Taking off personal protective equipment (PPE) for non-aerosol generating procedures (AGPs)*

Please see donning and doffing video to support this guidance: https://youtu.be/eANIs-Jdi2s

1. **Remove gloves.** Grasp the outside of glove with the opposite gloved hand; peel off. Hold the removed glove in the remaining gloved hand.

2. **Clean hands.**

3. **Unfasten or break apron ties at the neck and let the apron fold down on itself.**

   **Break ties at waist and fold apron in on itself – do not touch the outside – this will be contaminated. Discard.**

4. **Remove eye protection if worn.**

   Use both hands to handle the straps by pulling away from face and discard.

5. **Clean hands.**

6. **Remove facemask once your clinical work is completed.**

   Untie or break bottom ties, followed by top ties or elastic, and remove by handling the ties only. Lean forward slightly. Discard. DO NOT reuse once removed.

7. **Clean hands with soap and water.**
