EXPLANATORY NOTE

(This note is not part of the licence)

1. This Open General Export Licence has been amended to clarify that it is available for registration.
2. This Open General Export Licence permits without further authority the export from the United Kingdom where the exporter is established in the United Kingdom, to any destination in a country listed in Schedule 2 to the licence of items specified in Schedule 1 to the licence. The export is subject to certain conditions including,
 - (a) the goods are being exported from the United Kingdom for the purposes of construction tasks or hydrographic surveys in support of oil, gas or renewable energy contracts only.
 - (b) the goods must be under the direct control of the exporter or their appointed personnel;
 - (c) any loss of equipment must be notified to the DIT;
 - (d) no equipment must be sold, gifted or left behind.

Paragraph 2(2) clarifies that following the export from the UK to a destination listed in Schedule 2 of the licence, any subsequent transfer to another destination listed in that Schedule or to/between destinations listed in General Export Authorisation 001 will not constitute a breach of this OGEL, provided that the transfer are carried out for the purposes and subject to the terms and conditions of this OGEL or – where the transfer is to a country (or between countries) listed in GEA001– for the purposes and subject to conditions and requirements specified in GEA001

3. The Export Control Order 2008 (“the Order”) contain certain registration and record keeping requirements which apply to persons using this licence.
 - (a) Under Article 28 of the Order, an exporter who exports items under the authority of this licence must, before or within 30 days after the first occasion he makes use of the licence, provide details to the Secretary of State of his name and the address where copies of the records referred to above may be inspected. This notification must be made via DIT’s electronic licensing system, SPIRE, at www.spire.trade.gov.uk
 - (b) Under Article 29 of the Order, any person established in the United

Kingdom who exports items from the United Kingdom or another Member State under the authority of this licence must maintain and retain certain records relating to each such export for at least three years from the end of the calendar year in which the export takes place and must permit such records to be inspected and copied by any person authorised by the Secretary of State.

4. Persons who registered to use previous versions of this licence do not need to re-register. Registrations are carried over to the current in force version of this licence.
5. The Secretary of State has the power to suspend or revoke licences at any time and in such circumstances and on such terms as he/she thinks fit. If an exporter receives written notice to this effect, he will be prevented from relying on this licence. The power to suspend may be used in addition to criminal prosecution or as an alternative. Suspension may occur for example where an exporter is being investigated or prosecuted in relation to a possible criminal offence or has been found guilty of a criminal offence under the export control legislation. It may also be used in situations where an exporter has breached the conditions of the licence and failed to take corrective action within a reasonable period (see condition 3(2)).
6. Where DIT identifies failures in compliance with licence conditions or the legislation during a compliance visit, DIT may send a warning letter to the exporter listing the improvements that need to be made to ensure compliance. The letter will set out the timeframe within which these improvements must be completed. Failure to complete these improvements may lead to the exporter's ability to use the licence being suspended.
7. The exporter may apply for Standard Individual Export Licences during the period of suspension. Suspension will not automatically prevent them from using another OGEL so long as they meet all its terms and conditions and that they have not received a letter suspending or revoking their ability to use that licence.
8. This licence does not extend to any prohibition under legislation other than the Regulation or the Order: in particular it does not extend to prohibitions in other legislation implementing United Nations sanctions.
