2009 to 2019

January 2020

# Civil Service People Survey 2019: summary

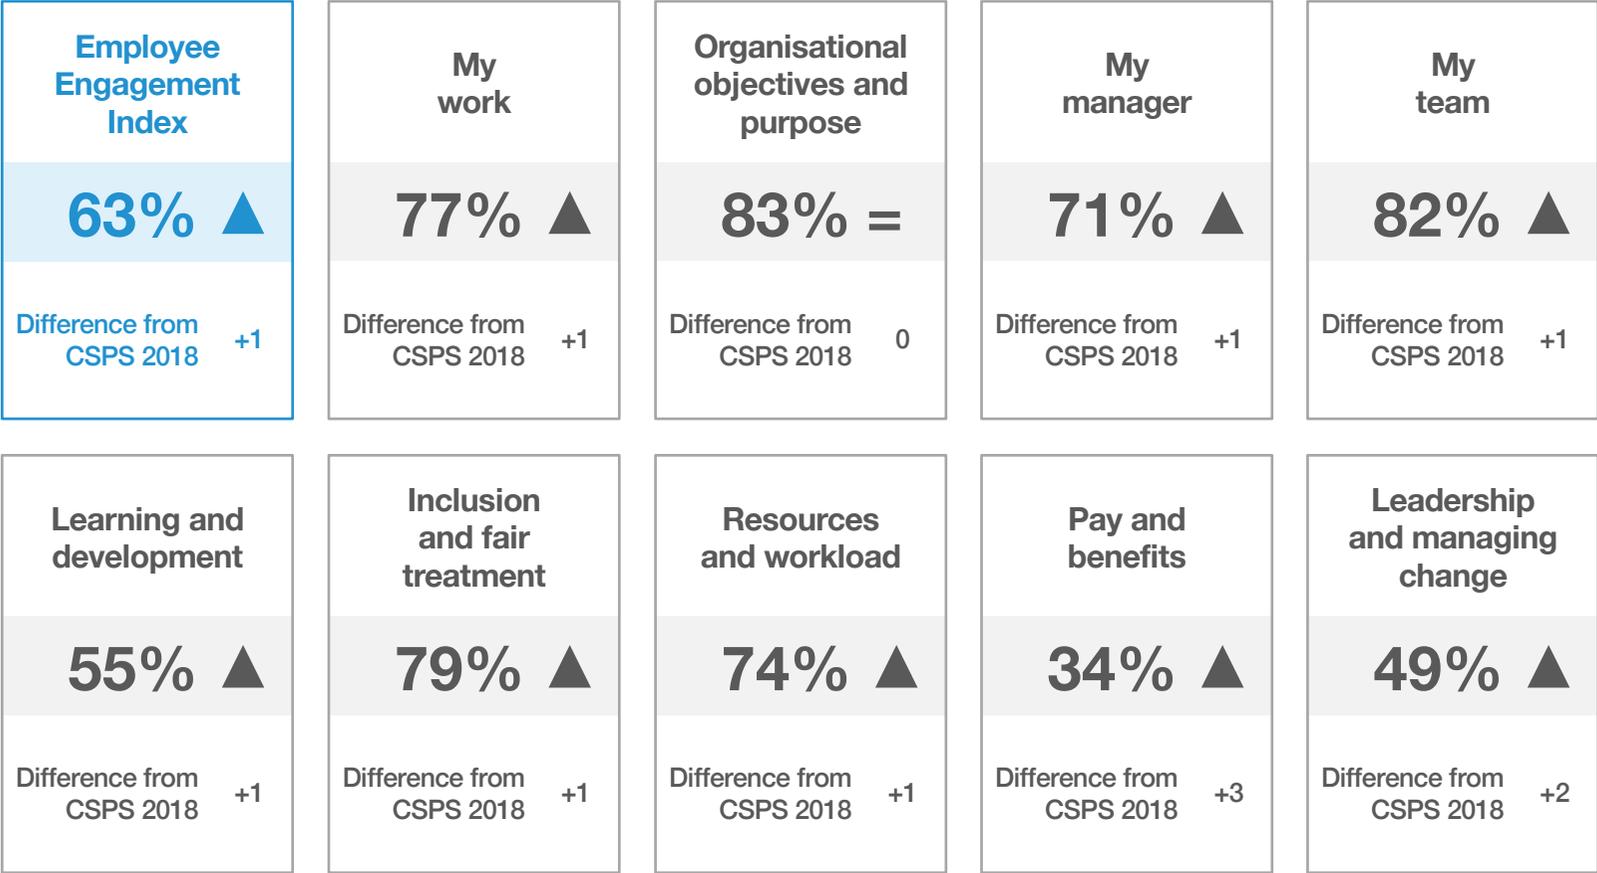

The 2019 People Survey was the eleventh annual survey of our employees' attitudes and experiences of working in the Civil Service.

308,556 civil servants responded, across 106 Civil Service organisations.

This is equivalent to an overall response rate for the Civil Service of 67%, an increase of 0.2 percentage points compared to 2018.

The Employee Engagement Index has increased by one percentage point to 63%, the highest it has ever been.

Eight of the nine themes scores within the survey have also increased since 2018, with only the score for the 'organisational objectives and purpose' theme remaining the same.

# Benchmark engagement and theme scores: 2009 to 2019

This report shows the benchmark scores from the Civil Service People Survey from 2009 to 2019. The benchmark for a survey measure is the median (mid-point) score of all participating organisations.

The individual survey questions are used to generate 10 headline indicators, one to measure the levels of employee engagement and nine to measure factors that influence engagement.

The table below shows the benchmark scores for each of these 10 headline indicators.

Pages 4-14 show the benchmark score for each of the individual core questions.

Page 15 provides a brief technical overview of the survey and endnotes, including information on the response rate.

Page 16 lists the organisations that participated in the 2019 survey.

^ In 2019, respondents were able to tell us if the discrimination, bullying or harassment they experienced happened while working in a Civil Service or non Civil Service organisation. This was intended to reflect the fact that not all respondents will have worked within the Civil Service for the past 12 months. If we remove those who said this behaviour occurred while working for a non Civil Service organisation, then the benchmark scores for E01 and E03 reduce to 10% and 11% respectively.

Yes	..	..	..	..	..	..	..	..	..	..	22%	..	..	..	..	..	..	..	..	..	..
No	..	..	..	..	..	..	..	..	..	..	60%	..	..	..	..	..	..	..	..	..	..
Prefer not to say	..	..	..	..	..	..	..	..	..	..	15%	..	..	..	..	..	..	..	..	..	..

# Technical notes

1. Except for the engagement index (see note 3) the result for each of the headline themes is calculated as the median percentage of “strongly agree” or “agree” responses, across all organisations, to all questions in that theme.
2. The change in the benchmark score is calculated simply as the later year’s benchmark score minus the preceding year’s benchmark score. This calculation is based on the rounded figures published in this report.
3. The employee engagement index is calculated as a weighted average of the responses to the five employee engagement questions (B47-B51) and ranges from 0% to 100%. A score of 0% represents all respondents giving a rating of “strongly disagree” to all five questions. A score of 100% represents all respondents giving a rating of “strongly agree” to all five questions.
4. The scores for questions B01-B59 are based on the proportion responding “strongly agree” or “agree”, and for B60 the proportion responding “always” or “most of the time”. For questions D01-D03, the score is based on the proportion responding “yes”.
5. Phrases in square brackets (e.g. [my organisation]) are used in the core questionnaire to indicate where participating organisations use the relevant local terms (e.g. 'the Cabinet Office' in place of [my/your organisation] or 'Senior Civil Servants' in place of [senior managers]).
6. New questions have been added to the core questionnaire since 2009, and some of the response options to E02 and E04 were amended in 2019 (see points 9 and 11). “n/a” is therefore used to indicate where the question was not asked in earlier years and data is therefore not available, or where the response options have changed enough to disrupt the time series.
7. Question B59 “I am aware of the Civil Service vision for 'A Brilliant Civil Service'” is trended to the same question in prior years, where the question number was B61.
8. Question C01 has four response options and respondents can only select one of the four options. The benchmark score is the median proportion of responses to each option.
9. The four subjective wellbeing questions are the same as those asked by the ONS in the Annual Population Survey as part of their Measuring National Wellbeing programme.
10. Question E02 was only asked to those who had responded “yes” to question E01. The score for question E02 is the number of responses to that category as a percentage of those who had said ‘yes’ to the previous question. As respondents were able to select more than one category the scores may sum to more than 100% and the proportions for individual categories cannot be combined. Following stakeholder feedback, in 2019 some of the response options to E02 were changed and new options added, specifically: “Pay” was made into a separate option from “Grade or responsibility level”; “Marital status” was expanded to include “civil partnership”; and “Mental Health” and “Sex” were added as new options.
11. Questions E03A, E04, E05 and E06 were only asked to those who had responded “yes” to question E03. The scores for questions E03A and E04 are the number of responses to that category as a percentage of those who had said “yes” to E03. As respondents were able to select more than one category the scores may sum to more than 100% and the proportions for individual categories cannot be combined.
12. Following stakeholder feedback, in 2019 some of the response options to E04 were changed and new options added, specifically: “A colleague” was made into two separate options “A colleague in my area/directorate/division” and “A colleague in a different area/directorate/division of [my organisation]”; “Another manager in my part of [my organisation]” was amended to “Another senior member of staff in [my organisation]”; “Someone who works for another part of [your organisation]” was removed; “Someone working in a different Civil Service organisation”, “Someone working for a non-Civil Service organisation”, “A contractor”, and “A service user (e.g. customer, claimant, offender)” were added.
13. The response options to Question E05 were expanded in 2019, to understand how staff were reporting their experience and if not, what was stopping them from doing so. Prior to 2019, staff could only answer “Yes”, “No”, or “Prefer not to say” to this question. In 2019, multiple selection was allowed under the “Yes” and “No” subheadings, therefore these results are shown as a proportion of those who answered “Yes” or “No” and may not sum to 100%.

The 2019 Civil Service People Survey was conducted across 106 Civil Service organisations, listed on page 19. The fieldwork for the survey ran from 2 October to 4 November 2019, with 98% participating online and 2% completing paper questionnaires. 308,556 people participated in the survey, an overall response rate of

67%. Across the 106 participating organisations the median response rate was 80%. The benchmark scores presented in this document are inclusive of scores from organisations that would be suppressed at an organisation level due to small response numbers.

# Participating organisations in 2019

## Attorney General's Departments

Attorney General's Office  
Crown Prosecution Service  
HM Crown Prosecution Service Inspectorate  
Serious Fraud Office

## Business, Energy & Industrial Strategy

Department for Business, Energy & Industrial Strategy (excluding agencies)
