [See footnotes 26, 96, 97].  
 global positioning satellite receivers [See footnote 119].  
 guidance/navigation equipment (3 licences) [See footnotes 117, 37, 68].  
 T imaging cameras (21 licences) [See footnotes 12, 33, 34, 49, 61, 71, 78, 89].  
 imaging cameras (5 licences) [See footnotes 1, 40].  
 inertial equipment (6 licences) [See footnotes 104, 115].  
 T information security equipment (20 licences) [See footnotes 118, 41, 51, 52, 57, 6, 69, 73].  
 T information security equipment.  
 information security software.  
 T information security software.  
 instrumentation cameras (3 licences) [See footnotes 14, 25].  
 lasers (4 licences) [See footnotes 43, 7].  
 magnetometers (4 licences) [See footnote 17].  
 marine acoustic projectors [See footnote 111].  
 metal alloy cylindrical forms (6 licences) [See footnotes 10, 31, 55, 9, 98, 99].  
 metal alloys in powder form [See footnote 53].  
 microwave components.  
 pressure transducers (5 licences) [See footnotes 105, 21, 30].  
 radiation hardened TV cameras.  
 rebreathing swimming equipment [See footnote 138].  
 T RF direction finding equipment.  
 semiconductor wafers with epitaxial layers (3 licences) [See footnote 74].  
 software for information security equipment (6 licences) [See footnotes 57, 6, 73].  
 submersible equipment.  
 technology for corrosion resistant chemical manufacturing equipment [See footnote 83].  
 technology for general purpose integrated circuits [See footnote 38].  
 technology for imaging cameras [See footnote 5].  
 technology for microwave components.  
 technology for millimetric wave components.  
 technology for software for spacecraft [See footnote 82].  
 technology for software for spacecraft attitude and orbit control systems [See footnote 82].

technology for software for spacecraft command and telemetry data handling systems [See footnote 82].  
 technology for software for spacecraft payload data handling systems [See footnote 82].  
 technology for spacecraft [See footnote 82].  
 technology for spacecraft attitude and orbit control systems [See footnote 82].  
 technology for spacecraft command and telemetry data handling systems [See footnote 82].  
 technology for spacecraft payload data handling systems [See footnote 82].  
 toxins [See footnote 70].  
 viruses.  
 zirconium compounds (2 licences) [See footnotes 2, 77].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£44,600
5D002	1	£3,000
6A002	1	£26,500
6A003	2	£98,250
ML1	1	£36,000
ML5	1	£100,000
ML7	1	£22,800
ML21	1	£0

T components for NBC protective/defensive equipment.  
 direct view imaging equipment [See footnote 116].  
 imaging cameras [See footnote 133].  
 T imaging cameras [See footnote 116].  
 T information security software [See footnote 44].  
 NBC protective/defensive equipment.  
 T software enabling equipment to function as military guidance/navigation equipment [See footnote 44].  
 T targeting equipment [See footnote 116].  
 weapon night sights [See footnote 133].

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£5,590
Non-military	3	£20,384,000
Total	4	£20,389,590

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£5,590

components for military aero-engines [See footnote 28].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3C001	2	£20,000,000
6A003	1	£384,000

imaging cameras [See footnote 39].  
semiconductor wafers with epitaxial layers (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Italy  
Japan  
Philippines  
South Korea  
United States of America  
Vietnam

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, software for information security software
2	P	lasers [See footnote 47]
3	P	information security equipment, information security software
4	P	technology for composite laminates, technology for composite structures, technology for composite tubes, technology for fibrous/filamentary materials, technology for stretch-forming equipment [See footnote 50]
5	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 58]
6	P	components for information security equipment, information security equipment [See footnote 60]
7	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment [See footnote 64]
8	P	components for small arms ammunition, small arms ammunition [See footnote 87]
9	P	components for combat aircraft [See footnotes 102, 103]
10	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 112]
11	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, equipment for the production of general military vehicle components, equipment for the production of military infrared/thermal imaging equipment, equipment for the production of periscopes, equipment for the production of weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 128]
12	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment

		for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 134]
13	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 135]
14	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 136]
15	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 137]

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

#### OITCLs

Source	Issued	Refused	Revoked
Malaysia	1	0	0

#### Issued

components for demolition charges/devices [See footnote 45].  
demolition charges/devices [See footnote 45].  
software for demolition charges/devices [See footnote 45].  
technology for demolition charges/devices [See footnote 45].

## Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	100% (2)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	68 days
% and number of OIELs completed in 20 working days	29% (2)
% and number of OIELs completed in 60 working days	43% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£1,189,212
Total	2	£1,189,212

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£4,212
3A101	1	£1,100,000
3E101	1	£85,000

corrosion resistant chemical manufacturing equipment.  
technology for X-ray generators.  
X-ray generators.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment,

		components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 1]
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 3]

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	57	£4,084,746
Non-military	89	£3,742,371
Both Military and Non-military	2	£363,750
Total	148	£8,190,867

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£701,455
ML2	2	£227,501
ML3	4	£416,890
ML4	4	£177,138
ML5	11	£1,021,803
ML6	1	£8,777
ML7	5	£102,153
ML9	4	£201,112
ML10	4	£238,905
ML11	16	£563,478
ML13	2	£5,979
ML14	2	£9,426
ML15	5	£205,020
ML16	1	£642
ML17	2	£37,830
ML21	3	£149,368
ML22	5	£2,730
PL5017	8	£14,538

armoured plate (2 licences).  
ballistic test equipment.  
components for ballistic test equipment.  
components for decoying/countermeasure equipment (2 licences).  
components for electronic warfare equipment (2 licences) [See footnote 20].

- components for military communications equipment.  
 components for military electronic equipment.  
 components for military guidance/navigation equipment.  
 components for military guidance/navigation equipment.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1].  
 components for military patrol/assault craft.  
 components for military radars (3 licences) [See footnote 33].  
 components for military support aircraft (3 licences).  
 components for munitions/ordnance detection/disposal equipment (2 licences) [See footnote 1].  
 components for naval guns (2 licences) [See footnote 38].  
 components for NBC detection equipment.  
 components for NBC detection equipment.  
 components for NBC protective/defensive equipment (3 licences) [See footnotes 28, 88].  
 components for weapon cleaning equipment (2 licences).  
 decoying/countermeasure equipment.  
 electronic warfare equipment [See footnote 20].  
 equipment for the use of ballistic test equipment.  
 equipment for the use of military radars [See footnote 41].  
 equipment for the use of NBC detection equipment.  
 equipment for the use of NBC protective/defensive equipment (2 licences) [See footnotes 28, 88].  
 general military vehicle components.  
 general naval vessel components (3 licences) [See footnote 71].  
 goods treated for signature suppression for military use (2 licences) [See footnote 20].  
 gun silencers [See footnote 16].  
 military aircraft head-up/down displays.  
 military communications equipment (3 licences) [See footnote 88].  
 military guidance/navigation equipment.  
 military guidance/navigation equipment (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].  
 military image intensifier equipment (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].  
 military infrared/thermal imaging equipment (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].  
 military radars.  
 munitions/ordnance detection/disposal equipment (2 licences) [See footnote 1].  
 NBC detection equipment.  
 NBC detection equipment.  
 NBC protective/defensive equipment (3 licences) [See footnotes 28, 88].  
 rangefinding equipment (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].  
 small arms ammunition (4 licences) [See footnotes 14, 2, 50, 55, 56].  
 small arms training equipment (2 licences) [See footnotes 47, 48].  
 sniper rifles (2) [See footnote 16].  
 software for ballistic test equipment.  
 software for electronic warfare equipment [See footnote 20].  
 software for small arms training equipment [See footnote 47].  
 targeting equipment (2 licences) [See footnote 85].  
 technology for ballistic test equipment.  
 technology for electronic warfare equipment [See footnote 20].  
 technology for military guidance/navigation equipment.  
 technology for targeting equipment.  
 technology for weapon cleaning equipment.  
 unfinished products for goods treated for signature suppression for military use.  
 weapon cleaning equipment (2 licences).  
 weapon night sights (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].  
 weapon sight mounts [See footnote 16].  
 weapon sights (7 licences) [See footnotes 14, 16, 73].  
 weapon sights (5 licences) [See footnotes 52, 54, 57, 58, 59, 60, 81].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	2	£4,241
1A004	7	£87,536
1A006	1	£350
1A007	1	£69,608
1C202	2	£1,047
1C350	13	£246,038
1C351	2	£433

1C450	2	£4,456
1E001	1	£2,000
2B001	2	£1,647,860
2B233	1	£2,800
2B350	20	£140,403
3A001	1	£330
3A225	2	£254
3D225	4	£863
3E225	1	£167
5A001	3	£43,000
5A002	10	£165,281
5D002	3	£14,050
5E002	2	£301
6A001	1	£17,651
6A002	4	£79,690
6A003	4	£773,356
6A005	1	£31,200
7A003	1	£145,454
7A103	1	£200,000
PL8001	2	£44,000
PL9010	1	£20,000

- chemicals used for agriculture or food/drink production [See footnote 13].
- chemicals used for chemical/materials production (8 licences) [See footnotes 17, 3, 74].
- chemicals used for general laboratory work/scientific research (5 licences) [See footnotes 18, 19, 72, 9].
- chemicals used for industrial/commercial processes [See footnote 40].
- civil explosive detection/identification equipment (5 licences).
- T civil explosive detection/identification equipment.
- T civil NBC detection systems.
- components for corrosion resistant chemical manufacturing equipment.
- components for non-military firing sets.
- corrosion resistant chemical manufacturing equipment (19 licences) [See footnotes 11, 12, 15, 25, 29, 34, 35, 37, 45, 5, 61, 62, 67, 68, 76, 8, 83].
- T counter-improvised explosive device equipment (3 licences) [See footnote 70].
- deuterium compounds (2 licences) [See footnotes 31, 51].
- T devices for initiating explosives [See footnote 70].
- direct view imaging equipment (4 licences) [See footnotes 30, 53].
- T explosives detection equipment.
- frequency changers (2 licences) [See footnote 4].
- general purpose integrated circuits.
- imaging cameras (3 licences) [See footnote 79].
- T imaging cameras [See footnote 87].
- T improvised explosive device disruptors [See footnote 70].
- inertial equipment (2 licences) [See footnote 7].
- information security equipment (10 licences) [See footnotes 10, 44].
- T information security equipment [See footnote 49].
- T information security software [See footnote 49].
- lasers.
- machine tools (2 licences).
- marine position fixing equipment.
- metal alloy cylindrical forms (2 licences) [See footnotes 21, 6].
- software for frequency changers (4 licences) [See footnotes 63, 64].
- software for information security equipment [See footnote 10].
- sporting shotgun ammunition.
- technology for composite structures.
- technology for frequency changers [See footnote 32].
- technology for information security equipment (2 licences) [See footnote 10].
- toxins.
- vacuum pumps [See footnote 46].
- viruses [See footnote 42].

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value

6A002	2	£52,250
6A003	2	£136,500
ML5	2	£175,000

T direct view imaging equipment (2 licences) [See footnotes 78, 82].  
T imaging cameras (2 licences) [See footnotes 78, 82].  
T targeting equipment (2 licences) [See footnotes 78, 82].

### Refused

	Count
Military	1
Non-military	1
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML3	1

components for small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
2B350	1

corrosion resistant chemical manufacturing equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
2	2

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£66,050
Non-military	1	£2,090
Total	2	£68,140

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£66,050

general military vehicle components [See footnote 43].

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£2,090

information security equipment [See footnote 36].

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Malaysia
- Sweden

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
2	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support

## Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Armed forces end use.
2. Licence granted for sporting / hunting purposes. Personal end use.
3. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. End use by the Navy.
8. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
11. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
12. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
13. Licence granted for accessories / spare parts. Civilian / commercial end use.
14. Licence granted for training purposes. End use by the Air Force.
15. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
16. Licence granted for training purposes. End use by the Air Force.
17. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
18. Licence granted for accessories / spare parts. Civilian / commercial end use.
19. Licence granted for accessories / spare parts. Civilian / commercial end use.
20. Licence granted for accessories / spare parts. End use by the Air Force.
21. Licence granted for accessories / spare parts. Civilian / commercial end use.
22. Licence granted for accessories / spare parts. End use by the Air Force.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for accessories / spare parts. Civilian / commercial end use.
25. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
26. Licence granted for armed forces end use.
27. Licence granted for accessories / spare parts. Government end use.
28. Licence granted for End use by the Navy.
29. Licence granted for accessories / spare parts. Civilian / commercial end use.
30. Licence granted for accessories / spare parts. Law enforcement agency end use.
31. Licence granted for academic research purposes. Academic end users.
32. Licence granted for accessories / spare parts. Civilian / commercial end use.
33. Licence granted for accessories / spare parts. Armed forces end use.
34. Licence granted for accessories / spare parts. Civilian / commercial end use.
35. Licence granted for accessories / spare parts. Civilian / commercial end use.
36. Licence granted for equipment to improve broadband connectivity. Civilian / commercial end use.

37. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
38. Licence granted for accessories / spare parts. End use by the Navy.
39. Licence granted for accessories / spare parts. Armed forces end use.
40. Licence granted for academic research purposes. Civilian / commercial end use.
41. Licence granted for accessories / spare parts. End use by the Air Force.
42. Licence granted for academic research purposes. Government end use.
43. Licence granted for accessories / spare parts. Armed forces end use.
44. Licence granted for accessories / spare parts. Armed forces end use.
45. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
46. Licence granted for academic research purposes. Academic end users.
47. Licence granted for training purposes. Armed forces end use.
48. Licence granted for accessories / spare parts. Armed forces end use.
49. Licence granted for accessories / spare parts. Armed forces end use.
50. Licence granted for accessories / spare parts. Civilian / commercial end use.
51. Licence granted for academic research purposes. Civilian / commercial end use.
52. Licence granted for demonstration to potential customers. Civilian / commercial end use.
53. Licence granted for accessories / spare parts. Armed forces end use.
54. Licence granted for demonstration to potential customers. Civilian / commercial end use.
55. Licence granted for sporting / hunting purposes. Civilian / commercial end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	100% (2)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	116 days
% and number of OIELs completed in 20 working days	17% (1)

% and number of OIELs completed in 60 working days	17% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£179,609
Non-military	1	£6,000
Total	3	£185,609

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£179,609

components for military combat vehicles (2 licences) [See footnote 3].  
 general military vehicle components [See footnote 3].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£6,000

information security equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, software for information security software, technology for information security equipment, technology for information security software, technology for software for information security equipment, technology for software for information security software
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
3	P	information security equipment, information security software
4	P	hydrophones, towed hydrophone arrays [See footnote 2]
5	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	T	towed hydrophone arrays

## Trinidad and Tobago

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	76% (19)
% and number of SIELs completed in 60 working days	100% (25)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	68 days
% and number of OIELs completed in 20 working days	25% (2)
% and number of OIELs completed in 60 working days	50% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	13% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	15	£425,353
Non-military	7	£512,450
Both Military and Non-military	1	£550
Total	23	£938,353

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£204,365
ML2	2	£16,600
ML5	2	£20,700
ML9	1	£66,550
ML10	1	£38,000
ML11	1	£1,494
ML13	10	£57,470
ML21	1	£6,000
ML22	2	£1,500
PL5017	3	£12,674

body armour (7 licences).  
 components for body armour (6 licences) [See footnotes 5, 6, 7].  
 components for machine guns [See footnote 9].  
 components for military electronic equipment.  
 components for naval gun installations/mountings.  
 components for naval guns.  
 components for targeting equipment.  
 components for weapon control equipment.  
 components for weapon mountings.  
 equipment for the use of machine guns [See footnote 9].  
 equipment for the use of weapon control equipment (2 licences).  
 equipment for the use of weapon mountings.  
 gun mountings [See footnote 9].  
 gun silencers [See footnote 9].  
 machine guns (80) [See footnote 9].  
 military helmets (2 licences).  
 software for naval guns.  
 technology for machine guns [See footnote 9].  
 technology for naval guns.  
 unmanned air vehicles [See footnote 10].  
 weapon sights [See footnote 9].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£7,025
5A002	3	£253,000
7A008	1	£180,000
7A103	1	£17,000
9A012	1	£55,425
9A115	1	£0
9D004	1	£0
9E102	1	£0

civil unmanned air vehicles.  
 components for civil unmanned air vehicles.  
 corrosion resistant chemical manufacturing equipment [See footnote 1].  
 inertial equipment [See footnote 8].  
 information security equipment (3 licences).  
 launch support equipment for civil unmanned air vehicles.  
 software for civil unmanned air vehicles.

T technology for civil unmanned air vehicles.  
underwater sonar navigation systems.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£250
ML13	1	£300

body armour [See footnote 3].  
civil body armour [See footnote 3].

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£11,505
Total	1	£11,505

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	1	£11,505

guidance/navigation equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

France

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	submersible vehicles [See footnote 2]
3	T	towed hydrophone arrays
4	P	components for small arms ammunition, small arms ammunition [See footnote 4]
5	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for demonstration to potential customers. Civilian / commercial end use.
4. Ammunition for sporting use for Government and licensed entities.
5. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
6. Licence granted for accessories / spare parts. Law enforcement agency end use.
7. Licence granted for accessories / spare parts. Law enforcement agency end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Armed forces end use.

accessories for constructions for ballistic protection of military systems (5 licences) [See footnote 145].

aircraft military communications equipment.

all-wheel drive vehicles with ballistic protection (2 licences).

anti-armour ammunition (3 licences) [See footnote 81].

assault rifles (3).

ballistic test equipment (2 licences).

body armour (3 licences).

bomb suits.

combat naval vessels.

components for air-to-air missiles.

components for air-to-surface missiles (7 licences) [See footnotes 92, 93].

components for aircraft military communications equipment (3 licences).  
 components for artillery ammunition.  
 T components for attack alerting/warning equipment [See footnote 15].  
 components for ballistic test equipment (4 licences).  
 components for body armour (3 licences) [See footnote 53].  
 components for combat aircraft (5 licences) [See footnote 116].  
 components for combat helicopters (51 licences) [See footnotes 113, 59, 84, 85].  
 components for combat naval vessels (5 licences) [See footnotes 88, 89].  
 components for decoying/countermeasure equipment.  
 components for electronic warfare equipment (9 licences) [See footnote 36].  
 T components for electronic warfare equipment [See footnote 15].  
 components for fuze setting devices.  
 components for ground vehicle military communications equipment.  
 components for gun mountings (2 licences) [See footnote 54].  
 components for launching/ground support equipment for unmanned air vehicles.  
 components for launching/handling/control equipment for man portable air defence system missiles.  
 components for launching/handling/control equipment for missiles (19 licences) [See footnotes 109, 131].  
 components for launching/handling/control equipment for munitions (4 licences) [See footnotes 121, 129, 138].  
 components for launching/handling/control equipment for surface-to-air missiles.  
 components for military aero-engines.  
 components for military aircraft head-up/down displays.  
 components for military combat vehicles (15 licences) [See footnotes 109, 139, 61, 67].  
 components for military communications equipment (7 licences) [See footnotes 52, 66, 68].  
 components for military electronic equipment (5 licences) [See footnotes 104, 105, 69, 90, 91].  
 components for military guidance/navigation equipment (8 licences) [See footnotes 102, 103, 90, 91].  
 components for military helicopters (15 licences).  
 components for military helmets.  
 components for military infrared/thermal imaging equipment (6 licences) [See footnotes 132, 22].  
 components for military radars (21 licences) [See footnotes 109, 27, 76, 98, 99].  
 components for military support aircraft (7 licences).  
 components for military training aircraft (7 licences).  
 components for military training equipment.  
 components for multi-role missiles (2 licences).  
 components for naval communications equipment (5 licences) [See footnote 21].  
 components for naval electrical/electronic equipment (2 licences).  
 components for naval guns.  
 components for NBC protective/defensive equipment.  
 components for rangefinding equipment.  
 components for small arms ammunition (2 licences) [See footnote 63].  
 components for sniper rifles (2 licences) [See footnote 54].  
 components for submarines (3 licences).  
 components for surface-to-air missiles (3 licences) [See footnotes 123, 82, 83].  
 components for targeting equipment (11 licences) [See footnote 107].  
 components for turrets.  
 components for unmanned air vehicles (6 licences) [See footnotes 3, 40].  
 components for weapon control equipment (17 licences) [See footnote 1].  
 components for weapon night sights (2 licences) [See footnote 80].  
 components for weapon sights.  
 constructions for ballistic protection of military systems (7 licences) [See footnotes 145, 62].  
 decoying/countermeasure equipment.  
 developmental missile components (2 licences) [See footnote 11].  
 electronic warfare equipment (2 licences) [See footnote 6].  
 equipment for the production of surface-to-air missiles.  
 equipment for the use of attack alerting/warning equipment (3 licences).  
 equipment for the use of ballistic test equipment.  
 equipment for the use of decoying/countermeasure equipment.  
 equipment for the use of electronic countermeasure equipment.  
 equipment for the use of military combat vehicles.  
 equipment for the use of military electronic equipment (2 licences).  
 equipment for the use of military infrared/thermal imaging equipment [See footnote 31].  
 equipment for the use of surface-to-air missiles.  
 T equipment for the use of weapon control equipment (2 licences).  
 general military aircraft components (14 licences) [See footnotes 100, 101, 115, 124, 136, 64, 65].  
 general military vehicle components (9 licences) [See footnotes 135, 60].  
 T general military vehicle components.  
 general naval vessel components (3 licences).  
 goods treated for signature suppression for military use.  
 gun mountings (2 licences) [See footnote 54].

- T gun silencers.  
 launching/handling/control equipment for missiles (2 licences).  
 launching/handling/control equipment for munitions (7 licences) [See footnotes 110, 129, 130, 137, 138].  
 military aircraft head-up/down displays (2 licences).  
 military auxiliary/support vessels (2 licences).  
 military communications equipment (5 licences).  
 military electronic equipment (11 licences) [See footnotes 90, 91].  
 military guidance/navigation equipment (7 licences) [See footnotes 134, 43].  
 military helmets (3 licences).  
 military infrared/thermal imaging equipment.
- T military infrared/thermal imaging equipment (2 licences).  
 military parachutes and equipment.  
 military training equipment.  
 munitions/ordnance detection/disposal equipment (3 licences).  
 naval communications equipment.  
 naval electrical/electronic equipment.  
 NBC protective/defensive equipment (2 licences).  
 periscopes (2 licences).
- T rangefinding equipment [See footnote 70].  
 small arms ammunition (3 licences) [See footnotes 63, 79].  
 small arms training equipment.  
 sniper rifles (52).  
 software for ballistic test equipment.  
 software for determining the effects of weapons.  
 software for equipment for the use of attack alerting/warning equipment.  
 software for equipment for the use of surface-to-air missiles.
- T software for launching/handling/control equipment for missiles (2 licences).  
 software for military electronic equipment.  
 software for military guidance/navigation equipment (3 licences) [See footnotes 94, 95].  
 Software for modelling/simulating military operation scenarios.
- T Software for modelling/simulating/evaluating weapon systems (2 licences).  
 targeting equipment (2 licences) [See footnotes 117, 119].
- T targeting equipment.  
 technology for attack alerting/warning equipment.  
 technology for ballistic test equipment.  
 technology for decoying/countermeasure equipment (2 licences).  
 technology for electronic countermeasure equipment.  
 technology for equipment for the production of surface-to-air missiles.  
 technology for launching/handling/control equipment for munitions (4 licences) [See footnotes 138, 150].  
 technology for military aero-engines.  
 technology for military communications equipment.  
 technology for military electronic equipment.  
 technology for military guidance/navigation equipment (5 licences).  
 technology for sniper rifles.  
 technology for Software for modelling/simulating military operation scenarios.  
 technology for surface-to-air missiles.  
 technology for test models for military helicopters.  
 technology for unmanned air vehicles [See footnote 150].  
 test models for military helicopters.  
 training small arms ammunition.  
 unfinished products for combat aircraft (8 licences) [See footnotes 127, 71].  
 weapon cleaning equipment.  
 weapon control equipment.
- T weapon night sights (3 licences) [See footnote 70].  
 weapon sight mounts (2 licences) [See footnote 54].  
 weapon sights (4 licences).
- T weapon sights [See footnote 70].

PL5017	1	£17,760

- T civil NBC protection equipment [See footnote 44].
- T direct view imaging equipment (2 licences).
- T equipment for the use of weapon sights.
- T imaging cameras (2 licences).
- T information security software (3 licences) [See footnote 2].
- T military image intensifier equipment.
- T NBC protective/defensive equipment [See footnote 44].
- T software for combat aircraft (2 licences) [See footnote 2].
- T Software for modelling/simulating/evaluating weapon systems.
- T targeting equipment.
- T weapon night sights.
- T weapon sight mounts.
- T weapon sights.

**Refused**

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML10	1

components for military aero-engines.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
7A103	2
End Use	4

components for materials processing equipment.  
inertial equipment (2 licences).  
metal alloys in powder form (2 licences).  
metallic powders.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	software for machine tools, technology for machine tools, technology for software for machine tools [See footnote 12]
2	P	components for military aero-engines, components for military support aircraft [See footnote 13]
3	P	bismuth, magnesium [See footnote 29]
4	P	components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military combat vehicles, components for military helicopters, components for military support aircraft, components for military training aircraft [See footnote 30]
5	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat

		aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 33]
6	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 35]
7	P	information security equipment, information security software
8	T	towed hydrophone arrays
9	P	hydrophones, towed hydrophone arrays [See footnote 49]
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 51]
11	P	information security equipment, technology for information security equipment [See footnote 55]
12	P	components for electronic warfare equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, software for electronic warfare equipment, technology for electronic warfare equipment [See footnote 77]
13	P	components for military aero-engines, components for military support aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 78]
14	P	components for combat aircraft [See footnotes 96, 97]
15	P	components for air defence systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft missile protection systems, components for anti-aircraft guns, components for anti-armour weapons, components for anti-riot guns, components for artillery, components for decoying/countermeasure equipment, components for depth charges, components for developmental missile components, components for developmental warheads, components for devices containing military pyrotechnic materials, components for explosive charges/devices, components for illuminators, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for multi-role

		missiles, components for naval guns, components for projectile launchers, components for surface launched rockets, components for surface-to-air missiles, components for surface-to-surface missiles, components for torpedoes [See footnote 108]
16	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 112]

17	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 114]
18	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 118]
19	P	equipment for the use of environmental test facilities for combat aircraft, information security software, software for airborne refuelling equipment, software for aircraft military communications equipment, software for combat aircraft, software for directed energy weapon/detection identification/defence equipment, software for electronic warfare equipment, software for environmental test facilities for combat aircraft, software for equipment for the development of combat aircraft, software for equipment for the use of environmental test facilities for combat aircraft, software for general military aircraft components, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft head-up/down displays, software for military aircrew safety equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image recording/processing equipment, software for military infrared/thermal imaging equipment, software for military radars, software for military scenario simulation equipment, software for military training equipment, Software for modelling/simulating military operation scenarios, software for sensor integration equipment, software for signature suppression fittings/coatings/treatments for military use, software for targeting equipment, software for test models for combat aircraft, technology for airborne refuelling equipment, technology for aircraft military communications equipment, technology for combat aircraft, technology for directed energy weapon/detection identification/defence equipment, technology for electronic warfare equipment, technology for environmental test facilities for combat aircraft, technology for equipment for the development of combat aircraft, technology for equipment for the use of environmental test facilities for combat aircraft, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military scenario simulation equipment, technology for military training equipment, technology for software for sensor integration equipment, technology for signature suppression fittings/coatings/treatments for military use, technology for software for airborne refuelling equipment, technology for software for aircraft military communications equipment, technology for software for combat aircraft, technology for software for directed energy weapon/detection identification/defence equipment, technology for software for electronic warfare equipment, technology for software for environmental test facilities for combat aircraft, technology for software for equipment for the development of combat aircraft, technology for software for equipment for the use of environmental test facilities for combat aircraft, technology for software for general military aircraft components, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for software for military aircraft head-up/down displays, technology for software for military aircrew safety equipment, technology for software for military electronic equipment, technology for software for military guidance/navigation equipment, technology for software for military image recording/processing equipment, technology for software for military infrared/thermal imaging equipment, technology for software for military radars, technology for software for military scenario simulation equipment, technology for software for military training equipment, technology for Software for modelling/simulating military operation scenarios, technology for software for sensor integration equipment, technology for software for signature suppression fittings/coatings/treatments for military use, technology for software for targeting equipment, technology for software for test models for combat aircraft, technology for targeting equipment, technology for test models for combat aircraft, test models for combat aircraft [See footnote 122]
20	P	military parametric technical databases, software for military aero-engines, technology for military aero-engines [See footnote 126]
21	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 128]

22	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
23	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 140]
24	P	triggered spark gaps
25	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 141]
26	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 143]
27	P	components for military radars, software for military radars, technology for military radars
28	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 147]
29	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 148]
30	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 149]
31	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault

		craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 151]
32	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 152]
33	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 153]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets
2	P	components for military electronic equipment, decoying/countermeasure equipment, military electronic equipment, software for decoying/countermeasure equipment
3	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
4	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military helmets, military helmets

## Turkmenistan

### Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	92% (11)
% and number of SIELs completed in 60 working days	100% (12)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time SITCLs	26 days
% and number of SITCLs completed in 20 working days	0% (0)
% and number of SITCLs completed in 60 working days	100% (1)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	89 days
% and number of OIELs completed in 20 working days	25% (2)
% and number of OIELs completed in 60 working days	38% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	13% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£728,731
Non-military	5	£3,663,220
Total	8	£4,391,951

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£246,840
ML5	1	£12,000
ML10	1	£27,056
ML11	1	£26,000
ML14	1	£357,995
ML15	1	£54,840
PL5017	1	£4,000

- T aerial target equipment [See footnote 4].
- T components for aerial target equipment [See footnote 4].
- T equipment for the use of weapon night sights [See footnote 3].
- T military aero-engines [See footnote 1].
- T military electronic equipment [See footnote 3].
- T military guidance/navigation equipment [See footnote 3].
- T military image intensifier equipment [See footnote 3].
- T rangefinding equipment [See footnote 3].
- T weapon night sights [See footnote 3].
- T weapon sight mounts [See footnote 3].
- T weapon sights [See footnote 3].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£293,220
2B001	1	£350,000
3A101	1	£2,790,000
3E101	1	£165,000
6A003	1	£65,000

- civil explosive detection/identification equipment [See footnotes 5, 6].
- civil NBC detection systems [See footnotes 7, 8].
- imaging cameras.
- machine tools [See footnote 10].
- technology for X-ray generators [See footnote 11].
- X-ray accelerators [See footnote 11].
- X-ray generators [See footnote 11].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	hydrophones, towed hydrophone arrays [See footnote 2]
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 9]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations,

		software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 12]

### Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	81% (655)
% and number of SIELs completed in 60 working days	100% (805)
% [as a % of all SIEL cases processed] and number of SIELs refused	6% (47)

Median processing time SITCLs	11 days
% and number of SITCLs completed in 20 working days	75% (3)
% and number of SITCLs completed in 60 working days	100% (4)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	77 days
% and number of OIELs completed in 20 working days	30% (11)
% and number of OIELs completed in 60 working days	38% (14)
% [as a % of all OIELs cases processed] and number of OIELs refused	3% (1)

Median processing time OITCLs	27 days
% and number of OITCLs completed in 20 working days	40% (2)
% and number of OITCLs completed in 60 working days	80% (4)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	243	£130,521,440
Non-military	248	£46,103,035
Both Military and Non-military	18	£5,220,961
Total	509	£181,845,436

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	37	£13,229,774
ML2	2	£1,670,492
ML3	10	£676,271

ML4	6	£331,283
ML5	16	£647,902
ML6	55	£60,967,289
ML7	7	£7,767,522
ML9	5	£251,609
ML10	81	£1,673,236
ML11	44	£24,951,066
ML13	5	£11,960,387
ML14	5	£100,378
ML15	17	£4,104,356
ML17	2	£2,507
ML19	2	£820,000
ML21	13	£1,249,550
ML22	11	£5,008
PL5001	2	£13,374
PL5017	15	£99,435

- accessories for military guidance/navigation equipment [See footnote 67].
- accessories for rangefinding equipment [See footnote 67].
- accessories for small arms training equipment.
- aircraft military communications equipment (6 licences) [See footnote 143].
- all-wheel drive vehicles with ballistic protection (2 licences).
- anti-riot/ballistic shields (2 licences).
- artillery [See footnote 139].
- T assault rifles (1).
- T assault rifles (10).
- assault rifles (700) [See footnote 29].
- blank/inert ammunition.
- body armour (2 licences) [See footnote 29].
- T body armour [See footnote 124].
- bomb suits [See footnotes 90, 91].
- combat shotguns [See footnote 29].
- T command communications control and intelligence software [See footnote 170].
- T components for aircraft military communications equipment (2 licences) [See footnotes 77, 78].
- T components for artillery [See footnote 139].
- components for assault rifles (4 licences) [See footnotes 29, 65].
- components for body armour (3 licences) [See footnotes 29, 90, 91].
- T components for body armour [See footnote 124].
- components for combat aircraft (12 licences).
- components for combat helicopters (2 licences) [See footnote 151].
- components for combat naval vessels.
- components for constructions for ballistic protection of military systems.
- components for electronic warfare equipment (2 licences) [See footnote 26].
- components for machine guns (2 licences).
- components for military aero-engines (11 licences).
- components for military aircraft head-up/down displays (4 licences).
- components for military combat vehicles (15 licences) [See footnote 68].
- components for military communications equipment (11 licences) [See footnote 144].
- components for military electronic equipment (2 licences) [See footnote 149].
- T components for military electronic equipment.
- components for military equipment for initiating explosives [See footnote 103].
- components for military guidance/navigation equipment (4 licences) [See footnote 67].
- components for military helicopters (12 licences) [See footnotes 148, 154].
- components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 104].
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 109].
- components for military infrared/thermal imaging equipment [See footnote 67].
- components for military radars.
- components for military support aircraft (14 licences) [See footnotes 146, 150, 42].
- components for military support vehicles (8 licences).
- components for military training aircraft (12 licences) [See footnote 145].
- components for munitions/ordnance detection/disposal equipment.
- T components for munitions/ordnance detection/disposal equipment [See footnote 112].

components for naval communications equipment.  
 components for NBC detection equipment (3 licences) [See footnote 34].  
 components for NBC protective/defensive equipment.  
 T components for NBC protective/defensive equipment.  
 components for pistols [See footnote 29].  
 components for rangefinding equipment [See footnote 67].  
 components for rifles [See footnote 29].  
 components for small arms ammunition (2 licences).  
 T components for small arms ammunition [See footnote 141].  
 components for small arms training equipment (2 licences) [See footnote 62].  
 components for sniper rifles (5 licences) [See footnotes 1, 162, 66].  
 components for sporting guns (2 licences).  
 components for tanks.  
 components for weapon control equipment [See footnote 147].  
 constructions for ballistic protection of military systems.  
 crowd control ammunition.  
 electronic warfare equipment.  
 T equipment for the development of combat helicopters (3 licences) [See footnote 71].  
 equipment for the development of military combat vehicles [See footnote 70].  
 equipment for the use of aircraft missile protection systems [See footnote 153].  
 T equipment for the use of artillery.  
 equipment for the use of decoying/countermeasure equipment [See footnote 153].  
 equipment for the use of machine guns.  
 T equipment for the use of military electronic equipment.  
 equipment for the use of military equipment for initiating explosives [See footnote 103].  
 equipment for the use of military guidance/navigation equipment [See footnote 67].  
 T equipment for the use of naval communications equipment.  
 equipment for the use of rangefinding equipment [See footnote 67].  
 equipment for the use of targeting equipment [See footnote 152].  
 T equipment for the use of targeting equipment (2 licences) [See footnote 71].  
 T equipment for the use of weapon night sights (8 licences) [See footnotes 10, 12, 15, 16, 2, 4, 6, 9].  
 T equipment for the use of weapon sights (3 licences) [See footnote 71].  
 explosive charges/devices.  
 general military aircraft components.  
 general military vehicle components (20 licences) [See footnotes 106, 158, 63].  
 T general military vehicle components (2 licences).  
 general naval vessel components.  
 T general naval vessel components [See footnote 110].  
 goods treated for signature suppression for military use (2 licences) [See footnote 26].  
 ground vehicle military communications equipment.  
 gun mountings (5 licences) [See footnote 66].  
 gun silencers (7 licences) [See footnotes 115, 66, 75].  
 high power RF weapon systems [See footnote 161].  
 T high power RF weapon systems [See footnote 5].  
 machine guns (5) [See footnote 115].  
 T military aircraft head-up/down displays (2 licences) [See footnote 71].  
 military aircrew life support equipment.  
 T military aircrew safety equipment (3 licences) [See footnote 71].  
 T military cameras/photographic equipment (4 licences) [See footnotes 71, 77, 78].  
 military communications equipment (4 licences) [See footnote 39].  
 military electronic equipment.  
 T military electronic equipment [See footnote 110].  
 military equipment for initiating explosives [See footnote 103].  
 T military equipment for initiating explosives [See footnote 109].  
 military guidance/navigation equipment (6 licences) [See footnotes 159, 30, 61, 67].  
 T military guidance/navigation equipment (9 licences) [See footnotes 10, 12, 15, 16, 171, 2, 4, 6, 9].  
 military helmets (3 licences) [See footnotes 29, 90, 91].  
 T military helmets [See footnote 124].  
 T military image intensifier equipment (12 licences) [See footnotes 10, 12, 15, 16, 171, 2, 4, 6, 71, 9].  
 military image recording/processing equipment.  
 T military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 109].  
 military infrared/thermal imaging equipment (2 licences) [See footnote 67].  
 T military infrared/thermal imaging equipment (8 licences) [See footnotes 10, 12, 15, 16, 171, 2, 4, 9].  
 military support aircraft.  
 military support vehicles (2 licences).  
 military trailers.  
 military training equipment (2 licences).  
 T military training equipment.  
 munitions/ordnance detection/disposal equipment (2 licences) [See footnote 104].

- T naval communications equipment.  
NBC detection equipment (2 licences) [See footnote 34].  
NBC protective/defensive equipment (2 licences) [See footnote 13].
- T periscopes.  
pistols (30) [See footnote 29].
- T projectile launchers [See footnote 124].  
rangefinding equipment (2 licences) [See footnote 67].
- T rangefinding equipment (8 licences) [See footnotes 10, 12, 15, 16, 2, 4, 6, 9].  
rifles (300) [See footnote 29].  
small arms ammunition (5 licences) [See footnotes 115, 29, 81].  
small arms training equipment (2 licences) [See footnote 62].  
sniper rifles (11).  
sniper rifles (130) [See footnote 66].
- T software for artillery.
- T software for combat helicopters (2 licences) [See footnote 71].  
software for electronic warfare equipment.
- T software for equipment for the development of combat helicopters.  
software for equipment for the use of aircraft missile protection systems [See footnote 153].  
software for military communications equipment (3 licences).  
software for military guidance/navigation equipment.  
software for military image recording/processing equipment.  
software for optimising equipment design.  
software for rangefinding equipment [See footnote 67].  
sporting guns (1) [See footnote 119].  
sporting guns (4).  
sporting guns (4).  
sporting guns (6).  
sporting shotgun ammunition [See footnote 29].  
sporting shotguns (1).  
targeting equipment.  
technology for combat aircraft (2 licences).
- T technology for combat helicopters (2 licences) [See footnote 71].  
technology for general military vehicle components.  
technology for military communications equipment (3 licences).  
technology for military guidance/navigation equipment.  
technology for military image recording/processing equipment.  
technology for military infrared/thermal imaging equipment [See footnote 67].  
technology for military support vehicles.  
technology for naval engines.  
technology for rangefinding equipment [See footnote 67].  
technology for sniper rifles [See footnote 66].  
training small arms ammunition.
- T turrets (6 licences) [See footnotes 155, 47, 80].  
unmanned air vehicles [See footnote 124].  
weapon cleaning equipment [See footnote 66].  
weapon night sights (2 licences) [See footnote 69].
- T weapon night sights (11 licences) [See footnotes 10, 12, 15, 16, 171, 2, 4, 6, 77, 78, 9].  
weapon sight mounts (2 licences) [See footnote 66].
- T weapon sight mounts (8 licences) [See footnotes 10, 12, 15, 16, 2, 4, 6, 9].  
weapon sights (9 licences) [See footnotes 105, 119, 29, 58, 66, 86, 87].
- T weapon sights (9 licences) [See footnotes 10, 12, 15, 16, 171, 2, 4, 6, 9].

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£575,000
Non-military	8	£328,777
Total	9	£903,777

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£575,000

components for military electronic equipment.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	8	£328,777

components for corrosion resistant chemical manufacturing equipment (2 licences) [See footnotes 54, 99].

corrosion resistant chemical manufacturing equipment (6 licences) [See footnotes 14, 19, 48, 79, 98].

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Angola
- Jordan
- Pakistan
- Saudi Arabia
- United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
2	P	components for military combat vehicles, components for military support vehicles, components for tanks [See footnote 22]
3	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 38]
4	P	information security equipment, information security software

5	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 45]
6	T	hydrophones
7	T	towed hydrophone arrays
8	T	towed hydrophone arrays
9	T	towed hydrophone arrays
10	P	hydrophones, towed hydrophone arrays [See footnote 53]
11	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 56]
12	P	components for aircraft military communications equipment, components for combat aircraft, components for military aero-engines, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components, military aircraft ground equipment [See footnote 73]
13	P	components for small arms ammunition, small arms ammunition [See footnote 74]
14	P	counter-improvised explosive device equipment [See footnote 76]
15	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 95]
16	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, imaging cameras, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 96]
17	P	accessories for military training equipment, airborne refuelling equipment, aircraft military communications equipment, aircraft missile protection systems, components for airborne refuelling equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for combat aircraft, components for combat helicopters, components for decoying/countermeasure equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military communications equipment, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military support aircraft, components for military training aircraft, components for military training equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military guidance/navigation equipment, military radars, military training equipment, signalling devices [See footnote 116]
18	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 117]
19	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 118]
20	T	software for military radars [See footnote 121]

21	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 125]
22	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
23	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 133]
24	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 140]
25	P	military guidance/navigation equipment, software for military guidance/navigation equipment, software for weapon control equipment, technology for military guidance/navigation equipment, technology for weapon control equipment, weapon control equipment
26	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 160]
27	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 163]
28	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment
29	P	accessories for military image intensifier equipment, command communications control and intelligence software, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, goods treated for signature suppression for military use, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, rangefinding equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for command communications control and intelligence software, technology for goods treated for signature suppression for military use, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for software for military communications equipment, technology for targeting equipment

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets
---	---	---

#### SITCLs

Source	Issued	Refused	Revoked
Jordan	1	0	0
Switzerland	1	0	0
United States of America	1	0	0

#### Issued

anti-armour ammunition [See footnote 156].  
 components for all-wheel drive vehicles with ballistic protection.  
 components for combat aircraft.

#### OITCLs

Source	Issued	Refused	Revoked
Malaysia	1	0	0
South Africa	1	0	0

#### Issued

bomb suits.  
 components for demolition charges/devices [See footnote 36].  
 demolition charges/devices (2 licences) [See footnote 36].  
 explosives.  
 military equipment for initiating explosives.  
 software for demolition charges/devices [See footnote 36].  
 technology for demolition charges/devices [See footnote 36].

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for temporary / exhibition purposes. Armed forces end use.
3. Licence granted for civilian / commercial end use.
4. Licence granted for temporary / exhibition purposes. Government end use.
5. Licence granted for demonstration to potential customers. Civilian / commercial end use.
6. Licence granted for temporary / exhibition purposes. Government end use.
7. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for demonstration to potential customers. Armed forces end use.
10. Licence granted for temporary / exhibition purposes. Government end use.
11. Licence granted for accessories / spare parts. Law enforcement agency end use.
12. Licence granted for temporary / exhibition purposes. Armed forces end use.
13. Licence granted for accessories / spare parts. Armed forces end use.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for temporary / exhibition purposes. Armed forces end use.
16. Licence granted for accessories / spare parts. Armed forces end use.
17. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
18. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
19. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
20. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
21. Licence granted for accessories / spare parts. Law enforcement agency end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for end use country is a State Party to the CWC. Civilian / commercial end use.
25. Licence granted for end use country is a State Party to the CWC. Civilian / commercial end use.

26. Licence granted for explosive detection / disposal purposes. Armed forces end use.
27. Licence granted for accessories / spare parts. End use by the Navy.
28. Licence granted for end use country is a State Party to the CWC. Civilian / commercial end use.
29. Licence granted for anti-piracy operations. Civilian / commercial end use.
30. Licence granted for accessories / spare parts. Armed forces end use.
31. Licence granted for accessories / spare parts. Civilian / commercial end use.
32. Licence granted for accessories / spare parts. Government end use.
33. Licence granted for government end use.
34. Licence granted for accessories / spare parts. Civilian / commercial end use.
35. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
36. Licence granted for explosive detection / disposal purposes. Government end use.
37. Licence granted for accessories / spare parts. Civilian / commercial end use.
38. Licence granted for accessories / spare parts. Armed forces end use.
39. Licence granted for accessories / spare parts. Government end use.
40. Licence granted for accessories / spare parts. Civilian / commercial end use.
41. Licence granted for accessories / spare parts. Civilian / commercial end use.
42. Licence granted for accessories / spare parts. End use by the Air Force.
43. Licence granted for accessories / spare parts. Civilian / commercial end use.
44. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
45. Licence granted for accessories / spare parts. Armed forces end use.
46. Licence granted for accessories / spare parts. Civilian / commercial end use.
47. Licence granted for accessories / spare parts. Armed forces end use.
48. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
49. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
50. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
51. Licence granted for temporary / exhibition purposes. Law enforcement agency end use.
52. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
53. Licence granted for accessories / spare parts. Civilian / commercial end use.
54. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
55. Licence granted for accessories / spare parts. Civilian / commercial end use.
56. Licence granted for accessories / spare parts. Armed forces end use.
57. Licence granted for accessories / spare parts. Academic end users.
58. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
59. Licence granted for demonstration to potential customers. Armed forces end use.
60. Licence granted for accessories / spare parts. Government end use.
61. Licence granted for accessories / spare parts. Armed forces end use.
62. Licence granted for demonstration to potential customers.
63. Licence granted for accessories / spare parts. Civilian / commercial end use.
64. Licence granted for accessories / spare parts. Civilian / commercial end use.
65. Licence granted for accessories / spare parts. Armed forces end use.
66. Licence granted for accessories / spare parts. Armed forces end use.

- T accessories for military aircraft ground equipment [See footnote 37].  
accessories for sniper rifles.  
aircraft military communications equipment (6 licences) [See footnote 47].  
anti-armour ammunition.  
anti-riot/ballistic shields (7 licences).
- T anti-riot/ballistic shields (3 licences).  
armoured plate.
- T armoured plate (2 licences).  
artillery.  
assault rifles (2).  
assault rifles (6).  
assault rifles (10).  
body armour (6 licences).
- T body armour (3 licences).  
bomb suits.  
combat aircraft (2 licences).  
command communications control and intelligence software (4 licences).  
command/control equipment for unmanned air vehicles.  
components for air-to-air missiles (3 licences).  
components for air-to-surface missiles.  
components for aircraft cannons.  
components for aircraft military communications equipment (4 licences) [See footnote 47].  
components for anti-armour ammunition.
- T components for anti-riot/ballistic shields.  
components for anti-vehicle mines.  
components for artillery (5 licences).  
components for assault rifles.  
components for body armour (5 licences).
- T components for body armour (3 licences).  
components for combat aircraft (23 licences).  
components for combat helicopters (4 licences).  
components for command/control equipment for unmanned air vehicles (2 licences).  
components for decoying/countermeasure equipment (7 licences).
- T components for decoying/countermeasure equipment.  
components for demolition charges/devices.  
components for electronic warfare equipment (2 licences).  
components for inert artillery ammunition.  
components for laser weapon systems (4 licences).  
components for launching/ground support equipment for unmanned air vehicles.  
components for launching/handling/control equipment for missiles (11 licences).  
components for launching/handling/control equipment for munitions (5 licences).  
components for launching/handling/control/support equipment for unmanned air vehicles.  
components for machine guns (3 licences).
- T(P) components for machine guns.  
components for military aero-engines (15 licences) [See footnotes 43, 95].  
components for military aircraft head-up/down displays (8 licences) [See footnote 67].
- T components for military aircraft head-up/down displays.

components for military aircrew life support equipment (3 licences).  
 components for military aircrew safety equipment.  
 components for military combat vehicles (19 licences).  
 components for military communications equipment (12 licences) [See footnotes 47, 53].  
 components for military electronic equipment (2 licences).  
 components for military guidance/navigation equipment (7 licences) [See footnote 98].  
 components for military helicopters (8 licences).  
 components for military helmets (2 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).

components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 components for military radars (10 licences).  
 components for military scenario simulation equipment.  
 components for military support aircraft (42 licences) [See footnotes 27, 96].  
 components for military support vehicles.  
 components for military training aircraft (17 licences) [See footnotes 49, 9].  
 components for mortars.  
 components for munitions/ordnance detection/disposal equipment.  
 components for naval communications equipment.  
 components for naval engines (2 licences).  
 components for naval guns.  
 components for NBC detection equipment (4 licences).  
 components for NBC protective/defensive equipment (25 licences).  
 components for pistols.  
 components for sniper rifles (3 licences).  
 components for sporting guns (4 licences).  
 components for surface-to-surface missiles (7 licences) [See footnotes 92, 98].  
 components for tanks.  
 components for targeting equipment (2 licences).  
 components for tear gas/irritant ammunition.  
 components for training small arms ammunition (2 licences).  
 components for unmanned air vehicles (17 licences) [See footnotes 70, 80].  
 constructions for ballistic protection of military systems (2 licences).

constructions for ballistic protection of military systems.  
 decoying/countermeasure equipment (2 licences).  
 equipment for the production of combat helicopters.  
 equipment for the production of military communications equipment.  
 equipment for the use of aircraft missile protection systems.  
 equipment for the use of artillery.  
 equipment for the use of attack alerting/warning equipment (2 licences).  
 equipment for the use of bombs.  
 equipment for the use of decoying/countermeasure equipment.  
 equipment for the use of electronic countermeasure equipment.  
 equipment for the use of military aircraft head-up/down displays.  
 equipment for the use of military communications equipment.  
 equipment for the use of NBC protective/defensive equipment.

equipment for the use of weapon night sights (3 licences).  
 general military aircraft components (8 licences).  
 general naval vessel components (2 licences).  
 grenade launchers (4 licences).  
 gun silencers (2 licences).  
 launching/ground support equipment for unmanned air vehicles (2 licences).  
 launching/handling/control equipment for missiles (3 licences).  
 launching/handling/control equipment for munitions (3 licences).  
 launching/handling/control equipment for rockets.  
 machine guns (2) (2 licences).  
 machine guns (10).  
 machine guns (24).

 sniper rifles (4).  
 sniper rifles (8).  
 sniper rifles (17350).  
 software enabling equipment to function as equipment for the use of military guidance/navigation  
 equipment.  
 software enabling equipment to function as military communications equipment (6 licences).  
 T software enabling equipment to function as military communications equipment.  
 software for aircraft missile protection systems.  
 software for combat aircraft.  
 software for decoying/countermeasure equipment (3 licences).  
 software for determining the effects of weapons (2 licences).  
 software for launching/handling/control equipment for missiles.  
 software for military aircraft head-up/down displays.  
 software for military communications equipment (2 licences).  
 software for military electronic equipment.  
 software for military support aircraft [See footnote 41].  
 software for military support vehicles.  
 Software for modelling/simulating military operation scenarios (3 licences).  
 software for NBC detection equipment.  
 T sporting guns (1) (7 licences).  
 sporting guns (1).  
 sporting guns (2).  
 sporting guns (3).  
 sporting guns (4).  
 sporting guns (6).  
 sporting shotguns (1).  
 sporting shotguns.  
 surface-to-air missiles.  
 tanks (7 licences).  
 targeting equipment.  
 technology for aircraft military communications equipment.  
 technology for command communications control and intelligence software (3 licences).  
 technology for command/control equipment for unmanned air vehicles.  
 technology for decoying/countermeasure equipment (5 licences).  
 technology for electronic warfare equipment.  
 technology for equipment for the production of military communications equipment.  
 technology for launching/ground support equipment for unmanned air vehicles (2 licences).  
 T technology for launching/ground support equipment for unmanned air vehicles.  
 technology for launching/handling/control equipment for missiles (5 licences).  
 technology for launching/handling/control equipment for munitions.  
 technology for military aero-engines.

	technology for military aircraft head-up/down displays.
	technology for military combat vehicles.
	technology for military communications equipment (2 licences).
T	technology for military improvised explosive device decoying/detection/disposal/jamming equipment.
	technology for military support aircraft [See footnote 41].
	technology for naval electrical/electronic equipment.
	technology for NBC detection equipment (2 licences).
	technology for NBC protective/defensive equipment (2 licences).
	technology for production installations for launching/ground support equipment for unmanned air vehicles.
	technology for sniper rifles.
	technology for software for determining the effects of weapons (2 licences).
	technology for submarines (3 licences).
	technology for surface-to-surface missiles (4 licences) [See footnote 92].
	technology for unfinished products for military aero-engines.
	technology for unmanned air vehicles (5 licences).
T	technology for unmanned air vehicles (2 licences).
T	test models for naval communications equipment.
	training surface-to-surface missiles.
	unfinished products for assault rifles.
	unfinished products for combat aircraft.
	unfinished products for military aero-engines (25 licences) [See footnotes 20, 21, 23, 29, 31, 32, 33, 34, 36, 38, 39, 40, 81].
	unfinished products for military training aircraft.
	unfinished products for pistols.
	unmanned air vehicles.
T	unmanned air vehicles (3 licences).
	weapon night sights.
T	weapon night sights (4 licences).
T	weapon sight mounts.
	weapon sights (3 licences).

**SIELs - Transshipment**

## Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£13,027
Total	1	£13,027

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	1	£13,027

sporting shotguns (1).

### SIELs for goods covered by the torture regulation

#### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	3	£89,364
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	3	£89,364

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	3	£89,364

handcuffs.  
portable incapacitating substance riot control devices (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military support aircraft [See footnote 2]
2	P	components for aircraft military communications equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military communications equipment
3	P	non-military detonators, non-military firing sets
4	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets [See footnote 7]
5	P	equipment for the use of weapon cleaning equipment, technology for weapon cleaning equipment, weapon cleaning equipment
6	P	armoured plate, components for all-wheel drive vehicles with ballistic protection, components for gun mountings, components for military combat vehicles, equipment for the production of military combat vehicles, general military vehicle components, technology for military combat vehicles
7	P	technology for nuclear reactors
8	P	components for military aero-engines [See footnote 13]
9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aircraft head-up/down displays, components for military support aircraft, components for military training aircraft, environmental test facilities for military support aircraft, environmental test facilities for military training aircraft, equipment for the production of military support aircraft, equipment for the production of military training aircraft, general military aircraft components, military aircraft head-up/down displays, military support aircraft, military training aircraft, technology for aircraft military communications equipment, technology for military aircraft head-up/down displays, technology for military support aircraft, technology for military training aircraft [See footnote 14]
10	T	civil explosive detection/identification equipment
11	P	components for weapon sights, weapon sights [See footnote 68]
12	P	components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
13	P	components for uranium isotope separation equipment, technology for uranium isotope separation equipment
14	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns [See footnote 26]
15	P	All items specified by: 5A001; 5B001 other than for items in 5A101; 5D001 other than for items in 5A101; and 5E001 other than for items in 5A101, All items specified by: 5A002; 5B002; 5D002 and 5E002, software for intrusion software, technology for intrusion software
16	P	components for military support aircraft, military support aircraft, technology for military support aircraft [See footnote 30]
17	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of

		military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 35]
18	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 42]
19	P	NBC protective/defensive equipment
20	P	components for air launched rockets, components for crowd control ammunition, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for exploding grenade ammunition, components for launching/handling/control equipment for munitions, components for military training equipment, components for signalling devices, components for smoke/pyrotechnic ammunition, components for tear gas/irritant ammunition, general military aircraft components
21	P	weapon sights
22	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 52]
23	P	components for sporting shotgun ammunition, sporting shotgun ammunition
24	T	towed hydrophone arrays
25	P	components for flash suppressers, components for gun mountings, components for gun silencers, components for sporting guns, components for sporting shotguns, components for weapon mountings, components for weapon sights, flash suppressers, gun mountings, gun silencers, sporting guns, sporting shotguns, weapon mountings, weapon sights
26	P	hydrophones, towed hydrophone arrays [See footnote 55]
27	P	Software for modelling/simulating military operation scenarios
28	P	weapon sights
29	P	military helmets
30	P	materials containing enriched uranium, materials containing natural uranium [See footnote 57]
31	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 58]
32	P	components for pistols, components for sporting guns, components for sporting shotguns, pistols, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 63]
33	P	triggered spark gaps [See footnote 73]
34	P	general military vehicle components [See footnote 74]
35	P	components for small arms ammunition, small arms ammunition [See footnote 75]
36	P	components for combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, military electronic equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military electronic equipment [See footnote 77]

37	P	technology for combined cycle engines [See footnote 78]
38	P	technology for military aero-engines [See footnote 79]
39	P	components for combat aircraft [See footnotes 83, 84]
40	P	technology for weapon cleaning equipment, weapon cleaning equipment
41	P	anti-riot/ballistic shields, portable incapacitating substance riot control devices, portable riot control electric-shock devices
42	P	components for combat aircraft [See footnotes 86, 87]
43	P	anti-riot/ballistic shields, body armour, components for anti-riot/ballistic shields, components for body armour, components for military helmets, military helmets [See footnote 90]
44	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military aircrew life support equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes and equipment, military radars, signalling devices, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the production of combat helicopters, software for equipment for the production of military helicopters, software for equipment for the use of combat helicopters, software for general military aircraft components, software for military aero-engines, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military parachutes and equipment, software for military radars, software for signalling devices, software for targeting equipment, software for unfinished products for combat helicopters, software for unfinished products for military aero-engines, software for unfinished products for military helicopters, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the use of military helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes and equipment, technology for military radars, technology for signalling devices, technology for targeting equipment, technology for unfinished products for combat helicopters, technology for unfinished products for military aero-engines, technology

		for unfinished products for military helicopters, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights [See footnote 91]
45	P	components for flash suppressers, components for gun mountings, components for gun silencers, components for sporting guns, components for sporting shotguns, components for weapon mountings, components for weapon sights, flash suppressers, gun mountings, gun silencers, sporting guns, sporting shotguns, weapon mountings, weapon sights
46	P	components for exploding grenade ammunition [See footnote 94]
47	P	devices for initiating explosives, explosives, linear shaped cutting charges, non-military detonators, shaped charges [See footnote 97]
48	P	components for countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for goods treated for signature suppression for military use, components for signature suppression fittings/coatings/treatments for military use, components for surface-to-surface missiles, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic countermeasure equipment, goods treated for signature suppression for military use, signature suppression fittings/coatings/treatments for military use, technology for countermeasure equipment for military imaging radar sensor equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for goods treated for signature suppression for military use, technology for signature suppression fittings/coatings/treatments for military use, technology for surface-to-surface missiles, technology for test models for countermeasure equipment for military imaging radar sensor equipment, technology for test models for countermeasure equipment for military infrared/thermal imaging equipment, technology for test models for decoying/countermeasure equipment, technology for test models for electronic countermeasure equipment, technology for test models for goods treated for signature suppression for military use, technology for test models for signature suppression fittings/coatings/treatments for military use, technology for test models for surface-to-surface missiles, test models for countermeasure equipment for military imaging radar sensor equipment, test models for countermeasure equipment for military infrared/thermal imaging equipment, test models for decoying/countermeasure equipment, test models for goods treated for signature suppression for military use, test models for signature suppression fittings/coatings/treatments for military use, test models for surface-to-surface missiles
49	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 99]
50	P	Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating military operation scenarios
51	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 101]
52	P	triggered spark gaps
53	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 102]

54	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
55	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 105]
56	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
57	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, components for unmanned air vehicles, equipment for the use of NBC detection equipment, equipment for the use of unmanned air vehicles, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for equipment for the use of unmanned air vehicles, technology for NBC detection equipment, technology for software for NBC detection equipment, technology for unmanned air vehicles
58	P	components for military radars, software for military radars, technology for military radars
59	P	neutron generators, non-military detonators, non-military firing sets
60	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 107]
61	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 108]
62	P	viruses
63	T	projectile launchers
64	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 109]
65	P	technology for nuclear reactors

## Uruguay

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	67% (2)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	117 days
% and number of OIELs completed in 20 working days	30% (3)
% and number of OIELs completed in 60 working days	40% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£3,540,660
Both Military and Non-military	2	£431,466
Total	3	£3,972,126

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£3,518,300
5D002	1	£22,360

information security equipment [See footnote 4].  
software for information security equipment [See footnote 4].

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	2	£81,155
ML1	2	£350,312

imaging cameras (2 licences).  
weapon night sights (2 licences).

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military

		training aircraft, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 1]
2	P	information security equipment, information security software
3	T	hydrophones
4	T	towed hydrophone arrays
5	P	hydrophones, towed hydrophone arrays [See footnote 2]
6	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 3]
7	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 5]
8	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 6]

#### Case & goods Footnotes

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£60,000
Non-military	1	£1,260,000
Total	2	£1,320,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£60,000

small arms ammunition [See footnote 3].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A101	1	£1,125,000
3D101	1	£50,000
3E101	1	£85,000

software for X-ray generators [See footnote 1].  
 technology for X-ray generators [See footnote 1].  
 X-ray generators [See footnote 1].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	hydrophones, towed hydrophone arrays [See footnote 2]
3	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 5]
4	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable

		systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]

## **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	5	£75,431
Non-military	1	£1,573
Total	6	£77,004

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	2	£52,244
ML11	2	£23,186
ML21	1	£0
ML22	1	£0

- components for combat naval vessels [See footnote 12].
- components for military guidance/navigation equipment [See footnote 10].
- components for submarines [See footnotes 5, 6].
- military communications equipment [See footnote 4].
- Rv software for military scenario simulation equipment.
- Rv software for military training equipment.
- Rv technology for military scenario simulation equipment.
- Rv technology for military training equipment.

Rv - Some or all of which have subsequently been revoked.

### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B351	1	£1,573

components for toxic gas monitoring equipment [See footnote 2].

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	information security equipment, information security software
2	T	towed hydrophone arrays
3	P	hydrophones, towed hydrophone arrays [See footnote 3]
4 (Rv)	P	components for combat aircraft [See footnotes 7, 8]
5 (Rv)	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 9]
6 (Rv)	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 11]
7	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
8 (Rv)	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 13]

Rv - Some or all of which have subsequently been revoked.

China	1	0	0

**Issued**

anti-riot/ballistic shields [See footnote 1].

**Country Footnotes**

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. This licence was granted in error for an activity related to promoting the supply or delivery of goods that falls outside the scope of the trade controls. The licence was subsequently surrendered.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. End use by the Navy.
12. Licence granted for accessories / spare parts. Armed forces end use.
13. Licence granted for accessories / spare parts. Government end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£248,700
Non-military	1	£1,969
Both Military and Non-military	1	£21,150
Total	5	£271,819

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	3	£248,700

body armour (2 licences) [See footnotes 1, 2].  
 components for body armour (3 licences) [See footnotes 1, 2, 3].  
 military helmets (2 licences) [See footnotes 1, 2].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£1,969

non-military firing sets [See footnote 13].

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML8	1	£16,920
PL8001	1	£4,230

improvised explosive device disposal equipment [See footnotes 5, 6].  
 pyrotechnics/fuels and related substances [See footnotes 5, 6].

#### Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except

where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry
End Use	1

industrial generators.
