

flu: 5 reasons to vaccinate your child

1. Protect your child

The vaccine will help protect your child against flu and serious complications such as bronchitis and pneumonia

2. Protect you, your family and friends

Vaccinating your child will help protect more vulnerable friends and family

3. No injection needed

The nasal spray is painless and easy to have

4. It's better than having flu

The nasal spray helps protect against flu, has been given to millions of children worldwide and has an excellent safety record

5. Avoid costs

If your child gets flu, you may have to take time off work or arrange alternative childcare

Most children have the nasal spray vaccine which is the preferred vaccine. A vaccine injection is also available which does not contain gelatine from pigs (porcine gelatine).
