6. Exceptions for movement of seed

There are specific exemptions from the plant passport requirement for RNQPs (regulated non-quarantine pests) for certain types of movement of seed. These include:

- The supply of seed to official testing and inspection bodies
- The supply of seed for processing and packaging
- The supply of seed for the production of certain agricultural raw materials, or seed propagation for that purpose
- The movement of seed intended for scientific purposes, selection work and other test or trial purposes
- The movement of seeds not yet finally certified
- The movement of species for which the UK has a marketing derogation
- Movement of seed intended for export outside of the EU

7. Transitional period for seed and other propagating material

Where the plant passport requirement is solely because of an RNQP (regulated non-quarantine pest), there is a transitional period where seed and other propagating material produced before 14 December 2019 can be moved without a plant passport until 14 December 2020
