

Guidance to Maintenance Expenditure Table RDC0310

Table RDC0310 presents maintenance expenditure by road class in England for Highways England (HE) managed roads and local authority (LA) managed roads. HE provides this information directly to the Department for the roads they manage, based on their financial accounts.

For LA managed roads, the information is taken from the final (capital and revenue) outturn statistics published by MHCLG. The underlying data is based on LA returns provided to MHCLG. These statistics can be found at the links below:

- Capital Outturn Statistics <u>https://www.gov.uk/government/collections/local-authority-capital-expenditure-receipts-and-financing</u> (specifically, COR A2¹)
- Revenue Outturn Statistics <u>https://www.gov.uk/government/collections/local-authority-revenue-</u> <u>expenditure-and-financing</u> (specifically RO2)

Local authority expenditure reported is on a gross-equivalent basis.

Changes for 2019

Previously, the Network Condition and Geography Statistics Team published 2 different tables on expenditure each year. These were:

- (Table RDC0310) Maintenance Expenditure by road class in England, published through the statistical series Road Conditions in England.
- (Table RDE0101) Regional Expenditure on Roads published through the statistical series Transport Statistics Great Britain (TSGB).

In TSGB 2018, users were asked for feedback on how they use this data. Based on this, we decided to stop producing table RDE0101. In 2019, RDC0310 will be published through TSGB. The reason for this is due to faster timelines in publishing the statistical release Road Conditions in England, which meant the source data for local roads had not been published by MHCLG at the point of production of the release.

While the figures for LA managed roads in both tables used the same source data, there were a number of differences in the methodology. On <u>page 2</u>, there is a breakdown of the policy lines and type of expenditure used to calculate the figures for LA managed roads in each table.

Feedback and questions

As always, we welcome user feedback on this table, and are happy to answer questions. Please contact us at <u>roadmaintenance.stats@dft.gov.uk</u>.

1 For years prior to 2017/18 this information was published through in separate outputs - Capital expenditure on roads - Street lighting and flood safety by local authorities.
