<sup>1</sup> The coverage of these data is broader than that of the other bulletin tables since it is possible to count not only jobs in the Creative Industries, but also jobs in creative occupations in business which are classed as being outside these industries, e.g. graphic designers working in a manufacturing firm.

<sup>2</sup> From 2006 the summer quarter covers July to September. Previously it covered June to August.

<sup>3</sup> As no SIC codes match the design sector, this estimate is for designer fashion only, see Annex A Table A1.
