

The weekly surveillance report in England

Coronavirus (COVID-19)

week: 24 June 2020 to 30 June 2020

cumulative data from:

30 January 2020 to 30 June 2020 in England

Breakdown of testing by Pillars of the UK Government's COVID-19 testing programme:

Pillar 1 + 2

combined data from both Pillar 1 and Pillar 2 of the UK Government's COVID-19 testing programme

Pillar 1

data from swab testing in PHE labs and NHS hospitals for those with a clinical need, and health and care workers

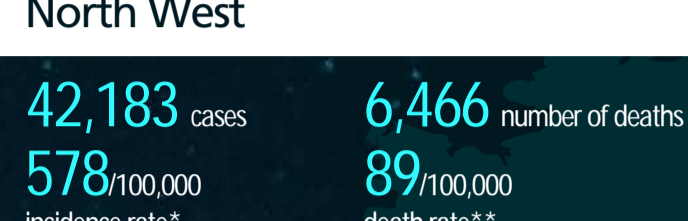

Pillar 2

data from swab testing for the wider population, as set out in government guidance

PHE CENTRE MAP

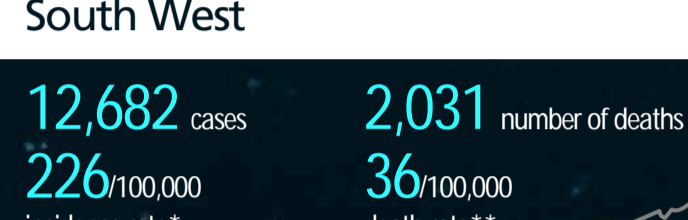

North West

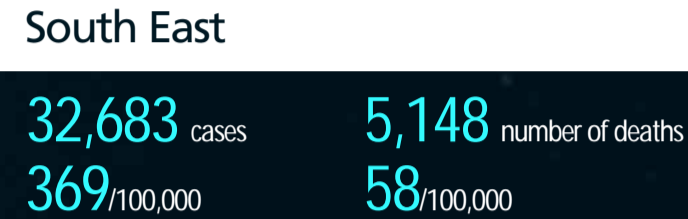

West Midlands

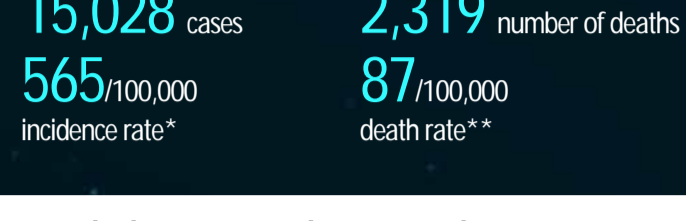

South West

South East

North East

Yorkshire and the Humber

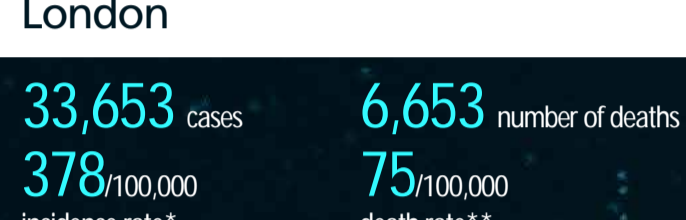

East Midlands

East of England

London

* incidence rate - the cumulative number of confirmed cases of COVID-19 since 30 January 2020 divided by the total population of each PHE Centre multiplied by 100,000

information on residential location is pending for 8158 cases and 340 deaths number of deaths with lab-confirmed COVID-19 in all settings as of 5pm on Monday

** death rate - the total number of people who have died in England and had tested positive for COVID-19 since 30 January 2020 divided by the total population of each PHE Centre multiplied by 100,000

due to production timelines, this week's infographic has been produced using data up to and including 30 June 2020. This week refers to the previous seven days and therefore there is a one day overlap with last week's infographic, which covered 18-24 June 2020 number of people tested includes only Pillar 1 data as deduplication processes are under development for Pillar 2 data

further information is available from www.gov.uk

POPULATION PYRAMID OF CASES

62 years median age*

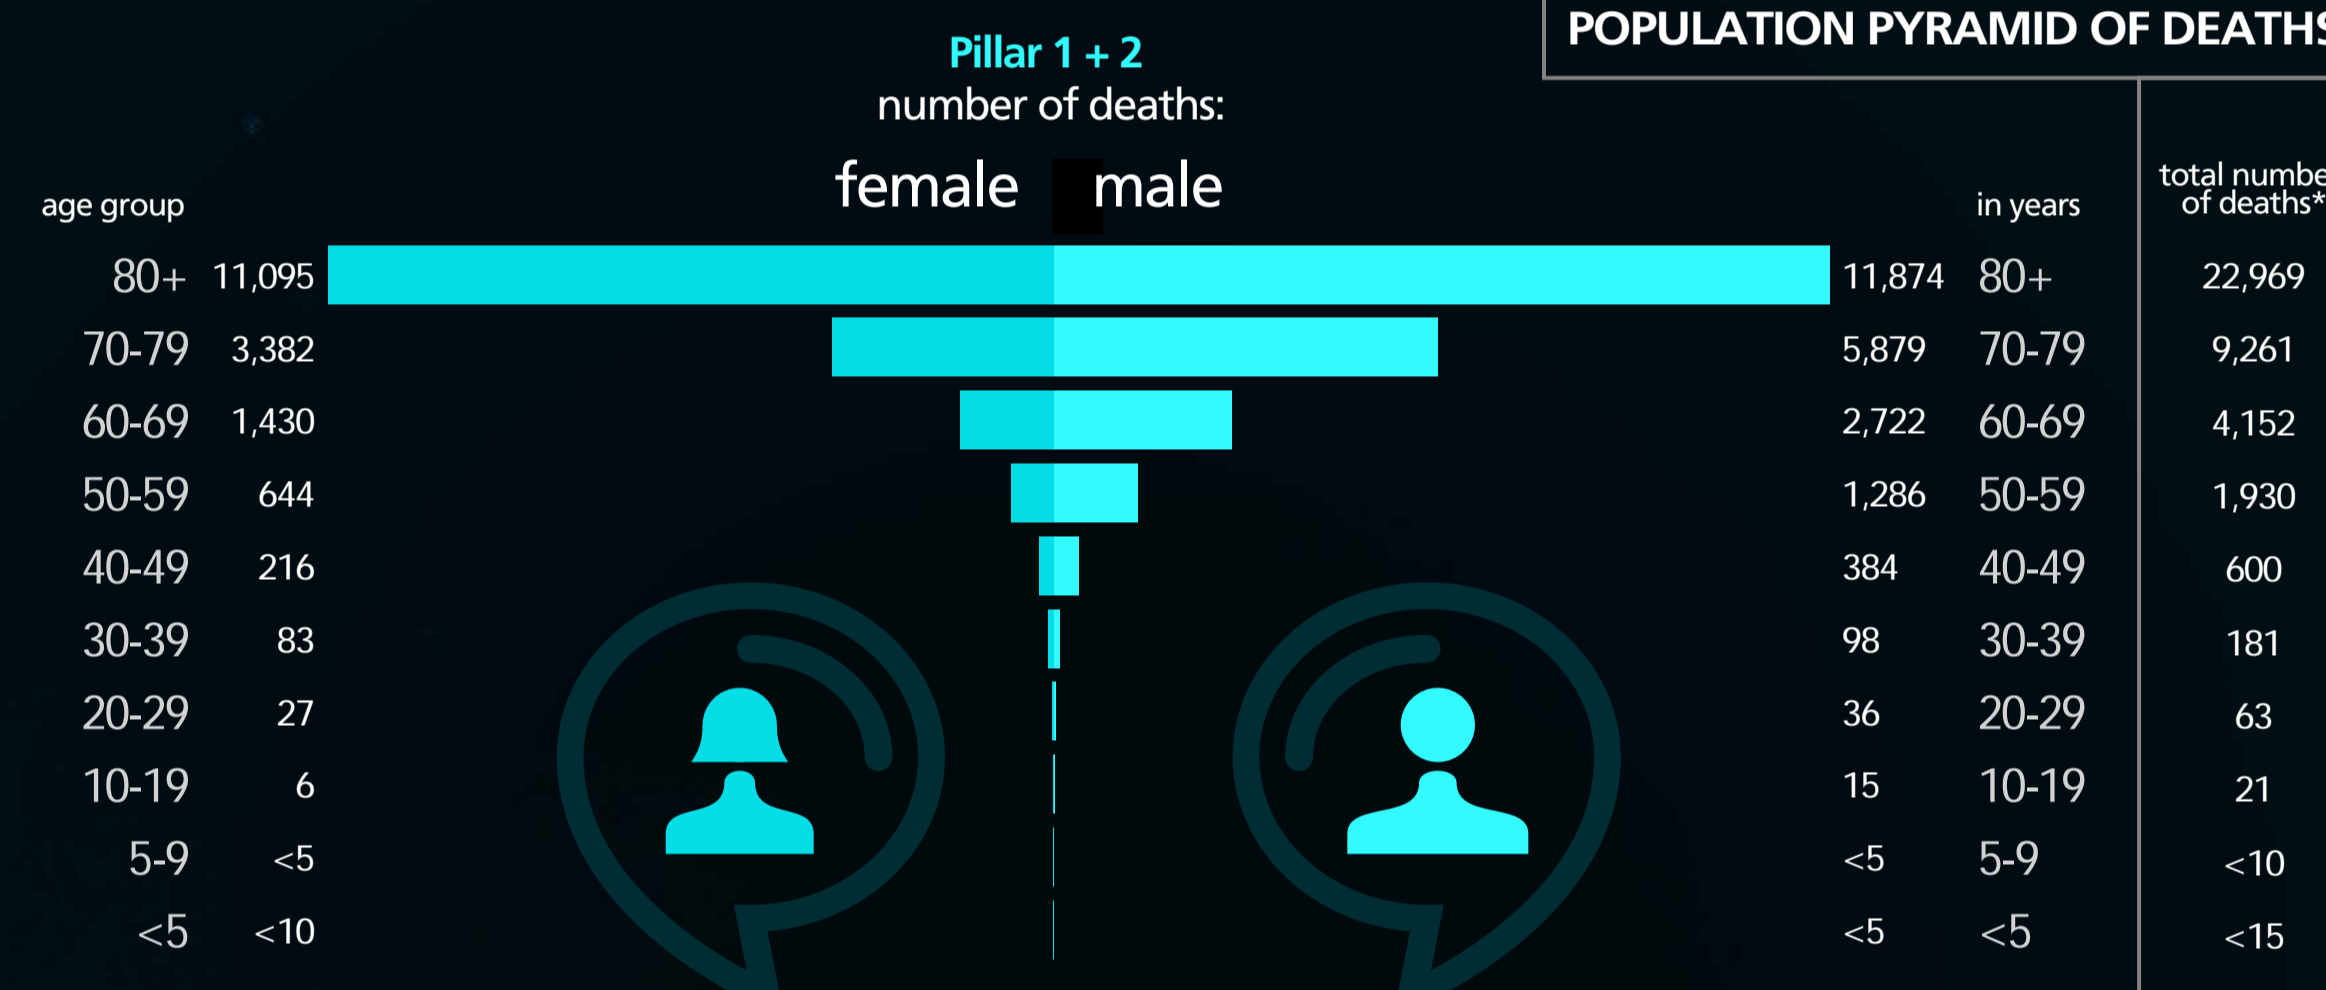

excludes 2,359 cases for whom age and/or sex details are currently unavailable

* median age is the middle value in a range - half of the cases are younger than this age and half are older
