- 1.1** There were 45,692 housing starts on site and 40,289 housing completions delivered through programmes managed by Homes England in England (excluding London for all programmes except those administered by Homes England on behalf of the Greater London Authority (GLA)) between 1 April 2018 and 31 March 2019. Levels of starts were the highest for 9 years, while completions were the highest for 4 years. Homes England manages the Help to Buy (Equity Loan) scheme in England but the completions are reported by the Ministry of Housing, Communities and Local Government (MHCLG) available from the webpage linked below¹ and are, therefore, excluded from this publication.
- 1.2** 30,563 or 67 per cent of housing starts on site in 2018-19 were for affordable homes. This represents an increase of 10 per cent on the 27,876 affordable homes started in 2017-18. Numbers of affordable starts were the highest for 5 years.
- 1.3** 17,772 affordable homes started in 2018-19 were for Affordable Rent, an increase of 4 per cent on the 17,159 started in 2017-18. A further 11,560 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy. This is an increase of 24 per cent on the 9,311 started in 2017-18. The remaining 1,231 were for Social Rent, a decrease of 12 per cent on the 1,406 started in 2017-18. Of the affordable homes started in 2018-19, the highest delivering programmes were: Shared Ownership and Affordable Homes Programme (SOAHP) 2016-21² with 89 per cent (up from 71 per cent in 2017-18) and the Affordable Homes Programme (AHP) 2015-18³ with 4.6 per cent (down from 21 per cent in 2017-18).
- 1.4** 28,710 (71 per cent) of housing completions in 2018-19 were for affordable homes. This represents an increase of 11 per cent on the 25,802 affordable homes completed in 2017-18 and is the highest for 4 years.
- 1.5** 18,895 affordable homes completed in 2018-19 were for Affordable Rent, a decrease of 4 per cent on the 19,763 completed in 2017-18. A further 8,854 were for Intermediate Affordable Housing schemes, including Shared Ownership and Rent to Buy, an increase of 75 per cent on the 5,069 completed in 2017-18. The remaining 961 were for Social Rent, a 1 per cent reduction on the 970 completed in 2017-18. Of the affordable homes completed in 2018-19, the highest delivering programmes were the SOAHP 2016-21 with 55 per cent and the AHP 2015-18 with 39 per cent.

² The SOAHP was launched in April 2016.

³ The AHP 2015-18 replaced the AHP 2011-15 with effect from 1 April 2015. The AHP 2011-15 includes the following programmes: Affordable Homes Programme, Empty Homes, Homelessness Change, Mortgage Rescue, Short Form Agreements and Traveller Pitch Funding. For more information see Annex 1.

2. Introduction

Geographical coverage

2.1 This release presents the housing starts on site and housing completions delivered by Homes England between 1 April 2009 and 31 March 2019 in England excluding London (for both the current and historical series⁴) with the exception of the Build to Rent, Builders Finance Fund, Get Britain Building and The Home Building Fund – Short Term Fund (HBF – STF)⁵ programmes which are administered by Homes England on behalf of the Greater London Authority (GLA) and where delivery covers all of England including London.

Purposes and uses

2.2 The figures in this release show the supply of affordable and market housing delivered through Homes England's programmes⁶ with the exception of Help to Buy (Equity Loan scheme), the statistics for which are published quarterly by MHCLG⁷. Further details on housing types are available in section 6 of this release. MHCLG also publishes annual statistics on affordable housing supply in England⁸ showing the gross annual supply of affordable homes, irrespective of funding mechanism. Further information on the Affordable Housing Supply and Help to Buy releases is provided in section 8 of this release.

2.3 The data in this release are used by MHCLG to monitor delivery of affordable homes as part of the MHCLG business plan (see paragraph 8.3). Homes England uses the data to measure progress towards commitments made in its published Strategic Plan⁹ and its Annual Business Plan. Local authorities also use the data when compiling their annual return to MHCLG for the purpose of calculating the enhancement for affordable housing under the New Homes Bonus (NHB), a grant for local authorities to incentivise new housing supply.

What is included in this release?

2.4 This is the first release of data relating to delivery for the financial year ending 31 March 2019 and covers all current and historical programmes delivered by Homes England (summarised in Annex 1). These include the acquisition of existing land or property as well as new house building, and some programmes provide a mix of affordable and market housing. Affordable housing may be for home ownership (on Shared Ownership or Rent to Buy terms) or for rent.

2.5 Housing starts on site and housing completions are reported for each programme, where applicable.

2.6 A programme breakdown of the data is available in Table 1 of the tables accompanying this release¹⁰. Further information on the accompanying tables is provided in section 4 of this release. Table A of the latest annual statistics on affordable housing supply in England published by MHCLG⁸ shows how Homes

⁴ As housing starts on site and completions are recorded by their location, this release may exclude homes located outside London where the funding was allocated to a local authority district within London.

⁵ The Home Building Fund – Short Term Fund was launched on 3 October 2016 and includes the Builders Finance Fund.

England programmes relate to the statistics on affordable housing published by MHCLG.

How is new subsidised housing provided?

- 2.7** Affordable homes delivered through Homes England programmes are funded by central government. The funding is administered by Homes England to fund investment partners (including private registered providers, house builders, community groups and local authorities) to deliver affordable housing.
- 2.8** With the exception of the Single Land Programme (SLP), funding for all programmes is allocated through an application/bidding process based on the assessment eligibility/criteria for each programme. Funding is paid in accordance with the contractual agreement for each programme. Investment for projects delivered under the SLP is determined in accordance with Homes England's Financial Framework¹¹.

London

- 2.9** Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes housing starts on site and completions for London, except where Homes England is administering a programme on behalf of the GLA. The historical series for London, which reflects past delivery by Homes England, is included in Homes England's housing statistics published on 12 June 2012 (revised 24 August 2012) available from the housing statistics page on the Homes England section of GOV.UK¹².
- 2.10** MHCLG has combined the affordable housing statistics in this release with the GLA's affordable housing statistics to produce Table 1012 showing total affordable housing starts on site and completions delivered nationally under the affordable housing programmes of Homes England and the GLA¹³. This table excludes additional affordable housing delivery reported annually through local authority returns, which are included in MHCLG's full annual release on affordable housing supply in England¹⁴. The table includes any revisions made to London data since it was published by Homes England on 12 June 2012 (revised 24 August 2012). Further details are provided in section 8 of this release.

¹ Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes housing starts on site and completions for London (current and historical series) except for delivery in London under the Build to Rent, Builders Finance Fund, Get Britain Building and The Home Building Fund – Short Term Fund (HBF – STF) programmes which are administered by Homes England on behalf of the GLA. As housing starts on site and completions are recorded by their location, they may exclude homes located outside London where the funding was allocated to a local authority district within London. The historical series for London included in Homes England's housing statistics published on 12 June 2012 (revised 24 August 2012) is available from: <https://www.gov.uk/government/collections/housing-statistics>

² Figures by local authority and Homes England's operating areas are available in the accompanying tables.

³ Total affordable housing is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership.

⁴ The market units delivered under the Accelerated Land Disposal, Build to Rent, Builders Finance Fund, Economic Assets, Get Britain Building, Kickstart Housing Delivery, Property and Regeneration, Single Land and the HBF – STF programmes may include some starts on site and completions which are made available at below market price or rents but do not meet the definition for affordable housing.

⁵ To ensure consistent reporting with completions, with effect from 1 April 2014 the range of products reported for affordable housing starts on site includes the start on site for new build homes where the procurement route is such that the provider purchases the home at completion. For reporting purposes, the start on site date is taken as the date of completion.

Chart 1a: Housing starts on site

Chart 1b: Affordable Housing starts on site

In the period 1 April 2018 to 31 March 2019 (financial year 2018-19):

- 3.1** A total of 45,692 homes started on site, representing an increase of 2,963 or 7 per cent compared to 42,729 started in 2017-18. This has been the fourth consecutive year that total starts have increased, while the total is the highest for nine years.
- 3.2** 30,563 homes started were for affordable housing, representing an increase of 2,687 or 10 per cent compared to 27,876 started in 2017-18. This is the highest level for four years.
- 3.3** 17,772 or 58 per cent of affordable starts on site were for Affordable Rent. This is an increase of 613 or 4 per cent compared to 17,159 started in 2017-18. Intermediate Affordable Housing accounted for a further 11,560 or 38 per cent of affordable starts. This is an increase of 2,249 or 24 per cent compared to 9,311 started in 2017-18. Social Rent accounted for the remaining 1,231 affordable homes started (4 per cent), a decrease of 175 or 12 per cent compared to 1,406 started in 2017-18.

3.4 Table 1b below shows the percentage of Homes England’s affordable housing starts on site delivered by each operating area¹⁵ compared to 2017-18¹⁶. A map showing the operating area boundaries is available at Annex 2.

Table 1b: Affordable Housing Starts on Site - Percentage Delivery by Homes England Operating Area

	2018-19	2017-18
South East	33%	28%
North West	18%	18%
South West	18%	22%
Midlands	16%	16%
North East, Yorkshire and The Humber	16%	16%
London	0%	0%

3.5 The number of market starts on site increased by 2 per cent to 15,129 compared to 14,853 started in 2017-18. The SLP produced the majority of these at 8,089 or 53 per cent, a decrease of 270 or 3 per cent compared to 8,359 started in 2017-18. The HBF – STF delivered 7,040 or 47 per cent. This was an increase of 752 or 12 per cent compared to the 6,288 started in 2017-18.

¹⁵ Due to operating area boundary changes effective from 1 April 2017, the comparisons between Midlands and South East may be skewed. See Annex 2 for the definition of operating area and a list of the boundary changes.

¹⁶ Note that proportions do not sum to 100 per cent due to rounding.

- 4.2** Housing starts on site and completions by local authority district and tenure (all programmes except Help to Buy) for historical periods are available to download from the Homes England housing statistics web page²¹.
- 4.3** In a small number of cases, Homes England funding to an affordable housing provider may be to support a person or family to be housed in a local authority that is different to the one in which they currently reside. The local authority presentations in Tables 2a, 2b and 2c are based on the local authority district in which the house is located. These tables also identify the Homes England operating area²² in which each local authority is located.

5. Revisions

Revisions policy

- 5.1** Homes England has adopted the revisions policy developed by MHCLG²³. This policy covers two types of revisions.

Scheduled revisions

- 5.2** These statistics are drawn from funding and project administration systems and therefore updated information can be provided by funding recipients and developers after the official statistics have been extracted and compiled from these systems. This is particularly the case during the financial year and figures for the first six months of the year, as reported in the November/December release, are subject to scheduled revision in the release of financial year data in June. It is also possible for revisions to be made for earlier periods, although procedures are in place to minimise the scale of these.
- 5.3** As notified in our release of official statistics published on 11 June 2013, we will make scheduled revisions once a year in June. These revisions will cover the first six months of the full year being reported together with revisions for the previous two financial years. Data for earlier years will be regarded as final and there will be no further changes.

Non-scheduled revisions

- 5.4** If a substantial error occurs as a result of the production process, the statistical release and accompanying tables will be updated with a correction notice as soon as is practical.

²¹ <https://www.gov.uk/government/collections/housing-statistics>

²² With effect from 1 April 2017 there were two Homes England Operating Area name changes, with *East and South East* becoming *South East* and *South and South West* becoming *South West*. Additionally, there was a boundary change with the following Local Authorities moving from Midlands to South East: Bedford, Central Bedfordshire, Corby, Daventry, East Northamptonshire, Kettering, Luton, Milton Keynes, Northampton, South Northamptonshire and Wellingborough.

²³ <http://www.communities.gov.uk/documents/corporate/pdf/1466387.pdf>

5.5 If, as a result of new information, there are significant changes to the figures in years outside of the scheduled revisions period, that information will be revised in the May/June release together with scheduled revisions.

6. Definitions

Affordable Housing is the sum of Affordable Rent, Social Rent, Intermediate Rent and Affordable Home Ownership (Shared Ownership and Rent to Buy). Affordable homes are defined in line with the National Planning Policy Framework²⁴, published 27 March 2012 and updated 19 February 2019, as housing units (or traveller pitches and bed spaces when describing a shared dwelling such as a hostel) provided to specified eligible households whose needs are not met by the market. Eligibility may be determined with regard to local authority allocations policies, local incomes and local house prices depending on the type of affordable housing. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision. The term 'affordable housing' is equivalent to 'social housing' as defined in Section 68 of the Housing and Regeneration Act 2008²⁵.

Affordable rented housing is a form of social housing, introduced in 2011. It may only be delivered with grant through the AHP 2011-15 and other associated and subsequent programmes or without grant by local authority and other providers, where a contract or confirmation of the ability to charge an Affordable Rent is in place. Affordable rented homes are let by local authorities or private registered providers of social housing to households who are eligible for social rented housing. Affordable Rent is subject to rent controls that require a rent of up to 80 per cent of the local market rent (including service charges, where applicable).

Social rented housing is rented housing owned and managed by local authorities and private registered providers, for which target rents are determined through the national rent regime. It may also include rented housing managed by other persons and provided under equivalent rental arrangements to the above.

Intermediate affordable housing is housing at prices and rents above those of Social Rent but below market price or rents, and which meet the criteria as set out in the definition for affordable housing. These can include Shared Ownership, equity loan products, Rent to Buy and Intermediate Rent. Intermediate rented housing was eligible for funding under the now closed NAHP.

Under an **equity loan scheme** for affordable housing, the majority of the cost (usually at least 70 per cent) is funded by the purchaser through a mortgage and savings (deposit). The remaining cost of the home is paid for by the government and the house builder through an equity loan. The property title is held by the home owner who can therefore sell their home at any time and upon sale should provide the government and the house builder the value of the same equity share of the property when it is sold. In the historical series covered by this release, equity loan was available under FirstBuy, Kickstart and the NAHP (HomeBuy Direct). There are a small number of equity loan cases in the current series.

Under a **Shared Ownership scheme** for affordable housing, the purchaser pays for an initial share of between 25 per cent and 75 per cent of the home's value with the option to increase their ownership if they later choose and can afford to do so. The provider owns

²⁴ <https://www.gov.uk/government/publications/national-planning-policy-framework--2>

²⁵ http://www.legislation.gov.uk/ukpga/2008/17/pdfs/ukpga_20080017_en.pdf

the remaining share and rent is paid on the landlord's share. The rent is up to 3 per cent of the share's value. Shared ownership properties are always leasehold homes.

Under the **Rent to Buy scheme** for affordable housing, homes are let at an Intermediate Rent to tenants who plan to buy in the future but need a period of lower rents to help them to save for a deposit. After an initial rental period (at least the first five years of the life of the property) the tenant has the option to buy outright the home they are living in. Grant funded Intermediate Rent has to be set at no more than 80 per cent of the market rate.

Market housing is private housing (or bed spaces) for rent or for sale where the rental value or market price is set mainly in the open market.

Acquisitions (non-new build) are additions to affordable or market housing supply that take place without building a new property. This can include the purchase of existing properties for use as affordable or market housing. It may also include empty properties brought back into use. These will normally be long term empty properties where rehabilitation works are required and which would not otherwise come back into use without intervention. Conversions of existing affordable or market properties are only included where there is substantial re-improvement works carried out to the fabric of the building (for example the conversion of bedsits to self-contained apartments). Repairs or simple refurbishment of properties are not included.

Housing starts on site are reported when the provider/developer and builder have entered into the house building contract, the building contractor has taken possession of the site and the start on site works have commenced. Starts on site are not applicable for Mortgage Rescue or for equity loan products delivered under FirstBuy.

Housing completions are reported when the units are fit for occupation or, in the case of Mortgage Rescue and equity loan products delivered under FirstBuy, the Kickstart Housing Delivery Programme, the AHP 2011-15 and the National Affordable Housing Programme, at the point of completion of the purchase.

Private registered providers, under the terms of the 2008 Housing and Regeneration Act²⁶, are organisations which provide social housing, either in a for-profit or not-for-profit capacity, and who are registered on the Statutory Register of Providers of Social Housing maintained by Homes England. Most private registered providers are housing associations. The term excludes local authorities, who also provide social housing. Any private provider wishing to deliver Affordable Rent homes, who has not contracted with Homes England through a Grant Agreement, must contract with Homes England through a Short Form Agreement to deliver Affordable Rent without grant. The definition of private registered providers is not affected by the Office for National Statistics' recent decision to classify them to the private sector for National Accounts and statistical purposes.

7. Data sources and quality

- 7.1** Data for the following programmes have been produced using our Investment Management System (IMS), which contains information provided by investment partners in accordance with monitoring requirements for the payment of grant: Affordable Homes Guarantees, AHP, AHP 2015-18, Care and Support Specialised Housing, Empty Homes, Empty Homes Round Two, FirstBuy, Homelessness Change, Homelessness Change 2015-18, the Kickstart Housing Delivery Programme (HomeBuy Direct and National Affordable Housing Programme), the Local Authority New Build Programme, Mortgage Rescue, the National Affordable Housing Programme, Platform for Life, Rent to Buy, Right to Buy Replacement, Short Form Agreements, SOAHP 2016-21 and Traveller Pitch Funding.
- 7.2** Data for the following programmes have been produced using our Project Control System, which is maintained by our own staff based on the best information currently available: Accelerated Land Disposal, Build to Rent, Builders Finance Fund, Economic Assets, Get Britain Building, Kickstart Housing Delivery (Investment Support), Property and Regeneration, Single Land and the HBF – STF programmes.
- 7.3** The levels of affordable housing starts on site and completions recorded in the first half of the year reflect the historical annual delivery profile of the programmes. Homes England data is dependent on the submission of grant claims by providers and historically the majority have been submitted in the second half of the year. The table below shows the percentage of affordable housing delivered in each half of the year since 2009-10.

Table 3: Affordable Housing - Half Yearly Percentage Delivery

Year	Period	Total Affordable Housing Starts	Total Affordable Housing Completions
2018-19	Apr - Sep	32%	38%
	Oct - Mar	68%	62%
2017-18	Apr - Sep	25%	36%
	Oct - Mar	75%	64%
2016-17	Apr - Sep	32%	38%
	Oct - Mar	68%	62%
2015-16	Apr - Sep	35%	37%
	Oct - Mar	65%	63%
2014-15	Apr - Sep	36%	26%
	Oct - Mar	64%	74%
2013-14	Apr - Sep	30%	30%
	Oct - Mar	70%	70%
2012-13	Apr - Sep	13%	35%
	Oct - Mar	87%	65%
2011-12	Apr - Sep	4%	28%
	Oct - Mar	96%	72%
2010-11	Apr - Sep	27%	36%
	Oct - Mar	73%	64%
2009-10	Apr - Sep	21%	37%
	Oct - Mar	79%	63%

Some of the significant variations are explained below:

- In 2011-12 delivery was lower than usual with 4 per cent of starts on site and 28 per cent of completions delivered in the first half of the year. The low percentage of starts on site was atypical because the distribution was impacted by the closure of the National Affordable Housing Programme, the Local Authority New Build Programme and the Kickstart Housing Delivery Programme to new commitments in March 2011. Delivery was further impacted by the AHP 2011-15 programme not commencing delivery of housing starts until the second half of 2011-12.
- In 2012-13, 13 per cent of starts on site and 35 per cent of completions were delivered in the first half of the year, reflecting an increase in delivery of the AHP 2011-15.

8. Related statistics

Affordable housing starts on site and completions funded by Homes England and the GLA

- 8.1** Since April 2012, the Mayor of London has had oversight of strategic housing, regeneration and economic development in London. This means that Homes England no longer publishes affordable housing starts on site and completions for London, except for delivery in London under the Builders Finance Fund (now called The Home Building Fund – Short Term Fund) and Get Britain Building programmes which are administered by Homes England on behalf of the GLA. Responsibility for publication of other London delivery has been taken over by the GLA. In addition to its annual release, MHCLG combines half-year data from Homes England and the GLA to publish six monthly affordable housing starts on site and completions delivered nationally under the affordable housing programmes of Homes England and the GLA.
- 8.2** The combined statistics published by MHCLG are available from the MHCLG website²⁷ and housing statistics published by the GLA are available from the GLA website²⁸.
- 8.3** Delivery of affordable homes forms part of the MHCLG business plan. Homes England is responsible for the administration of the programmes that deliver affordable housing (as described in section 2) and report on progress in their annual report²⁹.

Affordable housing supply

- 8.4** The annual Affordable Housing Supply release published by MHCLG (see paragraph 2.2), includes delivery of affordable housing, but not market housing. Starts information was only available from data provided by Homes England and the GLA in 2015-16. For 2016-17 data on starts was also collected from local authorities. However, the submission of starts data by local authorities is voluntary as some of them may be unable to provide figures. This means that starts funded directly by local authorities or by planning agreements that are not included in the Homes England or GLA statistics were not included in 2015-16 data and may be under reported in subsequent publications. Delivery through Homes England (and the

GLA) accounts for the majority of Affordable Housing Supply, but the scope of the statistics reported by MHCLG is wider. It also includes delivery through other Homes England and GLA programmes not reported here (such as Social HomeBuy and Right to Acquire) as well as affordable housing not covered by Homes England and GLA programmes that is reported in local authority returns to the Ministry. The MHCLG publication provides less detail about the individual Homes England programmes and focuses more on the properties of the units delivered, such as tenure and whether they are new build or acquisitions. The 'Data sources' section of the MHCLG release provides more information about the coverage of the release³⁰.

Help to Buy

8.5 The Help to Buy (Equity Loan scheme) release published by MHCLG details the number of home purchases and the value of equity loans under the Government's Help to Buy: Equity Loan scheme. Homes England is responsible for all Help to Buy (Equity Loan scheme) delivery including London. The number of home purchases delivered through Homes England is published by MHCLG together with information about the type and price of properties purchased, purchaser deposits and applicant incomes³¹.

A brief history of Homes England

- 9.2** Homes England was launched by the Secretary of State on 11 January 2018. Homes England is the trading name of Homes and Communities Agency (HCA) (the legal entity). The HCA was created on 1 December 2008 by bringing together the regeneration body English Partnerships (including the Property and Regeneration programme), the investment arm of the Housing Corporation (including the National Affordable Housing Programme), the Academy for Sustainable Communities and a number of housing and regeneration programmes from the MHCLG. In October 2011, the HCA took responsibility for the land and property assets of eight of England's nine Regional Development Agencies, ahead of their operational closure in March 2012. On 1 April 2012, the HCA's former London operating area transferred to the GLA.

United Kingdom Statistics Authority

- 9.3** The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

Builders Finance Fund	The £525 million Builders Finance Fund is designed to help restart and speed up housing developments between 5 and 250 units that have slowed down or stalled. Its main objective is to address difficulties in accessing development finance faced by some house builders, particularly smaller developers, and to help bring forward stalled but viable sites. With effect from October 2016, existing commitments transferred to the Home Building fund – Short Term Fund.	Social Rent / Int. Rent / AHO / Market	NB/A

Programme	Programme Summary	Tenure ¹	Build Type ²
Care and Support Specialised Housing Fund	<p>The Department of Health's Care and Support Specialised Housing Fund (CASSH) provides funding for housing for older people and adults with disabilities (physical or sensory disabilities, mental health needs and learning disabilities & autism).</p> <p>The fund is split into two phases. Phase 1 was launched in October 2012 and phase 2 was launched in February 2015. The initial budget for the programme was £160m over five years (2013-14 to 2017-18) outside London. Empty Homes Round Two	<p>In November 2012 a second round of funding was launched to bring back into use empty properties as affordable housing. As well as residential properties (in private ownership), the programme had an emphasis on the refurbishment of empty commercial and non-residential properties. The programme delivered 868 homes by 31 March 2017 outside London.</p>	Aff. Rent / Social Rent / AHO	A
FirstBuy	<p>The FirstBuy scheme was announced in the Budget 2011 to help support 10,000 first time buyers on the property ladder. The scheme was expanded in September 2012 and from 1 April 2013 was replaced with Help to Buy</p>	AHO	NB

It offers a maximum 20% (40% in London) equity loan (minimum 10%) on new build properties up to a maximum purchase price of £600,000.</p> <p>Launched in April 2013 with an initial budget of £3.7bn, the programme aspired to support 74,000 plus homebuyers in the first 3 years. The 2015 Spending Review confirmed £8.6bn of funding and extended the programme to 2021 to assist an anticipated 145,000 purchases. In October 2017, the Government announced it will invest a further £10 billion in the Help to Buy Equity Loan programme.</p> <p>More than 130,000 completions have already taken place by people using the equity loan, which helps people buy a new build home with only a 5% deposit.</p> <p>The new funding means that the Help to Buy Equity Loan could help around 135,000 more people to buy homes by 2021.
