5. Focus topic: International work and the safety and wellbeing of staff travelling overseas
   5.1 Noel Joseph from the VMD’s International team presented an overview of the the VMD’s International Work in the past two years. He gave an overview of the major projects and safety measures that were undertaken to ensure safety and wellbeing of VMD staff. He gave an outline of the Livestock Micro-Reform in Agribusiness (L-MIRA) project with the World Bank where the VMD has been supporting the Veterinary medicines regulator in Ethiopia (VDFACA); the delivery of the European Commission’s Better Training for Safer Food (BTSF) program within Europe and internationally; the Bill & Melinda Gates Foundation project on scoping of the regulatory landscape in Sub-Saharan Africa as well as our work with the United Nation’s Food & Agriculture
Organisation (FAO) in developing a pre-qualification process for emergency procurement of Foot & Mouth vaccines.

5.2 In delivering the above-mentioned projects, a number of members of staff from different teams have been travelling mainly to Africa to take part in these projects and several measures have been put in place to assure their wellbeing and safety. Before travelling they are sent on a two-day Hostile Environment Assessment Training (HEAT) course to learn how to be alert and avoid threats and they are issued with comprehensive first aid packs and travel insurance cards. A risk assessment is carried out before any travel to a new country is undertaken which has to be signed off by a Director. These country risk assessments are based on FCO’s and Insurer’s assessment of the countries. In addition, if required, further FCO advice is sought to help evaluate potential dangers and embassies are informed about VMD activities and can provide safe transport when necessary. A personal travel check list is also being finalised which will contain details of travel plans and vaccination requirements. The procedure has been expanded to cover all VMD travel overseas. A question was raised, following recent adverse media coverage relating to NGO work overseas, whether consideration should also be given to the safeguarding of people VMD work with. The VMD will look into this further.

5.3 Members were assured by the safety and risk assessment procedures which are being followed. They noted that travellers contact the VMD at a set time each day via phone or WhatsApp and recommended that a single contact number and internet contact (eg. WhatsApp) is provided for the staff member and their emergency contact. This should be responded to 24 hours a day not just during office hours. Noel said that Defra is now following the VMD’s lead in this area and setting up similar safety procedures.
