# About Public Health England

Public Health England exists to protect and improve the nation's health and wellbeing, and reduce health inequalities. We do this through world-leading science, knowledge and intelligence, advocacy, partnerships and the delivery of specialist public health services. We are an executive agency of the Department of Health and Social Care, and a distinct delivery organisation with operational autonomy. We provide government, local government, the NHS, Parliament, industry and the public with evidence-based professional, scientific and delivery expertise and support.

# New indicator to local authority health profiles

<b>Indicators removed</b>	<b>Rationale</b>
GCSE attainment	Replaced by new measure: Average attainment 8 score
Violent crime - violence offences per 1,000 population	Replaced by hospital admission rate for violence which is compared to England
Excess winter deaths index (3 years, all ages)	Replaced by the single year version of the indicator to remain consistent with Public Health Outcomes Framework
