

Our modern Industrial Strategy sets out our long-term plan to boost productivity by backing business to create high quality, well-paid jobs throughout the United Kingdom with investment in skills, industries and infrastructure.

Across the GFirst area a partnership of business and civic leaders – alongside other local partners – is working with the government to build on existing strengths, help business to flourish, and grow skills and opportunities for workers across the area.

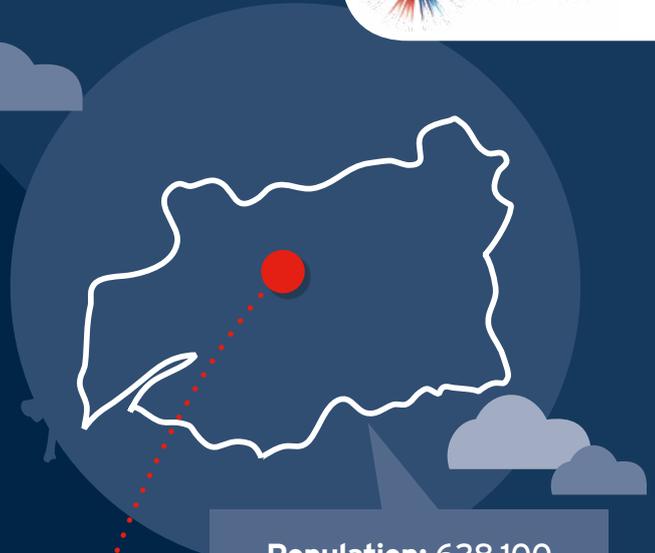

Industrial Strategy highlights include:

 **£3m** investment for Farm491 hub in Cirencester providing high-spec facilities to foster entrepreneurship, ideas and collaboration.

 **£4.3m** for improvements to the A419 at Stonehouse to reduce peak hour congestion.

 **£11m** to accelerate housebuilding by providing the vital infrastructure needed to access new and existing sites.

 **327,100** people in employment, an increase of **30,100** since 2010. **15,300** workers directly benefiting from the National Living and Minimum Wages. **4,930** apprenticeships starts last year.

Population: 628,100
Businesses: 33,520

Case study: UK Cyber Business Park

The UK Cyber Business Park in Cheltenham supports the country's cyber security capability. Co-locating government, academia and industry on a single site, the £22m investment will ensure that this becomes the first facility of its kind in the country, playing a key role in ensuring that the UK remains one of the safest places to be and do business online.

GFirst Local Enterprise Partnership is now working with the government to develop its Local Industrial Strategy.

We have committed more than £45bn to Industrial Strategy programmes supporting research, local infrastructure, training and business growth throughout the United Kingdom. This money is already starting to be spent on the ground.
