 - draw attention to the transitional provisions for the above changes.
4. This Circular does not give advice on the technical requirements in the Building Regulations 2010 as these are matters covered by Approved Documents.
5. Annex A to this Circular sets out in tabular form the changes to the Building Regulations 2010 made by SI 2018/1230.

APPLICATION OF THE REGULATIONS

6. All the changes made to the Building Regulations and the Approved Documents apply only to buildings and building work in England.

AMENDMENTS TO REGULATION 7 OF THE BUILDING REGULATIONS 2010 – MATERIALS AND WORKMANSHIP

7. Regulation 7 requires that materials used in building work are appropriate for the circumstances in which they are used. Amended regulation 7(2) sets requirements in respect of external walls and specified attachments.

8. Amended regulation 7(2) applies to any building with a storey at least 18m above ground level and which contains one or more dwellings; an institution; or a room for residential purposes (excluding any room in a hostel, hotel or a boarding house). This includes student accommodation, care homes, sheltered housing, hospitals and dormitories in boarding schools.
9. The requirement in amended regulation 7(2) is limited to materials achieving European Class A2-s1, d0 or Class A1 when classified in accordance with BS EN 13501-1:2007+A1:2009. Materials achieving limited combustibility cannot be deemed to meet the requirement using an alternative classification method.
10. Amended regulation 7(3) provides an exemption for certain components found in external walls and specified attachments.

AMENDMENTS TO REGULATIONS 5 AND 6 OF THE BUILDING REGULATIONS 2010 – MATERIAL CHANGE OF USE

11. Amended regulations 5 and 6 provide that, where the use of a building is changed such that the building becomes a building described in regulation 7(4), the construction of the external wall, and specified attachments, must be investigated and, where necessary, work must be carried out to ensure they only contain materials achieving European Class A2-s1, d0 or Class A1.

NEW DEFINITIONS IN REGULATION 2 OF THE BUILDING REGULATIONS 2010

12. Definitions of external walls and specified attachments have been added to the definitions in regulation 2 and these definitions include any parts of the external wall as well as certain attachments to the external wall (balconies, solar panels and sun shading).

TRANSITIONAL ARRANGEMENTS

13. The amendments do not apply in any case where a building notice or an initial notice has been given to, or full plans deposited with, a local authority before the day these Regulations come into force and either the building work to which it relates—
 - (a) has started before that day; or
 - (b) is started within the period of two months beginning on that day.
