UK case rate relative to selected European countries

* Spain, France and Belgium data from ECDC data. Downloaded on 8 September 2020.

** UK data taken from <https://coronavirus.data.gov.uk/cases>, by specimen date. Downloaded on 8 September 2020.

***A population normalised rolling total is calculated upon the incidence reported for each date. The normalisation takes place using the 2019 population count reported within the original data in the ECDC data set.
