## Syndromic surveillance national summary:

**Reporting week: 17 June to 23 June 2019**

Nothing new to report during week 25.

### Remote Health Advice:

During week 25 eye problems calls increased, particularly in the 5-14 years age group (figures 9 & 9a). This is in line with seasonally expected increases in hay fever due to grass pollen.

### GP In Hours:

Nothing new to report in week 25.

### GP Out of Hours:

Nothing new to report during week 25.

### Emergency Department:

Nothing new to report during week 25.

### RCGP Weekly Returns Service:

[Click here to access reports from the RCGP website](external link)
### Key messages are provided from each individual system.

### The different syndromic surveillance systems in operation within PHE access data from different areas of the national health care system.

### Each system is able to monitor a different selection of syndromic indicators based upon a different case mix of patients.

### Access to the full version of each syndromic surveillance bulletin is available through the Syndromic Surveillance website found at: [https://www.gov.uk/government/collections/syndromic-surveillance-systems-and-analyses](https://www.gov.uk/government/collections/syndromic-surveillance-systems-and-analyses); reports will be made available on Thursday afternoons.
