HMRC Brexit communications resources

An Economic Operator Registration and Identification (EORI) number is a unique ID for businesses trading goods. To help businesses get ready for Brexit, HMRC have published an EORI mythbuster which corrects some misunderstandings about EORI numbers. We also have resources to help traders prepare for importing and exporting after Brexit. These are [available on GOV.UK](#).

Grants for businesses completing customs declarations

[£16m in new government funding is now available](#) to help businesses train staff in making customs declarations, and to help businesses who support others who trade goods to invest in IT. This will ensure that trade with the EU continues as smoothly as possible after Brexit on 31 October.

Customs agents currently help businesses who trade outside the EU. This funding will help increase the capacity of the sector as businesses trading with the EU consider whether to get an expert to complete customs documentation for them after Brexit.

More than 3,000 agents have already been trained as part of an £8 million investment earlier this year, which has also been used to develop new online learning products for customs staff such as an electronic learning package and a new UK Customs Academy, launched on 12 August. This second wave of government grants will go further, with the additional £16 million to be invested to help ensure businesses have all the support they need to get ready for Brexit.

Businesses based in, or with a branch in, the UK can apply for funding ahead of the UK leaving the EU. Grants can be used to support:

- training costs for businesses who complete customs declarations, or who intend to in the future
- funding for IT improvement, which is available to small and medium sized employers who are currently involved in trade as an intermediary

Look at the [guidance](#) to understand how to apply and make the most of this money.

Changes for UK employers sending workers to the EU, the EEA or Switzerland

In the event the UK leaves the EU without an agreement, there may be changes for UK employers who have people working in the EU, the EEA or Switzerland.

Currently the EU Social Security Coordination Regulations ensure employers and their workers only need to pay social security contributions (such as National Insurance contributions in the UK) in one country at a time. However if we leave without an agreement, the coordination between the UK and the EU will end.

This will mean that your employees working in the EU, the EEA or Switzerland may need to make social security contributions in both the UK and the country in which they are working at the same time.

Businesses will need to do the following to prepare:

- If your employee is currently working in the EU, the EEA or Switzerland and has a UK-issued A1/E101 form, they will continue to pay UK National Insurance contributions for the duration of the time shown on the form.
- However, if the end date on the form goes beyond Brexit day, you will need to contact the relevant EU / EEA or Swiss authority to confirm whether or not your employee needs to start paying social security contributions in that country from that date. The [European Commission's website](#) will help you find the relevant country's authority.
- If your employee is a UK or Irish national working in Ireland, their position will not change after Brexit, they are covered under the international agreement signed by the UK and Ireland in February 2019. You, as their employer, won't need to take any action.

- A replacement for the A1/E101 form will be issued for new applications after Brexit. This ensures your employee continues to make UK National Insurance contributions to maintain their social security record. You can still use the [same form on GOV.UK](#) to make an application after the UK has left the EU.

The UK Government is working to protect UK nationals by seeking reciprocal arrangements with the EU or Member States to maintain existing social security coordination for a transitional period until 31 December 2020. Individuals in scope of these arrangements will only pay social security contributions in one country at a time.

For more information about sending workers to the EU, the EEA or Switzerland after Brexit please go to the [new information on GOV.UK](#). Further information will be published as it becomes available.

Register for Transitional Simplified Procedures

Getting a UK EORI number is the first step to being ready for Brexit.

If businesses import, we recommend that they register for easy import procedures known as Transitional Simplified Procedures (TSP). If traders are new to customs processes, this likely to be the best option for them.

TSP will give them extra time to send in customs documentation and pay any import duties when they import goods from the EU to the UK.

Not everyone is eligible and businesses will need to check online first to see if they can register.

For more information about TSP, please visit [GOV.UK](#).

New ways to declare Merchandise in Baggage

Are you or your clients planning to travel to or from EU countries after the UK leaves the EU? If so, and you will be carrying small amounts of goods for trade or business use in your baggage or small vehicle, there are new ways to declare them as 'merchandise in baggage' (MiB).

MiB means commercial goods intended for trade or business use, carried in your luggage or a small motor vehicle. For example, if you buy jewellery on a trip to the EU and bring it back in your suitcase to sell in the UK - this would be classed as MiB.

To find out more about when you need to declare MiB, please visit [GOV.UK](#).

VAT IT system changes for businesses outside the UK

After Brexit, there will be VAT IT system changes for businesses outside the UK.

Checking UK VAT numbers:

Businesses will be able to use the UK's VAT checking service to check the validity of a UK VAT number. They will no longer be able to use the EU's VAT number validation service.

Paying VAT on sales of digital services provided to UK consumers:

Businesses will no longer be able to use the VAT Mini One Stop Shop (MOSS) to report and pay VAT on sales of digital services to consumers in the UK. They must [register and pay VAT in the UK](#) as soon as they supply services to a UK consumer.

They will need to use [HMRC's VAT correction process](#) to correct a UK VAT figure submitted in a previous MOSS return.

Claims for VAT on business expenses before Brexit:

Claims for VAT on business expenses before Brexit can be made using the [EU VAT refund electronic system](#), but businesses should allow enough time for their member states to send the claim to the UK. If a claim is sent through the online system after Brexit, it will not reach the UK.

Claims for VAT on business expenses after Brexit:

Businesses will no longer be able to use the EU VAT refund electronic system to claim refunds of VAT incurred in the UK.

They must follow the processes for businesses outside the UK.

HMRC Brexit webinars

HMRC is running a series of webinars to help businesses get ready for Brexit.

The current “Getting ready for Brexit” live webinar provides an overview for UK businesses involved in the movement of goods between the EU and the UK. Businesses will find out what they need to know to keep importing and exporting and have the opportunity to ask questions during the webinar using the on-screen text box.

Please [register online](#) to attend.
