

Progress measure scores for key stage 2: school performance tables

Progress measure 'bandings' – how we calculate them

In the school performance tables, progress scores for reading, writing and maths are grouped into 5 'bandings':

- well below average
- below average
- average
- above average
- well above average

The bandings look like this:

| | | | | |
|--------------------|---------------|---------|---------------|--------------------|
| Well below average | Below average | Average | Above average | Well above average |
|--------------------|---------------|---------|---------------|--------------------|

The table below explains how we calculated the bandings for 2018, 2017 and 2016.

What the progress measure scores show

The progress scores in the performance tables show how much progress pupils at this school made in reading, writing and maths between the end of key stage 1 and the end of key stage 2, compared to pupils across England who got similar results at the end of key stage 1.
