Position the upper straps on the crown of your head, above the ears and the lower strap at the nape of the neck.

Ensure that the respirator is flat against your cheeks. With both hands mould the nose piece from the bridge of the nose firmly pressing down both sides of the nose with your fingers until you have a good facial fit.

If a good fit cannot be achieved DO NOT PROCEED. Perform a fit check.

The technique for this will differ between different makes of respirator. Instructions for the correct technique are provided by manufacturers and should be followed for fit checking.
