

Appendix C - Animal By-Products identified by the ABPI and their equivalent classifications (where possible) under Regulation (EC) No 1069/2009

ABPs identified by the ABPI (relevant ABPI regulation shown in bold at start of each entry) NB: exemptions listed at bottom of table	Equivalent definition under Regulation 1069/2009 (relevant Article shown in bold at start of each entry)		
	Category 1 (Article 8)	Category 2 (Article 9)	Category 3 (Article 10)
<p>3(1)(a)(i) any carcase/ part from animal not for human consumption that has died</p> <p><i>(under ABPI "animal" = domestic bovines, solipeds, swine, sheep, goats; poultry, rabbits, farmed game, wild game)</i> <i>"wild game" = (i) wild ungulates and lagomorphs, as well as other land mammals that are hunted for human consumption, including mammals living in enclosed territory under conditions of freedom similar to those of wild game, and (ii) wild birds that are hunted for human consumption)</i></p>	<p>8(a)(v) entire bodies and all body parts, including the hides and skins, of wild animals when suspected of being infected with diseases communicable to humans or animals</p> <p>8(b)(ii) also relevant as refers to fallen cattle/sheep (although the SRM would be stained under TSE legislation and the rest disposed of as Category 2)</p>	<p>9(f)(i) animals or parts of animals, other than Cat 1 or 3, that died other than being slaughtered or killed for human consumption, including animals killed for disease control purposes i.e. non-ruminant fallen stock and rest of carcase from ruminant fallen stock once SRM removed and stained)</p>	(no specific sub-category)
<p>3(1)(a)(ii) any carcase/ part from animal not for human consumption, killed in knacker's yard</p>	<p>(no specific sub-category)</p> <p>8(b)(ii)entire bodies or parts of dead animals containing SRM at the time of disposal (although the SRM would be stained under TSE legislation and the rest disposed of as Category 2)</p>	<p>No specific sub-category. Would fall under 9(g) by default i.e. neither Category 1 or 3 but this sub-category also covers other ABPs.....</p>	(no specific sub-category)

3(1)(a)(iii) any carcase/ part from animal not intended for human consumption, killed in place other than slaughterhouse	(no specific sub-category) 8(b)(ii) entire bodies or parts of dead animals containing SRM at the time of disposal (although the SRM would be stained under TSE legislation and the rest disposed of as Category 2)	No specific sub-category but would fall under 9(g) by default i.e. neither Category 1 or 3 but this sub-category also covers other ABPs.....	(no specific sub-category)
3(1)(a)(iv) any carcase/ part from animal not for human consumption that is stillborn or unborn;	(no specific sub-category)	9(f)(ii) foetuses 9(f)(iv) dead-in-shell poultry	(no specific sub-category)
3(1)(a)(v) any carcase/ part from animal not for human consumption, killed for disease control reasons	8(a)(ii) entire bodies and all body parts , including the hides and skins, of animals killed in the context of TSE eradication measures (although the SRM would be stained under TSE legislation)	9(f)(i) animals and parts of animals, other than those referred to in Article 8 or 10, that died other than by being slaughtered or killed for human consumption, including animals killed for disease control purposes.	(no specific sub-category)
3(1)(a)(vi) any carcase/ part from animal slaughtered for human consumption which showed signs of disease communicable to humans/animals during ante or post- mortem inspection	(no specific sub-category)	No specific sub-category but would fall under 9(g) by default i.e. neither Category 1 or 3 but this sub-category also covers other ABPs.....	(no specific sub-category)
3(1)(a)(vii) any carcase/ part from animal slaughtered for human consumption but not presented for post-mortem inspection as per the Hygiene Regulations and Regulation 854/2004	(no specific sub-category)	No specific sub-category but would fall under 9(g) by default i.e. neither Category 1 or 3 but this sub-category also covers other ABPs.....	10 (b)(ii) poultry heads and feet from animals considered fit for human consumption following ante-mortem?
3(1)(b) any carcase/ part spoiled in any way so as to present a risk to human or animal health	(no specific sub-category)	No specific sub-category but would fall under 9(g) by default i.e. neither Category 1 or 3 but this sub-category also covers other ABPs	Article 14 (d) any category 3 material that has changed through decomposition or spoilage so as to present an unacceptable risk to public or animal health, through that product provided is not

			disposed of as per Article 14 (d)(i) – (iv)
3(1)(c) any carcase/ part not for human consumption, containing residues of any substances which may pose a risk to human or animal health	<p>8(c) ABPs derived from animals which have been submitted to illegal treatment as defined in Art 1(2)(d) of Directive 96/22/EC or Art 9(b) of Directive 96/23/EC</p> <p>8(d) ABPs containing residues of other substances and environmental contaminants listed in Group B(3) of Annex I to Directive 96/23/EC, if such residues exceed the permitted level laid down by Community legislation or, in the absence thereof, by national legislation</p>	9(c) ABPs containing residues of authorised substances or contaminants exceeding the permitted levels as referred to in article 15(3) of Directive 96/23/EC 9(d) products of animal origin which have been declared unfit for human consumption due to the presence of foreign bodies in those products	(no specific sub-category)
3(3) any product (except milk and hides for leather production) from bovine animals born/reared in UK before 1 Aug 1996 and banned from market / export as per paragraph 1, Schedule 8 to the TSE(E) Regulations 2010, where a Notice has required disposal due to slaughter not complying with RMOP (paragraph 12(3) Schedule 2) I	No specific sub-category. What about: 8(b)(ii) entire bodies or parts of dead animals containing SRM at the time of disposal	(no specific sub-category)	(no specific sub-category)
(no equivalent in ABPI)	8(a)(i) entire bodies and all body parts, including the hides and skins, of animals suspected of being infected by a TSE in accordance with Regulation 999/2001 or in which the presence of a TSE has been officially confirmed.		

ABPs excluded from the ABPI (Regulations 3(2) and 5):

Regulations:

3(2) any animal **excreta** or **catering waste** or **meat cooked at a knacker's yard** to feed animals not for human consumption.

5(1) (a) the **green offal of wild game** killed in the wild which is removed from the carcass and left at the point of killing or vicinity;

5(1) (b) any ABP (to be) removed from premises for **inspection by a veterinary surgeon** (or on his behalf);

5(1) (c) **waste product** left after feeding ABP to zoo, circus or fur animals, hounds or maggots farmed for fishing bait, which no longer looks like meat;

5(1) (d) any ABP **imported** into GB for use for **scientific purposes**;

5(1) (e) any ABP which is, or is derived from, a **product of animal origin** regulated by Regulation 1069/2009 and transhipped as per regulation 24 of the Products of Animal Origin (Import and Export) Regulations 1996

5(1)(f) **SRM**;

5(2)(a) **poultry heads and feet** subjected to a post-mortem veterinary inspection which did not show gross pathological lesions indicating disease communicable to man or animals;

5(2)(b) **blood, bones, gut contents, skins, hides, hooves, feathers, wool, horns or hair**;

5(2)(c) **green offal**, or ABP in a container consisting mainly of green offal, intended to be removed from FB establishment/ABP premises for disposal as per Regulation 1069/2009

5(2)(d) ABPs intended for use for **scientific purposes** and, pending such use or removal to premises for such use, placed in a room and in a receptacle designed to hold ABPs and bearing a notice that its contents are intended for use for scientific purposes.
