The types of services include:</p> <ul style="list-style-type: none"> - Provision of full hospital capacity and services including acute bed capacity (7,925 beds currently identified – further capacity to be included in this arrangement on the same basis by agreement, if and when available), facilities, diagnostics, staffing, management and full organisation capability supplied to the NHS on an open book basis (to include Income and Expenditure as well as balance sheet) for the purpose of supporting the NHS in England during its response to the COVID-19 pandemic. Full cost of provision to be funded centrally by NHS England and NHS Improvement. This arrangement does not include the provision of primary medical care services or community services, whether or not provided from the same facilities. - Providers will comply, from 15th April, with the NHS rules for cancellation and prioritisation of elective care. Until 15 April 2020 Providers may continue to treat any private and NHS patients outside of this arrangement with costs mitigated against the costs of this arrangement. On and following 15 April 2020 and until notice of de-escalation Providers shall not treat any patients outside of this arrangement save for specifically agreed patients including those with long term neurological conditions and urgent oncology cases and those requiring urgent treatment who had been receiving treatment from Providers immediately prior to 15 April 2020. - Across the various stages of Term (as defined below), the service is expected to incorporate the following roles: - A: Inpatient and outpatient (including supporting pathology and imaging), urgent elective and cancer treatment in line with nationally set criteria to

Led by a local NHS organization nominated by NHS England and NHS Improvement, the NHS and the Providers will agree the local patient workflow and case mix, staffing and equipment deployment collaboratively between the NHS and Providers. - The informal agreement between providers and IHPN covered working together to agree a common position in order to simplify the negotiations and to agree a common approach to pricing on an 'at cost basis' and agree a mechanism for the transmission of cost data to NHS England's agents, KPMG, on a confidential basis. No sharing of financial data between members has taken or is contemplated to do so. Some of these discussions have involved only some members of IHPN. - As a result of the negotiations individual heads of terms with NHS England, which will be followed up with individual contracts for services on substantially the NHS standard form contract for secondary care.

This process will continue, in part guided by the agreements entered into as set out above, and will involve local implementation arrangements which will involve one or more IHPN members, either between themselves or involving IHPN and/or one or more NHS bodies.</p> <p>This is in part operating through workstreams at a national level to agree general principles, but also locally involving local commissioners and providers. Again not all discussions have involved all members of IHPN. Mobilisation will take place through regional teams. Each regional team has an IS lead and NHS lead. They will agree clinical model across regions. Mobilisation and execution through a lead acute Trust, run through Gold Command (an NHS emergency sub regional structure which mirrors Sustainability and Transformation partnerships) model via a lead acute Trust).
