# Holiday Activities and Food: 2018 programme

Funding was provided in 2018 to seven organisations, following a competitive tendering process, to fund provision to support disadvantaged families during the school holidays. The £2 million investment went towards new and existing holiday clubs to explore how best to help the most disadvantaged children benefit from healthy meals and enriching activities. As part of the programme, each of the seven organisations that received funding were required to provide management information about the attendance at the clubs supported by the funded organisations.

The seven parent organisations to whom funding was provided in 2018 were:

- Accord Housing Association - Birmingham Holiday Kitchen
- Children North East
- Family Action
- Feeding Britain
- OnSide Youth Zones
- StreetGames
- Transforming Lives for Good (TLG)

## Methodology

Each holiday club returned, via its parent funded organisation, the attendance of each child that attended across the days that the club operated. The number of operating days that each club ran varied between clubs and parent organisations. Only attendees present for at least one day were included.

The characteristics of attendees were also provided by the clubs. The characteristic information is only indicative, due to the self-reported nature of this information (by attendee or a responsible party such as a parent, guardian or club) and a large proportion of unstated and unknown responses. No personal identifying information was collected, so additional corroboration of characteristics from other department held sources was not possible.

Collation of the attendance returns was completed within the department. Returns were provided in various formats and substantial data cleaning was undertaken. Consistency checks (such as ensuring attendance of an individual was not greater than the number of sessions held by the club) were completed. The approach taken for any inconsistencies was to take a minimum possible interpretation (for example, an individual cannot attend more than the number of sessions held by the club and only include attendance for sessions held). Duplicate returns were not included. Returns accurate as of 6<sup>th</sup> November 2018.

## Key findings

- The seven organisations supported the delivery of 283 new and existing holiday clubs, which together had a total of 3,649 sessions<sup>1</sup>.
- The number of children recorded as attending at least one session was 18,200.
- The percentage of children attending more than one session was 71%, while the percentage of children attending more than 50% of sessions operated by the club was 25%.
- Forty-nine percent of attendees were recorded as receiving Free School Meals (FSM)<sup>2</sup>, but the true percentage could be higher as 24% of attendees had a recorded FSM status of 'not stated' or 'not known'.
- Of the 18,200 children recorded as attending, 49% were recorded as primary phase (year 1 to year 6), 19% as secondary phase (year 7 to year 11), 14% as pre-year 1 and 2% in post-16 education (year 12 to year 14). A further 15% did not state or know their school year group.

---

<sup>1</sup> A session is defined as a day that the club opened and received attendees.

<sup>2</sup> Not all children attending clubs will have been eligible to receive FSM (for example, some very young children)

**Table 1: Holidays Activities and Food: Attendance management information for the seven funded organisations.**

	Total	Accord Birmingham Holiday Kitchen	Children North East	Family Action	Feeding Britain (1)	OnSide Youth Zones	StreetGames	TLG
Number of clubs	283	33	16	38	73	10	60	53

Number of children attending at least one day	18,200	1,700	600	2,400	6,900	1,900	2,600	2,000
Total number of recorded attendances	95,400	7,600	7,200	9,400	27,600	16,700	20,400	6,500
Number of children attending at least one day recorded as school age (3)	12,500	700	500	1,500	4,400	1,700	2,500	1,200
Percentage of children attending at least one day recorded as school age (3)	69%	38%	91%	63%	63%	89%	95%	61%
Number of children attending more than one session	13,000	1,200	600	1,500	4,300	1,700	2,300	1,400
Percentage of children attending more than one session	71%	68%	98%	65%	62%	90%	87%	68%
Number of children attending more than 50% of sessions	4,500	400	400	400	1,400	200	1,000	600
Percentage of children attending more than 50% of sessions	25%	25%	71%	17%	20%	13%	37%	30%

1. Of the 73 clubs from Feeding Britain, attendance records were not provided for 4 clubs and 490 children. Characteristics and attendance breakdowns for these children are not provided. The 490 children were included as 'not known' for the breakdowns in this table.

2. Average number of days operating for clubs supported by Feeding Britain only included the 69 clubs with attendance information.

3. The children identified as school age includes children recorded with a school year of year 1 to year 11. Those with 'not stated' or 'not known' school year were included in the denominator for the percentage calculated.

Number of children rounded to nearest 100 and percentage of children rounded to nearest whole number. Aggregations and percentages calculated using unrounded figures.
