**Other types of injury caused to animals by fireworks seen in the last twelve months**

huge amounts mental stress for pet and owner  
Suspected mare abortion following a nearby firework display  
Fractured splint bone horse as jumped out of field  
Running away rta type injuries  
Trauma from galloping through fence  
RTA due to running off when startled  
Likely psychological/emotional injury possibly leading to shortened lifespan/reduced quality of life (euthanasia if unmanageable behaviour, injury/death bolting in fright into traffic etc, spiralling behavioural anxiety issues initially triggered by fireworks noise phobias)  
Colic from stress of fireworks  
Horses running through fences etc to escape noise of fireworks  
Flight injuries  
Trauma due to galloping in the field when startled by fireworks  
One dog escaped, ran off and was killed by a passing car  
One dog tried to escape from a kennel and pulled all of his front teeth (including canines) out  
rta after bolting
