

HM Revenue
& Customs

Tables A

These tables are intended for the very small number of employers who are exempt from the requirement to file Real Time Information online.

If you're an employer operating PAYE in real time you're no longer able to run your payroll manually and you do not need to use these manual tables. Instead you should be using software that is capable of filing payroll information online.

Contents

	Page
Tables A - Pay Adjustment Tables - instructions on use	3
Weekly tables	4
Weekly, fortnightly or 4 weekly pay day on 5 April or, in a leap year, on 4 or 5 April	56
Monthly tables	57

These tables show the weekly and monthly:

- free pay for each suffix code, including S and C prefix codes (except NT)
- 'additional pay' for codes with a K, SK or CK prefix

Use these tables together with the Taxable Pay Tables.

These tables were brought into use from 6 April 1993.

You should continue to use these tables until we tell you to destroy them.

From 6 April 2016 Scottish rates of income tax have been introduced. If an employee has a tax code with prefix S the Scottish rates of income tax must be used.

From 6 April 2019 Welsh rates of income tax have been introduced. If an employee has a tax code with prefix C the Welsh rates of income tax must be used.

Tables A – the Pay Adjustment Tables

Use these tables to work out the free pay to date of employees whose codes have the suffix L, M, N or T, and S or C prefix tax codes (not NT); and to work out the 'additional pay' to date of employees whose codes have the prefix K, SK or CK.

How to work out free pay

After turning to the table appropriate to the pay day use it in this way:

- in the column headed 'Code' find the number of the employee's PAYE code (ignore the suffix letter and the S or C prefix) - the amount of free pay to date is shown to the right of the code
- if the code exceeds 500 the free pay is obtained by adding together two or more amounts of pay adjustment calculated as follows:
 - divide the code into units of 500 and note the number of units and the amount left over - for example, for code 1567 the number of units of 500 is 3 and the remainder is 67

The free pay is then calculated in two stages

- 1 Look up the amount of pay adjustment from the main look-up table for the remainder (67 in this example).
- 2 Multiply the figure given in the box marked "*" at the bottom of the page by the number of units of 500. Add these two amounts together.

Example

For code **1567** at **week 35** the free pay is worked out like this.

Amount in respect of the remainder of 67	£ 457.10
Amount in respect of the units of 500 (3 x £3365.60)	£ 10096.80
Total Free Pay	£ 10553.90

One amount of pay adjustment, but only one amount, should be taken from the main look-up table.

If the code divides exactly into units of 500 with no balance over (for example, 1500, 2000, 2500) divide the code into units of 500 and note the number of units (for example, 1500 is 3 units of 500, 2000 is 4 units of 500). Calculate the free pay like this

- 1 Look up the amount for 1 unit of 500 from the main look-up table.
- 2 Multiply the figure given in the box marked "*" at the bottom of the page by the number of remaining units of 500. Add these two amounts together.

Example

For code **1500** at **week 35** the free pay is worked out like this.

Amount in respect of 1 unit of 500 (500 on the main look-up table)	£ 3371.55
Amount in respect of the 2 remaining units (3 x £3365.60)	£ 6731.20
Total Free Pay	£ 10102.75

How to work out 'additional pay'

This is worked out in the same way as free pay. The only point you must remember is that you enter the amount in the shaded column 4b on the RT11 'Deductions working sheet' and add it to the Total Pay to date. For guidance on how to complete form RT11 in PAYE code K, SK and CK cases see 'Guidance for Employers exempt from filing Real Time Information online'.

If you have any questions please call the Employer's Helpline on 0300 200 3200 for advice.
