Kingsbury Wood SSSI		No licensed activities from 1st March to 31st August to avoid bird breeding season. All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint or/ and areas of Rhododendron, Cherry Laurel scrub or conifer plantation.
Middleton Pool SSSI		No licensed activities from 1st March to 31st August to avoid bird breeding season.
River Blythe SSSI		No vehicle use within 5m of any large watercourse, except on existing tracks.
Ryton and Brandon		No additional conditions proposed

Gravel Pits SSSI		
Whichford Wood SSSI		All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint or/ and areas of Rhododendron, Cherry Laurel scrub or conifer plantation.
Whitacre Heath SSSI		No licensed activities from 1st March to 31st August to avoid bird breeding season.
Wolford Wood and Old Covert SSSI		No access from 1st March to 31st July to avoid bird breeding season. All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint. Any decaying wood located within the sett footprint is to be left in situ if possible. If decaying wood must be moved then it should be moved no further than is necessary.
Woodlands Quarry SSSI		No additional conditions proposed

## NOTES TO ANNEX B

### **General note on interpretation:**

Protected sites that are listed above are not necessarily part of any active operations. Active operations can and will only occur on protected sites where landowner/occupier permission has been granted.

Within the licence conditions, use of the word 'avoid' denotes a prohibition, i.e. it indicates that an area must be excluded from relevant activities or that activities must not be undertaken during the time period stated or in the manner described. Similarly, the word 'restrict' means that activities must be confined to the areas or time periods stated.

For further details on each protected site and its notified features of special interest and/or European Site qualifying features please enter the site name into the following link: <https://designatedsites.naturalengland.org.uk/SiteSearch.aspx>.

### **Individual notes:**

**Note A:** Natural England will inform the licensee from time to time of the information it requires. This is likely to focus on whether fox control is routinely undertaken on the relevant site and/or on areas of participating land within a few kilometres of the site. The licensee is expected to use reasonable endeavours to assist Natural England with the gathering of this information.

**Note B:** Natural England may form the judgment that measures should be introduced to secure the protection of species associated with this site, such as fox control, anti-predator fencing, habitat management, or buffer zones in which badger control is not undertaken. Such measures may be secured through cooperation between licensees, landowners, occupiers, and/or public bodies. If it considers it necessary to do so, Natural England may: exercise its powers under sections 28J-K of the Wildlife and Countryside Act 1981 or regulation 20 of the Conservation of Habitats and Species Regulations 2017; and/or revoke and re-issue this licence with revised terms (provided that such terms will be reasonable and proportionate in all of the circumstances).

**Note W:** European protected species are listed in Schedule 2 (animals) and Schedule 5 (plants) of the Conservation of Habitats and Species Regulations 2017. Nationally protected species are listed in Schedule 5 (animals) and Schedule 8 (plants) of the Wildlife and Countryside Act 1981 (as amended). Under these laws (regulations 43 and 47 of the 2017 Regulations and sections 9 and 13 of the 1981 Act), it can be an offence to:

- deliberately capture, injure or kill any wild animal of a European protected species;
- intentionally kill, injure or take a nationally protected wild animal;
- deliberately disturb wild animals of any European protected species;
- intentionally or recklessly damage or destroy any structure or place which a nationally protected

animal uses for shelter or protection, disturb such an animal while it is occupying such a structure or place, or obstruct access to any such structure or place;

- damage or destroy a breeding site or resting place of any wild animal of a European protected species;
- deliberately take or destroy the eggs of any wild animal of a European protected species;
- deliberately pick, collect, cut, uproot or destroy a wild plant of a European protected species;
- intentionally pick, uproot or destroy any nationally protected wild plant.

Great Crested Newt, Otter, Dormouse, and Sand Lizard are European and nationally protected species.

**Note Y:** All birds, their eggs and nests (while in use or under construction) are protected under the Wildlife and Countryside Act 1981. This licence does not allow you to take or destroy such nests. Birds species listed under Schedule 1 of that Act have additional legal protection so care must be taken to avoid their disturbance during the breeding season.

**Note Z:** All bats and their roosts (even when not occupied by bats) are protected by the Wildlife & Countryside Act 1981 and by The Conservation of Habitats and Species Regulations 2017. This licence does not allow you to enter or obstruct any bat roost, nor to disturb any bat whilst it is occupying a roost. Care must be taken to avoid sustained human presence near, or artificial illumination of cracks and cavities in trees and man-made structures, and of any mounted boxes.
