

Technical Annex DIT public consultation on trade negotiations with the United States

(20 July 2018 - 26 October 2018)

Topline results and codeframe for campaign responses

This document shows topline results and codeframe for responses from members of the public and organisations who responded to the 2018 DIT public consultation on trade negotiations with the US, as part of an organised campaign.

A total of 4,458 responses were received as part of the Global Justice Now campaign. Some of these contained additional comments (which were subsequently coded), others did not. The topline shows all bespoke comments made (a total of 1,079).

A total of 1,545 responses were received as part of the War on Want campaign. The topline shows all bespoke comments made (a total of 278).

A total of 407 responses were received as part of the Open Rights Group campaign. The topline shows all bespoke comments made (a total of 330).

The 38 Degrees campaign was submitted for each of the four DIT consultations on future trade negotiations, and so its data has been presented as a separate document.

Those who made additional comments in their campaign response were coded. Coding is the process by which each individual response is matched against a series of themes that DIT and Ipsos MORI compiled, so that the content can be summarised, classified and tabulated. Each of the codes represents a discrete issue or viewpoint raised by a participant or number of participants in their verbatim responses.

Responses in this topline are shown in the form of numbers of responses and not percentages. The consultation ran between 20 July 2018 and 26 October 2018.

This topline excludes non-campaign responses, which are included in a separate document.
