About this document

This consultation describes how Government proposes to implement the Flood and Water Management Act 2010 (the Act) for the use of sustainable drainage systems (SuDS) for future development in England.

It should be noted that this list of consultees is not exhaustive. We welcome views from anyone expressing an interest in the consultation. Although not specified on the list, some individuals and all the local authorities in England have been contacted. These authorities include borough, district, city and county councils
