Sellafield Ltd Company Policy

SLCP 2.15.01

Issue 6

Effective date 11/2020

Page 1 of 1

This Sellafield Ltd Policy is approved by the SL Board; it represents the SL Board's direction to the business on this topic. Compliance with this policy is mandatory through aligning Sellafield Ltd Management System processes and people behaviours to the commitments below.

Sellafield Ltd Quality Policy

Policy Statement

Quality is a critical enabler to Nuclear Safety, Security and Environmental Performance. Sellafield Ltd will adopt a risk-based approach to applying appropriate Quality arrangements and objectives to enable the successful delivery of our operations, waste products, new build projects and nuclear legacy reduction to meet our obligations and the expectations of our stakeholders. We will achieve this by establishing and continuously improving effective Sellafield Ltd Management System processes, which will be underpinned by the appropriate technical and behavioural competencies within our workforce, partners and supply chain.

Commitments

We shall be a Company that:

Culture

Through leadership commitment, establishes and sustains a strong quality culture that creates a second nature that quality equates to Nuclear Safety by promoting ownership in the line, focussing upon early engagement, enabling right first-time delivery and driving accountability for improvements.

Standards

Intelligently implements a robust and proportionate management system to ISO9001:2015 Quality Management System requirements and aligned to relevant industry standards and good practice in Quality Management, which enables us to comply with our obligations. Those standards will focus upon early engagement in order to identify accurate scope definition, associated specifications, required certification and the delivery of predictable and safe outcomes.

Performance

Monitors and measures the delivery of our business objectives via SMART Key Performance Indicators, assurance programmes and management review to enable informed decision making, continual improvement and provide confidence to our stakeholders.

Collaboration

Develops mutually beneficial relationships with our customers, partners and supply chain in order to establish a strong quality culture and standards that provide fit for purpose solutions to improve business performance.

People

Establishes a responsive and flexible capability, by investing in our people to ensure that all employees, partners and our supply chain understand how they contribute to establishing and sustaining a strong quality culture that brings maximum value to our business. We will achieve this through sustained education programmes, capability assessments and associated training to ensure continuous improvement through a process of self-evaluation and effective action planning.
