

The Environment Agency (Environmental Permitting) (England) Charging Scheme

Consolidated version including all amendments up to and including April 2019

2019 Version 1.0

[THIS PAGE IS INTENTIONALLY LEFT BLANK]

THE ENVIRONMENT AGENCY (ENVIRONMENTAL PERMITTING) (ENGLAND) CHARGING SCHEME 2018

The Environment Agency in exercise of its powers under section 41 of the Environment Act 1995, and with the approval of the Secretary of State and the consent of the Treasury, makes the following Charging Scheme.

PART 1

GENERAL

Commencement, extent and citation

1. (1) This charging scheme shall be referred to as the Environment Agency (Environmental Permitting) (England) Charging Scheme 2018 (“this Scheme”).

(2) It extends only to England.

(3) Subject to sub-paragraph (4) it comes into force on 1st April 2018.

(4) The application charges described in paragraph 10(3) and the subsistence charges described in paragraph 14(1)(a) and (c) come into force on 1st October 2018.

(5) It remains in force until revoked.

Interpretation: general

2. (1) In this Scheme –

“the Regulations” means the Environmental Permitting (England and Wales) Regulations 2016 and, unless otherwise specified, expressions used in this Scheme have the same meaning as those used in the Regulations;

“activity” means a regulated facility; and for the purposes of this Scheme, and subject to its other provisions, an activity is deemed to fall within whichever description or descriptions in the Application Charge Table and the Subsistence Charge Table, fit it most aptly;

“application” means –

- (a) an application -
 - (i) for a permit,
 - (ii) to vary, transfer, or surrender a permit,
 - (iii) to partially transfer or surrender a permit, or
 - (iv) to register a WEEE operation, or

- (b) a regulator initiated variation,

made under the Regulations;

“application charge” means a charge described in Part 2 of this Scheme;

“Application Charge Table” means the table with that title in the Schedule;

“default standard facility” means a standard facility described in standard rules made after 1st April 2018;

“default standard facility charge” means the application or subsistence charges specified in the Agency’s response to the consultation on the standard rules relating to that facility, selected from –

- (a) the Default Standard Facility Charge Table in Part 4 of the Schedule, or
- (b) the Application Charge Table or the Subsistence Charge Table;

“financial year” means the 12 months ending on 31st March;

“nuclear site” has the meaning given in the Regulations but also includes a site which would require a nuclear site licence under the Nuclear Installations Act 1965, were it not exempt from this requirement by virtue of other legislation;

“reference” means the relevant number in the first column of the Application Charge Table or the Subsistence Charge Table, applicable to an application activity or a subsistence activity;

“relevant time and material costs” means –

- (a) in relation to a specified radioactive substances activity, those costs and expenses –
 - (i) incurred by the Agency in the determination of an application (including pre-application advice) or the annual subsistence of a permit, based on an hourly rate of £286 in relation to key technical work in relation to a specified radioactive substances activity, and £125 in any other case,
 - (ii) in the case of a radioactive substances activity carried on at a nuclear site, incurred by the Food Standards Agency in carrying out its functions in relation to those matters, or
- (b) in any other case, those costs and expenses incurred by the Agency in relation to the relevant matters described in this Scheme, based on an hourly rate of –
 - (i) £84, in the case of charges arising under paragraphs 13(7)(b), or 14(1)(a) and (b) of this Scheme,
 - (ii) £125, in the case of charges arising under paragraph 14(1)(d) of this Scheme, or
 - (iii) £100 in any other case,

as notified from time to time by the Agency to the operator (including by way of estimates, subject to later reconciliation);

“specified flood risk activity” means a flood risk activity which –

- (a) consists of works of repair or recovery relating to damage caused by a storm of similar scale and impact to the 2015 storms known as “Desmond” or “Eva”, and

- (b) where the application for a permit to authorise that activity is made within 12 months of the last day on which the damage occurred;

“specified radioactive substances activity” means a radioactive substances activity –

- (a) carried on at a nuclear site, or
- (b) which involves the accumulation or disposal of radioactive waste at a regulated facility permitted for the accumulation and then disposal of radioactive waste to land;

“standard facility” means a regulated facility described in standard rules and which is the subject of a request from the operator made under, or a term referred to in, regulation 27(2) of the Regulations;

“subsistence charge” means a charge described in Part 3 of this Scheme;

“Subsistence Charge Table” means the table with that title in the Schedule to this Scheme.

(2) The Schedule to this Scheme (Tables of Charges) has effect.

Liability to pay charges

3. The persons set out below shall be liable to pay the charges under this Scheme –

- (a) in respect of an application charge, the person or persons –
 - (i) applying to hold a permit,
 - (ii) holding the permit to which the application relates, or
 - (iii) applying for the transfer of a permit, or
- (b) in respect of a subsistence charge, the holder of the permit in respect of which the subsistence charge is payable.

Time of payment

4. Charges payable under this Scheme shall be due and payable in full at the following times on or after the 1st April 2018 –

- (a) subject to sub-paragraph (b), an application charge is payable on the making of an application;
- (b) the following application charges are payable on demand –
 - (i) charges arising under paragraph 10;
 - (ii) charges where the application charge is the relevant time and material costs;
- (c) subject to sub-paragraph (d), a subsistence charge is payable annually on 1st April;
- (d) the following subsistence charges are payable on demand –

- (i) a charge arising in the first year in which a permit is granted or in which the charge becomes payable;
 - (ii) any case where the subsistence charge is the relevant time and material costs;
 - (iii) any charges arising after 1st April in any year, under paragraphs 14 or 15 of this Scheme;
- (e) all other charges are payable on demand.

Abatement of charges

5. The Agency may, by notice to the person liable for the charge, waive or reduce any charge specified in this Scheme if it considers it to be significantly disproportionate in a particular case, having regard to the actual costs and expenses incurred or to be incurred by the Agency in relation to a particular application or subsistence period.

Revocation

6. The Environmental Permitting Charging Scheme 2014 (as amended) which came into effect on 1st April 2014 is revoked, with the exception of paragraphs 4 to 8 (inclusive), for any period on or after 1st April 2018.

PART 2

APPLICATION CHARGES

Interpretation of this Part

7. In this Part –

“administrative application” means an application which the Agency considers to be of a purely administrative nature;

“application activity” means a single activity described in a single sentence in column 2 of the Application Charge Table;

“application activity charge” means the charge for the relevant type of application described in columns 3 to 8 of the Application Charge Table, which corresponds to the relevant application activity;

“application amendment” means a request to make an amendment to an application which the Agency considers requires further public consultation;

“asset management plan” means a plan under which the water companies operate for a five year period;

“combined sewer overflow” and “emergency overflow” have the meanings given in the Schedule;

“enhanced pre-application advice” means advice given by the Agency in relation to a proposed application for a permit, which goes beyond basic assistance and signposting to guidance;

“farming installation” means an installation falling within Section 6.9 of Part 2 of Schedule 1 to the Regulations;

“farming review variation” means a variation relating to the review of a permit authorising a farming installation;

“further information notice” means a notice served under paragraph 4 of Part 1 of Schedule 5 to the Regulations;

“high public interest application” means an application which the Agency considers is of high public interest in accordance with its public participation statement published on 21 March 2019 under regulation 60 of the Regulations;

“low risk surrender activity” means –

(a) an activity comprising the permanent deposit of waste, in relation to which the operator has received confirmation from the Agency that a low risk or basic surrender application can be made, in accordance with the guidance “Landfill (EPR 5.02) and other permanent deposits of waste: how to surrender your permit”, version 2, published by the Agency in December 2012, or

(b) any other activity, in relation to which the operator has received confirmation from the Agency that intrusive investigation is not required in accordance with the criteria in box 1 of “Site condition report – guidance and templates”, (H5), version 3, published by the Agency in May 2013;

“minor variation” and “normal variation” have the meanings given in the Schedule.

Application charges - general

8. (1) An application charge is payable for an application made under the Regulations, except in the case of –

(a) an administrative application;

(b) an application for a permit to authorise a specified flood risk activity.

(2) Subject to the other provisions of this Part, the application charge is the total of the application activity charges applicable to all the application activities which are the subject of the application.

(3) Where more than one application activity (other than a flood risk activity) is the subject of an application for a permit, the application activity charge for each activity, except the one for which the largest charge is payable, is reduced by –

(a) 90% for all those activities which –

(i) fall in the same application activity description;

- (ii) comprise the storage of hazardous waste, incidental to an installation carrying on activities falling within either reference 1.16.1 or 1.16.4 of the Application Charge Table;
- (iii) comprise the treatment of non-hazardous effluent and its subsequent discharge to sewer where associated with each other;

(b) 50 % for any other activities which are reasonably associated with each other.

(4) Where more than one application activity which is a flood risk activity is the subject of an application for a permit, the application activity charge for each activity, except the one for which the largest charge is payable, is reduced by 75%.

(5) Where an application received after 1st April 2018 is returned because it is not duly made (unless this is due to obvious errors or omissions), the Agency will retain a sum equal to 20% of the application charge, subject to a maximum of £1,500.

Application charges – special cases

9. (1) In the case of the following applications, the application charge is the relevant time and materials costs –

- (a) an application which relates to a specified radioactive substances activity;
- (b) an application which relates to the Agency's functions under the Ship Recycling Facilities Regulations 2015;
- (c) an application submitted as part of a staged procedure agreed with the Agency.

(2) The application charge applicable to a default standard facility is the relevant default standard facility charge.

(3) The application charge for registration of a WEEE operation is £1,221.

(4) In the case of an application to vary a permit –

- (a) where the application is to authorise the operation of an activity which is not already authorised by that permit, the charge is the permit application charge applicable to that activity;
- (b) where the application is to apply standard rules to an activity, the charge is the permit application charge applicable to an activity subject to those standard rules;
- (c) where the application is to vary a permit which authorises only flood risk activities, the applicable charge shall be £68 in the case of a minor variation, and £204 in the case of any other variation;
- (d) where the application relates to event duration monitoring of combined sewer overflows or emergency overflows for asset management plan 6 or 7, under a permit authorising a water discharge or groundwater activity by a sewerage undertaker, the charge is £903.

(5) In the case of a farming review variation, the charge is £380.

- (6) In the case of an application to transfer a permit -
- (a) where the application relates to the whole of the permit, the transfer charge is the highest transfer charge applicable to an application activity authorised by the permit;
 - (b) where the application relates to only part of the permit, the transfer charge is the total of the highest transfer and highest normal variation charges applicable to an application activity authorised by the permit;
 - (c) where more than one application to transfer a permit from a single transferor to a single transferee are made at the same time, the transfer charge for each such application, (except the one for which the largest charge is payable, or any that relate to a radioactive substances activity or a landfill), is reduced by 80%;
 - (d) where an application activity falls within references 2.17.11 to 2.17.16 of the Subsistence Charge Table and is authorised by a permit which does not require financial provision, the transfer charge is reduced to £2,529.
- (7) In the case of an application to surrender a permit or part of a permit –
- (a) the surrender charge is the highest surrender charge applicable to any of the application activities that have at any time been authorised by the permit (or the part of the permit subject to the application), excluding any activities in relation to which surrender has already been accepted;
 - (b) where an activity which is the subject of the application has not been put into operation, the surrender charge for that activity is £770;
 - (c) where an activity is a low risk surrender activity, the surrender charge is 20% of the charge that would apply to an application for a permit for that activity.
- (8) In the case of a regulator initiated variation, the charge is equivalent to the charge that would have been payable if the variation had been made in response to an application.

Application charges – additional charges

10. (1) The following additional charges apply –
- (a) £500, where the Agency incurs or will incur costs in relation to the advertisement of that application;
 - (b) £1,930, in relation to an application amendment;
 - (c) the relevant time and materials costs relating to enhanced pre-application advice.
- (2) The following additional charges apply in relation to applications received after 1st April 2018 –
- (a) £1,200, in relation to the service by the Agency of a third or subsequent information notice in relation to the same issue;
 - (b) the charges relating to the plans and assessments described in Table 1.19 of the Application Charge Table, except where consideration of a plan is included in an application activity.

(3) An additional charge consisting of the relevant time and materials costs relating to a high public interest application, to the extent that those costs exceed the application charge, applies to applications received after 1st October 2018.

PART 3
SUBSISTENCE CHARGES

Interpretation of this Part

11. In this Part –

“authorised activities” means all those activities authorised by a permit;

“authorised activities charge” means the total of the subsistence activity charges which in combination apply to the authorised activities;

“charitable purposes”, “domestic household”, “type” and “volume”, in relation to a water discharge or groundwater activity, have the meanings given in the Schedule;

“compliance rating activities” means those authorised activities which are waste operations or installations, excluding waste mobile plant and farming installations falling within reference 2.14.2 of the Subsistence Charge Table;

“compliance rating adjustment” means the relevant percentage figure set out in Box 1 below, which corresponds to the compliance rating band (“A” to “F”), accorded to the compliance rating activities by the Agency under the Compliance Rating Guidance on 31st December in the calendar year preceding the year in which the charge is payable, or on the date on which the permit is first granted, if later –

Box 1

Compliance rating band	A	B	C	D	E	F
Compliance rating adjustment (%)	95	100	110	125	150	300

“Compliance Rating Guidance” means the version of the guidance with that title published on 24 May 2018, or in the case of the first year of this Scheme, the document titled “Environmental Permitting Risk Appraisal (Opra for EPR)” version 3.91, published in April 2017;

“deployment application” means an application to locate and operate mobile plant on a site, made under the conditions of the permit authorising the operation of that plant;

“deployment charge” means the charge applicable to an activity set out in the column titled “deployment charge” in the Subsistence Charge Table;

“intermittent discharge” means non-continuous sewage discharges from the sewerage network, sewage treatment systems or trade effluent processes where the discharge is to accommodate circumstances outside the control of the operator;

“materials facility notification” means a notification made by the operator of a materials facility under paragraph 1(2) of Part 2 of Schedule 9 to the Regulations;

“relevant discharge” means a water discharge activity or groundwater activity falling within a description in references 2.3.1 to 2.3.59 of the Subsistence Charge Table;

“subsistence activity” means a single activity described in a single sentence in column 2 of the Subsistence Charge Table;

“subsistence activity charge” means the charge in column 3 of the Subsistence Charge Table, which corresponds to the relevant subsistence activity;

“suspension notice” includes a notice under the Environmental Licences (Suspension and Revocation) Regulations 1996.

Application of subsistence charges

12. (1) Subject to the other provisions of this paragraph, a subsistence charge is payable for the subsistence of a permit, for any full or part financial year during which that permit is in force.
- (2) Except in a case where the subsistence charge is the relevant time and materials costs or the authorised activity falls within reference 2.6.19 of the Subsistence Charge Table, no subsistence charge is payable until either construction work in relation to, or the operation of, any of the authorised activities has commenced (whichever is the earlier).
- (3) In the case of a permit authorising the operation of an activity from a specified date, the subsistence charge is only payable in relation to that activity, for any period following that specified date.
- (4) No subsistence charge is payable where a permit authorises only –
 - (a) a specified flood risk activity,
 - (b) a flood risk activity where no compliance check is carried out in relation to that activity during the financial year, or
 - (c) a discharge of sewage effluent of a volume of 5 cubic metres or less from a domestic household or an organisation that operates for charitable purposes.

Subsistence charges – general

13. (1) Subject to the other provisions of this Part, the subsistence charge is the authorised activities charge, multiplied by the compliance rating adjustment (to the extent this applies).
- (2) Where any of the authorised activities fall within a description in Table 2.16 of the Subsistence Charge Table, the subsistence activity charges for those activities are –
 - (a) the highest applicable charge for any installation falling within that Table, and
 - (b) the highest applicable charge for any other waste operation falling within that Table.
- (3) Subject to sub-paragraph (4), where the authorised activities include a water discharge activity or groundwater activity consisting of the discharge of more than one effluent, a subsistence activity charge is payable for each such effluent, whether or not they are discharged together or from one or more outlets.

(4) Except in the case of an intermittent discharge, where the effluents receive treatment together (or having been treated are then joined together for monitoring), the subsistence activity charge is the highest charge applicable to a single discharge of that type, having first aggregated the volumes of all the discharges of that type, unless this results in a higher charge than would otherwise be payable.

(5) Where a permit authorises a relevant discharge for no more than 6 days in each year, the subsistence activity charge is reduced by 44%.

(6) Unless sub-paragraph (5) applies, where a permit prevents a relevant discharge from taking place for a period of at least three consecutive calendar months in a year, the subsistence activity charge is reduced by 4% for each such whole calendar month.

(7) The subsistence charge for the following activities is the relevant time and material costs

(a) a specified radioactive substance activity;

(b) a medium combustion plant or specified generator, unless falling within a reference in Table 2.10 of the Subsistence Charge Table.

(8) The subsistence charge for a default standard facility is the relevant default standard facility charge.

Subsistence charges – additional charges

14. (1) Additional charges apply, consisting of the relevant time and materials costs relating to the following –

(a) an unplanned event which causes or gives rise to a risk of significant harm to human health or the environment arising from the authorised activities, unless other cost recovery powers available to the Environment Agency are used;

(b) a suspension notice, once the decision to suspend has been made;

(c) an approval or agreement given by the Agency under a permit condition, except where the condition is contained in a permit authorising an activity described in Table 2.6 of the Subsistence Charge Table, as “new”;

(d) the regulation of hydraulic fracturing for the purpose of recovering oil and gas.

(2) The following additional charges apply –

(a) £672, for the first year of the subsistence of a permit granted on or after 1st April 2018, where that permit authorises activities falling within a description in Table 2.16 of the Subsistence Charge Table;

(b) in relation to a deployment application, the applicable deployment charge;

(c) £2,240 for the relevant year in which a materials facility notification is made, subject to adjustment, pro rata, where the notification is in force for only part of a relevant year.

Mid-year adjustments

15. The following mid-year adjustments shall be made –

- (a) in the case of a permit which, after the date on which the subsistence charge is payable in any year, is revoked or surrendered, or is varied in such a way as would affect the calculation of the subsistence charge, the charge is adjusted pro rata so that no charge, or the appropriate revised charge, is payable from the date on which the revocation, surrender, or variation (as the case may be), takes effect;
- (b) where the Agency considers that the operation of a subsistence activity which normally takes place on a continuous or repeating basis, is likely to temporarily cease for a period exceeding 12 months, that subsistence charge shall be reduced by 50% pro rata for the period during which the activity remains in temporary cessation, up to a maximum of 2 years;
- (c) in a case where, by reason of a legislative amendment after the date on which the subsistence charge is payable in any year, a subsistence activity ceases to be required to be authorised or where the nature of the requirement to be authorised changes in a way which would affect the calculation of the subsistence charge, the charge is adjusted pro rata from the date of the relevant amendment so that no charge, or the appropriate revised charge, is payable from the date of the amendment.

SCHEDULE

Tables of Charges

PART 1

General

Interpretation

1. (1) In this Schedule –

“ammonia modelling assessment”, “dust and bio-aerosol management plan”, “emissions management plan”, “fire prevention plan”, “noise and vibration management plan”, “odour management plan” and “pests management plan” mean the assessments and plans with those titles described in guidance published by the Agency on Gov.UK;

“aquaculture discharge” means a discharge from sites for the cultivation of fish or plants (such as fish or cress farms), not containing sewage effluent;

“BAT reference document” and “emission levels associated with the best available techniques” have the meanings given in the Industrial Emissions Directive;

“category 5 sealed source” has the meaning given in “How to apply for an environmental permit (Part RSR-B1) – standard facility”, version 1, April 2010;

“charitable purposes” has the meaning given in section 2 of the Charities Act 2011;

“closed landfill” means a landfill which –

- (a) ceased accepting waste for disposal before the implementation of the Landfill Directive on 16th July 2001;
- (b) was granted a permit under the Landfill Directive and is now definitely closed; or
- (c) was not granted a permit under the Landfill Directive and is definitely closed or working towards definite closure in accordance with the transitional arrangements in article 14 of the Landfill Directive;

“combined sewer overflows” includes any overflows related to rainfall events from a sewerage network or system and any overflows from storm tank effluent discharges;

“component” means –

- (a) in relation to an activity falling within Section 6.8, a component described in the Food and Drink Component Table in Part 4 of this Schedule, or
- (b) in relation to an activity falling within Section 6.1, a component described in the Paper and Pulp Component Table in Part 4 of this Schedule;

“cooling water” means discharges of water used directly and indirectly for temperature reduction purposes that does not come into contact with any other process or effluent so as to change its content or polluting nature, and does not contain specific substances;

“domestic household” means any premises which is defined as a domestic property under section 66 of the Local Government Finance Act 1988 or any premises which is exempt from non-domestic rates under Schedule 5 to that Act;

“emergency overflow” means any authorised discharges in an emergency of sewage or trade effluent;

“existing”, in relation to an activity falling within Table 2.6 of the Table of Subsistence Charges, means an activity which has been operating for at least 2 years since the date the Agency agreed that commissioning had been successfully concluded; and “new” in relation to such an activity means one which is not “existing”;

“flood defence” means a structure built or used for flood defence purposes;

“habitats assessment” means an assessment of the risks to one or more of the following sites –

- (a) a European Site within the meaning of the Conservation of Habitats and Species Regulations 2017;
- (b) a site referred to in the National Planning Policy Framework 2018 as requiring the same assessment as a European Site;
- (c) a site of special scientific interest within the meaning of the Wildlife and Countryside Act 1981;
- (d) a marine conservation zone within the meaning of the Marine and Coastal Access Act 2009;

“high complexity” has the meaning given in Annex 1 of “How to apply for an environmental permit (Radioactive Substances Activity) Part RSR F – Charges and Declarations”, version 3, April 2018;

“inert mining waste operation” means a mining waste operation which involves the management of only inert extractive waste;

“integrated or multi product mill” means a mill producing more than one product and where a mixing calculation is required to determine the emission levels associated with the best available techniques for the installation;

“land spreading of pesticides” means all non-point source liquid discharges or disposals of pesticide washings onto land;

“land spreading of sheep dip” means all non-point source liquid discharges or disposals of sheep dip onto land;

“line” in Table 2.6 of the Subsistence Charge Table means an incineration line;

“local authority activity” means a Part A (2) activity, a Part B activity or a small waste incineration plant, in relation to which the Agency is the regulator, including by virtue of a direction made under regulation 33;

“low impact installation” means a Part A(1) installation which, in the opinion of the Agency, cannot result in emissions or there is no likelihood that it will result in emissions except in a quantity which is so trivial that it is incapable of causing pollution or its capacity to cause pollution is insignificant;

“minor variation” means an application to vary a permit which the Agency considers is of a minor technical nature;

“MWth” means the net rated thermal input of an appliance which is the rate at which fuel can be burned at the maximum continuous rating of an appliance multiplied by the net calorific value of the fuel and then expressed in MW;

“non-inert mining waste operation” means a mining waste operation which involves the management of non-hazardous non-inert or hazardous extractive waste (as well as any inert waste), but a mining waste operation which includes a Category A mining waste facility or a mining waste facility involving the management of hazardous waste is not an inert mining waste operation or a non-inert mining waste operation;

“non-sewage effluent” means, where used in Table 1.3 of the Application Charge Table or Table 2.3 of Subsistence Charge Table, an effluent which does not fall within the description of any other effluent in those Tables;

“normal variation” means an application to vary a permit which is not a minor variation or a substantial variation;

“numeric permit condition” means, in relation to Table 2.3 of the Subsistence Charge Table, any permit condition which prescribes a maximum or minimum concentration of any substance or parameter in a permitted discharge, excluding flow;

“OSM” means operator self-monitoring, whereby the operator rather than the Agency carries out routine effluent quality compliance monitoring to standards specified in permits;

“population equivalent” has the meaning given in the Urban Waste Water Treatment (England and Wales) Regulations 1994;

“rainfall related” means discharges of site drainage, groundwater and storm water, not containing sewage effluent nor pollutants containing specific substances other than iron;

“specific substances assessment” means an assessment of an application for a permit or variation of a permit, where discharges contain or are likely to contain specific substances;

“specific substances” means -

(a) in relation to Table 1.3 of the Application Charge Table –

- (i) for a groundwater activity, hazardous substances (as defined by paragraph 4 of Schedule 22 to the Regulations) and / or non-hazardous pollutants (as defined by paragraph 5 of Schedule 22 to the Regulations), with the exception of discharges that only contain or are only likely to contain as their primary pollutants, ammoniacal nitrogen or ammonium and suspended solids;

(ii) for a water discharge activity, priority hazardous substances, priority substances or other pollutants as defined by the Environmental Quality Standards Directive (EQSD) (2008/105/EC, as amended by 2013/39/EU), specific pollutants as defined by the Water Framework Directive (Standards and Classification) Directions (England and Wales) 2015 or other substances which were listed in Part 6 of the River Basin Districts Typology, Standards and Groundwater threshold values (Water Framework Directive) (England and Wales) Directions 2010;

(b) in relation to Table 2.3 of the Subsistence Charge Table – all those substances described in paragraph (a), together with pesticides including organotins, fungicides, herbicides, polyhalogenated biphenyls, polynuclear aromatic hydrocarbons, aliphatic hydrocarbons, aromatic hydrocarbons, halogenated hydrocarbons including haloforms, alcohols, aromatic nitrogen compounds, phenolic compounds, heterocyclic hydrocarbons, esters, ethers, ketones, aldehydes, metals and metalloids, cyanides, sulphides, glycols (including total and poly), carboxylic acids, organic nitrogen compounds (other than those above and with the exception of urea and quaternary ammonium salts), and viruses;

“specified discharge” means a discharge in relation to which no volume is specified in the permit, or taken to be in the permit for the purposes of this Scheme;

“SR” means standard rules, and “(Superseded) SR” means standard rules which became unavailable to new applicants before 1st April 2018;

“stand-alone directly associated activity” means an activity which is not described in Part 2 of Schedule 1 to the Regulations and is authorised by a different permit to the remainder of the installation;

“substantial variation” means an application to vary a permit which the Agency considers is likely to involve significant assessment;

“surface water” means any inland freshwaters, coastal waters or relevant territorial waters as defined in section 104 Water Resources Act 1991;

“thermal discharge” means discharges from heat pumps and heat exchangers;

“type” in relation to a water discharge and groundwater activity, means an activity which falls within one of the following groups of activities, identified by the reference numbers in the Subsistence Charge Table –

(a) references 2.3.1 to 2.3.20;

- (b) references 2.3.21 to 2.3.59;
- (c) references 2.3.60 to 2.3.62;
- (d) references 2.3.63 to 2.3.65;
- (e) references 2.3.66 to 2.3.67;
- (f) references 2.3.68 to 2.3.71;
- (g) references 2.3.72 to 2.3.74;
- (h) references 2.3.75 to 2.3.78;

“volume” in the context of water discharge and groundwater activities means the maximum daily volume where this is specified in the permit, or otherwise is taken to be –

- (a) in the case of effluents containing sewage -
 - (i) the flow to full treatment as specified in the permit,
 - (ii) where no flow to full treatment is specified but an average daily flow is specified, 2.4 times the average daily flow,
 - (iii) where neither flow to full treatment nor an average daily flow are specified, but dry weather flow is specified, 3 times that dry weather flow;
- (b) in the case of other effluents, where an average daily flow is specified in the permit, that flow, except where the discharge may contain rainfall in which case the volume shall be taken to be 3 times the dry weather flow,

and where a permit authorises a water discharge activity or groundwater activity and the volume in permit conditions is expressed as “population equivalent”, the volume will be calculated based on 150 litres per population equivalent per day.

“waste recovery plan” means a plan submitted to the Agency in order to demonstrate that a proposed activity is a waste recovery operation within the meaning of the Waste Framework Directive.

(2) In this Schedule –

- (a) references in column 2 of a Table in this Schedule to a Section number, mean a Section number in Part 2 of Schedule 1 of the Regulations, and an activity description preceded by a Section number means an activity falling within that Section;

- (b) activities described in Table 1.11 of the Application Charge Table or 2.11 of the Subsistence Charge Table, do not include any activities connected with exploring for, or the production of, on shore oil and gas;
- (c) activities described in Table 2.16 of the Subsistence Charge Table as a “waste operation” mean a waste operation which is not an installation, and activities described without reference to whether they are an installation or a waste operation, may be either an installation or a waste operation which is not an installation;
- (d) activities described in Table 2.6 of the Subsistence Charge Table do not include any treatment of incinerator bottom ash or the operation of an effluent treatment plant.

PART 2

Application Charge Table

1. This is the Application Charge Table referred to in this Scheme –

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
1.1.1	SR 2015 No.26 - temporary dewatering affecting up to 20 metres of a main river. SR 2015 No.27 - constructing an outfall pipe of 300 millimetres to 500 millimetres diameter. SR 2015 No.28 - installing a clear span bridge on a main river. SR 2015 No.29 - temporary storage within the flood plain of a main river. SR 2015 No.30 - temporary diversion of a main river. SR 2015 No.31 - channel habitat structure made of natural materials. SR 2015 No.32 - installing an access culvert of no more than 5 metres length. SR 2015 No.33 - repairing and protecting up to 20 metres of the bank of a main river. SR 2015 No.34 - temporary scaffolding affecting up to 20 metres length of a main river. SR 2015 No.35 - excavating a wetland or pond in a main river floodplain.	£170

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
	<p>SR 2015 No.36 - installing and using site investigation boreholes and temporary trial pits within a main river floodplain for a period of up to 4 weeks.</p> <p>SR 2015 No.38 - removing a total of 100 metres of exposed gravel from bars and shoals.</p> <p>Non-commercial activities undertaken for the purpose of environmental improvement.</p> <p>Works within the curtilage of a dwelling undertaken by or on behalf of the householder under permitted development rights.</p>	
1.1.2	<p>An activity which would be an exempt flood risk activity but for the fact that it does not satisfy the conditions set out paragraphs 1(3)(a) or 1(3)(d) of Part 4 to Schedule 3 of the Regulations.</p> <p>An activity not falling within the description of any other activity in this table and which would be a standard facility but for the fact that it would not comply with condition 2.2.3 in the relevant standard rules.</p> <p>Steps, ramps and other similar structures excavated into the existing bank profile.</p> <p>Activities carried out within 8 metres of the bank of a non-tidal main river (or within 8 metres of a culvert or flood defence structure on that river) or within 16 metres of the bank of a tidal main river (or within 16 metres of any flood defence structure or culvert on that river).</p> <p>Installation of cattle gates across a watercourse.</p> <p>Minor refurbishment and alterations of existing structures.</p> <p>Excavation of site investigation boreholes and trial pits in the floodplain.</p>	£221
1.1.3	Temporary storage in the floodplain.	£446

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
	<p>Temporary ground level raising.</p> <p>Creation of new or improved tracks or paths which require land profiling.</p> <p>The temporary dewatering of a work area.</p> <p>The construction and use of service crossings within an existing structure.</p> <p>Installation of outfalls within engineered banks.</p> <p>Installation of outfalls within natural banks.</p> <p>Maintenance of raised river or sea defences.</p> <p>Maintenance of reservoir banks.</p> <p>Culvert lining.</p> <p>Construction of jetties (other than jetties likely to endanger the stability of, cause damage to, reduce the effectiveness of or interfere with the Agency's access to or along a flood defence, river control works, sea defence, culvert or remote defence).</p> <p>Installation of temporary floating structures (including pontoons and rafts).</p> <p>Construction of service crossings.</p> <p>Installation of temporary scaffolding.</p> <p>Construction of footbridge(s).</p>	

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
	<p>Construction of steps, ramps or similar structures on natural banks other than flood defences.</p> <p>Construction of steps, ramps or similar structures on engineered banks other than flood defences.</p> <p>Soft engineered bank protection works over a total distance of less than 100 metres.</p> <p>Undertaking bank re-profiling work.</p> <p>Excavations (other than site investigation boreholes and trial pits) in the floodplain.</p> <p>Construction of moorings.</p> <p>Installation of in-channel structures not falling within the description of any other activity and affecting less than 25% of the channel width.</p> <p>Construction of steps, ramps or similar structures on flood defences.</p> <p>Installation of a temporary culvert.</p> <p>Like-for-like replacement of soft engineered bank protection works.</p>	
1.1.4	<p>Removal of silt, sand, gravel or other material from the bed of a main river (but excluding the subsequent use, treatment, and recovery or disposal of the dredgings).</p> <p>Movement of gravel within a main river channel.</p> <p>Construction of a temporary bypass channel.</p> <p>Construction of new bed reinforcements or the replacement or removal of existing bed reinforcements.</p>	£968

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
	<p>Construction of new hard engineered bank protection works.</p> <p>Like-for-like replacement of hard engineered bank protection works.</p> <p>Installation of in-channel structures not falling within the description of any other activity and affecting over 25% of the channel width.</p> <p>Gravel installation.</p> <p>Construction of bridges for vehicle access.</p> <p>Alteration or replacement of culverts.</p> <p>Installation of a permanent bypass channel with a total length of less than 30 metres.</p> <p>Installation of a new, permanent culvert with a length of less than 5 metres.</p> <p>Alteration of in-channel impounding or flow regulation structures.</p> <p>Construction of flood defences with a total length less than 100 metres.</p> <p>Permanent ground level raising.</p> <p>Construction of bridges over or on a flood defence.</p> <p>Works to remove in-channel structures.</p> <p>Soft engineered bank protection works over a total distance of 100 metres or more.</p> <p>Construction of foreshore pipelines and manholes (likely to endanger the stability of, cause damage to, reduce the effectiveness of or interfere with the Agency's access to or along a flood defence, river control works, sea defence,</p>	

Table 1.1 Flood risk activities		
Ref	Activity	Permit application
	culvert or remote defence).	
1.1.5	<p>Construction of a permanent culvert with a length of 5 metres or more.</p> <p>Construction of a bypass channel with a total length of 30 metres or more.</p> <p>Works to widen, deepen or straighten a channel.</p> <p>Construction of flood defences with a total length of 100 metres or more.</p> <p>Construction of permanent in-channel impounding or flow regulation structures.</p> <p>Construction of reservoir spillways or compensation flow channels.</p>	£1,441

Table 1.2 – Radioactive Substance Activities						
Ref	Activity	Permit application	Minor variation	Normal variation	Transfer application	Surrender application
1.2.1	SR 2010 No.1 - category 5 sealed radioactive sources standard rules.	£853	N/A	N/A	£462	£462
1.2.2	Keeping or using category 5 sealed sources, including the accumulation and/or disposal of	£1,814	£1,363	£1,701	£1,363	£913

Table 1.2 – Radioactive Substance Activities

Ref	Activity	Permit application	Minor variation	Normal variation	Transfer application	Surrender application
	waste sealed sources.					
1.2.3	Keeping or using sources of similar potential hazard to high-activity sealed sources, including sources in reference 1.2.2.	£4,743	£1,420	£4,743	£1,363	£2,096
1.2.4	Keeping or using high-activity sealed sources, including sources in references 1.2.2 and 1.2.3.	£5,983	£1,420	£5,588	£2,208	£2,096
1.2.5	Keeping or using unsealed radioactive sources only.	£1,814	£1,363	£1,701	£1,363	£913
1.2.6	Keeping or use of unsealed radioactive sources and subsequent disposal only by transfer of radioactive waste – not high complexity.	£5,588	£1,938	£4,349	£1,363	£3,741
1.2.7	Keeping or use of unsealed radioactive sources and subsequent disposal of radioactive waste (including disposal by way of transfer) – not high complexity.	£6,771	£2,603	£5,419	£1,363	£4,800
1.2.8	Keeping or use of unsealed radioactive sources and subsequent disposal of radioactive waste (including disposal by way of transfer) – high complexity.	£8,630	£3,560	£7,166	£1,363	£6,095
1.2.9	SR 2014 No. 4 - NORM waste from oil and gas	£1,867	N/A	N/A	£462	£1,751

Ref	Activity	Permit application	Minor variation	Normal variation	Transfer application	Surrender application
	production. SR 2017 No.1 - unintentional receipt of radioactive materials and radioactive waste by the operator of any facility which uses a radiation detection system.					

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation
1.3.1	SR 2010 No.2 - discharge to surface water: cooling water and heat exchangers.	£813	£244	N/A	N/A
1.3.2	SR 2010 No.3 - discharge to surface water: secondary treated domestic sewage with a maximum daily volume between 5 and 20m ³ a day.	£813	£244	N/A	N/A
1.3.3	Sewage effluent discharge with a volume up to and including 5m ³ a day to surface water from domestic households or organisations operating for charitable purposes; includes habitats assessment.	£125	£125	£125	£125

Table 1.3 - Water discharge and groundwater activities

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation
1.3.4	Sewage effluent discharge with a volume up to and including 5m ³ a day to groundwater from domestic households or organisations operating for charitable purposes; includes habitats assessment.	£125	£125	£125	£125
1.3.5	Sewage effluent discharge with a volume up to and including 5m ³ a day to surface water (not requiring specific substances assessment).	£2,534	£760	£1,267	£2,280
1.3.6	Sewage effluent discharge with a volume up to and including 5m ³ a day to groundwater (not requiring specific substances assessment).	£2,708	£812	£1,354	£2,437
1.3.7	Sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 15m ³ a day to groundwater (not requiring specific substances assessment).	£2,708	£812	£1,354	£2,437
1.3.8	Sewage effluent discharge with a volume greater than 15m ³ a day to groundwater (not requiring specific substances assessment).	£5,699	£1,710	£2,850	£5,129
1.3.9	Sewage effluent discharge to groundwater requiring specific substances assessment.	£6,052	£1,816	£3,026	£5,447

Table 1.3 - Water discharge and groundwater activities

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation
1.3.10	Sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 50m ³ a day to surface water (not requiring specific substances assessment).	£4,170	£1,251	£2,085	£3,753
1.3.11	Sewage effluent discharge with a volume greater than 50m ³ a day to surface water or any volume requiring specific substances assessment.	£7,649	£2,295	£3,825	£6,884
1.3.12	Trade effluent and/or non-sewage effluent and/or rainfall related discharge to surface water or groundwater with a volume up to and including 5m ³ a day (not requiring specific substances assessment).	£2,460	£738	£1,230	£2,214
1.3.13	Trade effluent and/or non-sewage effluent and/or rainfall related discharges to surface water or groundwater with a volume greater than 5m ³ a day (not requiring specific substances assessment).	£4,652	£1,396	£2,326	£4,187
1.3.14	Trade effluent and/or non-sewage effluent and/or rainfall related discharges to surface water or groundwater requiring specific substances assessment (any volume).	£7,953	£2,386	£3,977	£7,158

Table 1.3 - Water discharge and groundwater activities

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation
1.3.15	Cooling water or thermal discharge to surface water or groundwater (not requiring specific substances assessment).	£5,914	£1,774	£2,957	£5,323
1.3.16	Cooling water or thermal discharge to surface water or groundwater requiring specific substances assessment.	£8,257	£2,477	£4,129	£7,431
1.3.17	Aquaculture (not requiring specific substances assessment).	£5,284	£1,585	£2,642	£4,756
1.3.18	Aquaculture requiring specific substances assessment.	£6,413	£1,924	£3,207	£5,772
1.3.19	Combined sewer overflows.	£6,699	£2,010	£3,350	£6,029
1.3.20	Emergency overflows.	£6,699	£2,010	£3,350	£6,029
1.3.21	Land spreading of sheep dip and pesticides.	£2,708	£812	£1,354	£2,437
1.3.22	Non-waste solid discharges to land.	£2,708	£812	£1,354	£2,437

Table 1.4 – Chemicals							
Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.4.1	Section 4.1 - production of a single organic chemical.	£13,209	£3,963	£6,604	£11,888.	£2,459	£7,925
1.4.2	Section 4.1 - production of more than one organic chemical.	£16,466	£4,940	£8,233	£14,819	£2,459	£9,880
1.4.3	Section 4.1 - any Section 4.1 activity not falling in references 1.4.1 or 1.4.2 in Table 1.4.	£13,054	£3,916	£6,527	£11,749	£2,459	£7,832
1.4.4	Section 4.2 - production of a single inorganic chemical.	£13,209	£3,963	£6,604	£11,888	£2,459	£7,925
1.4.5	Section 4.2 - production of more than one inorganic chemical.	£16,466	£4,940	£8,233	£14,819	£2,459	£9,880
1.4.6	Section 4.2 – any Section 4.2 activity not falling in references 1.4.4 or 1.4.5 in Table 1.4.	£13,054	£3,916	£6,527	£11,749	£2,459	£7,832
1.4.7	Section 4.3 - production of a fertiliser.	£14,605	£4,382	£7,302	£13,144	£2,459	£8,763

Table 1.4 – Chemicals

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.4.8	Section 4.4, 4.5 or 4.6 - production of less than 2000 tonnes a year of plant health products, biocides, pharmaceuticals or explosives.	£13,364	£4,009	£6,682	£12,028	£2,459	£8,018
1.4.9	Section 4.4, 4.5 or 4.6 - production of 2000 tonnes or more a year of plant health products, biocides, pharmaceuticals or explosives.	£14,915	£4,474	£7,458	£13,424	£2,459	£8,949
1.4.10	Section 4.7 – manufacturing activities involving carbon disulphide or ammonia.	£13,364	£4,009	£6,682	£12,028	£2,459	£8,018

Table 1.5 – Refineries

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.5.1	Section 1.2A(1)(a) - refining natural gas with a capacity of 1,000 tonnes or more a year.	£16,570	£4,971	£8,285	£14,913	£2,459	£9,942
1.5.2	Section 1.2A(1)(c) - gasification or liquefaction of fuels not derived from waste.	£16,570	£4,971	£8,285	£14,913	£2,459	£9,942
1.5.3	Section 1.2A(1)(d) - refining crude oil.	£19,672	£5,902	£9,836	£17,705	£2,459	£11,803
1.5.4	Section 1.2A(1)(e) - storage and handling of crude oil or stabilised crude petroleum with a tank storage capacity of 500 tonnes or more.	£19,672	£5,902	£9,836	£17,705	£2,459	£11,803
1.5.5	Section 1.2A(1)(b) - producing coke, with a capacity of 250 tonnes or more a year.	£17,268	£5,180	£8,634	£15,541	£2,459	£10,361
1.5.6	Section 1.2A(1)(b) - producing coke, with a capacity of less than 250 tonnes a year.	£16,570	£4,971	£8,285	£14,913	£2,459	£9,942
1.5.7	Section 1.2A(1)(f) - pyrolysis, carbonisation, distillation or partial	£17,966	£5,390	£8,983	£16,169	£2,459	£10,780

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
	oxidation of carbonaceous material not undertaken on an oil refinery.						

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.6.1	Section 5.1 - incineration of hazardous waste with or without non-hazardous waste, and including high temperature or clinical waste incineration.	£19,724	£5,917	£9,862	£17,752	£2,459	£11,834
1.6.2	Section 5.1 - incineration of mixed non-hazardous waste streams including municipal waste and refuse derived fuel; includes assessment of fire prevention plan.	£18,638	£5,591	£9,319	£16,774	£2,459	£11,183

Table 1.6 – Energy from Waste							
Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.6.3	Section 5.1 - incineration of a single non-hazardous waste comprising waste wood, tyres or sewage sludge; includes assessment of fire prevention plan.	£15,480	£4,644	£7,740	£13,932	£2,459	£9,288

	plant 1<20 MW – up to ten plants.						
1.10.16	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to fifteen plants.	£813	N/A	N/A	N/A	£169	£125
1.10.17	SR 2018 No.8 – mobile plant specified generator, Tranche B low risk, base load operation <1-2 MW.	£221	N/A	N/A	N/A	£169	N/A
1.10.18	SR 2018 No.9 – specified generator, Tranche B low risk, base load operation between 0-0.9 MW.	£221	N/A	N/A	N/A	£169	£125

Table 1.11 – Mining Waste

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.11.1	Category A mining waste facility.	£20,869	£6,261	£10,434	£18,782	£2,459	£12,521
1.11.2	Management of inert extractive wastes at mines and quarries.	£2,767	£830	£1,384	£2,490	£2,459	£1,660
1.11.3	Inert mining waste operation.	£2,767	£830	£1,384	£2,490	£2,459	£1,660
1.11.4	Non-inert mining waste operation with a non-inert mining waste facility.	£6,955	£2,086	£3,478	£6,260	£2,459	£4,173
1.11.5	Non-inert mining waste operation without a mining waste facility.	£6,955	£2,086	£3,478	£6,260	£2,459	£4,173
1.11.6	SR 2009 No.8 - management of inert wastes and unpolluted soil at mines and quarries.	£2,641	£792	N/A	N/A	£2,529	£1,585

Table 1.12 – Metals							
Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.12.1	Section 2.1 - ferrous metal production.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,600
1.12.2	Section 2.1 - ferrous metal - roast/sinter/rolling mill.	£14,605	£4,381	£7,302	£13,144	£2,459	£8,763
1.12.3	Section 2.1 - ferrous metal handling.	£11,503	£3,451	£5,751	£10,353	£2,459	£6,902
1.12.4	Section 2.2 - non-ferrous metal production.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,600
1.12.5	Section 2.2 - non-ferrous metal melting.	£13,984	£4,195	£6,992	£12,586	£2,459	£8,390
1.12.6	Section 2.2 - non-ferrous metal - cadmium/mercury production.	£11,813	£3,544	£5,906	£10,632	£2,459	£7,088
1.12.7	Section 2.3 - surface treatment.	£12,743	£3,823	£6,371	£11,468	£2,459	£7,645

Table 1.13 – Cement, Minerals and Lime							
Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.13.1	Section 3.1 - production of cement using waste derived fuel.	£17,707	£5,312	£8,854	£15,936	£2,459	£10,624
1.13.2	Section 3.1 - production of cement without using waste derived fuel.	£13,903	£4,171	£6,952	£12,513	£2,459	£8,342
1.13.3	Section 3.1 – production of lime without using waste derived fuel.	£13,903	£4,171	£6,952	£12,513	£2,459	£8,342
1.13.4	Section 3.1 - production of lime using waste derived fuel.	£18,556	£5,567	£9,278	£16,700	£2,459	£11,134
1.13.5	Section 3.3, 3.4 & 3.6 - other mineral product manufacture not falling in any other reference in Table 1.13.	£13,674	£4,102	£6,837	£12,307	£2,459	£8,204

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.14.1	Section 6.9 – farming installation; includes assessment of odour management plan and noise and vibration management plan.	£8,020	£2,406	£4,010	£7,218	£1,324	£4,812

Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.15.1	Mobile plant for land-spreading.	£7,455	£2,236	£3,728	£6,710	£2,529	N/A
1.15.2	SR 2010 No.4 - mobile plant for land-spreading.	£2,641	N/A	N/A	N/A	£2,529	N/A
1.15.3	SR 2010 No.5 - mobile plant for reclamation, restoration or improvement of land.	£2,641	N/A	N/A	N/A	£2,529	N/A
1.15.4	SR 2010 No.6 - mobile plant for land-spreading of sewage sludge.	£2,641	N/A	N/A	N/A	£2,529	N/A

Table 1.16 – Waste Treatment							
Ref	Activity	Permit application	Minor variation	Normal variation	Substantial variation	Transfer application	Surrender application
1.16.1.1	Section 5.3 (a)(i) - hazardous waste installation – biological treatment.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.2	Section 5.3 (a)(ii) - hazardous waste installation – physico-chemical treatment.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.3	Section 5.3 (a)(iii) and (iv) - hazardous waste installation – blending or repackaging.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.4	Section 5.3 (a)(v) - hazardous waste installation – solvent reclamation or regeneration.	£10,884	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.5	Section 5.3 (a)(v) - hazardous waste installation – recycling and reclamation of inorganic waste.	£14,219	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.6	Section 5.3 (a)(vii) - hazardous waste installation – regeneration of acid or bases.	£16,001	£4,800	£8,000	£14,401	£2,459	£9,601

1.16.1.7	Section 5.3 (a) (viii) - hazardous waste installation – recovery of components used for pollution abatement.	£14,219	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.8	Section 5.3 (a)(ix) - hazardous waste installation – recovery of components from catalysts.	£14,219	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.9	Section 5.3 (a)(x) - hazardous waste installation – oil re-refining or other re-uses of oil.	£14,219	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.1.10	Section 5.3 (a)(xi) - hazardous waste installation – surface impoundment.	£14,219	£4,800	£8,000	£14,401	£2,459	£9,601
1.16.2.1	Section 5.4 (a)(i) and (b)(i) - non-hazardous waste installation – biological treatment.	£13,984	£4,196	£6,992	£12,586	£2,459	£8,390
1.16.2.2	Section 5.4 (a)(ii) - non-hazardous waste installation – physico-chemical treatment for disposal.	£13,443	£4,196	£6,992	£12,586	£2,459	£8,390

1.16.2.3	Section 5.4 (a)(iii) and (b)(ii) - non-hazardous waste installation – pre-treatment for incineration or co-incineration.	£13,288	£4,196	£6,992	£12,586	£2,459	£8,390
1.16.2.4	Section 5.4(a) (iv) and (b)(iii) - non-hazardous waste installation – treatment of slags and ashes.	£12,357	£4,196	£6,992	£12,586	£2,459	£8,390
1.16.2.5	Section 5.4 (a)(v) and (b)(iv) - non-hazardous waste installation – treatment in shredders of metal waste, including WEEE and end of life vehicles and their components.	£12,357	£4,196	£6,992	£12,586	£2,459	£8,390
1.16.3	Section 5.5 and 5.7 - fuel production from waste or treatment of waste water.	£13,519	£4,056	£6,760	£12,167	£2,459	£8,111
1.16.4	Section 5.6 - temporary or underground storage of hazardous waste.	£13,519	£4,056	£6,760	£12,167	£2,459	£8,111
1.16.5	Hazardous waste transfer station.	£7,969	£2,391	£3,984	£7,172	£2,529	£4,781

1.16.6	Household, commercial and industrial waste transfer station; includes assessment of fire prevention plan and odour management plan.	£9,176	£2,753	£4,588	£8,258	£2,529	£5,506
1.16.7	Clinical waste transfer station.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.8	Household waste amenity site taking non-hazardous waste only; includes assessment of fire prevention plan and odour management plan.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.9	Household waste amenity site taking hazardous waste; includes assessment of fire prevention plan and odour management plan.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.10	Transfer station taking non-biodegradable wastes.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.11	Material recycling facility.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.12	Physical treatment of non-hazardous waste.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.13	Physical treatment of hazardous waste.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758

1.16.14	Physical and chemical treatment of waste.	£7,930	£2,379	£3,965	£7,137	£2,529	£4,758
1.16.15	Metal recycling site - vehicle dismantling.	£8,840	£2,652	£4,420	£7,956	£2,529	£5,304
1.16.16	Metal recycling site - mixed metals.	£9,463	£2,838	£4,732	£8,517	£2,529	£5,678
1.16.17	Chemical treatment of waste.	£8,116	£2,435	£4,058	£7,304	£2,529	£4,870
1.16.18	Composting facility; includes assessment of odour management plan.	£11,465	£3,440	£5,732	£10,318	£2,529	£6,879
1.16.19	Biological treatment of waste, other than composting; includes assessment of odour management plan.	£10,141	£3,042	£5,070	£9,126	£2,529	£6,084
1.16.20	SR 2015 No.12 - 75kte: non-hazardous mechanical biological (aerobic) treatment facility; includes assessment of fire prevention plan. (Superseded) SR 2008 No.18 - 75kte: non-hazardous mechanical biological (aerobic) treatment facility (existing permits).	£3,926	£1,178	N/A	N/A	£2,529	£2,356

1.16.21	SR 2008 No.19 - 75kte: non-hazardous sludge biological chemical and physical treatment site.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.22	SR 2008 No.19 - 250kte: non-hazardous sludge biological chemical and physical treatment site.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.23	SR 2009 No.4 - combustion of biogas in engines at a sewage treatment works.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.24	SR 2010 No.14 - 500t: composting biodegradable waste.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.25	SR 2010 No.18 - storage and treatment of dredgings for recovery.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.26	SR 2011 No.1 - 500t: composting biodegradable waste (in open and closed systems).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.27	SR 2012 No.3 - composting in closed systems.	£2,641	£792	N/A	N/A	£2,529	£1,585

1.16.28	SR 2012 No.7 - composting in open systems. (Superseded) SR 2008 No.16 - 25kte and 75kte: composting in open systems (existing permits).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.29	SR 2012 No.10 - on-farm anaerobic digestion facility using farm wastes only, including use of the resultant biogas.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.30	(Superseded) SR 2008 No.17 - 75kte: composting in closed systems (in-vessel composting).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.31	(Superseded) SR 2010 No.15 - anaerobic digestion facility including use of the resultant biogas.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.32	(Superseded) SR 2010 No.16 - on-farm anaerobic digestion facility.	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.33	SR 2012 No.12 - anaerobic facility including the use of the resultant biogas (waste recovery operation).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.34	SR 2012 No.4 - composting in closed systems (installation).	£2,641	£792	N/A	N/A	£2,529	£1,585

1.16.35	SR 2012 No.8 – composting in open systems (installation).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.36	SR 2012 No.9 - on-farm anaerobic digestion using farm wastes (installation).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.37	SR 2012 No.11 - anaerobic digestion facility including use of the resultant biogas (installation).	£2,641	£792	N/A	N/A	£2,529	£1,585
1.16.38	SR 2015 No.4 - 75kte: household, commercial and industrial waste transfer station; includes assessment of fire prevention plan. (Superseded) SR 2008 No.1 - 75kte: household, commercial and industrial waste transfer station (existing permits).	£3,926	£1,178	N/A	N/A	£2,529	£2,356

Ref	Plan or assessment	Charge
1.19.1	Waste recovery plan or variation or revision of a waste recovery plan.	£1,231
1.19.2	Habitats assessment (except where the application activity is a flood risk activity).	£779
1.19.3	Fire prevention plan (except where the application activity is a farming installation).	£1,241
1.19.4	Pests management plan (except where the application activity is a farming installation).	£1,241
1.19.5	Emissions management plan (except where the application activity is a farming installation).	£1,241
1.19.6	Odour management plan (except where the application activity is a farming installation).	£1,246
1.19.7	Noise and vibration management plan (except where the application activity is a farming installation).	£1,246
1.19.8	Ammonia modelling assessment.	£620
1.19.9	Dust and bio-aerosol management plan.	£620

PART 3

Subsistence Charge Table

1. This is the Subsistence Charge Table referred to in this Scheme –

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
2.1.1	SR 2015 No.26 - temporary dewatering affecting up to 20 metres of a main river. SR 2015 No.27 - constructing an outfall pipe of 300 millimetres to 500 millimetres diameter. SR 2015 No.28 - installing a clear span bridge on a main river. SR 2015 No.29 - temporary storage within the flood plain of a main river. SR 2015 No.30 - temporary diversion of a main river. SR 2015 No.31 - channel habitat structure made of natural materials. SR 2015 No.32 - installing an access culvert of no more than 5 metres length. SR 2015 No.33 - repairing and protecting up to 20 metres of the bank of a main river. SR 2015 No.34 - temporary scaffolding affecting up to 20 metres length of a main river.	£68

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
	<p>SR 2015 No.35 - excavating a wetland or pond in a main river floodplain.</p> <p>SR 2015 No.36 - installing and using site investigation boreholes and temporary trial pits within a main river floodplain for a period of up to 4 weeks.</p> <p>SR 2015 No.38 - removing a total of 100 metres of exposed gravel from bars and shoals.</p> <p>Non-commercial activities undertaken for the purpose of environmental improvement.</p> <p>Works within the curtilage of a dwelling undertaken by or on behalf of the householder under permitted development rights.</p> <p>An activity not falling within the description of any other activity in Table 1.1 and which would be an exempt flood risk activity but for the fact that it does not satisfy the conditions set out paragraphs 1(3)(a) or 1(3)(d) of Part 4 to Schedule 3 of the Regulations.</p> <p>An activity which would be a standard facility but for the fact that it would not comply with condition 2.2.3 in the relevant standard rules.</p> <p>Steps, ramps and other similar structures excavated into the existing bank profile.</p> <p>Activities carried out within 8 metres of the bank of a non-tidal main river (or within 8 metres of a culvert or flood defence structure on that river) or within 16 metres of the bank of a tidal main river (or within 16 metres of any flood defence structure or culvert on that river).</p> <p>Installation of cattle gates across a watercourse.</p> <p>Minor refurbishment and alterations of existing structures.</p>	

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
	Excavation of site investigation boreholes and trial pits in the floodplain.	
2.1.2	<p>Temporary storage in the floodplain.</p> <p>Temporary ground level raising.</p> <p>Creation of new or improved tracks or paths which require land profiling.</p> <p>The temporary dewatering of a work area.</p> <p>The construction and use of service crossings within an existing structure.</p> <p>Installation of outfalls within engineered banks.</p> <p>Installation of outfalls within natural banks.</p> <p>Maintenance of raised river or sea defences.</p> <p>Maintenance of reservoir banks.</p> <p>Culvert lining.</p> <p>Construction of jetties (other than jetties likely to endanger the stability of, cause damage to, reduce the effectiveness of or interfere with the Agency's access to or along a flood defence, river control works, sea defence, culvert or remote defence).</p> <p>Installation of temporary floating structures (including pontoons and rafts).</p> <p>Construction of service crossings.</p>	£271

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
	<p>Installation of temporary scaffolding.</p> <p>Construction of footbridge(s).</p> <p>Construction of steps, ramps or similar structures on natural banks other than flood defences.</p> <p>Construction of steps, ramps or similar structures on engineered banks other than flood defences.</p> <p>Soft engineered bank protection works.</p> <p>Undertaking bank re-profiling work.</p> <p>Excavations (other than site investigation boreholes and trial pits) in the floodplain.</p> <p>Construction of moorings.</p> <p>Installation of in-channel structures not falling within the description of any other activity and affecting less than 25% of the channel width.</p> <p>Construction of steps, ramps or similar structures on flood defences.</p> <p>Installation of a temporary culvert.</p> <p>Like-for-like replacement of soft engineered bank protection works.</p> <p>Removal of silt, sand, gravel or other material from the bed of a main river (but excluding the subsequent use, treatment, and recovery or disposal of the dredgings).</p> <p>Movement of gravel within a main river channel.</p>	

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
	<p>Construction of a temporary bypass channel.</p> <p>Construction of new bed reinforcements or the replacement or removal of existing bed reinforcements.</p> <p>Construction of new hard engineered bank protection works.</p> <p>Like-for-like replacement of hard engineered bank protection works.</p> <p>Installation of in-channel structures not falling within the description of any other activity and affecting over 25% of the channel width.</p> <p>Gravel installation.</p> <p>Construction of bridges for vehicle access.</p> <p>Alteration or replacement of culverts.</p> <p>Installation of a permanent bypass channel with a total length of less than 30 metres.</p> <p>Installation of a new, permanent culvert with a length of less than 5 metres.</p> <p>Alteration of in-channel impounding or flow regulation structures.</p> <p>Construction of flood defences with a total length less than 100 metres.</p> <p>Permanent ground level raising.</p> <p>Construction of bridges over or on a flood defence.</p>	

Table 2.1 Flood risk activities		
Ref	Activity	Subsistence activity charge
	<p>Works to remove in-channel structures.</p> <p>Construction of foreshore pipelines and manholes (likely to endanger the stability of, cause damage to, reduce the effectiveness of or interfere with the Agency's access to or along a flood defence, river control works, sea defence, culvert or remote defence).</p>	
2.1.3	<p>Construction of a permanent culvert with a length of 5 metres or more.</p> <p>Construction of a bypass channel with a total length of 30 metres or more.</p> <p>Works to widen, deepen or straighten a channel.</p> <p>Construction of flood defences with a total length of 100 metres or more.</p> <p>Construction of permanent in-channel impounding or flow regulation structures.</p> <p>Construction of reservoir spillways or compensation flow channels.</p>	£373

Table 2.2 – Radioactive Substance Activities

Ref	Activity	Subsistence activity charge
2.2.1	SR 2010 No.1 - category 5 sealed radioactive sources standard rules.	£486
2.2.2	Keeping or using category 5 sealed sources, including the accumulation and/or disposal of waste sealed sources.	£486
2.2.3	Keeping or using sources of similar potential hazard to high-activity sealed sources including sources in reference 2.2.2.	£1,959
2.2.4	Keeping or using high-activity sealed sources including sources in references 2.2.2 and 2.2.3.	£3,555
2.2.5	Keeping or using unsealed radioactive sources only.	£486
2.2.6	Keeping or use of unsealed radioactive sources and subsequent disposal only by transfer of radioactive waste – not high complexity.	£1,519
2.2.7	Keeping or use of unsealed radioactive sources and subsequent disposal of radioactive waste (including disposal by way of transfer) – not high complexity.	£2,035
2.2.8	Keeping or use of unsealed radioactive sources and subsequent disposal of radioactive waste (including disposal by way of transfer) – high complexity.	£3,977
2.2.9	SR 2014 No.4 - NORM waste from oil and gas production. SR 2017 No.1 - Unintentional receipt of radioactive materials and radioactive waste by the operator of any facility which uses a radiation detection system.	£1,520

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.1	Sewage effluent discharge with a volume greater than 500,000m ³ a day with OSM.	£101,864
2.3.2	Sewage effluent discharge with a volume greater than 150,000m ³ a day and up to and including 500,000m ³ a day.	£58,719
2.3.3	Sewage effluent discharge with a volume greater than 150,000m ³ a day and up to and including 500,000m ³ a day with OSM.	£55,491
2.3.4	Sewage effluent discharge with a volume greater than 50,000m ³ a day and up to including 150,000m ³ a day.	£34,985
2.3.5	Sewage effluent discharge with a volume greater than 50,000m ³ a day and up to and including 150,000m ³ a day with OSM.	£31,753
2.3.6	Sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day.	£18,951
2.3.7	Sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day with OSM.	£17,335
2.3.8	Sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000 m ³ a day.	£8,865
2.3.9	Sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000 m ³ a day with OSM.	£8,057
2.3.10	Sewage effluent discharge with a volume greater than 500m ³ a day and up to and including 1,000m ³ a day.	£4,301
2.3.11	Sewage effluent discharge with a volume greater than 500m ³ a day and up to and including 1,000 m ³ a day with OSM.	£3,493

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.12	Sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 500m ³ a day.	£3,269
2.3.13	Sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 500m ³ a day with OSM.	£2,461
2.3.14	Sewage effluent discharge with a volume greater than 50m ³ a day and up to and including 100m ³ a day.	£1,861
2.3.15	Sewage effluent discharge with a volume greater than 50m ³ a day and up to and including 100m ³ a day with OSM.	£1,592
2.3.16	Sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 50m ³ a day. Specified discharge consisting of sewage effluent.	£1,580
2.3.17	Sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 50 m ³ a day with OSM. Specified discharge consisting of sewage effluent with OSM.	£1,310
2.3.18	Sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day. SR 2010 No.3 - discharge to surface water: secondary treated domestic sewage with a maximum daily volume between 5 and 20 m ³ a day.	£890
2.3.19	Sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day with OSM.	£823
2.3.20	Sewage effluent discharge with a volume up to 5m ³ a day.	£251
2.3.21	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 50,000m ³ a day.	£54,557

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.22	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 50,000m ³ a day with OSM.	£51,451
2.3.23	Trade effluent and/or non-sewage effluent discharge with a volume greater than 50,000m ³ a day.	£27,757
2.3.24	Trade effluent and/or non-sewage effluent discharge with a volume greater than 50,000m ³ a day with OSM.	£26,203
2.3.25	Trade effluent and/or non-sewage effluent discharge with a volume greater than 50,000m ³ a day with no numeric permit conditions.	£17,243
2.3.26	Trade effluent and/or non-sewage effluent discharge with a volume greater than 50,000m ³ a day with no numeric permit conditions with OSM.	£16,311
2.3.27	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day.	£25,348
2.3.28	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day with OSM.	£23,795
2.3.29	Trade effluent and/or non-sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day.	£13,028
2.3.30	Trade effluent and/or non-sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day with OSM.	£12,252
2.3.31	Trade effluent and/or non-sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day with no numeric permit conditions.	£8,257

Table 2.3 - Water discharge and groundwater activities		
Ref	Activity	Subsistence activity charge
2.3.32	Trade effluent and/or non-sewage effluent discharge with a volume greater than 10,000m ³ a day and up to and including 50,000m ³ a day with no numeric permit conditions with OSM.	£7,791
2.3.33	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day.	£11,318
2.3.34	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day with OSM.	£10,542
2.3.35	Trade effluent and/or non-sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day.	£5,871
2.3.36	Trade effluent and/or non-sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day with OSM.	£5,483
2.3.37	Trade effluent and/or non-sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day with no numeric permit conditions.	£3,849
2.3.38	Trade effluent and/or non-sewage effluent discharge with a volume greater than 1,000m ³ a day and up to and including 10,000m ³ a day with no numeric permit conditions with OSM.	£3,616
2.3.39	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day.	£8,279
2.3.40	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day with OSM.	£7,502

Table 2.3 - Water discharge and groundwater activities		
Ref	Activity	Subsistence activity charge
2.3.41	Trade effluent and/or non-sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day.	£4,247
2.3.42	Trade effluent and/or non-sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day with OSM.	£3,859
2.3.43	Trade effluent and/or non-sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day with no numeric permit conditions.	£2,843
2.3.44	Trade effluent and/or non-sewage effluent discharge with a volume greater than 100m ³ a day and up to and including 1,000m ³ a day with no numeric permit conditions with OSM.	£2,610
2.3.45	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 20m ³ a day and up to and including 100 m ³ a day. Specified discharge consisting of trade effluent and/or non-sewage effluent discharge with specific substances.	£3,486
2.3.46	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 20m ³ a day and up to and including 100m ³ a day with OSM. Specified discharge consisting of trade effluent and/or non-sewage effluent discharge with specific substances with OSM.	£3,190
2.3.47	Trade effluent and/or non-sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 100m ³ a day. Specified discharge consisting of trade effluent or non-sewage effluent.	£1,750

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.48	Trade effluent and/or non-sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 100m ³ a day with OSM. Specified discharge consisting of trade effluent or no-sewage effluent with OSM.	£1,620
2.3.49	Trade effluent and/or non-sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 100m ³ a day with no numeric permit conditions. Specified discharge consisting of trade effluent or non-sewage effluent with no numeric permit conditions.	£1,299
2.3.50	Trade effluent and/or non-sewage effluent discharge with a volume greater than 20m ³ a day and up to and including 100m ³ a day with no numeric permit conditions, with OSM. Specified discharge consisting of trade effluent and/or non-sewage effluent discharge with no numeric permit conditions, with OSM.	£1,221
2.3.51	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 5m ³ a day and up to and including 20m ³ a day.	£1,879
2.3.52	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume greater than 5m ³ a day and up to and including 20m ³ a day, with OSM.	£1,815
2.3.53	Trade effluent and/or non-sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day.	£856

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.54	Trade effluent and/or non-sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day with OSM.	£824
2.3.55	Trade effluent and/or non-sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day with no numeric permit conditions.	£639
2.3.56	Trade effluent and/or non-sewage effluent discharge with a volume greater than 5m ³ a day and up to and including 20m ³ a day with no numeric permit conditions, with OSM.	£620
2.3.57	Trade effluent and/or non-sewage effluent discharge with specific substances with a volume up to 5m ³ a day.	£1,479
2.3.58	Trade effluent and/or non-sewage effluent discharge with a volume up to 5m ³ a day.	£394
2.3.59	Trade effluent and/or non-sewage effluent discharge with a volume up to 5m ³ a day with no numeric permit conditions.	£250
2.3.60	Land spreading of up to and including 5m ³ a year of undiluted working strength waste/used sheep dip.	£273
2.3.61	Land spreading of greater than 5m ³ a year undiluted working strength waste/used sheep dip.	£917
2.3.62	Land spreading of any volume of waste/used pesticides a year.	£342
2.3.63	Non-waste solid deposits into/onto land up to and including 100 tonnes a year.	£256
2.3.64	Non-waste solid deposits into/onto land greater than 100 tonnes and up to and including 15,000 tonnes a year.	£812
2.3.65	Non-waste solid deposits into/onto land greater than 15,000 tonnes a year.	£4,767
2.3.66	Sewerage network and sewage treatment works combined sewer overflows.	£1,166

Table 2.3 - Water discharge and groundwater activities

Ref	Activity	Subsistence activity charge
2.3.67	Emergency overflow discharge.	£373
2.3.68	Rainfall related discharge with no specific substances with a volume greater than 50,000m ³ a day.	£3,371
2.3.69	Rainfall related discharge with no specific substances with a volume greater than 1,000m ³ a day and up to and including 50,000m ³ a day.	£1,686
2.3.70	Rainfall related discharges with no specific substances with a volume greater than 20m ³ a day and up to and including 1,000m ³ a day. Specified discharge which is rainfall related.	£718
2.3.71	Rainfall related discharge with no specific substances with a volume up to and including 20m ³ a day.	£194
2.3.72	Aquaculture discharge with a volume greater than 50,000m ³ a day.	£3,491
2.3.73	Aquaculture discharge with a volume greater than 100m ³ a day and up to and including 50,000m ³ a day.	£1,092
2.3.74	Aquaculture discharge with a volume up to and including 100m ³ a day. Specified discharge consisting of aquaculture discharge.	£188
2.3.75	Cooling water discharge with a volume greater than 10,000m ³ a day.	£3,262
2.3.76	Cooling water discharge with a volume greater than 100m ³ a day and up to and including 10,000m ³ a day. SR 2010 No.2 - discharge to surface water: cooling water and heat exchangers.	£726

Table 2.3 - Water discharge and groundwater activities		
Ref	Activity	Subsistence activity charge
2.3.77	Cooling water discharge with a volume up to 100m ³ a day. Specified discharge consisting of cooling water.	£186
2.3.78	Thermal discharges with a volume greater than 100m ³ a day.	£129

Table 2.4 – Chemicals		
Ref	Activity	Subsistence activity charge
2.4.1	Section 4.1, 4.2 or 4.3 – organic or inorganic chemical production, or chemical fertiliser production, involving continuous operations, discharging to a water course via an on-site effluent treatment plant, and including an incineration plant, multiple combustion plants, or the treatment of hazardous waste not produced on site.	£42,717
2.4.2	Section 4.1, 4.2 or 4.3 -- organic or inorganic chemical production, or chemical fertiliser production, involving continuous operations, discharging to a water course via an on a site effluent treatment plant and including no more than one combustion plant.	£30,599
2.4.3	Section 4.1, 4.2, 4.3 or 4.5 – organic or inorganic chemical production, or chemical fertiliser or pharmaceutical production, involving batch manufacture or semi-continuous operations and discharging to a water course via an on-site effluent treatment plant.	£17,234

Table 2.4 – Chemicals

Ref	Activity	Subsistence activity charge
2.4.4	Section 4.1, 4.2 or 4.3 – organic or inorganic chemical production, or chemical fertiliser production, involving large scale continuous operations and discharging to sewer.	£27,150
2.4.5	Section 4.1, 4.2, 4.3 or 4.5 – organic or inorganic chemical production, or chemical fertiliser or pharmaceutical production, involving batch or semi- continuous operations and discharging to sewer, where the installation includes more than three Chapter 4 activities.	£17,835
2.4.6	Section 4.1, 4.2, 4.3 or 4.5 - organic or inorganic chemical production, or chemical fertiliser or pharmaceutical production, involving batch or semi- continuous operations and discharging to sewer.	£12,806
2.4.7	Section 4.1, 4.2, 4.3 or 4.5 - organic or inorganic chemical production, or chemical fertiliser or pharmaceutical production, involving small scale (the manufacture of products using reactors with a nominal capacity of 1,000 litres or less) or simple batch operations (involving raw material additives and & simple processing, with a discharge to holding tank, drums or intermediate bulk container).	£9,648
2.4.8	Section 4.1 or 4.2 - anaerobic digestion (designed to be fed with non-waste crops).	£8,674
2.4.9	Section 4.4 – large scale plant health products & biocides -- production of 2000 tonnes or more a year.	£13,521
2.4.10	Section 4.4 - plant health products & biocides – production of less than 2000 tonnes a year.	£6,443
2.4.11	Section 4.6 or 4.7 - explosives production or activities involving carbon disulphide or ammonia.	£5,186
2.4.12	Chemical production incidental to the primary purpose of the installation and not for commercial purposes.	£3,225

Table 2.5 – Refineries		
Ref	Activity	Subsistence activity charge
2.5.1	Section 1.2A(1)(d) - oil refining; including refinery combustion plant, incineration of refinery waste streams, production of petroleum coke and any on site effluent treatment plant and cooling water activities.	£100,385
2.5.2	Section 1.2A(1)(a) - gas refining; including refinery combustion plant, incineration of refinery waste streams and any on site effluent treatment plant and cooling water activities.	£25,731
2.5.3	Section 1.2A(1)(f) - petroleum distillation; including plant for refining of liquid petroleum residues and bitumen distillation and any on site effluent treatment plant and cooling water activities.	£21,710
2.5.4	Section 1.2A(1)(e) - crude oil storage with a tank storage capacity of 500 tonnes or more; including any on site effluent treatment plant and cooling water activities.	£19,945
2.5.5	Section 1.2A(1)(a) or (f) - gathering station; including any on site effluent treatment plant and cooling water activities.	£30,438
2.5.6	Section 1.2 – production of synthetic fuels and carbonisation plant; including any on site effluent treatment plant and cooling water activities.	£4,352

Table 2.6 – Energy from Waste		
Ref	Activity	Subsistence activity charge

2.8.8	SR 2015 No. 2 - storage and handling of up to 500 tonnes crude oil.	£4,541
2.8.9	Storage and handling of crude oil or petroleum with a capacity of less than 500 tonnes.	£6,587

Table 2.9 – Paper, Pulp, Carbon, Tar and Bitumen		
Ref	Activity	Subsistence activity charge
2.9.1	Section 6.4 - dye house and/or finishing site including any on site effluent treatment plant and cooling water activities.	£4,352
2.9.2	Section 6.4 - wool scouring including any on site effluent treatment plant and cooling water activities.	£5,382
2.9.3	Section 6.4 - carpet manufacturing with integrated dye house including any on site effluent treatment plant and cooling water activities.	£3,323
2.9.4	Section 6.1 - integrated or multi product mill with 2 additional components.	£14,226
2.9.5	Section 6.1 - integrated or multi product mill with 3 additional components.	£15,694
2.9.6	Section 6.1 - integrated or multi product mill with 4 four additional components.	£17,168

Table 2.9 – Paper, Pulp, Carbon, Tar and Bitumen

Ref	Activity	Subsistence activity charge
2.9.7	Section 6.1 - paper and pulp activity including a discharge to surface water.	£9,171
2.9.8	Section 6.1 - paper and pulp activity including a discharge to surface water and 1 additional component.	£10,152
2.9.9	Section 6.1 - paper and pulp activity including a discharge to surface water and 3 additional components.	£12,309
2.9.10	Section 6.1 - paper and pulp activity including a discharge to surface water and more than 4 additional components.	£14,270
2.9.11	Section 6.1 - paper and pulp activity including a discharge to sewer.	£5,052
2.9.12	Section 6.1 - paper and pulp activity including a discharge to sewer and 1 additional component.	£6,033
2.9.13	Section 6.1 - paper and pulp activity including a discharge to sewer and 2 additional components.	£7,014
2.9.14	Section 6.1 - paper and pulp activity including a discharge to sewer and more than 3 additional components.	£7,994

Table 2.10 – Combustion and Power

Ref	Activity	Subsistence activity charge
2.10.1	Section 1.1 – coal fired combustion plant; including fuel storage and handling, gas abatement and any effluent treatment plant and cooling water activities, gas turbines, combined heat and power plants or engines, mechanical drive gas turbines and boilers.	£29,734
2.10.2	Section 1.1 - biomass combustion plant; including fuel storage and handling, gas abatement and any effluent treatment plant and cooling water activities, gas turbines, combined heat and power plant or engines, mechanical drive gas turbines and boilers.	£15,133
2.10.3	Section 1.1 – gas turbine, combined heat and power plant or engine including; fuel storage and gas abatement and any effluent treatment plant and cooling water activities, mechanical drive gas turbines and boilers.	£11,879
2.10.4	Section 1.1 – compressor or boiler; including any fuel storage and gas abatement, effluent treatment plant and cooling water activities.	£11,776
2.10.5	Section 5.2 – landfill only serving and associated with an operating and permitted combustion plant; including any effluent treatment plant or sludge lagoon activities; excluding pulverised fuel ash treatment activities	£6,443
2.10.6	Section 1.1 – odourisation plant	£1,572
2.10.7	SR 2018 No. 1 – specified generator, Tranche B low risk, base load operation 1 – 5 MW.	£246
2.10.8	SR 2018 No.2 – specified generator, Tranche B low risk, base load operation 0-2 MW with high background NOx.	£246
2.10.9	SR 2018 No.3 – specified generator, Tranche B low risk, base load operation 0-2 MW in Air Quality Management Areas or high ambient NOx.	£246

2.10.10	SR 2018 No.4 – specified generator Tranche B low risk, 0-20 MW of gas or abated diesel engines operated less than 500 hours a year.	£246
2.10.11	SR 2018 No.5 – specified generator, Tranche B low risk, 0-20 MW of gas or abated diesel engines operated less than 1,500 hours a year.	£246
2.10.12	SR 2018 No.6 – specified generator, Tranche B low risk, base load operation 0-1.3 MW with high background NOx.	£246
2.10.13	SR 2018 No.7 – new, low risk, stationary medium combustion plant 1<20 MW – one plant.	£194
2.10.14	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to three plants.	£256
2.10.15	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to five plants.	£342
2.10.16	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to eight plants.	£394
2.10.17	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to ten plants.	£520
2.10.18	SR 2018 No.7 - new, low risk, stationary medium combustion plant 1<20 MW – up to fifteen plants.	£620
2.10.19	SR 2018 No.8 – mobile plant specified generator, Tranche B low risk, base load operation <1-2 MW.	£273
2.10.20	SR 2018 No.9 – specified generator, Tranche B low risk, base load operation between 0-0.9 MW.	£246

Table 2.11 – Mining Wastes		
Ref	Activity	Subsistence activity charge
2.11.1	SR 2009 No.8 – management of inert extractive waste.	£246

Table 2.11 – Mining Wastes		
Ref	Activity	Subsistence activity charge
	Management of inert extractive waste, including with a point source discharge or by passive treatment.	
2.11.2	Management of non-inert non-hazardous extractive waste.	£1,410
2.11.3	Management of any extractive waste in a Category A mining waste facility. Management of hazardous extractive waste.	£7,813

Table 2.12 – Metals		
Ref	Activity	Subsistence activity charge
2.12.1	Section 2.1 - producing, melting or refining iron or steel in an integrated works; including all activities which are part of the installation such as any on site effluent treatment plant and cooling water activities.	£180,458
2.12.2	Section 2.1 - producing, melting or refining iron or steel in an electric arc furnace with a holding capacity of 7 tonnes or more; producing non-ferrous metals such as aluminium from bauxite or prebaked anodes produced in an aluminium smelter; processes that may form integrated installations using lead, zinc or precious metals with the production of copper; including any on site effluent treatment plant and cooling water activities; excluding any activities involving the	£41,411

Table 2.12 – Metals		
Ref	Activity	Subsistence activity charge
	treatment of hazardous waste not produced on site.	
2.12.3	Section 2.1 - processing ferrous metals and their alloys by using hot-rolling mills with a production capacity of more than 30 tonnes of crude steel per hour; including any on site effluent treatment plant and cooling water activities.	£10,040
2.12.4	Section 2.1 - processing ferrous metals and their alloys by using hot-rolling mills with a production capacity of more than 20 tonnes but less than or equal to 30 tonnes of crude steel per hour; including any on site effluent treatment plant and cooling water activities.	£5,137
2.12.5	Section 2.1 - loading, unloading and handling of more than 500,000 tonnes a year of iron ore; including any on site effluent treatment plant and cooling water activities; excluding any activities involving burnt pyrites or mining operations.	£8,159
2.12.6	Section 2.2 - production of a range of different non-ferrous metals from complex raw materials such as copper, lead, zinc and precious metals; including any on site effluent treatment plant and cooling water activities.	£11,992
2.12.7	Section 2.2 - production of non-ferrous metals not described in this reference 2.12.7; including any on site effluent treatment plant and cooling water activities.	£10,187
2.12.8	Section 2.2 - melting non-ferrous metals, including recovered products, the alloyage of non-ferrous metals and the operation of non-ferrous metals foundries, with a melting capacity greater than 4 tonnes per day for lead and cadmium or greater than 20 tonnes per day for all other metals; including any on site effluent treatment plant and cooling water activities; excluding any activities involving the treatment of hazardous waste not produced on site.	£8,295
2.12.9	Section 2.3 - surface treatment of metals and plastics - consisting of more than one activity falling within Part 2 of Schedule 1 to the Regulations; or one Section 2.3 Part A(1)(a) activity and one or more waste operation, and using	£3,764

Table 2.12 – Metals		
Ref	Activity	Subsistence activity charge
	over 3 surface treatment techniques, including any on site effluent treatment plant and cooling water activities.	
2.12.10	Section 2.3 - surface treatment of metals and plastics - consisting of more than one Section 2.3 Part A(1)(a) activity and using 2-3 surface treatment of metals techniques, including any on site effluent treatment plant and cooling water activities.	£2,489
2.12.11	Section 2.3 - surface treatment of metals and plastics - consisting of one Section 2.3 Part A(1)(a) activity and using no more than 1 surface treatment of metals technique such as pickling, including any on site effluent treatment plant and cooling water activities.	£1,214

Table 2.13 – Cement, Minerals and Lime		
Ref	Activity	Subsistence activity charge
2.13.1	Section 3.1 - production of cement clinker; including adjacent quarry for raw materials, receipt and storage of alternative raw materials, producing cement clinker in rotary kilns, grinding cement clinker (including imported), storing and dispatch of cement or clinker in bulk or in bags, nodulising cement kiln or by-pass dust and management of site drainage.	£12,541
2.13.2	Section 3.1 - production of cement clinker utilising waste derived fuel; including adjacent quarry for raw materials, receipt and storage of alternative raw materials, producing cement clinker in rotary kilns, grinding cement clinker	£24,564

Table 2.13 – Cement, Minerals and Lime

Ref	Activity	Subsistence activity charge
	(including imported), storing and dispatch of cement or clinker in bulk or in bags, receipt and storage of fuels (including waste derived fuels), nodulising cement kiln or by-pass dust and management of site drainage.	
2.13.3	Section 3.1 - production of lime and lime products; including adjacent quarry for raw materials, receipt and storage of additional raw materials, producing lime in kilns, slaking of lime for making calcium hydroxide or named inorganic salts, preparing and storing products in bulk or in bags and management of site drainage.	£14,610
2.13.4	Section 3.1 - production of lime (dolime); including receipt of raw materials, producing dolime in kilns, grinding of dolomitic products, storing and dispatch of products in bulk or in bags, receipt and storage of fuels (including waste derived fuels), waste storage and handling and management of site drainage.	£23,543
2.13.5	Section 3.1 - production of cement and lime; including production of cement clinker in kilns and manufacturing lime and lime products in kilns as described in references 2.13.2 and 2.13.3 in Table 2.13.	£37,028
2.13.6	Section 3.3 and 3.4 - manufacturing glass or mineral fibre; including receipt of raw materials, melting minerals in a furnace to produce a wool or fibre, producing fibres and products by conversion, drying or finishing, waste handling and management of site drainage.	£10,907
2.13.7	Section 1.1 - manufacture of plasterboard utilising combustion plant with a heating capacity of more than 50 MW; including adjacent quarry for raw materials, receipt on site of recycled gypsum products, production and drying of plasterboard, storing and loading of products in bulk or in bags, waste product handling and management of site drainage.	£10,716
2.13.8	Section 3.6 – brick manufacture; including adjacent quarry for raw materials, receipt and storage of alternative raw materials, producing bricks in kilns, storing and exporting brick products, waste handling and management of site drainage.	£12,726

Table 2.14 – Intensive Pig and Poultry		
Ref	Activity	Subsistence activity charge
2.14.1	Section 6.9 - farming installation; excluding incineration plant.	£2,386
2.14.2	Section 6.9 – farming installation operated by a member of the Agency’s Pig and Poultry Assurance Scheme published on Gov.UK; excluding incineration plant.	£1,444

Table 2.15 – Land Spreading			
Ref	Activity	Subsistence activity charge	Deployment charge

	<p>SR 2015 No.13 - 75kte: vehicle storage depollution and dismantling (authorised treatment) facility.</p> <p>Catalytic converter treatment – less than 10 tonnes per day.</p> <p>Furnace ready metal storage - from 75,000 to 1,000,000 tonnes a year.</p> <p>SR 2009 No.7 - storage of furnace ready scrap metal for recovery.</p>	
2.16.21	<p>Metal recycling - from 5,000 to 25,000 tonnes a year.</p> <p>SR 2011 No.2 - metal recycling site (existing permits).</p> <p>SR 2015 No.16 - metal recycling site.</p> <p>WEEE treatment or transfer – less than 25,000 tonnes a year.</p> <p>End of life vehicle treatment - from 2,500 to 25,000 tonnes a year.</p> <p>Train or boat dismantling – less than 25,000 tonnes a year.</p> <p>Catalytic convertor storage - less than 50 tonnes at any one time.</p> <p>Furnace ready metal storage – less than 75,000 tonnes a year.</p> <p>SR 2008 No.22 - 75kte: storage of furnace ready scrap metal for recovery.</p> <p>Aircraft dismantling.</p>	£1,863
2.16.22	Metal recycling – less than 5,000 tonnes a year.	£971

Table 2.16 – Waste Transfer and Treatment		
Ref	Activity	Subsistence activity charge
	End of life vehicle treatment – less than 2,500 tonnes a year. SR 2011 No.3 - vehicle storage depollution and dismantling (authorised treatment) facility (existing permits). SR 2015 No.17 - vehicle storage depollution and dismantling authorised treatment facility.	

Table 2.16 – Waste Transfer and Treatment		
	Mobile plant	Deployment charge
2.16.23	Mobile plant – treatment of waste (other than land spreading).	£2,999
2.16.24	SR 2008 No.27 – treatment of waste soils and contaminated material.	£2,999
2.16.25	SR 2010 No.11 – treatment of waste to produce soil, soil substitutes and aggregate.	£1519

Ref	Activity	Subsistence activity charge
2.17.1	Section 5.2 – landfill for non-hazardous waste with a separate cell for stable non-reactive hazardous waste, asbestos or gypsum; including landfill gas and leachate management, storage and/ or treatment and landfill restoration.	£18,221
2.17.2	Section 5.2 – landfill for non-hazardous waste and dredging sites subject to the Landfill Directive; including landfill gas and leachate management, storage and/ or treatment and landfill restoration.	£17,632
2.17.3	Section 5.2 – landfill for hazardous waste; including leachate management, storage and/ or treatment and landfill restoration.	£16,946
2.17.4	Section 5.4 - leachate treatment plant with a capacity of 50 tonnes or more a day where not authorised by a landfill permit or a permit authorising the discharge of trade effluent.	£3,328
2.17.5	Leachate treatment plant with a capacity of less than 50 tonnes a day where not authorised by a landfill permit or trade effluent discharge consent.	£1,214
2.17.6	Landfill gas plant at a landfill for hazardous waste and where not authorised by a landfill permit.	£971
2.17.7	Landfill for inert waste; including restoration.	£6,715
2.17.8	Lagoon or dredging site excluded from the Landfill Directive; including restoration.	£4,120
2.17.9	Deposit of waste for recovery and landfill restoration where not authorised by a landfill permit.	£5,166
2.17.10	SR 2015 No.39 - deposit of waste for recovery.	£2,909
2.17.11	Closed landfill that, when operational, was authorised to accept only inert waste, and which is now subject to monitoring requirements.	£1,105

Table 2.17 – Landfill and Deposit for Recovery		
Ref	Activity	Subsistence activity charge
2.17.12	Closed landfill that, when operational, was authorised to accept only inert waste, and which is not now subject to monitoring requirements.	£663
2.17.13	Closed landfill that, when operational, was authorised to accept construction and demolition waste or other non-hazardous non-biodegradable waste, including sites that were authorised to only accept dredging waste.	£1,353
2.17.14	Closed landfill that, when operational, was authorised to accept hazardous and/or non-hazardous waste, and which is now subject to requirements for active management of landfill gas and/or leachate.	£3,161
2.17.15	Closed landfill that, when operational, was authorised to accept hazardous and/or non-hazardous waste, and which is now not subject to requirements for active management of landfill gas and/or leachate.	£1,524
2.17.16	Closed landfill that, when operational, was authorised to accept hazardous and/or non-hazardous waste including sites that were authorised to only accept dredging waste, provided that the permit has been varied to apply aftercare conditions, does not require the active management of landfill gas and/or leachate and only requires the submission of monitoring data once a year.	£1,146

Table 2.18 - Charges Common to more than One Sector

Ref	Activity	Subsistence activity Charge
2.18.1	Stand-alone directly associated activity.	£3,926
2.18.2	Low impact installation.	£819
2.18.3	Local authority activity - Part B activity including any which are also small waste incineration plant.	£1265
2.18.4	Local authority activity - Part A2 activity.	£1610
2.18.5	Local authority activity - small waste incineration plant to which Schedule 13 of the Regulations applies.	£2333

PART 4

Miscellaneous Tables

Interpretation.

1. In this Part–

“NECD substance” means oxides of nitrogen, sulphur dioxide, fine particulates (PM10s used as an indicator for PM2.5s), ammonia, and non-methane volatile organic compounds;

“NMP” means noise and vibration management plan;

“OMP” means odour management plan;

“Pollution Inventory reporting thresholds” means the thresholds with that title published on Gov.UK.

Default Standard Facility Charge Table.

2. This is the Default Standard Facility Charge Table referred to in paragraph 2(1) of this Scheme.

Table A - Charge bands available for a Waste or Installation default standard facility									
Charge Band	Application charge	Charge Band	Transfer charge	Charge Band	Surrender charge	Charge Band	Deployment charge	Charge Band	Subsistence charge
S030A (W)	£400	S035T (W)	£720	S040S (W)	£540	S045C (W)	£410	S030C (W)	£156
S040A (W)	£720	S040T (W)	£980	S045S (W)	£1,540	S060C (W)	£780	S040C (W)	£310
S050A (W)	£980			S050S (W)	£2,540	S070C (W)	£1,000	S050C (W)	£520
S060A (W)	£1,630			S060S (W)	£3,590	S074C (W)	£1,280	S060C (W)	£780
S070A (W)	£1,950					S100C (W)	£2,490	S074C (W)	£1,280
								S080C (W)	£1,580
								S090C (W)	£2,040
								S100C (W)	£2,490
								S120C (W)	£3,420

Table B - Charge bands available for a default standard facility not covered by Table A							
Charge Band	Application charge	Charge Band	Transfer charge	Charge Band	Surrender charge	Charge Band	Subsistence charge
S030A	£390	S035T	£700	S040S	£530	S030C	£152
S040A	£700	S040T	£950	S045S	£1,500	S040C	£300
S050A	£950			S050S	£2,470	S050C	£510
S060A	£1,590			S060S	£3,500	S060C	£760
S070A	£1,900					S074C	£1,250
						S080C	£1,540
						S090C	£1,990
						S100C	£2,420
						S120C	£3,330

Food and Drink Component Table

3. This is the Food and Drink Component Table referred to in paragraph 1(1) of Part 1 of this Schedule –

Component reference	Description	Number of components
Multiple food and drink activities	Where the authorised activities include more than one different activity falling within Part A of Section 6.8.	1 for each different additional activity
Anaerobic digestion	Where the authorised activities include anaerobic digestion, including where used in effluent treatment.	1
Bioethanol plant	Where the authorised activities include bioethanol plant.	1
Section 1.1. - non-large combustion plant	Where the authorised activities include combustion plant falling in Part A of Section 1.1, other than large combustion plant.	3
Section 1.1. - large combustion plant	Where the authorised activities include combustion plant falling in Part A of Section 1.1 which are large combustion plant.	4
Other activities	Where the authorised activities include activities falling in Chapters 2, 3 or 4 of Part 2 to Schedule 1 of the Regulations.	1 per Chapter (3 maximum)
Solvent Emission activity	Where the authorised activities include a solvent emission activity.	1
Waste Incineration	Where the authorised activities include waste incineration plant falling within Part A of Section 5.1.	3
Abatement (air)	Where the principal process emission points require specific abatement for particulates and/or volatile organic compounds, excluding minor emission points such as silo vents.	1 (not additive)

Component reference	Description	Number of components
Abatement (effluent)	Where there is on-site treatment of process effluent, excluding untreated effluent, cooling water, boiler blowdown and incidental discharges such as surface water.	1 - if disposal to sewer or off-site transfer 2 - if disposal to watercourse or soakaway
Odour	Where the authorised activities fall within these sub-sectors - <ul style="list-style-type: none"> • Slaughterhouses; • Rendering and animal by-product processing; • Pet food manufacture; • Sugar beet pulp drying; or where there is an approved OMP or ongoing control is reliant on an OMP.	1
Noise/vibration	Where there is an approved NMP or ongoing control is reliant on an NMP.	1
Air emissions	Where annual mass emissions of an NECD substance from the authorised activities exceeds the Pollution Inventory reporting threshold.	1 per substance (5 maximum)
Resource efficiency	Where any IED BAT reference document that applies to the authorised activities includes an emission level associated with the best available techniques for water consumption.	1

Paper and pulp component table.

4. This is the paper and pulp component table referred to in paragraph 1(1) of Part 1 of this Schedule -

Component reference	Component description	Component
Waste paper and / or card	Where the authorised activities include processing waste paper and/or card.	1
De-inking	Where the authorised activities include de-inking.	1
Section 1.1. - non-large combustion plant	Where the authorised activities include combustion plant falling in Part A of Section 1.1, other than large combustion plant.	1
Section 1.1 - large combustion plant	Where the authorised activities include combustion plant falling in Part A of Section 1.1 which are Large Combustion Plant.	2
Waste incineration plant	Where the authorised activities include waste incineration plant falling within Part A of Section 5.1.	1
Anaerobic digestion	Where the authorised activities include on-site anaerobic digestion plant (where used as a stage in effluent treatment).	1
