Decision

1. The Council is directed to determine the above-mentioned application not later than 12 months from the date of this Direction.

Reasons

2. Authorities are required to investigate applications as soon as reasonably practicable and, after consulting the relevant district and parish councils, decide whether to make an order on the basis of the evidence discovered. Applicants have the right to ask the Secretary of State to direct a surveying authority to reach a decision on an application if no decision has been reached within twelve months of the authority's receipt of certification that the applicant has served notice of the application on affected landowners and occupiers. The Secretary of State in considering whether, in response to such a request, to direct an authority to determine an application for an order within a specified period, will take into account any statement made by the authority setting out its priorities for bringing and keeping the definitive map up to date, the reasonableness of such priorities, any actions already taken by the authority or expressed intentions of further action on the application in question, the circumstances of the case and any views expressed by the applicant¹.
3. In this case, the Council states that applications are dealt with in the order of receipt subject to certain exceptions, none of which apply in this case. There is currently a backlog of 251 applications awaiting decisions. This application is presently at position 219 in the list. In addition, the council has already been directed by the Secretary of State to determine 89 applications by August

2021. In these circumstances the council states that it is not possible to estimate how long it will be before the current application is determined.
4. The council accepts that it has not been able to deal with applications within 12 months of receipt as a result of the limited resources allocated to rights of way matters. The directions already received will require significant staff resources to carry out the necessary investigations. The receipt of further directions will result in more delay in dealing with other applications some of which ought to be of higher priority. It is requested that these factors be taken into account when considering the current application.
 5. It thus appears that it could be many years before a decision is made on this application unless the council gives greater priority to carrying out its duty with regard to determining such applications. An applicant's right to seek a direction from the Secretary of State gives rise to the expectation of a determination of that application within 12 months under normal circumstances. In this case, more than 18 months have already passed since the application was submitted and no exceptional circumstances have been indicated other than the Council's failure to deploy sufficient resources to the determination of such applications. This is not an acceptable situation. Applicants should be able to expect a decision within a finite and reasonable time. I have therefore decided that there is a case for setting a date by which time this application should be determined.
 6. It is appreciated that the Council will require some time to carry out its investigation and make a decision on the application. I also recognise that restrictions currently in place as a result of the coronavirus outbreak might have a significant impact on all rights of way work. Accordingly, although under normal circumstances I would have allowed a further period of 6 months for a decision to be made, I propose to allow a period of 12 months in this case.

Direction

On behalf of the Secretary of State for Environment, Food and Rural Affairs and pursuant to Paragraph 3(2) of Schedule 14 of the Wildlife and Countryside Act 1981, **I HEREBY DIRECT** the Staffordshire County Council to determine the above-mentioned application not later than 12 months from the date of this Direction.
